### TLINKED AWARDED LABOR CATEGORY DESCRIPTIONS

#### **Hardware Engineer Senior**

Functional Responsibilities: Provides analysis related to the design, development, and implementation of hardware for products. Develops test strategies, devices, and systems. Performs stress and performance tests on a variety of computer hardware including circuit boards, processors and wiring.

Minimum Education: Bachelor’s Degree in Computer Science, Engineering or related field

Minimum Experience: 5 years of experience in related field.

#### **Network Specialist Senior**

Functional Responsibilities: Under general direction, manages the purchase, installation, and support of network communications, including LAN/WAN systems. Responsible for evaluating current systems. Works on complex problems where analysis of situation requires in-depth evaluation of various factors. Plans large-scale systems projects through vendor comparison and cost studies. Provides work leadership and training to lower level network engineers. Requires expert knowledge of LAN/WAN systems, networks, and applications.

Minimum Education: Bachelor’s Degree in Computer Science, Engineering or related field

Minimum Experience: 5 years of experience in related field.

#### **Project / Program Manager**

Functional Responsibilities: Allocates resources to assigned work and recommends/determines required personnel actions. Provides advice, guidance, and training to subordinates. Responsible/accountable for program/project planning, budgeting, execution, and cost/schedule performance. Interfaces with client, as required, to report program/project status, formally, informally, verbally, and in writing. Responsible and accountable for accurate and timely submission of contract, program, or project deliverables. Accountable for all work activities performed on a contract, subcontract, or within a major project.

Minimum Education: Bachelor’s Degree in Information Systems Management, Engineering, or related technical field; Project Management Professional (PMP) certification required.

Minimum Experience: 8 years of experience in the Information Technology field.

**Subject Matter Expert Senior**

Functional Responsibilities: Provides technical knowledge and analysis of highly specialized applications and operational environments, high-level functional systems analysis, design, integration, documentation and implementation advice on exceptionally complex problems that need extensive knowledge of the subject matter for effective implementation. Participates as needed in all phases of software development with emphasis on the planning, analysis, testing, integration, documentation, and presentation phases.

Minimum Education: Bachelor's Degree in Computer Science, Engineering or related field.

Minimum Experience: 10 years of experience in related field.

**Information Security Subject Matter Expert**

Functional Responsibilities: Responsible for determining enterprise information security standards. Develops and implements information security standards and procedures. Provides tactical information security advice and examining the ramifications of new technologies. Ensures that all information systems are functional and secure.

Minimum Education: Bachelor's Degree in Computer Science, Engineering or related field.

Minimum Experience: 12 years of experience in related field

**Information Assurance Engineer**

Functional Responsibilities: Establishes and satisfies complex system-wide information security requirements based upon the analysis of user, policy, regulatory, and resource demands. Supports customers at the highest levels in the development and implementation of doctrine and policies. Applies know-how to government and commercial common user systems, as well as to dedicated special purpose systems requiring specialized security features and procedures.

Minimum Education: Bachelor's Degree or equivalent.

Minimum Experience: 8 years of experience in related field

**Network Engineer, Mid**

Functional Responsibilities: Under general supervision, oversees the purchase, installation, and support of network communications, including LAN/WAN systems. Works on problems of diverse scope where analysis of situation requires evaluation and judgment. Responsible for evaluating current systems. Assists in the planning of large-scale systems projects through vendor comparison and cost studies.

Minimum Education: Bachelor's Degree or equivalent.

Minimum Experience: 7 years of experience in related field.
