Phone number: 805-914-5000
Fax number: 805-914-5770
E-Mail: jlaskowski@khepra.com

BUSINESS SIZE: Small Disadvantaged Business

CUSTOMER INFORMATION:

1a. TABLE OF AWARDED SPECIAL ITEM NUMBERS (SINs)

33411 Purchase of New Electronic Equipment
811212 Maintenance of Equipment, Repair Services, and/or Repair/Spare Parts
325998W Facilities Maintenance and Management Solutions for Real Property
54151S Information Technology Professional Services
611512 Flight Training

1b. LOWEST PRICED MODEL NUMBER AND PRICE FOR EACH SIN(s)

33411: K2-WB001-MB: **\$31.47**
811212: K2-WB-INS1Y: **\$5.86**
325998W: EC-200-PP: **\$50,818.30**
54151S: N/A Services
611512: **\$10,157.44**

2. MAXIMUM ORDER*: \$500,000.00 for SINs 33411/811212/325998W/54151S/611512

NOTE TO ORDERING ACTIVITIES: *If the best value selection places your order over the Maximum Order identified in this catalog/pricelist, you have an opportunity to obtain a better schedule contract price. Before placing your order, contact the aforementioned contactor for a better price. The contractor may (1) offer a new price for this requirement (2) offer the lowest price available under this contract or (3) decline the order. A delivery order that exceeds the maximum order may be placed under the schedule contract in accordance with FAR 8.404.

3. **MINIMUM ORDER:** \$100.00
4. **GEOGRAPHIC COVERAGE:** Domestic and Overseas Delivery
5. **POINT(S) OF PRODUCTION:** 28310 Roadside Drive Suite 246
Agoura Hills, CA 91376
6. **DISCOUNT FROM LIST PRICES:** GSA Net Prices are shown on the attached GSA Pricelist. Negotiated discount has been applied and the IFF has been added.
7. **QUANTITY DISCOUNT(S):** None
8. **PROMPT PAYMENT TERMS:** None
- 9.a **Government Purchase Cards must be accepted at or below the micro-purchase threshold.**
- 9.b **Government Purchase Cards are accepted above the micro-purchase threshold. Contact contractor for limit.**
10. **FOREIGN ITEMS:** N/A
- 11a. **TIME OF DELIVERY:** 30 days ARO
- 11b. **EXPEDITED DELIVERY:** Contact Contractor
- 11c. **OVERNIGHT AND 2-DAY DELIVERY:** Contact Contractor
- 11d. **URGENT REQUIRMENTS:** Agencies can contact the Contractor's representative to affect a faster delivery. Customers are encouraged to contact the contractor for the purpose of requesting accelerated delivery.
12. **FOB POINT:** Destination
- 13a. **ORDERING ADDRESS:** Same as contractor
- 13b. **ORDERING PROCEDURES:** Ordering activities shall use the ordering procedures described in Federal Acquisition Regulation 8.405-3 when placing an order or establishing a BPA for supplies or services. The ordering procedures, information on Blanket Purchase Agreements (BPA's) and a sample BPA can be found at the GSA/FSS Schedule Homepage (fss.gsa.gov/schedules).
14. **PAYMENT ADDRESS:** Same as contractor
15. **WARRANTY PROVISION:** 1-year warranty for SINs 33411, 325998W and 811212; 60 Days for SIN 611512
16. **EXPORT PACKING CHARGES:** Not applicable

17. **TERMS AND CONDITIONS OF GOVERNMENT PURCHASE CARD ACCEPTANCE:** (any thresholds above the micro-purchase level may be inserted by contractor)
18. **TERMS AND CONDITIONS OF RENTAL, MAINTENANCE, AND REPAIR (IF APPLICABLE):** N/A
19. **TERMS AND CONDITIONS OF INSTALLATION (IF APPLICABLE):** N/A
20. **TERMS AND CONDITIONS OF REPAIR PARTS INDICATING DATE OF PARTS PRICE LISTS AND ANY DISCOUNTS FROM LIST PRICES (IF AVAILABLE):** N/A
- 20a. **TERMS AND CONDITIONS FOR ANY OTHER SERVICES (IF APPLICABLE):** N/A
21. **LIST OF SERVICE AND DISTRIBUTION POINTS (IF APPLICABLE):** N/A
22. **LIST OF PARTICIPATING DEALERS (IF APPLICABLE):** N/A
23. **PREVENTIVE MAINTENANCE (IF APPLICABLE):** N/A
- 24a. **SPECIAL ATTRIBUTES SUCH AS ENVIRONMENTAL ATTRIBUTES (e.g. recycled content, energy efficiency, and/or reduced pollutants):** N/A
- 24b. **Section 508 Compliance for Electronic and Information Technology (EIT):** N/A
25. **DUNS NUMBER:** 080618900
26. **NOTIFICATION REGARDING REGISTRATION IN SYSTEM FOR AWARD MANAGEMENT (SAM) DATABASE:** Contractor has an Active Registration in the SAM database.

Labor Category Descriptions

Labor Category	Advanced Infrastructure Consultant
<i>Brief Description of Responsibilities</i>	Analyze IT infrastructure and recommend optimal configuration • Hardware sizing • Estimate effort for infrastructure tasks • Install server technologies such as databases, application and web servers • Install operating systems • Server performance tuning • Provide infrastructure support independently • Create System architecture documentation • Mentor Junior infrastructure consultants
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	7 years of related experience, or an equivalent combination of education and experience

Labor Category	Business Analyst
<i>Brief Description of Responsibilities</i>	Serves as a subject matter technical expert in areas relevant to the project. Provide guidance to the technical staff on the functional procedures/processes/policies reflecting detailed knowledge of functional areas. Interfaces with Government management personnel and functional proponents. Reports in writing and orally to Contractor management and Government representatives, including the Government CO and COR. Progressive functional experience related to analyzing customer training requirements in order to support planning, creating, and/or executing testing and test administration, learning management, internship, or development of new courses. Most recent functional project experience has occurred within the past three years and has included working on large projects related to the individual's subject matter expertise.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	5 years of related experience, or an equivalent combination of education and

	experience
--	------------

Labor Category	Data Management Specialist
<i>Brief Description of Responsibilities</i>	Develops Designs and builds relational databases for data storage or processing. Develops strategies for warehouse implementation, data acquisition, and archive recovery. Cleans and maintains the database by removing and deleting old data. May evaluate new data sources for adherence to the organization's quality standards and ease of integration. May require a bachelor's degree in a related area and 4-6 years of experience in the field or in a related area. Performs a variety of complicated tasks. May lead and direct the work of others. A wide degree of creativity and latitude is expected. Typically reports to a supervisor or manager.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	5 years of related experience, or an equivalent combination of education and experience

Labor Category	Desktop Support Technician Tier 1
<i>Brief Description of Responsibilities</i>	Provides end-user support for resolving desktop operating system and application problems. Under supervision they identify and correct desktop operating system problems and troubleshoot desktop applications, including e-mail, web, and office applications. They must be able to interact well with end-users.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	1 year of related experience, or an equivalent combination of education and experience

Labor Category	Desktop Support Technician Tier 2
<i>Brief Description of Responsibilities</i>	Provides end-user support for resolving desktop operating system and application problems. They must have demonstrated experience and expertise in identifying and correcting desktop operating system problems. They must be able to troubleshoot multiple desktop applications, including e-mail, web, and office applications. They must be able to interact well with end-users. A Desktop Support Technician has 4+ years of experience in addition to satisfying the skill requirements of the labor category. They must also be able to work with only minimal supervision. They must be able to supervise associate level staff within their own labor category. An academic degree in a closely related discipline can be substituted for 2 of the 4 years of the experience required.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	2 years of related experience, or an equivalent combination of education and experience

Labor Category	Desktop Support Technician Tier 3
<i>Brief Description of Responsibilities</i>	Individual is responsible for on-site and/or remote installation, implementation, maintenance, troubleshooting and/or repair of desktops, notebooks, printers, and

	associated peripherals. Serves as company liaison with customer on administrative and technical matters. Coordinates and Client End User on expectations and availability to conduct Managed Client Services Performs trouble shooting, parts replacement, system upgrades and basic deployments & repair on Client Assets in campus/remote locations. Identifies potential issues that could adversely impact End User experience and follows through on action steps. Strives to meet all Client SLAs & Customer Satisfaction Goals.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	3 years of related experience, or an equivalent combination of education and experience

Labor Category	IT Technical Consultant
<i>Brief Description of Responsibilities</i>	Assists in the development of an emerging technologies plan and its technical implementation to support a healthcare IT systems implementation and operations support. Analyze the trade-off of implementing vs. not implementing the technology. Analyses and recommends industry standards operational practices. Can provide cost benefit projections of using the emerging technology. Works under the general supervision of more experienced COTS/GOTS Technology Specialists.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	3 years of related experience, or an equivalent combination of education and experience

Labor Category	Network Engineer I
<i>Brief Description of Responsibilities</i>	Analyzes local and wide area network systems, including planning, designing, evaluating, selecting operating systems and protocol suites and configuring communication media with concentrators, bridges and other devices. Resolves interoperability problems to obtain operation across all platforms including e-mail, files transfer, multimedia, teleconferencing and the like. Configures systems to user environments. Support acquisition of hardware and software.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	3 years of related experience, or an equivalent combination of education and experience

Labor Category	Network Engineer II
<i>Brief Description of Responsibilities</i>	Assists in the analysis of local and wide area network systems, including planning, designing, evaluating, selecting operating systems and protocol suites and configuring communication media with concentrators, bridges and other devices. Assists with resolving interoperability problems to obtain operation across all platforms including email, files transfer, multimedia, teleconferencing and the like. Configures systems to user environments. Supports acquisition of hardware and software.
<i>Education Required</i>	Bachelor's Degree

<i>Experience (years)</i>	4 years of related experience, or an equivalent combination of education and experience
---------------------------	---

Labor Category	Program Manager
<i>Brief Description of Responsibilities</i>	The Program Manager has a broad range of information technology experience including planning, architecture, systems delivery, computer operations, and IT management. The Program Manager understands the business benefits of the IT projects for which he/she is responsible and views IT as an enabler of the overarching program. The Program Manager is comfortable overseeing multiple projects, which are part of a single major program at the same time. He/she will have Senior Managers responsible for day-to-day project activities. Additional experience includes communication with client and project managers, as well as management of multiple projects. The Senior Program Manager is used to addressing unstructured management problems in an efficient and effective manner. Responsibilities include managing overall program activities and advise to client executives. Works through Senior Program Manager and Senior Manager to assume responsibility for overall project delivery. A Program Manager communicates regularly with the Government Contracting Office (CO) and delegated government representatives.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	12 years of related experience, or an equivalent combination of education and experience

Labor Category	Senior Project Manager
<i>Brief Description of Responsibilities</i>	Performs day-to-day management of assigned delivery order projects that involve teams of data processing and other information system and management professionals who have previously been involved in analyzing, designing, integrating, testing, documenting, converting, extending, and implementing automated information and telecommunications systems. Demonstrates proven skills in the areas addressed by the delivery order to be managed. Organizes, directs, and coordinates the planning and production of all activities associated with assigned delivery order projects. Demonstrates writing and oral communication skills.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	10 years of related experience, or an equivalent combination of education and experience

Labor Category	Quality Assurance Specialist
<i>Brief Description of Responsibilities</i>	Provides technical direction for software development tasks, including the review of work products for correctness, adherence to the design concept, user standards, and progress. Supports process for evaluating software and associated documentation. Researches resources required for quality control. Maintains the level of quality throughout the software life cycle. Detail oriented and conducts and supports formal and informal reviews at predetermined points throughout the development life cycle.

<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	1 year of related experience, or an equivalent combination of education and experience

Labor Category	Senior Network Engineer
<i>Brief Description of Responsibilities</i>	The Senior Network Engineer serves as the senior technical expert on complex and challenging information technology projects. The Senior Network Engineer performs engineering and/or analytical tasks and activities associated with network design, engineering, implementation, operations, and user support. The Senior Network Engineer translates system functional requirements into purposeful component level simulations in support of development lab activities, organizes objectives and approaches of systems design, development, integration and test approach within project teams, and participates in the system requirements analysis, design, development, integration, and test activities. The Senior Network Engineer may be assigned as team leader on complex tasks that require significant interaction of various technical disciplines or may work alone or as part of a team, with responsibility for analysis of problems requiring high levels of technical and engineering expertise. The Senior Network Engineer ensures that the network complies with prescribed industry, customer, or agency standards. The Senior Network Engineer evaluates problems of workflow, organization, and planning, and develops appropriate corrective actions and prepares and performs presentations at technical interchange meetings and project design reviews. The Senior Network Engineer reports orally and in writing to the Program Manager, Project Manager, contractor management, and government representatives. In the absence of the Program Manager or Project Manager, the Senior Network Engineer may serve as the Contractor's authorized interface with the Contracting Officer's Representative/Technical Representative (COR/COTR), government management personnel, and agency representatives.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	7 years of related experience, or an equivalent combination of education and experience

Labor Category	Software Developer
<i>Brief Description of Responsibilities</i>	Under general direction, the Software Developer Level participates as high-level technical expert in design development, coding, testing, and debugging new software or significant enhancements to existing software. The Software Developer Level works with technical staff to understand problems with software and develops specifications to resolve them. The Software Developer Level resolves customer complaints and responds to suggestions for improvements and enhancements. The Software Developer Level participates in the development of software user manuals. The Software Developer Level may act as team leader on less complex projects. The Software Developer Level assists in training less experienced software development staff.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	3 years of related experience, or an equivalent combination of education and experience

Labor Category	Systems and Design Implementation Engineer I
<i>Brief Description of Responsibilities</i>	Coordinate and facilitate joint application development (JAD) efforts, document functional requirements, design automated solutions, logic flow process diagrams, and algorithms as appropriate. Develop plans for the integration of proposed systems to existing functional and data environments, coordinate planning and implementation activities to ensure that engineered software, software interfaces, or integration designs result in envisioned benefits.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	5 years of related experience, or an equivalent combination of education and experience

Labor Category	Systems and Design Implementation Engineer I
<i>Brief Description of Responsibilities</i>	Provides high-level expertise on Content Delivery Network (CDN) delivery, video, content, storage services, and platforms. Provides training material and conduct customer-facing and internal training and workshops. Also assists with the guidance and expertise on internal APIs, service configurations, and behavior. Testing of customer setups using industry standard tools.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	7 years of related experience, or an equivalent combination of education and experience

Labor Category	Senior Systems and Design Implementation Engineer
<i>Brief Description of Responsibilities</i>	Provides senior-level expertise on Content Delivery Network (CDN) delivery, video, content, storage services, and platforms. Provides technical leadership and customer relationship management during the implementation phase of the project. Also leads guidance and expertise on internal APIs, service configurations, and behavior. Collaborates with team members to establish best practices for new and existing services and platforms. Testing of customer setups using industry standard tools.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	7 years of related experience, or an equivalent combination of education and experience

Labor Category	Systems Integrator I
<i>Brief Description of Responsibilities</i>	Develop large automated systems integration projects that incorporate digital imaging or digital communications technology. Develop standards-compliant software utilizing but not limited to the following programming languages: C, DOS, VMS, TCP/IP, or UNIX. Responsible for the interfaces, design details and integration of the systems including digital imaging or digital communications systems.
<i>Education Required</i>	Bachelor's Degree

<i>Experience (years)</i>	3 years of related experience, or an equivalent combination of education and experience
---------------------------	---

Labor Category	Systems Integrator II
<i>Brief Description of Responsibilities</i>	Develop and manage large automated systems integration projects that incorporate digital imaging or digital communications technology. Develop and manage standards-compliant software utilizing but not limited to the following programming languages: C, DOS, VMS, TCP/IP, or UNIX. Responsible for the interfaces, design details and integration of the systems including digital imaging or digital communications systems.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	3 years of related experience, or an equivalent combination of education and experience

Labor Category	Senior Systems Integrator
<i>Brief Description of Responsibilities</i>	Manage the design, operational use and functional characteristics of large programs, e.g. scanning, workstation, optical storage, and index subsystems of digital imaging systems, or the input processing, network transmission, security, network management, and control subsystems of digital communications systems.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	3 years of related experience, or an equivalent combination of education and experience

Labor Category	Senior IT Consultant
<i>Brief Description of Responsibilities</i>	Sought as a resource for resolution of unique or complex IT problems; may provide work leadership for lower level employees; carries out highly-complex information systems and/or information technology tasks within more than one discipline; disciplines may include, but are not limited to, application support, database administration, software quality assurance/quality control, software engineering, network telecommunications, and infrastructure operations of administration, analysis, engineering, and design; monitor and support the information technology and systems infrastructures; troubleshoot and resolve moderately complex problems; implement various applications of a complex nature; conduct analysis, including planning, designing, and evaluating a variety of information technology tools; respond to user requests for system needs and upgrades; may require initiative and independent judgment outside of the standard methodology, techniques, procedures, and criteria; develop and improve processes and procedures.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	7 years of related experience, or an equivalent combination of education and experience

Labor Category	Systems Administrator
-----------------------	------------------------------

<i>Brief Description of Responsibilities</i>	System Administrator is responsible for maintaining specific systems within the IT environment. As required, the System Administrator is responsible for the maintenance, configuration, upkeep, and reliable operation of his/her assigned systems, networks, storage, and cloud-based technologies. System Administrator develops standard operating procedures and runbooks for the IT systems. System Administrator has senior-level technical skills relating to the technologies or scripting languages used in the operation of the IT systems. Additionally, System Administrator has expert knowledge of system automation and IT operations-related technical requirements and tool selection/operation.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	5 years of related experience, or an equivalent combination of education and experience

Labor Category	Senior Technical Governance Analyst
<i>Brief Description of Responsibilities</i>	The Senior Technical Governance Analyst specializes in IT management methodologies, process redesign and quality assurance. This individual will also have their PMP and/or commensurate experience and will have extensive experience in the operations of governance boards, governance process design, and project oversight and evaluation. Duties/Functional Responsibilities: Provides executive analytical, advisory and implementation expertise in Governance. This individual is brought in to assist governance boards in the oversight of portfolios of major programs and can provide organizational assessments, project management and portfolio management methodologies, process redesign and organizational change management. They apply analytical expertise to assist in defining, analyzing, validating, and documenting complex process or organizational solutions.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	10 years of related experience, or an equivalent combination of education and experience

Labor Category	Strategic Planning Specialist
<i>Brief Description of Responsibilities</i>	Lead partner in developing strategies that meet the client's business and operational objectives. Identifies marketing problems, performs research and analyzes trends/ results to determine strategic implications. Responsible for overall strategic planning for clients. Responsible for the day-to-day activities with the client, has more experience and therefore works on more complex and/or larger projects. Partners with other departments to ensure the quality of the strategic brief. Communicates consumer knowledge to Clients and other departments. Experienced consumer focus to all advertising decisions.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	10 years of related experience, or an equivalent combination of education and experience

Labor Category	UX / UI Developer
<i>Brief Description of</i>	Support, through software design and development experience, DI's mission of

<i>Responsibilities</i>	providing engineering services and consulting in human-system integration (HSI), usability engineering, training systems design and evaluation, and next generation HSI research. Responsible for translating project requirements into UI designs that incorporate interface usability and user experience best practices. Translates user needs into detailed design specifications; provide prototype and end-user applications and enhancements based on specifications. Develops rapid prototypes of potential new products, features, or widgets either as proof of concept or to assist in requirements. Shall participate in all stages of software development while providing UI technical expertise: including refining UI vision, gathering user feedback, UI design, coding, testing, release, and support as well as serves as the company expert in all areas of usability, graphic design and product branding. The person will utilize experience when leveraging internal groups to brainstorm completely new graphical interfaces based on existing strategy or innovating within existing products. • Provide detailed, reusable product documentation. This person will also manage risk by identifying, quantifying and monitoring potential threats to the project or development lifecycle, contribute to early identification of project issues and opportunities for product improvement.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	2 years of related experience, or an equivalent combination of education and experience

Labor Category	Web Design Specialist
<i>Brief Description of Responsibilities</i>	Responsible for web design, coding, implementation, testing, debugging, maintenance, and continued user support. Interface with users to determine scope of project and best web design medium. Executes web design projects and coordinates web production scheduling. Ensure that web design projects are completed on time, within budget, and to user's satisfaction. Train other web designers in proper use of web design software. Troubleshoot websites to ensure proper functionality. Perform regular update and website maintenance.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	3 years of related experience, or an equivalent combination of education and experience

Labor Category	Webmaster
<i>Brief Description of Responsibilities</i>	In charge of maintaining Web sites for agencies and clients on the World Wide Web. This is a job that requires a wide range of skills and abilities, since many webmasters must do much more than simply write computer codes or update links to other Web sites. The webmaster is ultimately responsible for ensuring that a Web site is easy to navigate and that it addresses the needs of the client and its customers. The Webmaster will possess experience in webpage design and development, using open stack or platform-based products. Possesses functional and technical knowledge, in programming in HTML and/or XML. Ability to create and manipulate graphics to be used in webpages using graphics packages, such as Photoshop and Paint Shop Pro. Responsible for completing client work in accordance with established plans and quality standards. Ability to directly manipulate source code in a text editor.

<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	5 years of related experience, or an equivalent combination of education and experience

Labor Category	Web Application Developer
<i>Brief Description of Responsibilities</i>	Web Application Developer will perform a variety of moderately complex tasks related to designing, developing, troubleshooting, debugging, and implementing software code for Web sites. Individuals apply comprehensive knowledge gained through previous technical assignments and software development tasks.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	2 years of related experience, or an equivalent combination of education and experience

Labor Category	Web Content Administrator
<i>Brief Description of Responsibilities</i>	Responsible for developing and providing content that will motivate and entertain users so that they regularly access the website and utilize it as a major source for information and decision making. Responsible for managing/performing website editorial activities including gathering and researching information that enhances the value of the site. Locates, negotiates and pursues content. Seeks out customers to gather feedback for website improvement and enhancements. Requires experience in production management, web page design, HTML and web graphics types and standards. Requires two years of experience in this field.
<i>Education Required</i>	Bachelor's Degree
<i>Experience (years)</i>	2 years of related experience, or an equivalent combination of education and experience
