

NOVETTA

U.S. General Services Administration

**GENERAL SERVICES ADMINISTRATION
FEDERAL SUPPLY SERVICE
AUTHORIZED FEDERAL SUPPLY SCHEDULE PRICE LIST**

On line access to contract ordering information, terms and conditions, up to date pricing, and the option to create an electronic delivery order are available through GSA Advantage!, a menu driven database system. The INTERNET address for GSA Advantage! is: GSAAdvantage.gov

Multiple Award Schedule (MAS)

Large Category F Information Technology

**CONTRACT NUMBER:
47QTCA19D005U**

For more information on ordering from Federal Supply Schedules go to the GSA Schedules page at GSA.gov.

PERIOD COVERED BY CONTRACT:
February 13, 2019 through February 12, 2024

Novetta, Inc.

7921 Jones Branch Drive Ste 500
McLean, VA 22102
(P) 571-282-3000
(F) 571-339-1575

<https://www.novetta.com/>

Pricelist current through Modification # PS-A812 dated 2/7/2020

Business Size: Other than Small

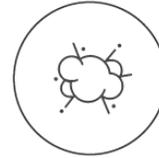

NOVETTA

**DATA DRIVEN
MINDSET**

**THE BEST AND
BRIGHTEST TALENT**

**DISRUPTIVE
TECHNOLOGY**

Novetta specializes in advanced analytics solutions that extract clarity from complex data, delivering actionable intelligence at speed and scale to address challenges of national and global significance.

Focused on mission success, Novetta has pioneered disruptive technologies in data analytics, full-spectrum cyber, media analytics, and multi-INT fusion for Defense, Intelligence Community, and Federal Law Enforcement customers.

Novetta is headquartered in McLean, VA with over 900 employees across the US.

NOVETTA, INC. CUSTOMER INFORMATION

1a. **TABLE OF AWARDED SPECIAL ITEM NUMBERS (SINs)**

| | |
|--------------------|--|
| <u>SIN 33411:</u> | Purchasing of New Electronic Equipment |
| <u>SIN 511210:</u> | Software Licenses |
| <u>SIN 54151:</u> | Software Maintenance Services |
| <u>SIN 54151S:</u> | Information Technology Professional Services |
| <u>SIN OLM:</u> | Order-Level Materials (OLMs) |

1b. **LOWEST PRICED MODEL NUMBER AND PRICE FOR EACH SIN:** See Pricelist attached.

1c. **HOURLY RATES (Services Only):** Refer to Pricelist.

2. **MAXIMUM ORDER:**

| | |
|-------------|-----------|
| SIN 33411: | \$500,000 |
| SIN 511210: | \$500,000 |
| SIN 54151: | \$500,000 |
| SIN 54151S: | \$500,000 |
| SIN OLM: | \$250,000 |

3. **MINIMUM ORDER:** \$100

4. **GEOGRAPHIC COVERAGE:** The Geographic Scope of Coverage is Domestic Delivery. This is delivery within the 48 contiguous states and Washington, D.C.

5. **POINT(S) OF PRODUCTION:** 7921 Jones Branch Drive, 5th Floor, McLean, VA 22102

6. **DISCOUNT FROM LIST PRICES:** Net GSA pricing is listed in the attached pricing table.

7. **QUANTITY DISCOUNT(S):** None

8. **PROMPT PAYMENT TERMS:** 1%, Net 20 Days. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9. **FOREIGN ITEMS:** None

10a. **TIME OF DELIVERY:** As negotiated between Contractor and Ordering Activity

10b. **EXPEDITED DELIVERY:** As negotiated between Contractor and Ordering Activity. Items available for expedited delivery are noted in this price list (None).

10c. **OVERNIGHT AND 2-DAY DELIVERY:** As negotiated between Contractor and Ordering Activity.

10d. **URGENT REQUIREMENTS:** Customers are encouraged to contact the contractor for the purpose of requesting accelerated delivery.

11. **FOB POINT:** Destination

12a. **ORDERING ADDRESS:**

Novetta, Inc.

7921 Jones Branch Drive, 5th Floor
McLean, VA 22102

P: 571-282-3000

F: 571-339-1575

12b. **ORDERING PROCEDURES:** For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in FAR 8.405-3.

13. **PAYMENT ADDRESS:**
Novetta, Inc.
Attention: Accounts Receivable
7921 Jones Branch Drive, 5th Floor
McLean, VA 22102
P: 571-282-3000
F: 571-339-1575
14. **WARRANTY PROVISION:** Standard Commercial Warranty
15. **EXPORT PACKING CHARGES:** Contact Contractor
16. **TERMS AND CONDITIONS OF RENTAL, MAINTENANCE, AND REPAIR (if applicable).**
Contact Contractor
17. **TERMS AND CONDITIONS OF INSTALLATION (IF APPLICABLE):** Contact Contractor
- 18a. **TERMS AND CONDITIONS OF REPAIR PARTS INDICATING DATE OF PARTS PRICE LISTS AND ANY DISCOUNTS FROM LIST PRICES (IF AVAILABLE):** N/A
- 18b. **TERMS AND CONDITIONS FOR ANY OTHER SERVICES (IF APPLICABLE):** N/A
19. **LIST OF SERVICE AND DISTRIBUTION POINTS (IF APPLICABLE):** N/A
20. **LIST OF PARTICIPATING DEALERS (IF APPLICABLE):** N/A
21. **PREVENTIVE MAINTENANCE (IF APPLICABLE):** N/A
- 22a. **SPECIAL ATTRIBUTES SUCH AS ENVIRONMENTAL ATTRIBUTES (e.g. recycled content, energy efficiency, and/or reduced pollutants):** N/A
- 22b. **Section 508 Compliance for EIT:** As applicable
23. **DUNS NUMBER:** 806595047
24. **NOTIFICATION REGARDING REGISTRATION IN SYSTEM FOR AWARD MANAGEMENT (SAM) DATABASE:** Active in SAM.

LABOR CATEGORY DESCRIPTIONS

| SIN | LABOR CATEGORY TITLE | MINIMUM YEARS OF EXPERIENCE | MINIMUM EDUCATION/ CERTIFICATION | LABOR CATEGORY DESCRIPTION |
|--------|------------------------------|-----------------------------|----------------------------------|---|
| 54151S | Principal Computer Scientist | 13 years | Masters | Technical or management experience in the design, development, and operation of complex information systems using state of the art techniques. The Principal Scientist should be considered by his/her peers as an expert in at least one of the following core areas: Algorithm Design, Mathematical Analysis, Complexity, Graph or Number Theory, Parallel Processing, Computer Graphics, Computer Vision, or Artificial Intelligence techniques. Designs sophisticated and original algorithms and IT systems to process massive data sets. Performs complexity and scalability assessments of existing IT systems, and identifies opportunities for the application of advanced Computer Science solutions to improve the systems. Is responsible for acting in a supervisory capacity to Senior Scientists and Scientists, as well as managing subcontractor and vendor performance. |
| 54151S | Senior Computer Scientist II | 8 years | Bachelors | Technical, analytic, or management experience. A demonstrated history of notable achievement, combined with superior communication and/or management skills. The Senior Scientist II has project experience in at least one of the following areas: Algorithm Design, Mathematical Analysis, Complexity, Graph or Number Theory, Parallel Processing, Computer Graphics, Computer Vision, or Artificial Intelligence techniques. Leads the implementation of sophisticated and original algorithms and IT systems to process massive data sets. Participates in complexity and scalability assessments of existing IT systems, and identifies opportunities for the application of advanced Computer Science solutions to improve the systems. Is responsible for acting in a supervisory and mentoring capacity to lower tier Scientists, as well as assessing subcontractor and vendor performance. |
| 54151S | Senior Computer Scientist I | 3 years | Bachelors | Technical, analytic, or management experience. The Senior Computer Scientist I has project experience in at least one of the following areas: Algorithm Design, Mathematical Analysis, Complexity, Graph or Number Theory, Parallel Processing, Computer Graphics, Computer Vision, or Artificial Intelligence techniques. Participates in the implementation of sophisticated and original algorithms and IT systems to process massive data sets. Supports complexity and scalability assessments of existing IT systems, through code analysis and instrumentation, and supports the identification of opportunities for the application of advanced Computer Science solutions to improve the systems. Uses software such as C++, Perl, Python, MPI, Linda, to implement algorithmically complex information processing projects. |
| 54151S | Computer Scientist | 4 years | Bachelors | Entry-level position for technical staff with education or training in Computer Science theory and practice, including: Algorithm Design, Mathematical Analysis, Complexity, Graph or Number Theory, Parallel Processing, computer Graphics, Computer Vision, or Artificial Intelligence techniques. Performs programming, code refactoring, systems operations, or design under the supervision of a more senior staff member. Uses software such as C++, Perl, Python, MPI, Linda, to implement algorithmically complex information processing projects. Supports preparation of project documentation. |
| 54151S | Junior Data Scientist | 0 years | Masters | Supports machine learning, statistical analysis, and data analysis tasks. Interprets data, identifies features and model variables, and assesses the quality of model outputs, usually at the direction of more senior resources. Develops visualizations, infographics, and charts to communicate model results and data science-derived findings, usually at the direction of more senior resources. |
| 54151S | Intermediate Data Scientist | 2 years | Masters | Leads and/or designs low- to medium-complexity machine learning, statistical analysis, and data analysis tasks. Interprets data, identifies features and model variables, and assesses the quality of model outputs, identifying alternatives and remediations, as needed. Leads model bake-off and model comparison efforts for low- to medium-complexity efforts; supports such tasks in more complex projects. Develops visualizations, infographics, and charts to communicate model results and data science-derived findings. |
| 54151S | Senior Data Scientist | 6 years | Masters | Leads and/or designs complex machine learning, statistical analysis, and data analysis tasks or multiple projects of varying complexity. Leads the interpretation of data, identifies features and model variables, and assesses the quality of model outputs, identifying alternatives and remediations, as needed. Leads model bake-off and model comparison efforts. Develops visualizations, infographics, and charts to communicate model results and data science-derived findings. Contributes to and leads data science and machine learning R&D efforts. |

| SIN | LABOR CATEGORY TITLE | MINIMUM YEARS OF EXPERIENCE | MINIMUM EDUCATION/ CERTIFICATION | LABOR CATEGORY DESCRIPTION |
|--------|--------------------------------|-----------------------------|----------------------------------|--|
| 54151S | Program Manager | 8 years | Masters | Organizes, directs, and manages contract operation support functions, involving multiple, complex and inter-related project tasks. Manages teams of contract support personnel at multiple locations. Maintains and manages the client interface at the senior levels of the client organization. Meets with customer and contractor personnel to formulate and review task plans and deliverable items. Ensures conformance with program task schedules and costs. |
| 54151S | Senior Program Manager | 12 years | Masters | Organizes, directs, and manages contract operation support functions, involving multiple, complex and inter-related project tasks. Manages teams of contract support personnel at multiple locations. Maintains and manages the client interface at the senior levels of the client organization. Meets with customer and contractor personnel to formulate and review task plans and deliverable items. Ensures conformance with program task schedules and costs. |
| 54151S | Junior Project Manager | 0 years | Masters | Leads small sized projects or significant segment of moderately complex projects. Analyzes new and complex project-related problems and creates innovative solutions involving finance, scheduling, technology, methodology, tools, and solution components. |
| 54151S | Intermediate Project Manager | 2 years | Masters | Leads medium sized projects or significant segment of moderately complex projects. Analyzes new and complex project-related problems and creates innovative solutions involving finance, scheduling, technology, methodology, tools, and solution components. |
| 54151S | Senior Project Manager | 6 years | Masters | Leads large sized, complex projects. Analyzes new and complex project-related problems and creates innovative solutions involving finance, scheduling, technology, methodology, tools, and solution components. |
| 54151S | Junior Software Engineer | 0 years | Masters | Formulates/defines specifications for complex operating software programming applications or modifies/maintains complex existing applications using engineering releases and utilities from the manufacturer. Designs, codes, tests, debugs, and documents those programs. Provides advanced mathematical/scientific software. Assists all phases of software systems programming applications. Evaluates new and existing software products. |
| 54151S | Intermediate Software Engineer | 3 years | Masters | Formulates/defines specifications for complex operating software programming applications or modifies/maintains complex existing applications using engineering releases and utilities from the manufacturer. Designs, codes, tests, debugs, and documents those programs. Provides advanced mathematical/scientific software. Assists all phases of software systems programming applications. Evaluates new and existing software products. |
| 54151S | Senior Software Engineer | 6 years | Masters | Formulates/defines specifications for complex operating software programming applications or modifies/maintains complex existing applications using engineering releases and utilities from the manufacturer. Designs, codes, tests, debugs, and documents those programs. Provides advanced mathematical/scientific software. Assists all phases of software systems programming applications. Evaluates new and existing software products. |
| 54151S | Technical Writer | 3 years | Masters | Writes a variety of technical articles, reports, brochures, and/or manuals for documentation for a wide range of uses. Coordinates the display of graphics and the production of the document. |
| 54151S | Junior Discovery Analyst | 0 years | Masters | Analyze bulk information and identify information of critical importance to the intelligence community. Utilize classified and unclassified databases and moderately complex intelligence research tools/software applications to perform bulk data analysis, pattern analysis, and trend analysis. Develop improved analytical information processes through automation of data extraction, selection, tiering, and formatting steps. Publish regular deliverables that result in new operations and investigations. |
| 54151S | Intermediate Discovery Analyst | 3 years | Masters | Analyze bulk information and identify information of critical importance to the intelligence community. Utilize classified and unclassified databases and advanced intelligence research tools/software applications to perform bulk data analysis, pattern analysis, and trend analysis. Work with customers to develop and improve analytical information processes through automation of data extraction, selection, tiering, and formatting steps. Publish regular deliverables that result in new operations and investigations. |
| 54151S | Senior Discovery Analyst | 6 years | Masters | Analyze bulk information and identify information of critical importance to the intelligence community. Utilize classified and unclassified databases and advanced intelligence research tools/software applications to perform bulk data analysis, pattern analysis, and trend analysis. Work with customers to develop and improve analytical information processes through automation of data extraction, selection, tiering, and formatting steps. Publish regular deliverables that result in new operations and investigations. Provide supervisory duties for other Discovery Analysts. |

| SIN | LABOR CATEGORY TITLE | MINIMUM YEARS OF EXPERIENCE | MINIMUM EDUCATION/ CERTIFICATION | LABOR CATEGORY DESCRIPTION |
|--------|---------------------------------|-----------------------------|----------------------------------|--|
| 54151S | Junior Data Engineer | 0 years | Masters | Assists in developing strategies for data acquisitions, archive recovery, and implementation of a database. Works in a data warehouse environment, which includes data design, database architecture, metadata and repository creation. Translates business needs into long-term architecture solutions. Defines, designs, and builds databases. Assists in developing data warehousing blueprints, evaluating hardware and software platforms, and integrating systems. Evaluates reusability of current data for additional analyses. Reviews object and data models and the metadata repository to structure the data for better management and quicker access. |
| 54151S | Intermediate Data Engineer | 3 years | Masters | Develops strategies for data acquisitions, archive recovery, and implementation of a database. Works in a data warehouse environment, which includes data design, database architecture, metadata and repository creation. Translates business needs into long-term architecture solutions. Defines, designs, and builds databases. Develops data warehousing blueprints, evaluating hardware and software platforms, and integrating systems. Evaluates reusability of current data for additional analyses. Reviews object and data models and the metadata repository to structure the data for better management and quicker access. |

Defines, designs, and builds databases. Develops data warehousing blueprints, evaluating hardware and software platforms, and integrating systems. Evaluates reusability of current data for additional analyses. Reviews object and data models and the metadata repository to structure the data for better management and quicker access. |
| 54151S | Junior Testing Engineer | 0 years | Bachelors | Subject matter specialist providing testing know-how in for the support of user requirements of complex to highly complex software/hardware applications. Directs and/or participates in all phases of risk management assessments and software/hardware development with emphasis on analysis of user requirements, test design and test tools selection. |
| 54151S | Intermediate Testing Engineer | 3 years | Bachelors | Subject matter specialist providing testing know-how in for the support of user requirements of complex to highly complex software/hardware applications. Directs and/or participates in all phases of risk management assessments and software/hardware development with emphasis on analysis of user requirements, test design and test tools selection. |
| 54151S | Senior Testing Engineer | 6 years | Masters | Subject matter specialist providing testing know-how in for the support of user requirements of complex to highly complex software/hardware applications. Directs and/or participates in all phases of risk management assessments and software/hardware development with emphasis on analysis of user requirements, test design and test tools selection. |
| 54151S | Subject Matter Expert | 10 years | Masters | Provide expert consultation services in specialized technical or functional areas. Provides technical leadership, direction, and strategic skills in support of complex information technology tasks that require unique or uncommon levels of expertise related to specific functional subject matter. |
| 54151S | Junior All Source Analyst | 0 years | Masters | Formulate and apply mathematical modeling and other optimizing methods to develop and interpret information that assists management with decision making, policy formulation, or other managerial functions. May collect and analyze data and develop decision support software, service, or products. May develop and supply optimal time, cost, or logistics networks for program evaluation, review, or implementation. |
| 54151S | Intermediate All Source Analyst | 3 years | Bachelors | Formulate and apply mathematical modeling and other optimizing methods to develop and interpret information that assists management with decision making, policy formulation, or other managerial functions. May collect and analyze data and develop decision support software, service, or products. May develop and supply optimal time, cost, or logistics networks for program evaluation, review, or implementation. |
| 54151S | Senior All Source Analyst | 6 years | Masters | Formulate and apply mathematical modeling and other optimizing methods to develop and interpret information that assists management with decision making, policy formulation, or other managerial functions. May collect and analyze data and develop decision support software, service, or products. May develop and supply optimal time, cost, or logistics networks for program evaluation, review, or implementation. |

| 54151S | Junior Intel Analyst | 0 years | Masters | Work in a dynamic environment, including communicating with agencies throughout the intelligence community (IC) to provide national-level decision-makers with global situational awareness for specific missions. Perform a wide range of duties associated with the validation of information in intelligence products containing information and/or data from numerous government and public data sources. Determine the credibility, value, significance, and relevancy of the information from various data sources to produce analytical products. Utilize technology and data exploitation techniques to provide both proactive and reactive support in investigations. Gather, interpret, and compare data to produce reports and draw conclusions. Brief management and maintain a collaborative relationship with both internal and external partners. |

Brief management and maintain a collaborative relationship with both internal and external partners. |
| 54151S | Junior Product Specialist | 0 years | Masters | Provides junior-level support for the deployment and operation of product-related solutions, usually at the direction of more senior specialists. Supports the analysis and resolution of hardware and software issues related to the deployment, optimization, and operation of product deployments. Has previous experience or training in the relevant product family. |
| 54151S | Intermediate Product Specialist | 2 years | Masters | Supports the deployment and operation of product-related solutions, usually at the direction of more senior specialists. Supports the analysis and resolution of hardware and software issues related to the deployment, optimization, and operation of product deployments. Has previous experience with and some expertise in the relevant product family. |
| 54151S | Senior Product Specialist | 4 years | Masters | Has expertise and experience in design and operation of product-related solutions. Provides guidance on analysis and resolution of hardware and software issues related to the deployment, optimization, and operation of product deployments. Broad technical experience, likely spanning solutions, data, and use cases. Has specific expertise in the relevant product family. |
| 54151S | SME Product Specialist | 6 years | Masters | Has substantial expertise in design and operation of product-related solutions. Provides senior guidance on analysis and resolution of hardware and software issues related to the deployment, optimization, and operation of product deployments. High degree of broad technical experience, likely spanning solutions, data, and use cases. Has specific expertise in the relevant product family. |
| 54151S | Junior Systems Engineer | 0 years | Bachelors | Engineering, and sustainment of systems infrastructure. Implementation and design of hardware and software. Monitoring of systems performance. Ensuring appropriate hardware and/or software meets functional and operational requirements. Hands-on experience with the acquisition, installation, testing, and implementation of systems components. Evaluation of current systems for effectiveness; recommendations regarding systems scalability systems, and troubleshooting of issues. Assists in the analysis, design and development of fully integrated technology solutions. |

Service Contract Labor Standards: The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCLS/SCA eligible labor categories. If and / or when the contractor adds SCLS/SCA labor categories to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS/SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.

GSA PRODUCTS AND RATES

The rates shown include the Industrial Funding Fee (IFF) of 0.75%
