1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. Please see attached rate table.

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item. Please see attached labor category descriptions.

2. Maximum order:

</tbody>
</table>

3. Minimum order: **$100**

4. Geographic coverage (delivery area). **Worldwide**

5. Point(s) of production (city, county, and State or foreign country):

   Konark Software Solutions, LLC  
   5741 Cleveland St Ste 200  
   Virginia Beach, VA 23462

6. Discount from list prices or statement of net price. **Government Net Prices (discounts already deducted)**

7. Quantity discounts:
8. Prompt payment terms. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions. **0% Net 30 days.**

9. Foreign items (list items by country of origin). **Not Applicable**

10a. Time of delivery. (Contractor insert number of days.) **30 days ARO**

10b. Expedited Delivery. Items available for expedited delivery are noted in this price list. **To Be Determined at the Task Order level**

10c. Overnight and 2-day delivery. **Contact Contractor**

10d. Urgent Requirements. **Contact Contractor**

11. F.O.B. point(s). **Destination**

12a. Ordering address(es):  

   **Konark Software Solutions, LLC**  
   5741 Cleveland St Ste 200  
   Virginia Beach, VA 23462

12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address(es):  

   **Konark Software Solutions, LLC**  
   5741 Cleveland St Ste 200  
   Virginia Beach, VA 23462

14. Warranty provision. **Not Applicable**

15. Export packing charges, if applicable. **Not Applicable**

16. Terms and conditions of rental, maintenance, and repair (if applicable). **Not Applicable**

17. Terms and conditions of installation (if applicable). **Not Applicable**

18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). **Not Applicable**
18b. Terms and conditions for any other services (if applicable). **Not Applicable**

19. List of service and distribution points (if applicable). **Not Applicable**

20. List of participating dealers (if applicable). **Not Applicable**

21. Preventive maintenance (if applicable). **Not Applicable**

22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). **Not Applicable**

22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor’s website or other location.) The EIT standards can be found at: [www.Section508.gov/](http://www.Section508.gov/). **Not Applicable**

23. Data Universal Number System (DUNS) number. **025953518**

24. Notification regarding registration in System for Award Management (SAM) database. **Konark Software Solutions, LLC is registered and active in SAM.**

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (***) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).
LABOR CATEGORY DESCRIPTIONS

Applications Programmer III

General Experience: At least five years of related experience in software design and development. Preparing system and end user documentation. Possesses knowledge of systems and database concepts and use of programming languages. Requires experience in analysis and design of system applications

Functional Responsibility: Participate in the design of software tools and subsystems to support reuse and domain analysis. Independently develop and maintain software applications. Assists Senior Applications Programmer to interpret software requirements and design specifications to code and integrate and test software components.

Education: Bachelor’s degree in a related discipline or equivalent experience. Bachelor’s degree acceptable substitutes include Associates degree with 2 years additional work experience or no degree with 4 years additional work experience in the specified field.

Business Analyst V

General Experience: At least 10 years of experience in analyzing business and workflow requirements. Excellent oral and writing skills. Proven experience in communicating with business users to identify business requirements and creating functional specifications in support of those requirements.

Functional Responsibility: Analyze, review, and document business, technical, and functional requirements. Serve as a liaison between the technical and business professionals. Translate user requirements into functional specifications. Analyze and document existing business workflows. Support applications testing to correlate application functionality to business requirements. Work with business users with tasks encompassing software change requests, generate use case scenarios to test business functionality, establishment of training plans and preparation of user guides.

Education: Bachelor’s degree in a related discipline or equivalent experience. Bachelor’s degree acceptable substitutes include Associates degree and 2 years additional work experience or no degree and 4 years additional work experience in the specified field.

Project Manager I

General Experience: At least two years of related experience. Experience should include increasing responsibility in independently or under supervision maintaining project schedule, budget, and deliverables.

Functional Responsibility: The Project Manager is responsible for assisting Senior Project Management personnel in all aspects of project performance and provides overall direction to all project activities and personnel. Formulates and enforces work standards, assigns project schedules, reviews work, supervises project personnel and communicates policies and organizational goals and objectives to all project personnel. Provides verbal and written skills required at all management levels to maintain project control.

Education: Bachelor’s degree in a related discipline or equivalent experience. Bachelor’s degree acceptable substitutes include Associates degree and 2 years additional work experience or no degree and 4 years additional work experience in the specified field.
**Project Manager IV**

**General Experience:** At least 8 years of related experience. Experience should include increasing responsibility in independently maintaining project schedule, budget, and deliverables. Assign and track project tasks to teams or individuals.

**Functional Responsibility:** The Project Manager is responsible for all aspects of project performance and provides overall direction to all project activities and personnel. Formulates and enforces work standards, assigns project schedules, reviews work, supervises project personnel and communicates policies and organizational goals and objectives to all project personnel. Provides verbal and written skills required at all management levels to maintain project control.

**Education:** Bachelor’s degree in a related discipline or equivalent experience. Master’s degree can substitute for 2 years and PhD degree can substitute for 4 years of required work experience.

---

**Program Manager II**

**General Experience:** At least five years of related experience including at least three years of supervisory responsibilities. Experience in managing large programs.

**Functional Responsibility:** Program Manager provides leadership and overall technical direction; formulates and enforces work standards; and addresses complex administrative, and management problems. Assists Senior Program Management staff to serve as the contractor’s authorized interface with government management personnel and client agency representatives. Demonstrate communications skills at all levels of management. Manages all contract support activities. Responsible for formulating and enforcing work standards, assigning contractor schedules, supervising contractor personnel, and communicating policies, purposes, and goals of the organization to subordinate personnel. Assists Senior Program Management staff in overall contract performance.

**Education:** Bachelor’s degree in a related discipline or equivalent experience. Bachelor’s degree acceptable substitutes include Associates degree and 4 years additional work experience or no degree and 6 years additional work experience in the specified field. Master’s degree can substitute for 2 years of required work experience.

---

**Business Consultant V**

**General Experience:** At least 10 years of experience in analyzing business and workflow requirements. Excellent oral and writing skills. Proven experience in communicating with business users to identify business workflow requirements and creating functional specifications in support of those requirements. Design transaction processing workflows.

**Functional Responsibility:** Analyze, review, and document business, workflow, and functional requirements. Serve as a liaison between the technical and business professionals. Translate user requirements into functional specifications. Analyze and document existing business workflows and propose process improvements. Work with business users to automate business workflows using a combination of process re-engineering and technology.

**Education:** Bachelor’s degree in a related discipline or equivalent experience. Bachelor’s degree acceptable substitutes include Associates degree and 4 years additional work experience or no degree and 6 years of additional work experience in the specified field. Master’s degree can substitute for 2 years and PhD degree can substitute for 4 years of required work experience.
**Health IT Programmer II (SIN 54151HEAL)**

**General Experience:** At least five years of related experience. Experience with Health IT systems to process health related data including insurance member enrollment and eligibility data, understanding of treatment diagnostic and procedure codes data.

**Functional Responsibility:** Participates in the design of software tools and subsystems to support Health IT systems. Analyze and process patient health claim data including health diagnostic and procedure codes, treatment service dates etc. Possesses knowledge of system and database management concepts and the use of programming languages in developing and/or maintaining Health IT software applications. Utilize data analytics tools to provide information about treatment diagnostic and procedure codes and associated healthcare claim charges and payments.

**Education:** Bachelor’s degree in a related discipline or equivalent experience. Bachelor’s degree acceptable substitutes include Associates degree with 2 years additional work experience or no degree with 4 years additional work experience in the specified field.

**Health IT Analyst IV (SIN 54151HEAL)**

**General Experience:** At least eight years of related experience. Experience with Health IT data including insurance member enrollment and eligibility data, understanding of medical treatment diagnostic and procedure codes data.

**Functional Responsibility:** Participates in the analysis of Health IT business requirements to support health insurance enrollment and eligibility data processing. Analyze and process patient health claim data including health diagnostic and procedure codes, treatment service dates etc. Possesses knowledge of system and database concepts and software applications in the Health IT industry. Utilize data analytics tools to provide information about medical treatment diagnostic and procedure codes and associated healthcare claim charges and payments.

**Education:** Bachelor’s degree in a related discipline or equivalent experience. Bachelor’s degree acceptable substitutes include Associates degree with 2 years additional work experience or no degree with 4 years additional work experience in the specified field.

**Health IT Project Manager IV (SIN 54151HEAL)**

**General Experience:** At least 8 years of related experience. Experience with Health IT data including insurance member enrollment and eligibility data, understanding of medical treatment diagnostic and procedure codes data. Understanding of healthcare claim forms for inpatient and outpatient claims. Familiarity with EDI 837 Healthcare Claim data and HIPAA guidelines. Experience should include increasing responsibility in independently maintaining Health IT project schedule, budget, and deliverables. Assign and track Health IT project tasks to teams or individuals.

**Functional Responsibility:** The Project Manager is responsible for all aspects of project performance and provides overall direction to all project activities and personnel related to Health IT projects. Formulates and enforces work standards, assigns project schedules, reviews work, supervises project personnel and communicates policies and organizational goals and objectives to all project personnel. Analyze health insurance enrollment and eligibility data requirements. Work with system designers and programmers to establish health claim data processing methods and procedures.
**Software Implementation Specialist IV**

**Education:** Bachelor’s degree in a related discipline or equivalent experience. Master’s degree can substitute for 2 years and PhD degree can substitute for 4 years of required work experience.

**General Experience:** At least six years of related experience. Experience with software applications and a strong working knowledge of OS and Database systems. Ability to work with third party software applications.

**Functional Responsibility:** Install and configure software in a client environment. Integrate packaged software with other system components. Configure software to meet project requirements. Organize and integrate software components from various sources (including third party applications) to build a system. Train users in use of standard and custom software applications. Document system configuration.

**Education:** Bachelor’s degree in a related discipline or equivalent experience. Bachelor’s degree acceptable substitutes include Associates degree with 2 years additional work experience or no degree with 4 years additional work experience in the specified field.

**Technical Writer III**

**General Experience:** At least five years of related experience. Good writing skills in preparing reports, manuals, briefs, instructions books, catalogs and related technical and administrative publications. Preparation of user's manuals, training materials, installation guides, proposals, and reports. Ability to create and/or edit functional descriptions, system specifications, user’s manuals, special reports, or any other customer deliverables and documents.

**Functional Responsibility:** Develop, write and edit material for reports, manuals, briefs, instructions books, catalogs and related technical and administrative publications. Assist in collecting and organizing information required for preparation of user's manuals, training materials, installation guides, proposals, and reports. Interface with users, technical specialists, analysts, programmers, etc., to obtain information about technologies and work methods. Review and revise text to document changes in scope, format, and content in line with established standards.

**Education:** Bachelor’s degree in a related discipline or equivalent experience. Bachelor’s degree acceptable substitutes include Associates degree with 2 years additional work experience or no degree with 4 years additional work experience in the specified field. Master’s degree can substitute for 2 years of required work experience.

**Electronics Technician III (**)**

**General Experience:** At least six years of related experience. Installation, troubleshooting, repairing, and maintaining networked telecommunications and computer systems. May also perform soldering, Cable Dressing, Cable Tray, Conduit, and Making/Repairing Connectors.

**Functional Responsibility:** Supports installation, troubleshooting, repairing, and maintaining networked telecommunications and computer systems.

**Education:** High School diploma or GED certificate required. Associate’s degree can substitute for 2 years of required work experience.
Electronics Technician II (**)

General Experience: At least three years of related experience. Assists and performs installation, troubleshooting, repairing, and maintaining networked telecommunications and computer systems. May also perform soldering, Cable Dressing, Cable Tray, Conduit, and Making/Repairing Connectors.

Functional Responsibility: Supports installation, troubleshooting, repairing, and maintaining networked telecommunications and computer systems.

Education: High School diploma or GED certificate required.

Drafter/CAD Operator III (**)

General Experience: At least three years of experience drafting/illustrating to include: computerized drafting applications, digital imaging techniques, use of AutoCad, planning and preparing graphic presentations of complex items.

Functional Responsibility: Complete complex drawings/computer models including final drafts and will use precedents and electronic schematics to create drawings. Perform drafting services from simple to complex CAD drawings. Works from sketches, computer models and verbal information supplied by an architect, engineer or designer to determine the most appropriate views, detail drawings, and supplementary information needed to complete assignments.

Education: High School diploma or GED certificate required.

Business Analyst VI

General Experience: 12 years

Functional Responsibility: Analyze, review, and document business, technical, and functional requirements. Serve as a liaison between the technical and business professionals. Translate user requirements into functional specifications. Analyze and document existing business workflows. Support applications testing to correlate application functionality to business requirements. Work with business users with tasks encompassing software change requests, generate use case scenarios to test business functionality, establishment of training plans and preparation of user guides.

Education: Bachelor’s degree in a related discipline or equivalent experience. Bachelor’s degree acceptable substitutes include Associates degree and 2 years additional work experience or no degree and 4 years additional work experience in the specified field.

System Engineer V

General Experience: 8 years

Functional Responsibility: Operate, deploy and maintain systems. Apply software, hardware, and standard information technology skills in the analysis, specification design, development, an integration of systems for information management applications. Perform hardware and software systems installation, maintenance, and upgrades. Provide network monitoring and firewall configuration. Implement process improvement practices for system development life-cycle. Perform engineering assessments for different system configurations. Review of work products for correctness and adherence to the design concept. Identify technical risks and mitigation strategies. Provide guidance and supervision, if necessary, to other Systems Engineers.
Education: Bachelor’s degree in a related discipline or equivalent experience. Bachelor’s degree acceptable substitutes include Associates degree with 2 years additional work experience or no degree with 4 years additional work experience in the specified field.

Program Manager V

General Experience: 15 years
Functional Responsibility: Program Manager provides leadership and overall technical direction; formulates and enforces work standards; and addresses complex administrative, and management problems. Assists Senior Program Management staff to serve as the contractor’s authorized interface with government management personnel and client agency representatives. Demonstrate communications skills at all levels of management. Manages all contract support activities. Responsible for formulating and enforcing work standards, assigning contractor schedules, supervising contractor personnel, and communicating policies, purposes, and goals of the organization to subordinate personnel. Assists Senior Program Management staff in overall contract performance.
Education: Bachelor’s degree in a related discipline or equivalent experience. Master’s degree can substitute for 2 years and PhD degree can substitute for 4 years of required work experience.

Visual Tempest Inspector

General Experience: 5 years
Functional Responsibility: Conduct Instrumented TEMPEST Testing (ITS) and Visual TEMPEST inspections (VTI): evaluate C4IT systems for TEMPEST vulnerabilities and recommending countermeasures and generate VTI reports. Tasks shall be performed to address the protection of all classified networks, systems and information they contain including secure voice/data and related systems.
Education: Bachelor’s degree in a related discipline or equivalent experience.

Business Consultant VI

General Experience: 12 years
Functional Responsibility: Analyze, review, and document business, workflow, and functional requirements. Serve as a liaison between the technical and business professionals. Translate user requirements into functional specifications. Analyze and document existing business workflows and propose process improvements. Work with business users to automate business workflows using a combination of process re-engineering and technology. Analyze emerging requirements and design processes to accommodate those requirements. Conduct data analysis to analyze emerging requirements and design processes to accommodate those requirements.
Education: Bachelor’s degree in a related discipline or equivalent experience. Bachelor’s degree acceptable substitutes include Associates degree and 4 years additional work experience or no degree and 6 years of additional work experience in the specified field. Master’s degree can substitute for 2 years and PhD degree can substitute for 4 years of required work experience.
**Software Release Engineer II**

**General Experience:** 3 years  
**Functional Responsibility:** Develop scripts and automation tools used to build, integrate, and deploy software releases to various platforms. Co-ordination of all technology-related release activities for related projects. Follow industry best practices for release, configuration and implementation management. Ensure the integrity of releases and of pre-release configuration items. Execute, control and manage a schedule of planned releases to pre-production and production environments. Work with QA, Development and Operations to ensure that development projects adhere to the release process and change procedure guidelines. Coordinate application software go-live activities including the execution of deployment plans and checklists. Maintain a release repository and manage key information such as build and release procedures, dependencies, and notification lists. Research new software development and configuration management methodologies and technologies and analyze their application to current configuration management needs.  
**Education:** Bachelor’s degree in a related discipline or equivalent experience. Bachelor’s degree acceptable substitutes include Associates degree with 2 years additional work experience or no degree with 4 years additional work experience in the specified field

**Health IT Analyst V**

**General Experience:** 10 years  
**Functional Responsibility:** Participates in the analysis of Health IT business requirements to support health insurance enrollment and eligibility data processing. Analyze and process patient health claim data including health diagnostic and procedure codes, treatment service dates etc. Possesses knowledge of system and database concepts and software applications in the Health IT industry. Utilize data analytics tools to provide information about medical treatment diagnostic and procedure codes and associated healthcare claim charges and payments  
**Education:** Bachelor’s degree in a related discipline or equivalent experience. Bachelor’s degree acceptable substitutes include Associates degree with 2 years additional work experience or no degree with 4 years additional work experience in the specified field
