1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item.
COMMERCIAL JOB TITLE: A Software Developer I

Experience Required: The SA I must possess some knowledge of supporting payroll systems [the Consolidated American Payroll Process System (CAPPS), the foreign Affairs Retirement and Disability system (FARADS), Retirement Records System (RRS), Time and Attendance via Telecommunications (TATEL, Web-TATEL and WINTA) and the Global Employment Management Systems (GEMS), personnel system that interfaces with CAPPS] and other financial systems in which data is shared and processed. Specific knowledge of current systems is essential to providing the delivery of services required by RM/GFS.

The Software Developer I provide project management support to the Managing Director, Global Compensation (RM/GFS/C) for those payroll and retirement systems and applications that support payroll and retirement annuity processes. The SA I serves as the payroll and retirement systems coordinator. In this capacity, the contractor maintains constant contact with requiring customer organization and the payroll systems developer. A key interface relationship is with Department of State's Director General for Human Resources (DG/HR) for automated personnel systems that "feed" personnel data directly into the payroll systems. Another key interface relationship is with the Department of State's Bureau of Information Resources Management for infrastructure support for the payroll and pension systems. The SA I also provides analysis and planning support for E-Payroll.

COMMERCIAL JOB TITLE: A Software Developer II

Experience Required: The contractor must possess moderate knowledge of supporting payroll systems [the Consolidated American Payroll Process System (CAPPS), the foreign Affairs Retirement and Disability system (FARADS), Retirement Records System (RRS), Time and Attendance via Telecommunications (TATEL, Web-TATEL and WINTA) and the Global Employment Management Systems (GEMS), personnel system that interfaces with CAPPS] and other financial systems in which data is shared and processed.

A Software Developer II is required for project management services in support of the U.S. Department of State, Bureau of Resource Management (RM), Deputy Assistant Secretary for Global Financial Services (RM/GFS), e-Payroll Systems Project for the Global Compensation Directorate (RM/GFS/C). The Software Developer II (SA II) will provide project management support to the Managing Director, Global Compensation (RM/GFS/C) for those payroll and retirement systems and applications that support payroll and retirement annuity processes. The SA II will serve as the payroll and retirement systems coordinator. The SA II will also provide analysis and planning support for ePayroll.

COMMERCIAL JOB TITLE: A Software Developer III

Experience Required: The SA III must possess in-depth knowledge of supporting payroll systems [the Consolidated American Payroll Process System (CAPPS), the foreign Affairs Retirement and Disability...
system (FARADS), Retirement Records System (RRS), Time and Attendance via Telecommunications (TATEL, Web-TATEL and WINTA) and the Global Employment Management Systems (GEMS), personnel system that interfaces with CAPPS] and other financial systems in which data is shared and processed.

The Software Developer (SA III) will provide project management support to the Managing Director, Global Compensation (RM/GFS/C) for those payroll and retirement systems and applications that support payroll and retirement annuity processes. The SA III will serve as the payroll and retirement systems coordinator. In this capacity, the contractor maintains constant contact with requiring customer organization and the payroll systems developer. Department. The Department requires project analysis and planning support to insure the E-Payroll solution addresses its needs. In addition, the SA III will provide analysis support to assess changes in personnel policies to ensure that payroll and retirement systems reflect and incorporate these policies. The contractor must possess in-depth knowledge of supporting payroll. Specific knowledge of current systems is essential to providing the delivery of services required as the contractor will be a key provider of system solutions when problems with these systems are encountered.

**COMMERCIAL JOB TITLE:** Management Analyst

Compiles and analyzes financial information for an organization. Develops integrated revenue/expense analyses, projections, reports, and presentations. Creates and analyzes monthly, quarterly, and annual reports and ensures financial information has been recorded accurately. Identifies trends and developments in competitive environments and presents findings to management. Performs financial forecasting and reconciliation of internal accounts. Builds and maintains SQL Server databases in development, test, and production environments to include virtualization and disaster recovery sites. Other duties include backup and recovery, database patches, database monitoring, replication, log shipping, log analysis, documentation, and support to the Help Desk and other customers.

**COMMERCIAL JOB TITLE:** Sr. Management Analyst

Assists with planning and development of Information Technology and other contracts. Provide knowledge and experienced in contract related document. Review requirements data, develop an analysis of alternatives, perform cost benefit analysis, and conduct market research. In addition, the Management Support Specialist II will provide project management and program management oversight, for the construction, testing, implementation, and activation of physical logical interconnects between building complexes, annexes, or other government agencies to include virtual circuit breakdowns, network schemes, and network management requirements.

968549985

26. Notification regarding registration in System for Award Management (SAM) database.

Contractor registered and active in SAM.

**Service Contract Labor Standards:** The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule (MAS) and all services provided. While no specific labor categories have been
identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS/SCA eligible labor categories. If and/or when the contractor adds SCLS/SCA labor categories to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS/SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
