

**FEDERAL SUPPLY SERVICE
INFORMATION TECHNOLOGY SCHEDULE PRICELIST
GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY EQUIPMENT, SOFTWARE AND SERVICES**

Special Item No. 132-33 Perpetual Software Licenses
Special Item No. 132-41 Earth Observation Solutions (EOS)
Special Item No. 132-51 Information Technology Professional Services

SPECIAL ITEM NUMBER 132-33 - PERPETUAL SOFTWARE LICENSES

Software maintenance as a product includes the publishing of bug/defect fixes via patches and updates/upgrades in function and technology to maintain the operability and usability of the software product. It may also include other no charge support that are included in the purchase price of the product in the commercial marketplace. No charge support includes items such as user blogs, discussion forums, on-line help libraries and FAQs (Frequently Asked Questions), hosted chat rooms, and limited telephone, email and/or web-based general technical support for user's self diagnostics.

Software maintenance as a product does NOT include the creation, design, implementation, integration, etc. of a software package. These examples are considered software maintenance as a service.

FSC CLASS 7030 - INFORMATION TECHNOLOGY SOFTWARE
Large Scale Computers -- Application Software
Microcomputers -- Application Software

SIN 132-41 - TERMS AND CONDITIONS APPLICABLE TO EARTH OBSERVATION SOLUTIONS (EOS)

SIN 132-51 - INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES

FPDS Code D302 IT Systems Development Services
FPDS Code D306 IT Systems Analysis Services
FPDS Code D307 Automated Information Systems Design and Integration Services
FPDS Code D310 IT Backup and Security Services
FPDS Code D316 IT Network Management Services
FPDS Code D399 Other Information Technology Services, Not Elsewhere Classified

Note 1: All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

Note 2: Offerors and Agencies are advised that the Group 70 – Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services.

Note 3: This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision of implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances the services must be performance by the publisher or manufacturer or one of their authorized agents.

INFORMATION FOR ORDERING ACTIVITIES

General Terms and Conditions:

- 1a. Awarded Special Item Numbers (SIN):
SIN 132-33 PERPETUAL SOFTWARE LICENSES;
SIN 132-41 TERMS AND CONDITIONS APPLICABLE TO EARTH OBSERVATION SOLUTIONS (EOS);
SIN 132-51 INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES
- 1b. Lowest Priced Model Number and Price: *Approved GSA Pricing*
- 1c. Contractor hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors:
Refer to page 14 for IT Professional Labor Category Descriptions and page 31 for rates
2. Maximum order.
 Special Item Number 132-33 – Perpetual Software Licenses\$500,000
 Special Item Number 132-41 – Earth Observation Solutions\$1,000,000
 Special Item Number 132-51 – Information Technology (IT) Professional Services\$500,000
3. Minimum order \$100
4. Geographic coverage (delivery area): *Domestic delivery only.*
5. Point of production (city, county, and State or foreign country).
Harris Corporation
 2400 Palm Bay Road, NE
 Palm Bay, FL 32905-3399
6. Discount from list prices or statement of net price.
Prices shown are NET Prices; Basic Discounts have been deducted.
7. Quantity discounts.

22. List of participating dealers is *not applicable*.
23. Preventive maintenance is *not applicable*.
- 24a. Special attributes such as environmental attributes are *not applicable*.
- 24b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location.) The EIT standards can be found at: www.Section508.gov/.
25. Data Universal Number System (DUNS) number: 02-171-5206
26. Notification regarding registration in SAM.gov database: C-Edge is registerd in the SAM database

**TERMS AND CONDITIONS APPLICABLE TO PERPETUAL SOFTWARE LICENSES
(SPECIAL ITEM NUMBER 132-33)**

1. INSPECTION/ACCEPTANCE

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any software that has been tendered for acceptance. The ordering activity may require repair or replacement of nonconforming software at no increase in contract price. The ordering activity must exercise its post acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the software, unless the change is due to the defect in the software. Inspection of services is in accordance with 552.212-4 CONTRACT TERMS AND CONDITIONS—COMMERCIAL ITEMS (JAN 2017) (DEVIATION – FEB 2007) (DEVIATION - FEB 2018) for Firm-Fixed Price orders; or GSAR 552.212-4 CONTRACT TERMS AND CONDITIONS—COMMERCIAL ITEMS (JAN 2017) (DEVIATION - FEB 2018) (ALTERNATE I - JAN 2017) (DEVIATION - FEB 2007) for Time-and-Materials and Labor-Hour Contracts orders placed under this contract.

2. COMMERCIAL SUPPLIER AGREEMENTS

Commercial Supplier Agreements to include Enterprise User License Agreements or Terms of Service (TOS) agreements. The Contractor shall provide all Commercial Supplier Agreements to include Enterprise User License Agreements or Terms of Service (TOS) agreements in an editable Microsoft Office (Word) format for review prior to award.

3. GUARANTEE/WARRANTY

a. The Contractor's commercial guarantee/warranty shall be included in the Commercial Supplier Agreement to include Enterprise User License Agreements or Terms of Service (TOS) agreements.

b. During the first sixty (60) days following installation of the MET Software (the "Warranty Period"), Harris warrants that the MET Software will operate in material conformance to MET's published specifications. Harris does not, however, warrant that the MET Software or any portion thereof is error-free. During the Warranty Period, if you discover an error in the MET Software that causes it not to operate in material conformance to MET's published specification, you shall submit to Harris a written report describing such error in sufficient detail. Harris will then use its reasonable efforts to correct such error or to provide a software patch or bypass around such error (collectively, "Fixes"). All Fixes provided shall constitute MET Software hereunder and shall be governed by the terms hereof. This limited warranty shall not apply to any error caused by any unauthorized modification to the MET Software or by your failure to incorporate in the Licensed Product(s) any Fixes or Updates that MET has provided.

c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

4. TECHNICAL SERVICES

The Contractor, without additional charge to the ordering activity, shall provide a hot line technical support number (1-888-638-0133) for the purpose of providing user assistance and guidance in the implementation of the software for sixty (60) days. The technical support number is available from 8:00 a.m. to 5:00 p.m., Eastern Time, Monday through Thursday, excluding Holidays. Software Maintenance (see Section 5) may be purchased on an annual basis (see Price List)

5. SOFTWARE MAINTENANCE –

a. Software maintenance as it is defined: Software Maintenance as a Product (SIN 132-33)

Software maintenance as a product includes the publishing of bug/defect fixes via patches and updates/upgrades in function and technology to maintain the operability and usability of the software product. It may also include other no charge support that is included in the purchase price of the product in the commercial marketplace. No charge support includes items such as user blogs, discussion forums, on-line help libraries and Frequently Asked Questions (FAQ's), hosted chat rooms, and limited telephone, email and/or web-based general technical support for user's self-diagnostics.

Software maintenance as a product does NOT include the creation, design, implementation, integration, etc. of a software package. These examples are considered software maintenance services.

Software Maintenance as a product is billed at the time of purchase.

6. PERIODS OF TERM LICENSES (132-32) AND MAINTENANCE (132-34) – Not Offered

7. CONVERSION FROM TERM LICENSE TO PERPETUAL LICENSE – Not Offered

8. TERM LICENSE CESSATION – Not Offered

9. UTILIZATION LIMITATIONS – (132-33)

- a. Software acquisition is limited to commercial computer software defined in FAR Part 2.101.
- b. When acquired by the ordering activity, commercial computer software and related documentation so legend shall be subject to the following:

(1) Title to and ownership of the software and documentation shall remain with the Contractor, unless otherwise specified.

(2) Software licenses are by site and by ordering activity. An ordering activity is defined as a cabinet level or independent ordering activity. The software may be used by any subdivision of the ordering activity (service, bureau, division, command, etc.) that has access to the site the software is placed at, even if the subdivision did not participate in the acquisition of the software. Further, the software may be used on a sharing basis where multiple agencies have joint projects that can be satisfied by the use of the software placed at one ordering activity's site. This would allow other agencies access to one ordering activity's database. For ordering activity public domain databases, user agencies and third parties may use the computer program to enter, retrieve, analyze and present data. The user ordering activity will take appropriate action by instruction, agreement, or otherwise, to protect the Contractor's proprietary property with any third parties that are permitted access to the computer programs and documentation in connection with the user ordering activity's permitted use of the computer programs and documentation. For purposes of this section, all such permitted third parties shall be deemed agents of the user ordering activity.

(3) Except as is provided in paragraph 8.b(2) above, the ordering activity shall not provide or otherwise make available the software or documentation, or any portion thereof, in any form, to any third party without the prior written approval of the Contractor. Third parties do not include prime Contractors, subcontractors and agents of the ordering activity who have the ordering activity's permission to use the licensed software and documentation at the facility, and who have agreed to use the licensed software and documentation only in accordance with these restrictions. This provision does not limit the right of the ordering activity to use software, documentation, or information therein, which the ordering activity may already have or obtains without restrictions.

(4) The ordering activity shall have the right to use the computer software and documentation with the computer for which it is acquired at any other facility to which that computer may be transferred, or in cases of disaster recovery, the ordering activity has the right to transfer the software to another site if the ordering activity site for which it is acquired is deemed to be unsafe for ordering activity personnel; to use the computer software and documentation with a backup computer when the primary computer is inoperative; to copy computer programs for safekeeping (archives) or backup purposes; to transfer a copy of the software to another site for purposes of benchmarking new hardware and/or software; and to modify the software and documentation or combine it with other software, provided that the unmodified portions shall remain subject to these restrictions.

(5) "Commercial Computer Software" may be marked with the Contractor's standard commercial restricted rights legend, but the schedule contract and schedule pricelist, including this clause, "Utilization Limitations" are the only governing terms and conditions, and shall take precedence and supersede any different or additional terms and conditions included in the standard commercial legend.

(6) Licensee Data belongs exclusively to Licensee, regardless of where the Data may reside at any moment in time including, but not limited to Licensor hardware, networks or other infrastructure and facilities where Data may reside, transit through or be stored from time to time. Licensor makes no claim to a right of ownership in Licensee Data. Licensor agrees to keep the Licensee Data Confidential as that term is defined in the relevant FAR and DFARS provisions pertaining to Confidential Information and Confidentiality. Licensor is not permitted to use Licensee's data for a purpose that is not explicitly granted in writing by Licensee. Upon Licensee request, for any reason whatsoever, Licensor must promptly return all Licensee Data in Licensor's possession in a format as may be designated at the time of request by Licensee.

(7) Licensee may create or hire others (including Licensor) to create modifications, customizations or other enhancements to the Software which might be classified as "Derivative Works" of the software. Unless otherwise negotiated and mutually agreed upon at the order level, the intellectual property (IP) rights to the Derivative Works shall be owned by the owner of the underlying intellectual property. The Derivative Work[s] shall be made available to the Licensee through a royalty free, perpetual worldwide, no charge license to the Licensee.

(8) Software Asset Identification Tags (SWID) (Option 1 SIN 132-33)

Option 1 is applicable when the Offeror agrees to include the International Organization for Standardization/International Electrotechnical Commission 19770-2 (ISO/IEC 19770- 2:2015) standard identification tag (SWID Tag) as an embedded

element in the software. An ISO/IEC 19970-2 tag is a discoverable identification element in software that provides licensees enhanced asset visibility. Enhance visibility supports both the goals of better software asset management and license compliance. Offerors may use the National Institute of Standards and Technology (NIST) document "NISTIR 8060: Guidelines for Creation of Interoperable Software Identification (SWID) Tags," December 2015 to determine if they are in compliance with the ISO/IEC 19770-2 standard.

Section 837 of The Federal Information Technology Acquisition Reform Act (FITARA) of 2014, requires GSA to seek agreements with software vendors that enhance government- wide acquisition, shared use, and dissemination of software, as well as compliance with end user license agreements. The Megabyte Act of 2016 requires agencies to inventory software assets and to make informed decisions prior to new software acquisitions. In June of 2016, the Office of Management and Budget issued guidance on software asset management requiring each CFO Act (Public Law 101-576 – 11/15/1990) agency to begin software inventory management (M-16-12). To support these requirements, Offerors may elect to include the terms of Option 1 and/or Option 2, which support software asset management and government-wide reallocation or transferability of perpetually licensed software.

(9) Reallocation of Perpetual Software (Option 2 SIN 132-33)

a. The purpose of SIN 132-33 OPTION 2 is to allow ordering activities to transfer software assets for a pre-negotiated charge to other ordering activities.

b. When an ordering activity becomes aware that a reusable software asset may be available for transfer, it shall contact the Contractor, identify the software license or licenses in question, and request that these licenses be reallocated or otherwise made available to the new ordering activity.

c. Contractors shall release the original ordering activity from all future obligations under the original license agreement and shall present the new ordering activity with an equivalent license agreement. When the new ordering activity agrees to the license terms, henceforth any subsequent infringement or breach of licensing obligations by the new ordering activity shall be a matter exclusively between the new ordering activity and the Contractor.

d. The original ordering activity shall de-install, and/or make unusable all of the software assets that are to be transferred. It shall have no continuing right to use the software and any usage shall be considered a breach of the Contractor's intellectual property and a matter of dispute between the original ordering activity/original license grantee and the licensor.

e. As a matter of convenience, once the original licenses are deactivated, de-installed, or made otherwise unusable by the original ordering activity or license grantee, the Contractor may elect to issue new licenses to the new ordering activity to replace the old licenses. When new licenses are not issued, the Contractor shall provide technical advice on how best to achieve the functional transfer of the software assets.

f. Software assets that are eligible for transfer that have lapsed Software Maintenance Services (SIN 132-34) may require a maintenance reinstatement fee, chargeable to the new ordering activity or license grantee. When such a fee is paid, the new ordering activity shall receive all the rights and benefits of Software Maintenance Services.

g. When software assets are eligible for transfer, and are fully covered under pre-paid Software Maintenance Services (SIN 132-34), the new ordering activity shall not be required to pay maintenance for those license assets prior to the natural termination of the paid for maintenance period. The rights associated with paid for current Software Maintenance Services shall automatically transfer with the software licenses without fee. When the maintenance period expires, the new ordering activity or license grantee shall have the option to renew maintenance.

h. The administrative fee to support the transfer of licenses, exclusive of any new incremental licensing or maintenance costs shall be 100 percent (%) of the original license fee. The fee shall be paid only at the time of transfer. In applying the transfer fee, the Software Contractor shall provide transactional data that supports the original costs of the licenses.

c. Single User and Server Licenses.

(1)The SOFTWARE is distributed under one of two distinct license agreements, a "SINGLE-USER" license or a "SERVER" license. If the ordering activity purchases a SINGLE-USER license, LICENSOR grants the ordering activity a restricted, non-exclusive, non-transferable license to use the SOFTWARE for installing one copy of the SOFTWARE on a single computer. Ordering activity may also store or install a copy of the SOFTWARE on a storage device, such as a network server, used (i) to serve the SOFTWARE to another of ordering activity's workstation; or (ii) run the SOFTWARE remotely displayed on another of ordering activity's workstations. A license for the SOFTWARE may not be shared or used concurrently on different computers. The SOFTWARE is licensed as a single product; it may not be separated for use on more than one computer. Contractor shall be allowed to audit ordering activity's use of the SOFTWARE to verify compliance with all terms and conditions hereof.

(2)If the ordering activity needs to install the SOFTWARE on a server-class machine (e.g., 3or more processors) for use by more than one person or to support batch processing of imagery, the ordering activity must purchase a SERVER license so as not to be restricted by the SINGLE-USER license.

10. SOFTWARE CONVERSIONS – (132-32 AND 132-33) – Not Offered

11. DESCRIPTIONS AND EQUIPMENT COMPATIBILITY

The Contractor shall include, in the schedule pricelist, a complete description of each software product and a list of equipment on which the software can be used. Also, included shall be a brief, introductory explanation of the modules and documentation which are offered.

11. RIGHT-TO-COPY PRICING – Not Offered

**TERMS AND CONDITIONS APPLICABLE TO EARTH OBSERVATION SOLUTIONS (EOS)
(SPECIAL ITEM NUMBER 132-41)**

1. SCOPE

- a. The terms and conditions stated under Special Item Numbers 132-41 Earth Observation Solutions apply exclusively to this SIN within the Information Technology Schedule.
- b. This SIN is a solutions SIN, which involves services and products to include but not limited to imagery, subscriptions, software, platform and data as a service, and end-to-end data analytics. This SIN provides ordering activities with access to a wide range of Earth Observation Solutions.
- c. Earth Observation Solutions provided shall comply with all certifications and industry standards as specified by ordering activity.
- d. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. INFORMATION ASSURANCE/SECURITY REQUIREMENTS

- a. The contractor shall meet information assurance and security requirements in accordance with the ordering activity requirements specified in the order and/or Blanket Purchase Agreement. The ordering activity is responsible for ensuring to the maximum extent practicable that each requirement issued is in compliance with the Federal Information Security Management Act (FISMA) as applicable.
- b. The ordering activity shall assign an impact level (per Federal Information Processing Standards Publication 199 & 200 (FIPS 199, "Standards for Security Categorization of Federal Information and Information Systems") (FIPS 200, "Minimum Security Requirements for Federal Information and Information Systems") prior to issuing the initial statement of work. Evaluations shall consider the extent to which each proposed service accommodates the necessary security controls based upon the assigned impact level. The Contractor awarded the SIN shall be capable of meeting at least the minimum security requirements assigned against a low-impact information system.
- c. The ordering activity reserves the right to independently evaluate, audit, and verify the FISMA compliance for any proposed or awarded services. All FISMA certification, accreditation, and evaluation activities are the responsibility of the ordering activity.
- d. Ordering activities are responsible for determining any additional information assurance and security related requirements based on the nature of the application and relevant mandates. This may include incorporation of the appropriate security forms (e.g., a DD-254) for any special clearance requirements and indoctrinations, such as Sensitive Compartmented Information (SCI). This may also include DOD Directives cited in specific orders and Blanket Purchase Agreements.

3. STANDARDS COMPLIANCE

- a. Vendor suitability for offering solutions through the Earth Observation Solutions SIN must be in accordance with the laws and standards when cited applicable to specific orders and Blanket Purchase Agreements. Offerings shall comply with cited Department of Defense (DoD) standards, Intelligence Community (IC) standards, Open Geospatial Consortium (OGC) standards (<http://www.opengeospatial.org/standards>), and other standards such as <https://nationalmap.gov/standards> stated as applicable in specific orders and Blanket Purchase Agreements.

4. ORDER

- a. Ordering activities/agencies may use written orders, Electronic Data Interchange (EDI) orders, Blanket Purchase Agreements, individual purchase orders, delivery orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All delivery or task orders are subject to the terms and conditions of the contract. In the event of conflict between an order and the contract, the contract will take precedence.

5. PERFORMANCE OF SERVICES

- a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
- b. The Contractor agrees to render services during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
- c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.
- d. Any Contractor travel required in the performance of Earth Observation Solutions must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts. All travel will be agreed upon with the client prior to the Contractor's travel.

6. INSPECTION/ACCEPTANCE

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any product that has been tendered for acceptance. The ordering activity may require repair or replacement of nonconforming item at no increase in contract price. The ordering activity must exercise its post acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the product, unless the change is due to the defect in the product. For inspection and acceptance, the latest versions in the contract apply of 52.212-4 CONTRACT TERMS AND CONDITIONS –COMMERCIAL ITEMS and 552.212-4 - CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS.

7. COMMERCIAL SUPPLIER AGREEMENTS

COMMERCIAL SUPPLIER AGREEMENTS TO INCLUDE ENTERPRISE USER LICENSE AGREEMENTS OR TERMS OF SERVICE (TOS) AGREEMENTS. THE CONTRACTOR SHALL PROVIDE ALL COMMERCIAL SUPPLIER AGREEMENTS TO INCLUDE ENTERPRISE USER LICENSE AGREEMENTS OR TERMS OF SERVICE (TOS) AGREEMENTS IN AN EDITABLE MICROSOFT OFFICE (WORD) FORMAT FOR REVIEW PRIOR TO AWARD.

8. WARRANTY

- a. Unless specified otherwise in this contract, the Contractor’s standard commercial guarantee/warranty as stated in the contract’s commercial pricelist will apply to this contract.
 - No commercial guarantee/warranty is provided.
- b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract. If no implied warranties are given, an express warranty of at least 60 days must be given in accordance with FAR 12.404(b)(2).
- c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

9. TECHNICAL SERVICES

The Contractor, without additional charge to the ordering activity, shall provide a hot line technical support number for the purpose of providing user assistance and guidance in the implementation of any software provided. The technical support number will be provided to the ordering activity upon receipt of each order.

10. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (MAY 2014) Rights in Data – General, may apply.

The Contractor shall comply with contract clause (52.204-21) to the Federal Acquisition Regulation (FAR) for the basic safeguarding of contractor information systems that process, store, or transmit Federal data received by the contract in performance of the contract. This includes contract documents and all information generated in the performance of the contract.

11. RESPONSIBILITIES OF THE ORDERING ACTIVITY

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite services.

12. All work performed under the Earth Observation Solutions SIN shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

13. ORGANIZATIONAL CONFLICTS OF INTEREST

- a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.
- b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors

at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

14. INVOICES

The Contractor, upon completion of the work ordered, shall submit invoices. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

15. RESUMES

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request or as required. The contractor is required to provide personnel meeting the qualifications specified under any labor categories quoted on a Time & Materials order or that form the Firm Fixed Price.

16. APPROVAL OF SUBCONTRACTS

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

17. DESCRIPTION OF SERVICES AND PRICING – NOT APPLICABLE

a. The Contractor shall provide a description of offerings under Earth Observation Solutions SIN in the same manner as the Contractor sells to its commercial and ordering activity customers. The contractor shall provide a description and any applicable licensing should be included. If the contractor is proposing hourly rates (for hours that are not already rolled into a subscription), then a description of all corresponding commercial job titles (labor categories) for those individuals who will perform the service should be provided.

b. Pricing shall be in accordance with the Contractor's customary commercial practices; e.g., hourly rates, monthly rates, term rates, and/or fixed prices, minimum general experience and minimum education.

The following is an example of the manner in which the description of a commercial job title should be presented if applicable. Contractors shall only use personnel who meet the requirements or any equivalent combination of education and experience cited by the vendor:

EXAMPLE: Commercial Job Title: System Engineer

Minimum/General Experience: Three (3) years of technical experience which applies to systems analysis and design techniques for complex computer systems. Requires competence in all phases of systems analysis techniques, concepts and methods; also requires knowledge of available hardware, system software, input/output devices, structure and management practices.

Functional Responsibility: Guides users in formulating requirements, advises alternative approaches, conducts feasibility studies.

Minimum Education: Bachelor's Degree in Computer Science

c. Group 70 Information Technology Schedule is not to be used as a means to procure services which fall under the Brooks Act. The services offered under this SIN shall NOT include construction, alteration of real property or Architect-Engineering (A-E) services as set forth in FAR Part 36. FAR 36.6 distinguishes between mapping services of an A-E nature and mapping services which are not connected nor incidental to the traditionally accepted A-E Services that are allowable on Schedule 70.

**TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY (IT)
PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 132-51)**

1. SCOPE

- a. The prices, terms and conditions stated under Special Item Number 132-51 Information Technology Professional Services apply exclusively to IT Services within the scope of this Information Technology Schedule.
- b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. PERFORMANCE INCENTIVES

- a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract in accordance with this clause.
- b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.

Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3. ORDER

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. PERFORMANCE OF SERVICES

- a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
- b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.

The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.

Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

5. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)

- (a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-

- (1) Cancel the stop-work order; or

- (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.
- (b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-
 - (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
 - (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.
- © If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.
- (d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6. INSPECTION OF SERVICES

In accordance with 552.212-4 CONTRACT TERMS AND CONDITIONS–COMMERCIAL ITEMS (JAN 2017) (DEVIATION – FEB 2007)(DEVIATION - FEB 2018) for Firm-Fixed Price orders; or GSAR 552.212-4 CONTRACT TERMS AND CONDITIONS-COMMERCIAL ITEMS (JAN 2017) (DEVIATION - FEB 2018) (ALTERNATE I - JAN 2017) (DEVIATION - FEB 2007) for Time-and-Materials and Labor-Hour Contracts orders placed under this contract.

7. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Dec 2007) Rights in Data – General, may apply.

8. RESPONSIBILITIES OF THE ORDERING ACTIVITY

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Services.

9. INDEPENDENT CONTRACTOR

All IT Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10. ORGANIZATIONAL CONFLICTS OF INTEREST

a. Definitions.
 "Contractor" means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

"Contractor and its affiliates" and "Contractor or its affiliates" refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An "Organizational conflict of interest" exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor's or its affiliates' objectivity in performing contract work.

b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate

organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

11. INVOICES

The Contractor, upon completion of the work ordered, shall submit invoices for IT services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12. PAYMENTS

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to labor-hour orders placed under this contract. 52.216-31(Feb 2007) Time-and Materials/Labor-Hour Proposal Requirements—Commercial Item Acquisition. As prescribed in 16.601(e)(3), insert the following provision:

a. The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.

b. The offeror must specify fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by—

(1) The offeror;

(2) Subcontractors; and/or

(3) Divisions, subsidiaries, or affiliates of the offeror under a common control.

13. RESUMES

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. INCIDENTAL SUPPORT COSTS

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

15. APPROVAL OF SUBCONTRACTS

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

16. DESCRIPTION OF IT SERVICES

Job Title: ASSOCIATE SOFTWARE/SYSTEM ENGINEER (Rate code: E-L1)

Minimum/General Experience: Limited use and/or application of basic principles, theories, and concepts. Develops solutions to problems of limited scope. Limited originality is required in dealing with unusual, incomplete or conflicting data.

Functional Responsibility: Specific detailed guidelines provided for: the planning, design, development and implementation of Intra/Internet, computer-based training, web-based training and interactive electronic applications; and analyzing and understanding business requirements.

Minimum Education: B.S. Engineering/Computer Science, A.S. plus 10 years experience, or 15 years of equivalent experience

Job Title: SOFTWARE/SYSTEM ENGINEER (Rate code: E-L2)

Minimum/General Experience: Full use and application of standard principles, theories, concepts and techniques. Provides solutions to a variety of problems involving multiple variables and inter-relationships.

Functional Responsibility: Purpose and desired results indicated for: the planning, design, development and implementation of Intra/Internet, computer-based training, web-based training and interactive electronic applications; designs and develops user interface features; developing animation and special effects graphics; analyzing and understanding business requirements and

translating into multimedia or web applications; researching and tracking new technologies in order to provide technical expertise in developing applications; providing draft written design documents, test plans, and test results.

Minimum Education: M.S. Engineering/Computer Science, B.S. Engineering/Computer Science with 2 years experience, A.S. with 12 years experience, or 17 years of equivalent experience

Job Title: SR SOFTWARE/SYSTEM ENGINEER (Rate code: E-L3)

Minimum/General Experience: Wide application of principles, theories, and concepts in the field plus a working knowledge of other related disciplines. Develops thorough, practicable solutions to a variety of difficult problems involving multiple variables. Considers inter-relations that may not be clearly evident.

Functional Responsibility: Purpose and desired results indicated for: the planning, design, development and implementation of Intra/Internet, computer-based training, web-based training and interactive electronic applications; designs and develops user interface features; developing animation and special effects graphics; analyzing and understanding business requirements and translating into multimedia or web applications; researching and tracking new technologies in order to provide technical expertise in developing applications; providing written design documents, test plans, and test results; working with outside vendors in developing tests to ensure feature functionality.

Minimum Education: PhD, M.S. Engineering/Computer Science with 3 years experience, B.S. Engineering/Computer Science with 5 years experience, A.S. with 15 years experience, or 19 years of equivalent experience.

Job Title: LEAD SOFTWARE/SYSTEM ENGINEER (Rate code: E-L4)

Minimum/General Experience: Applies extensive expertise as a generalist or specialist. Develops solutions to complex problems, which require the regular use of ingenuity and creativity. Consideration is given to the inter-relationships that are not clearly evident.

Functional Responsibility: Considerable judgment is needed in extensively adapting or in making compromises to fit unusual or complex situations for: the planning, design, development and implementation of Intra/Internet, computer-based training, web-based training and interactive electronic applications; designs and develops user interface features; developing animation and special effects graphics; analyzing and understanding business requirements and translating into multimedia or web applications; researching and tracking new technologies in order to provide technical expertise in developing applications; providing written design documents, test plans, and test results; working with outside vendors in developing tests to ensure feature functionality.

Minimum Education: PhD with 4 years experience, M.S. Engineering/Computer Science with 7 years experience, B.S. Engineering/Computer Science with 9 years experience, A.S. with 19 years experience, or 23 years of equivalent experience.

Job Title: STAFF SOFTWARE/SYSTEM ENGINEER (Rate code: E-L5)

Minimum/General Experience: Applies advanced principles, theories, and concepts. Contributes to the development of new principles and concepts. Works on unusually complex problems and provides solutions which are highly innovative and ingenious.

Functional Responsibility: Acts as advisor to top management and customers on advanced technical research studies and applications for: the planning, design, development and implementation of Intra/Internet, computer-based training, web-based training and interactive electronic applications; designs and develops user interface features; developing animation and special effects graphics; analyzing and understanding business requirements and translating into multimedia or web applications; researching and tracking new technologies in order to provide technical expertise in developing applications; providing written design documents, test plans, and test results; working with outside vendors in developing tests to ensure feature functionality.

Minimum Education: PhD with 9 years experience, M.S. Engineering/Computer Science with 12 years experience, B.S. Engineering/Computer Science with 14 years experience, A.S. with 24 years experience, or 28 years of equivalent experience.

Job Title: PRINCIPLE SOFTWARE/SYSTEM ENGINEER (Rate code: E-L6)

Minimum/General Experience: Exhibits an exceptional degree of ingenuity, creativity, and resourcefulness. Applies and/or develops highly advanced technologies, scientific principles, theories and concepts. Work on highly complex problems, which are broad in scope and provide solutions, which are highly innovative, ingenious, new and unprecedented in nature.

Functional Responsibility: Works independently to uncover and resolve problems associated with the development and implementation of software programs. Plans R&D programs and recommends technological application programs to accomplish long-term objectives. Is the prime spokesperson to customer on company capabilities and future software efforts.

Minimum Education: PhD with 15 years experience, M.S. Engineering/Computer Science with 18 years experience, B.S. Engineering/Computer Science with 20 years experience.

Job Title: TECHNICIAN (Rate code: NE-LH)

Minimum/General Experience: No prior experience required

Functional Responsibility: Learns the process for performing basic audits and tests of software products in accordance with software test plans and procedures. Debugs and characterizes defects, providing detailed configuration and descriptions for passing and failing tests for test reports with close supervision. Learns to maintain documentation of test operations and to report results to engineering. Learns processes to identify actual or potential problems in test plans or company products.

Education: High School

Job Title: SR TECHNICIAN (Rate code: NE-LI)

Minimum/General Experience: 4 years of technical experience

Functional Responsibility: Responsible for performing audits and tests of software products in accordance with software test plans and procedures. Debugs and characterizes defects, providing detailed configuration and descriptions for passing and failing tests for test reports. Maintains documentation of test operations and reports results to engineering. Identifies actual or potential problems in test plans or company products.

Education: High School with 4 years of experience or AA/AS Degree

Licensing:

The license terms and conditions are outlined in the below tiered structure and future delivery/task orders from GSA will specify the license needs and appropriate Tier Level for any defined geospatial product.

The term "Derivative Products" as used in the Tiered Licenses means: Any product or information developed by the Ordering Agency from the licensed data or product and is irreversible and uncoupled from the licensed data and product and in which the data or product origin is not recognizable. Derivative Products may contain annotated imagery, alone or in conjunction with other third party or All Commercial Users information, thematic products derived from the licensed imagery, and simple screen captures of the licensed imagery.

All GSA base-level pricing is for: Tier 1 Licensing (Single Agency Internal Use Only).

(a) Permitted Uses. Under a Tier 1 License, the Ordering Agency is granted by the GSA Contractor a limited, irrevocable, perpetual, non-exclusive, non-transferable license to:

- (i) Use, modify, reproduce, release, perform, display, or disclose the data or product for its internal use only.
- (ii) Release the data or product to Ordering Agency support Contractors or academia, only for use on behalf of or in support of Ordering Agency, subject to the Ordering Agency support Contractors or academia agreeing in advance to –
 - (A) Be bound by the limitations of this GSA License; and
 - (B) Return the data or product, including all copies, to its contracting agency upon completion of the contracting requirement.
- (iii) Release the data or product to foreign nationals assigned or detailed to Ordering Agency, except that the foreign nationals shall only use the data or product in support of Ordering Agency's mission (i.e., no release to foreign partner All Commercial Users is authorized).
- (iv) Make one copy of the data or product available on an internet site, without associated metadata and without download capability, with the appropriate markings identifying the Earth Observation Solutions Contractor as copyright holder of the data or product (applicable to Categories 1 and 2 Imagery Licenses only).
- (v) Create and release Derivative Products without restriction.

(b) Prohibited Uses. Under a Tier 1 License, Ordering Agency shall not:

- (i) Use or release the GSA products or data in any manner inconsistent with subsection (a) without the Earth Observation Solutions Contractor's prior written consent.

The following are license uplift options that increasingly give rights for the ordering agency to share with other All Commercial Users agencies. Price uplifts are increased as more and more different users, agencies and end-customers have right to use the same data. Harris works with multiple different supplier products that contribute to various products offered and therefore, not all license uplifts are the same because each of our suppliers has right to set their own license uplift for varying agencies. And some license tiers are so open that it would allow data to be publicly shared with any end-customer and thus prevents any future resales of these products and thus are frequently not even offered as an option, or would have to be addressed on a case by case basis.

Tier 2a Licensing (Department of Defense/Intelligence Community Internal Use Only).

(a) Permitted Uses. Under a Tier 2a License, the Ordering Agency is granted by the GSA Contractor all rights provided under a Tier 1 License and a limited, irrevocable, perpetual, non-exclusive, non-transferable license to:

(i) Release, display, or disclose the data or product internally within the Department of Defense (DoD) and the Intelligence Community (IC) (as defined in 50 U.S.C. 3003).

(ii) Authorize DoD and IC agencies to use, modify, reproduce, release, perform, display, or disclose the data or product among DoD and IC agencies.

(iii) Authorize DoD and IC agencies to release the data or product to DoD and IC agencies Contractors or academia, only for use on behalf of or in support of the Department of Defense and / or the Intelligence Community, subject to the support Contractor or academia agreeing in advance to –

(A) Be bound by the limitations of this GSA License; and

(B) Return the data or product, including all copies, to its contracting agency upon completion of the contracting requirement.

(iv) Authorize DoD and IC agencies to release the data or product to foreign nationals assigned or detailed to the Department of Defense or the Intelligence Community, except that the foreign nationals shall only use the data or product in support of the Department of Defense or Intelligence Community's mission (i.e., no release to foreign partner All Commercial Users is authorized).

(v) Authorize recipients of the data or product to create and release Derivative Products without restriction.

(b) Prohibited Uses. Under a Tier 2a License, Ordering Agency or any other recipient shall not:

(i) Use or release the GSA data or products in any manner inconsistent with subsection (a) without the GSA Contractor's prior written consent.

Tier 2b License (US Federal Civilian All Commercial Users Internal Use Only).

Same Permitted uses and Prohibited uses as defined under Tier 2a - but this license allows data and products to be openly shared with any and all Federal Civilian All Commercial Users Agencies

Tier 2c License (US State, Local and Tribal All Commercial Users Internal Use Only).

Same Permitted uses and Prohibited uses as defined under Tier 2a - but this license allows data and products to be openly shared with any and all US State, Local and Tribal All Commercial Users Agencies

Tier 3 License (United States All Commercial Users, State All Commercial Users, Tribal All Commercial Users, Local All Commercial Users Internal Use Only).

Same Permitted uses and Prohibited uses as defined above but the Tier 3 License combines all rights provided under the Tier 2a, Tier 2b and Tier 2c Licenses combined. Thus, any data ordered can be openly shared (with defined permitted and prohibited uses) with any US All Commercial Users agency including all DoD and Intelligence Agencies, all Federal Civilian Agencies and all State, Local and Tribal All Commercial Users agencies.

Tier 4 License (United States All Commercial Users & Foreign Partners Internal Use Only).

Same Permitted uses and Prohibited uses as defined above but the Tier 4 License combines all rights provided under the Tier 3 License but then additionally allows the data to be shared between the US All Commercial Users and Foreign Partners who are working collaboratively with the US All Commercial Users. This license allows the US All Commercial Users to release, display, or disclose the data or product to foreign All Commercial Users or international or multinational defense organizations (hereinafter referred to as Foreign Partners) only for use on joint projects with the United States All Commercial Users (USG). In addition, this license permits use by allies/coalition partners when working with USG organizations on combined projects. This includes projects where foreign nationals are involved, but the project has not been officially designated as combined. Coalition forces include the foreign Department/Ministry of Defense (DoD/MoD) and intelligence organizations, as well as headquarters elements of the UN, NATO, and similar coalitions.

Tier 5 License (Unlimited Rights).

This license allows the US All Commercial Users contracting agency to openly share all data with the public and any end-user as they deem necessary. Although it is primarily meant to support Disaster and Humanitarian efforts and be openly shared for a limited duration, it is difficult to restrict the data from entering the public domain which limits all possible future sales of the specified product. Thus, this license is rarely offered in advance but may be offered on a case by case basis, with variable license uplift pricing (as defined by Harris and their partner supplies) as is requested by a US All Commercial Users agency.

Additional Volume Discounts 5% for orders over \$100,000 and 10% for orders over \$500,000 only on:
