Multiple Award Schedule – MAS

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order is available through GSA Advantage!™, a menu-driven database system. The INTERNET address for GSA Advantage!™ is: GSAAdvantage.gov.

**Contract Number:** 47QTCA19D00A7  
**Federal Supply Group:** Information Technology  
**Federal Supply Group:** Miscellaneous  
**FSC/PSC Group:** D399, 0000

For more information on ordering from Federal Supply Schedules go to the GSA Schedules page at GSA.gov.

Prices Shown Herein are Net (discount deducted)

**Contract Period:** April 17, 2019 to April 16, 2024

**Contractor Name:** Summit Technologies, Inc.

**Physical Address:** 7449 Joyce Ln,  
Navarre, FL 32566  
**Mailing Address:** P.O. Box 12108  
Pensacola, Florida 32566

**Phone Number:** (407) 645-2326  
**Fax Number:** (407) 645-2340  
**E-mail:** jclark@summittech.us  
**Website:** http://www.summittech.us/

**Contract Administrator:** Jeanette Clark

**Business Size:** Small Business, Service Disabled Veteran-Owned Small Business (SDVOSB)

Pricelist Effective through Modification PA-0004 dated June 24, 2021
Customer Information

1a. Table of Awarded Special Item Numbers with appropriate cross-reference to page numbers:

<table>
<thead>
<tr>
<th>Special Item Number</th>
<th>Special Item Description</th>
<th>Service Description Page</th>
<th>Awarded Price Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>54151S/RC/STLOC</td>
<td>Information Technology Professional Services</td>
<td>4 – 8</td>
<td>9 – 10</td>
</tr>
<tr>
<td>OLM/RC/STLOC</td>
<td>Order-Level Materials (OLM)</td>
<td>Defined at Order Level</td>
<td>Defined at Order Level</td>
</tr>
</tbody>
</table>

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. N/A

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item. See pages 4 – 8.

2. Maximum Order:

**Program/Project Manager Level 1**

**Functional Responsibility:** The Program/Project Manager directs the performance of one or more projects/tasks organized by technology, program, or client. Oversees technology development, marketing, resource allocation, and performance. Provides oral and written reports of program/project/task status to the customer. Exercises overall responsibility for program/project/task execution and success.

**Minimum Education and Experience:** BA/BS and 1 year of experience

**Program/Project Manager Level 2**

**Functional Responsibility:** The Program/Project Manager directs the performance of one or more projects/tasks organized by technology, program, or client. Oversees technology development, marketing, resource allocation, and performance. Provides oral and written reports of program/project/task status to the customer. Exercises overall responsibility for program/project/task execution and success.

**Minimum Education and Experience:** BA/BS and 5 years of experience

**Program/Project Manager Level 3**

**Functional Responsibility:** The Program/Project Manager directs the performance of one or more projects/tasks organized by technology, program, or client. Oversees technology development, marketing, resource allocation, and performance. Provides oral and written reports of program/project/task status to the customer. Exercises overall responsibility for program/project/task execution and success.

**Minimum Education and Experience:** BA/BS and 10 years of experience

**Program/Project Manager Level 4**

**Functional Responsibility:** The Program/Project Manager directs the performance of one or more projects/tasks organized by technology, program, or client. Oversees technology development, marketing, resource allocation, and performance. Provides oral and written reports of program/project/task status to the customer. Exercises overall responsibility for program/project/task execution and success.

**Minimum Education and Experience:** MA/MS and 15 years of experience

**System/Software Engineer Level 1**
Functional Responsibility: The Engineer defines work effort and executes requirements analysis, planning, design, engineering development, testing and validation. Applies and/or develops advanced technologies, scientific principles, theories and concepts in related technical disciplines or in a specialty.
Minimum Education and Experience: BA/BS and 1 year of experience

System/Software Engineer Level 2
Functional Responsibility: The Engineer defines work effort and executes requirements analysis, planning, design, engineering development, testing and validation. Applies and/or develops advanced technologies, scientific principles, theories and concepts in related technical disciplines or in a specialty.
Minimum Education and Experience: BA/BS and 5 years of experience

System/Software Engineer Level 3
Functional Responsibility: The Engineer defines work effort and executes requirements analysis, planning, design, engineering development, testing and validation. Applies and/or develops advanced technologies, scientific principles, theories and concepts in related technical disciplines or in a specialty.
Minimum Education and Experience: BA/BS and 8 years of experience

System/Software Engineer Level 4
Functional Responsibility: The Engineer defines work effort and executes requirements analysis, planning, design, engineering development, testing and validation. Applies and/or develops advanced technologies, scientific principles, theories and concepts in related technical disciplines or in a specialty.
Minimum Education and Experience: MA/MS and 12 years of experience

Analyst Level 1
Functional Responsibility: The Analyst provides specialized knowledge of system requirements and programming specifications. Designs solutions based on customer needs and technical considerations. Analyzes job tasks, organizational structure and user requirements to provide system-wide solutions. Applies analytical expertise to assist in defining, analyzing, validating and documenting complex operating environments, states of technology and current processes. Performs business process analyses.
Minimum Education and Experience: BA/BS and 1 year of experience

Analyst Level 2
Functional Responsibility: The Analyst provides specialized knowledge of system requirements and programming specifications. Designs solutions based on customer needs and technical considerations. Analyzes job tasks, organizational structure and user requirements to provide system-wide solutions. Applies analytical expertise to assist in defining, analyzing, validating and documenting complex operating environments, states of technology and current processes. Performs business process analyses.
Minimum Education and Experience: BA/BS and 5 years of experience

Analyst Level 3
Functional Responsibility: The Analyst provides specialized knowledge of system requirements and programming specifications. Designs solutions based on customer needs and technical considerations. Analyzes job tasks, organizational structure and user requirements to provide system-wide solutions. Applies analytical expertise to assist in defining, analyzing, validating and documenting complex operating environments, states of technology and current processes. Performs business process analyses.
Minimum Education and Experience: BA/BS and 8 years of experience

Analyst Level 4
Functional Responsibility: The Analyst provides specialized knowledge of system requirements and programming specifications. Designs solutions based on customer needs and technical considerations.
Analyzes job tasks, organizational structure and user requirements to provide system-wide solutions. Applies analytical expertise to assist in defining, analyzing, validating and documenting complex operating environments, states of technology and current processes. Performs business process analyses.

**Minimum Education and Experience:** MA/MS and 12 years of experience

**Technician Level 1**
**Functional Responsibility:** The Technician works from schematics, diagrams, written and verbal descriptions or defined plans to provide solutions to a variety of problems in area of technical specialty. Operates and maintains various systems and may determine actions to remedy malfunctions. Selects and adapts plans, techniques, designs or layouts. Conducts software installation, troubleshooting, testing, and system configuration modification. Performs hardware setup and maintenance on a variety of computer, network, or telecommunications systems.

**Minimum Education and Experience:** AA/AS and 1 year of experience

**Technician Level 2**
**Functional Responsibility:** The Technician works from schematics, diagrams, written and verbal descriptions or defined plans to provide solutions to a variety of problems in area of technical specialty. Operates and maintains various systems and may determine actions to remedy malfunctions. Selects and adapts plans, techniques, designs or layouts. Conducts software installation, troubleshooting, testing, and system configuration modification. Performs hardware setup and maintenance on a variety of computer, network, or telecommunications systems.

**Minimum Education and Experience:** AA/AS and 5 years of experience

**Technician Level 3**
**Functional Responsibility:** The Technician works from schematics, diagrams, written and verbal descriptions or defined plans to provide solutions to a variety of problems in area of technical specialty. Operates and maintains various systems and may determine actions to remedy malfunctions. Selects and adapts plans, techniques, designs or layouts. Conducts software installation, troubleshooting, testing, and system configuration modification. Performs hardware setup and maintenance on a variety of computer, network, or telecommunications systems.

**Minimum Education and Experience:** AA/AS and 8 years of experience

**Technician Level 4**
**Functional Responsibility:** The Technician works from schematics, diagrams, written and verbal descriptions or defined plans to provide solutions to a variety of problems in area of technical specialty. Operates and maintains various systems and may determine actions to remedy malfunctions. Selects and adapts plans, techniques, designs or layouts. Conducts software installation, troubleshooting, testing, and system configuration modification. Performs hardware setup and maintenance on a variety of computer, network, or telecommunications systems.

**Minimum Education and Experience:** AA/AS and 12 years of experience

**Administrative Support Specialist Level 1**
**Functional Responsibility:** The Administrative Support Specialist performs document planning and support, project administration, human resource administration, office management, security management and planning functions. Collects and organizes information required for preparation of proposals, manuals, training materials, guides, reports and deliverables. Edits requirements documents, functional descriptions, system specifications, design documents, manuals, reports, and other documentation.

**Minimum Education and Experience:** AA/AS and 1 year of experience

**Administrative Support Specialist Level 2**
**Functional Responsibility:** The Administrative Support Specialist performs document planning and support, project administration, human resource administration, office management, security management and planning functions. Collects and organizes information required for preparation of proposals, manuals, training materials, guides, reports and deliverables. Edits requirements documents, functional descriptions, system specifications, design documents, manuals, reports, and other documentation.

**Minimum Education and Experience:** AA/AS and 5 years of experience

**Administrative Support Specialist Level 3**

**Functional Responsibility:** The Administrative Support Specialist performs document planning and support, project administration, human resource administration, office management, security management and planning functions. Collects and organizes information required for preparation of proposals, manuals, training materials, guides, reports and deliverables. Edits requirements documents, functional descriptions, system specifications, design documents, manuals, reports, and other documentation.

**Minimum Education and Experience:** BA/BS and 8 years of experience

**Administrative Support Specialist Level 4**

**Functional Responsibility:** The Administrative Support Specialist performs document planning and support, project administration, human resource administration, office management, security management and planning functions. Collects and organizes information required for preparation of proposals, manuals, training materials, guides, reports and deliverables. Edits requirements documents, functional descriptions, system specifications, design documents, manuals, reports, and other documentation.

**Minimum Education and Experience:** MA/MS and 12 years of experience

**Network Administrator Level 1**

**Functional Responsibility:** The Network Administrator performs network maintenance by performing network monitoring and analysis, and performance tuning; troubleshooting network problems; escalating problems to vendor. Secures network by developing network access, monitoring, control, and evaluation; maintaining documentation.

**Minimum Education and Experience:** AA/AS and 1 year of experience

**Network Administrator Level 2**

**Functional Responsibility:** The Network Administrator performs network maintenance by performing network monitoring and analysis, and performance tuning; troubleshooting network problems; escalating problems to vendor. Secures network by developing network access, monitoring, control, and evaluation; maintaining documentation.

**Minimum Education and Experience:** AA/AS and 5 years of experience

**Network Administrator Level 3**

**Functional Responsibility:** The Network Administrator performs network maintenance by performing network monitoring and analysis, and performance tuning; troubleshooting network problems; escalating problems to vendor. Secures network by developing network access, monitoring, control, and evaluation; maintaining documentation.

**Minimum Education and Experience:** BA/BS and 8 years of experience

**Network Administrator Level 4**

**Functional Responsibility:** The Network Administrator performs network maintenance by performing network monitoring and analysis, and performance tuning; troubleshooting network problems; escalating problems to vendor. Secures network by developing network access, monitoring, control, and evaluation; maintaining documentation.

**Minimum Education and Experience:** MA/MS and 12 years of experience
Subject Matter Expert Level 1

Functional Responsibility: The Subject Matter Expert maintains a complete understanding and application of principles, concepts, practices, and standards. Full knowledge of industry practices. Develops solutions to a variety of complex problems. May refer to established precedents and policies. Work is performed without appreciable direction. Exercises considerable latitude in determining technical objectives of assignment. Completed work is reviewed from a relatively long-term perspective. Completes re-engineering efforts of complex technical processes and systems; applies advanced scientific technologies in systems, experiments, and demonstrations; and introduces into systems the application of leading edge technological developments.

Minimum Education and Experience: AA/AS and 1 year of experience

Subject Matter Expert Level 2

Functional Responsibility: The Subject Matter Expert maintains a complete understanding and application of principles, concepts, practices, and standards. Full knowledge of industry practices. Develops solutions to a variety of complex problems. May refer to established precedents and policies. Work is performed without appreciable direction. Exercises considerable latitude in determining technical objectives of assignment. Completed work is reviewed from a relatively long-term perspective. Completes re-engineering efforts of complex technical processes and systems; applies advanced scientific technologies in systems, experiments, and demonstrations; and introduces into systems the application of leading edge technological developments.

Minimum Education and Experience: AA/AS and 5 years of experience

Subject Matter Expert Level 3

Functional Responsibility: The Subject Matter Expert maintains a complete understanding and application of principles, concepts, practices, and standards. Full knowledge of industry practices. Develops solutions to a variety of complex problems. May refer to established precedents and policies. Work is performed without appreciable direction. Exercises considerable latitude in determining technical objectives of assignment. Completed work is reviewed from a relatively long-term perspective. Completes re-engineering efforts of complex technical processes and systems; applies advanced scientific technologies in systems, experiments, and demonstrations; and introduces into systems the application of leading edge technological developments.

Minimum Education and Experience: BA/BS and 8 years of experience

Subject Matter Expert Level 4

Functional Responsibility: The Subject Matter Expert maintains a complete understanding and application of principles, concepts, practices, and standards. Full knowledge of industry practices. Develops solutions to a variety of complex problems. May refer to established precedents and policies. Work is performed without appreciable direction. Exercises considerable latitude in determining technical objectives of assignment. Completed work is reviewed from a relatively long-term perspective. Completes re-engineering efforts of complex technical processes and systems; applies advanced scientific technologies in systems, experiments, and demonstrations; and introduces into systems the application of leading edge technological developments.

Minimum Education and Experience: MA/MS and 12 years of experience
