Multiple Award Schedule

Summary:

 Avanco International, Inc. was awarded the GSA Multiple Award Schedule (MAS) Federal Supply Schedule. Work under this contract Information Technology Professional Services - IT Professional Services and/or labor categories for database planning and design; systems analysis, integration, and design; programming, conversion and implementation support; network services, data/records management, and testing. These services facilitate agency response to influences and mandates such as the Government Performance and Results Act; government reinvention initiatives such as improving customer service, benchmarking and streamlining; strategic sourcing; downsizing; and privatization.

1a. Table of Awarded Special Item Number(s) with appropriate cross-reference to page numbers:

SIN	SIN Description
54151S	IT Professional Services and/or labor categories for database planning and design; systems analysis, integration, and design; programming, conversion and implementation support; network services, data/records management, and testing.
OLM	Order Level Materials

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.

1c. Avanco’s hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees are provided on pages 4 – 11 of this catalog.

2. Maximum Order: \$500,000

3. Minimum Order: \$100.00

4. Geographic Coverage (delivery Area): Domestic and Overseas delivery

5. Point(s) of production (city, county, and state or foreign country): Same as company address

6. Discount from list prices or statement of net price: Government net prices (discounts already deducted).

7. Quantity discounts: None Offered

8. Prompt payment terms: Net 30 days (*Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions*).

9a. Government purchase cards are accepted up to the micro-purchase threshold.

9b. Government purchase cards are accepted above the micro-purchase threshold.

10. Foreign items (list items by country of origin): None

11a. Time of Delivery (Contractor insert number of days): Specified on the Task Order

11b. Expedited Delivery: Please Contact Contractor.

11c. Overnight and 2-day delivery. Please Contact Contractor.

11d. Urgent Requirements. Please Contact Contractor.

12. F.O.B Points(s): Destination

13a. Ordering Address(es):

AVANCO INTERNATIONAL, INC.
12685 Wiltonshire Drive
Clifton, VA 20124-1836
(703) 749-7749 (phone)
(703) 749-1688 (fax)
info@avanco.com

13b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's), and are found in Federal Acquisition Regulation (FAR) 8.405-3.

14. Payment address(es):

AVANCO INTERNATIONAL, INC.
12685 Wiltonshire Drive
Clifton, VA 20124-1836
(703) 749-7749

15. Warranty provision.: Contractor's standard commercial warranty.

16. Export Packing Charges (if applicable): N/A

17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level): Contact Contractor

18. Terms and conditions of rental, maintenance, and repair (if applicable): N/A

19. Terms and conditions of installation (if applicable): N/A

20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable): N/A

20a. Terms and conditions for any other services (if applicable): N/A

21. List of service and distribution points (if applicable): N/A

22. List of participating dealers (if applicable): N/A

23. Preventive maintenance (if applicable): N/A

24a. Environmental attributes, e.g., recycled content, energy efficiency, and/or reduced pollutants: N/A

24b. If applicable, Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location.) The EIT standards can be found at: www.Section508.gov/.

25. Data Universal Numbering System (DUNS) number: 116193343

26. Notification regarding registration in System for Award Management (SAM) database: Contractor has an Active Registration in the SAM database

SCA Eligible Labor Category	SCA Equivalent Code Title	Wage Determination No
Data Entry Operator II	01052 – Data Entry Operator II	2015-4281

Labor Descriptions:

Title: Project Manager

Description: Performs day-to-day management of assigned delivery order IT projects that involve teams of data processing and other information systems professionals who have previously been involved in analyzing, designing, integrating, testing, documenting, converting, extending, and implementing automated information systems. Demonstrates proven skills in those technical areas addressed by the delivery order to be managed. Organizes, directs, and coordinates the planning and production of all activities associated with assigned delivery order projects. Prepares and presents project level management products such as, work breakdown structures, charts, tables, graphs, major milestone calendars and diagrams to assist in analyzing problems and making recommendations.

Minimum/General Experience: Minimum of five years PM experience and must be familiar with system scope, project objectives, team member skills in order to effectively coordinate the activities of the team.

Minimum Education: Bachelor's Degree

Title: Senior Systems Analyst

Functional Responsibility: Performs detail analysis for large complex projects or systems. Under general supervision, formulates/defines system scope and objectives. Devises or modifies procedures to solve complex problems considering computer equipment capacity and limitations, operating time and form of desired results. Prepares detailed specifications from which programs will be written. Performs database design, installation, development, and advanced training. Designs, codes, test, debugs, documents and maintains programs.

Minimum/General Experience: Minimum of five to eight years of systems analysis experience.

Minimum Education: Bachelor's degree in technical area or technical training equivalent.

Title: Systems Analyst

Develops and maintains computer system environment, including integration of the operating system and application software. Under supervision, formulates/defines system scope and objectives. Prepares detailed specifications from which programs will be written. Performs database design, installation, development, and tuning. Designs, codes, test, debug, documents and maintains programs.

Minimum/General Experience: Minimum of two to five years of systems analysis experience.

Minimum Education: Bachelor's degree in technical area or technical training equivalent.

Title: Junior Systems Analyst

Develops routine system specifications and flow charts from which programs are written. Under immediate supervision, assists in research and fact-finding to develop or modify information systems. Assists in preparing detailed specifications from which programs will be written. Designs, codes, test, debugs, documents and maintains programs.

Minimum/General Experience: Minimum of one year systems analysis experience.

Minimum Education: Bachelor's degree in technical area or technical training equivalent.

Title: Senior Programmer

Analyzes functional applications and design specifications for project. Develops block diagrams and flow charts. Under general supervision, develops solutions to address user needs. Interfaces with users to identify and define needs. Designs, develops and tests complex software programs. Primary responsibilities included technical feasibility studies and design phase of projects.

Minimum/General Experience: Minimum of four to six years of programming experience.

Minimum Education: Bachelor's degree in technical area or technical training equivalent.

Title: Programmer

Assists with analysis of functional applications and design specifications for projects. Develops block diagrams and flow charts. Under direct supervision, develops solutions to address user needs by interfacing with users to identify and define needs. Designs, develops and tests complex software programs. Involved in technical feasibility studies and design phase of projects.

Minimum/General Experience: Minimum of one to three years of programming experience.

Minimum Education: Bachelor's degree in technical area or technical training equivalent.

Title: Business Systems Analyst

Interact with customers and company staff to creatively solve business problems and issues. Works cooperatively with technical staff and performs a variety of development support functions including testing, documentation, training material development, project tracking and project reporting. Must be familiar with system scope and project objectives as well as the role and function of team members.

Minimum/General Experience: Minimum of one to three years of experience.

Minimum Education: Bachelor's degree in or technical training equivalent.

Title: Senior Database Administrator

Manage the development, implementation and maintenance of database applications employing relational and/or object-oriented database software. Monitors existing database applications making recommendations for improved performance and service to the application user. Knowledge and experience with application development tools, code generators and full system development life cycle. Expertise in designing and building Web/enabled database applications.

Minimum/General Experience: Minimum of 7 years progressive database management experience. Supervisor experience in managing database developers, database administrators and programmers.

Minimum Education: Bachelor's degree in computer science, information systems, engineering, business or other related scientific or technical discipline.

Title: Database Administrator

Provides highly technical expertise in the use of relational and/or object-oriented database management systems. Ability to resolve program and system problems through dumps and other debugging techniques. Evaluates and recommends available DBMS products to support validated user requirements. Defines file organization, indexing methods and security procedures for specific user applications. Specialized experience in designing DBMS architectures in client-server and Internet environments. Proficient in utilizing Web-enabled software to access mainframe and/or server database for desktop presentation.

Minimum/General Experience: Minimum of 5 years progressive database management experience.

Minimum Education: Bachelor's degree in computer science, information systems, engineering, business or other related scientific or technical discipline.

Title: Business Information Technology Consultant

Expertise in information engineering, information technology planning, requirements analysis, workflow and information flow at the enterprise level. This individual is knowledgeable in client server technologies, 4GLs, database system technologies, SQL and groupware products. Employs these and other enabling technologies together with networked computing methodologies to solve a client's business information requirements. Provides customers with the ability to investigate and analyze business requirements, build the workflow and functional organization, develop software models and data definitions and incorporate them into an overall IT plan and recommend and produce an application program design for development. This individual must have strong written, verbal and presentation skills and must be able to assume project lead/project management roles.

Minimum/General Experience: Minimum of 5 years experience in business process reengineering and system design in multi-tiered operational environment.

Minimum Education: Bachelor's degree in information management, computer science or other related discipline.

Title: Senior Oracle Developer

Performs requirements analysis for a wide range of users in areas of decision support systems, management information systems, and distributed database architecture. Performs complete system development life cycle to include requirement analysis/conceptual design, site survey, system design review, installation, integration and testing. Expert in the application of automated tools to include Oracle Developer Suite.

Minimum/General Experience: Minimum of 7 years experience in developing ORACLE applications in multi-tier system architecture.

Minimum Education: Bachelor' degree in information management, computer science and business or other related scientific or technical discipline.

Title: Oracle Developer

Provides technical support in the use of the ORACLE DBMS. Evaluates and recommends available DBMS products to support validated user requirements. Defines file organization, indexing methods and security procedures for

specific user application. Develops and maintains ORACLE applications, procedures for back-up and recovery, ensures data integrity, security and recovery ability are built into the ORACLE DBMS application. Conducts performance evaluation and measures end user satisfaction. Knowledgeable and experienced with Oracle Developer Suite.

Minimum/General Experience: Minimum of 4 years experience in designing and implementing ORACLE applications.

Minimum Education: Bachelor's degree in information management, computer science, or other related technical degree.

Title: Junior Oracle Developer

Provides technical support in the use of the ORACLE DBMS. Evaluates and recommends available DBMS products to support validated user requirements. Defines file organization, indexing methods and security procedures for specific user application. Develops and maintains ORACLE applications, procedures for back-up and recovery, ensures data integrity, security and recovery ability are built into the ORACLE DBMS application. Knowledgeable and experienced with Designer/Developer2000.

Minimum/General Experience: Minimum of 1 year experience in designing and implementing ORACLE applications.

Minimum Education: Bachelor's degree in information management, computer science, or other related technical degree.

Title: Data Warehouse Specialist

Provides expert technical support in developing enterprise information systems architecture employing advanced database management tools. Skilled in translating organization-wide mission requirements and information needs into solutions employing baseline of existing systems augmented by state-of-the-art hardware and software to facilitate large volumes of data and transaction. Adept at defining interaction and/or interface between disparate systems and databases.

Minimum/General Experience: Minimum of 10 years of combined new and legacy technical experience to include mainframe, client server, desktop and internet architectures. Expert in relational database management system, object-oriented database management system, data repository administration and automated extraction tools, and dimensional Data Modeling.

Minimum Education: Advanced degree in business, computer science, or related technical degree.

Title: Administrative Assistant

Under direct supervision, operates data entry devices in recording a variety of data; verifies data entered; performs related clerical duties.

Minimum Education: Associate's degree with 1 year of experience or High School diploma with 3 years of experience
