Contract Number: 47QTCA18D008B

Period Covered by Contract: March 12, 2018 through March 11, 2023

Pricelist current through MASS MOD A847

General Services Administration
Federal Supply Service

Products and ordering information in this Authorized FSS Information Technology Schedule Pricelist are also available on the GSA Advantage! System. Agencies can browse GSA Advantage! by accessing the Federal Supply Service’s Home Page via the Internet at http://www.fss.gsa.gov/.
1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s).

SIN  
54151S    Information Technology Professional Services  
OLM    Order Level Material

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.  
Prices included herein are net prices and discounts have been applied.

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided.  
Please refer to the Labor Category Descriptions.

2. Maximum order

SUMMARY OF IT PROFESSIONAL SERVICES LABOR CATEGORY DESCRIPTIONS

Commercial Job Title: Senior Application Engineer

Minimum/General Experience: Two (2) years of related experience.

Functional Responsibility: As member of a team or independently, performs software design, development, testing and integration to defined customer requirements.

Minimum Education: Bachelor’s degree in Computer Science or another technical area (i.e. Mathematics, Engineering, etc.) that includes computer science as part of its curriculum.

Commercial Job Title: Principal Application Engineer

Minimum/General Experience: Five (5) years of related experience

Functional Responsibility: As a project lead, develops functional specification and prepares implementation schedules for smaller applications and subsystems to major applications. Performs software design, development, test, and integration.

Minimum Education: Bachelor’s degree in Computer Science or like discipline or an equivalent five (5) years combination of education and training that provides the required knowledge, skill, and abilities.

Commercial Job Title: Senior Business Analyst

Minimum/General Experience: Five (5) years of related experience

Functional Responsibility: As a team member and independently, analyzes existing business processes and policies, gathers and documents functional requirements, and assists in the design and implementation of new solutions. Participates in the testing and training initiatives that accompany developed solutions and provides subsequent reports to display metrics and usage information.

Minimum Education: Bachelor’s degree in Computer Science or like discipline

Commercial Job Title: Web Developer

Minimum/General Experience: Five (5) years of related experience

Functional Responsibility: As member of a team or independently, performs software design, development, testing and integration of web applications to defined customer requirements. Utilize web technologies including HTML, Java, .Net, and Web Services to develop web enabled applications.

Minimum Education: Bachelor’s degree in Computer Science or another technical area (i.e. Mathematics, Engineering, etc.) that includes computer science as part of its curriculum.

Commercial Job Title: Principal Database Administrator

Minimum/General Experience: Eight (8) years of related experience

Functional Responsibility: Independently applies technical expertise in the resolution of database design and complex system analysis, design and programming problems for On-Line Transactional Processing (OLTP) and On-Line
Analytical Processing (OLAP) database applications. Performs database administration functions. Recommend the selection of a database management system for an application and evaluate hardware/software tools. Advises application developers of appropriate design and programming standards and enforces their compliance. Coordinates and executes procedures for transfer of modules to and from the production environment. Solid understanding of the relational hierarchical, and network database management system models. Also acts as project lead in developing and documenting detailed data requirements for application systems in a logical and physical data model, for both On-Line Transactional Process (OLTP) and On-Line Analytical Processing (OLAP) systems.

Minimum Education: Bachelor’s degree in Computer Science or like discipline or an equivalent eight (8) years combination of education and training that provides the required knowledge, skill, and abilities.

**Commercial Job Title: Senior Systems Administrator**

Minimum/General Experience: Two (2) years of related experience

Functional Responsibility: As a team member and independently, perform system backup/recovery, basic software management, security management, and library management, operating computer systems in different operating environments, sizing, performance, tuning, hardware/software trouble shooting and resource allocation. Individual should have a thorough knowledge of capabilities of the applicable hardware/software configurations.

Minimum Education: Bachelor’s degree in Computer Science or like or an equivalent two (2) years combination of education and training that provides the required knowledge, skill, and abilities.

**Commercial Job Title: Principal System Integrator**

Minimum/General Experience: Eight (8) years of related experience

Functional Responsibility: Acts as a lead in defining and executing integration engineering activities within a project. These activities may consist of concept exploration and assessment, systems integration, systems of systems integration, performance management, technology assessment, testing and validation, and development and staffing of a systems integration plan. Performs concept exploration and assessment, systems integration, systems of systems integration, performance management, technology assessment, testing and validation. Development and staffing of a systems integration management plan. Supports other Engineers and Program Managers, as required. Analyzes and develops technical documentation detailing the integration and system performance. Coordinates the activities of system integration engineers assigned to specific systems integration projects.

Minimum Education: Specialized education and certification in specific hardware/software products or systems, UNIX and/or Windows platforms (i.e., Sun Microsystems, Hewlett Packard, Microsoft Windows 2000, etc.)

**Commercial Job Title: Operations Engineer**

Minimum/General Experience: Five (5) years of related experience

Functional Responsibility: As a team member and independently, manage computer operations, develop, manage, and maintain development and production schedules, maintain effective use of hardware, manage customer expectations, gather customer requirements and develop, and maintain requirements documentation, facilitate a teaming environment between customers and consultants, develop and maintain consultant on-duty and on-call schedules.

Minimum Education: Bachelor’s degree in Computer Science or like discipline
Commercial Job Title: Project Manager

Minimum/General Experience: Five (5) years of related experience

Functional Responsibility: Acts as a lead and primary point of contact in the planning and execution of project efforts from inception to closure while managing the constraints of cost, time, and scope. Responsible for the creation of project plans and schedules and the management of staff resources. Ensures that project objectives and deadlines are met and that any project risks or issues are promptly addressed.

Minimum Education: Bachelor’s degree in Computer Science or like discipline

Commercial Job Title: Principal Subject Matter Expert

Minimum/General Experience: Five (5) years of related experience

Functional Responsibility: As an expert in single or multiple technical areas, the candidate will provides expert guidance and insight into specific technologies and their application and independently performs a variety of system design and integration tasks where a specific subject matter expertise is necessary. They will plan and perform research, design assessment, development, integration and other assignments in a specific technical area, may supervise a broad team consisting of system administrators, developers, Integrators, and/or designers, and be responsible for highly complex technical/engineering areas.

Minimum Education: Bachelor’s degree or like, and five (5) years combination of education and training that provides the required knowledge, skills, and abilities.

Commercial Job Title: Senior Livelink Consultant

Minimum/General Experience: Two (2) years of Livelink ECM experience, three (3) years of related IT experience.

Functional Responsibility: As member of a team or independently, provide refined knowledge and skill in the day-to-day administration, maintenance and troubleshooting of an enterprise Livelink Environment. The consultant utilized shall be Open Text certified in either Livelink Administration or Business Consultation.

Minimum Education: Bachelor’s degree in Computer Science or another technical area (i.e. Mathematics, Engineering, etc.) that includes computer science as part of its curriculum, or Open Text certification.

Commercial Job Title: Principal Livelink Consultant

Minimum/General Experience: Three (3) years of Livelink ECM experience, five (5) years of related IT experience.

Functional Responsibility: As a project team leader or independently, provide expert architecture design, implementation, training and administration support of the Livelink-based ECM system and Open Text software. The consultant utilized shall be Open Text certified in either Livelink Administration.

Minimum Education: Bachelor’s degree in Computer Science or another technical area (i.e. Mathematics, Engineering, etc.) that includes computer science as part of its curriculum, or Open Text certification.

Commercial Job Title: Senior Enterprise Content Management Consultant

Minimum/General Experience: Two (2) years of experience, three (3) years of related IT experience.

Functional Responsibility: As member of a team or independently, provide refined knowledge and skill in the day-to-day administration, maintenance and troubleshooting of an ECM Environment, including but not limited to OpenText Content Server, Microsoft SharePoint, or EMC Documentum, for example. The consultant shall be certified in the required ECM platform.
Minimum Education: Bachelor’s degree in Computer Science or another technical area (i.e. Mathematics, Engineering, etc.) that includes computer science as part of its curriculum, or ECM vendor certification.

**Commercial Job Title: Principal Enterprise Content Management Consultant**

Minimum/General Experience: Three (3) years of Livelink ECM experience, five (5) years of related IT experience

Functional Responsibility: As a project team leader or independently, provide expert architecture design, implementation, training, and administration support of a specific ECM system including but not limited to OpenText Content Server, Microsoft SharePoint, or ECM Documentum, for example. The consultant shall be certified in the required ECM platform.

Minimum Education: Bachelor’s degree in Computer Science or another technical area (i.e. Mathematics, Engineering, etc.) that includes computer science as part of its curriculum, or ECM vendor certification.

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), is applicable to this contract and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to the contract through the modification process, pricing will be based on the U.S. Department of Labor Wage Determination Number(s) identified in an SCLS/SCA matrix. The prices awarded will be in line with the geographic scope of the contract (i.e., nationwide).
