GENERAL SERVICES ADMINISTRATION

Federal Supply Service

Authorized Federal Supply Schedule Price List

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage!®, a menu-driven database system. The INTERNET address GSA Advantage!® is: GSAAdvantage.gov.

Multiple Award Schedule

FSC Group: Information Technology Professional Services

For more information on ordering from Federal Supply Schedules go to the GSA Schedules page at GSA.gov.

Contract Period: May 8, 2019 through May 7, 2024

CONTRACTOR:
Virtual Development Corporation
206 Hilton Ave.
Catonsville, MD 21228-5726
http://www.vdevcorp.com
Phone: 410-788-0122
Fax: 88-600-5226

CONTRACTOR’S ADMINISTRATION SOURCE:
Christopher Garner Chris.garner@vdevcorp.com
Phone: 410-788-0122
Fax: 88-600-5226

BUSINESS SIZE:
Small Business, Veteran Owned Business

Pricelist is current as of Modification #PA-0005, effective August 26, 2020

Prices Shown Herein are Net (discount deducted)
CUSTOMER INFORMATION

1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s).

<table>
<thead>
<tr>
<th>SINs</th>
<th>Recovery</th>
<th>SIN Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>54151S</td>
<td>54151SRC</td>
<td>Information Technology Professional Services</td>
</tr>
<tr>
<td>OLM</td>
<td>OLMRC</td>
<td>Order-Level Materials (OLM’s)</td>
</tr>
</tbody>
</table>

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. N/A

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item. See Pricelist

2. Maximum order:

<table>
<thead>
<tr>

<th>Maximum Order</th>
</tr>
</thead>
<tbody>
<tr>
<td>54151S</td>
<td>$500,000</td>
</tr>
<tr>
<td>OLM</td>
<td>$250,000</td>
</tr>
</tbody>
</table>

3. Minimum order: $100

4. Geographic coverage (delivery area). Domestic

5. Point(s) of production (city, county, and State or foreign country). 206 Hilton Ave. Catonsville, MD 21228-5726

6. Discount from list prices or statement of net price. Discounts already taken off of pricelist. See pricelist below.

7. Quantity discounts. None

8. Prompt payment terms. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions. Net 30

9. Foreign items (list items by country of origin). N/A

10a. Time of delivery. (Contractor insert number of days.) To be negotiated at Task Order Level

10b. Expedited Delivery. Items available for expedited delivery are noted in this price list. Negotiated between contractor and ordering activity.

10c. Overnight and 2-day delivery. Negotiated between contractor and ordering activity. Negotiated between contractor and ordering activity

10d. Urgent Requirements. Agencies can contact the Contractor’s representative to affect a faster delivery. Customers are encouraged to contact the contractor for the purpose of requesting accelerated delivery.

11. F.O.B. point(s). Destination

12a. Ordering address(es). 206 Hilton Ave. Catonsville, MD 1228-5726
12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase
Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address(es). 206 Hilton Ave. Catonsville, MD 21228-5726

14. Warranty provision. Standard Commercial

15. Export packing charges, if applicable. N/A

16. Terms and conditions of rental, maintenance, and repair (if applicable). N/A

17. Terms and conditions of installation (if applicable). N/A

18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). N/A

18b. Terms and conditions for any other services (if applicable). N/A

19. List of service and distribution points (if applicable). N/A

20. List of participating dealers (if applicable). N/A

21. Preventive maintenance (if applicable). N/A

22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). N/A

22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor’s website or other location.) The EIT standards can be found at: www.Section508.gov/. N/A

23. Data Universal Number System (DUNS) number. 155772838

24. Notification regarding registration in System for Award Management (SAM) database. Registered

**Service Contract Labor Standards:** The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule (MAS) and all services provided. While no specific labor categories have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS/SCA eligible labor categories. If and/or when the contractor adds SCLS/SCA labor categories to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS/SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
LABOR CATEGORY TITLE: APPLICATION DEVELOPER I

Minimum/General Experience: One (1) Year of Experience

Functional Responsibility: Participates in the design, development, enhancement, debugging and implementation of computer software including; consulting with the project teams and end users to identify application requirements, resolves problems with software and responds to suggestions for improvements and enhancements, assists in the evaluation and recommendation of application software packages, application integration and testing tools, assists with feasibility analysis on potential future projects to management, participates in development of software user manuals, troubleshoots production problems related to software applications and researches, tests, builds, and coordinates the conversion and/or integration of new programs based on client requirements, participates in the design and development of new software products or major enhancements to existing software.

Minimum Education: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: APPLICATIONS DEVELOPER II

Minimum/General Experience: Two (2) Years of Experience

Functional Responsibility: Participates in the design, development, enhancement, debugging and implementation of computer software including; consulting with the project teams and end users to identify application requirements, resolves problems with software and responds to suggestions for improvements and enhancements, assists in the evaluation and recommendation of application software packages, application integration and testing tools, assists with feasibility analysis on potential future projects to management, participates in development of software user manuals, troubleshoots production problems related to software applications and researches, tests, builds, and coordinates the conversion and/or integration of new programs based on client requirements, participates in the design and development of new software products or major enhancements to existing software.

Minimum Education: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: APPLICATIONS DEVELOPER III

Minimum/General Experience: Four (4) Years of Experience

Functional Responsibility: Designs, develops, enhances, debugs, and implements computer software including; consulting with project teams and end users to identify application requirements, resolves problems with software and responds to suggestions for improvements and enhancements, evaluates and recommends application software packages, application integration and testing tools, conducts feasibility analysis on potential future projects to management, develops software user manuals, troubleshoots production problems related to software applications and researches, tests, builds, and coordinates the conversion and/or integration of new programs based on client requirements, designs and develops of new software products or major enhancements to existing software, researches, tests, builds, and coordinates the conversion and/or integration of new products based on client requirements. Designs and develops new software products or major enhancements to existing software, addresses problems of systems integration, compatibility, and multiple platforms, acts as team leader on projects, instructs, assigns, directs, and checks the work of other software developers on development team.

Minimum Education: Bachelor’s Degree

LABOR CATEGORY TITLE: APPLICATIONS DEVELOPER IV

Minimum/General Experience: Six (6) Years of Experience

Functional Responsibility: Designs, develops, enhances, debugs, and implements computer software including; consulting with project teams and end users to identify application requirements, resolves problems with software and responds to suggestions for improvements and enhancements, evaluates and recommends application software packages, application integration and testing tools, conducts feasibility analysis on potential future projects to management, develops software user manuals, troubleshoots production problems related to software applications and researches, tests, builds, and coordinates the conversion and/or integration of new programs based on client requirements, designs and develops of new software products or major enhancements to existing software, researches, tests, builds, and coordinates the conversion and/or integration of new products based on client requirements. Designs and develops new software products or major enhancements to existing software, addresses problems of systems integration,
compatibility, and multiple platforms, acts as team leader on project, instructs, assigns, directs, and checks the work of other software developers on development team.

Minimum Education: Requires Bachelor’s Degree in appropriate field and 6 years of experience.

**LABOR CATEGORY TITLE: APPLICATIONS SYSTEMS ANALYST I**

Minimum/General Experience: Two (2) Years of Experience

Functional Responsibility: Participates in the formulation/definition of system scope, objectives and the development or modification of procedures to solve complex problems considering computer equipment capacity and limitations, operating time, and form of desired results. The Application Systems Analyst I prepares detailed specifications for computer programs including; assisting in the design, development, testing, implementation, and documentation of new software and enhancements of existing applications, participates in the formulation/definition of specifications for complex operating software programming applications or modifies/maintains complex existing applications using engineering releases and utilities from the manufacturer, works with project managers, developers, and end users to ensure application designs meet business requirements, designs, codes, tests, debugs, and documents those programs, participates in the configuration of the overall operating system, such as sophisticated file maintenance routines, large telecommunications networks, computer accounting, and advanced mathematical/scientific software packages, assists all phases of software systems programming applications and participates in the evaluation of new and existing software products.

Minimum Education: Bachelor’s Degree in appropriate field

**LABOR CATEGORY TITLE: APPLICATION SYSTEM ANALYST II**

Minimum/General Experience: Four (4) Years of Experience

Functional Responsibility: Participates in the formulation/definition of system scope, objectives and the development or modification of procedures to solve complex problems considering computer equipment capacity and limitations, operating time, and form of desired results and prepares detailed specifications for computer programs including; assisting in the design, development, testing, implementation, and documentation of new software and enhancements of existing applications, participates in the formulation/definition of specifications for complex operating software programming applications or modifies/maintains complex existing applications using engineering releases and utilities from the manufacturer, works with project managers, developers, and end users to ensure application designs meet business requirements, designs, codes, tests, debugs, and documents those programs, participates in the configuration of the overall operating system, such as sophisticated file maintenance routines, large telecommunications networks, computer accounting, and advanced mathematical/scientific software packages, assists all phases of software systems programming applications, and participates in the evaluation of new and existing software products.

Minimum Education: Requires Bachelor’s Degree in appropriate field

**LABOR CATEGORY TITLE: APPLICATION SYSTEMS ANALYST III**

Minimum/General Experience: Six (6) Years of Experience

Functional Responsibility: Formulates/defines the system scope, objectives and the development or modification of procedures to solve complex problems considering computer equipment capacity and limitations, operating time, and form of desired results. The Application Systems Analyst III prepares detailed specifications, builds programs and configures environments for computer systems including; the design, development, testing, implementation, and documentation of new software and enhancements of existing applications, the formulation/definition of specifications for complex operating software programming applications or modifies/maintains complex existing applications using engineering releases and utilities from the manufacturer, works with project managers, developers, and end users to ensure application designs meet business requirements, designs, codes, tests, debugs, and documents those programs, the configuration of the overall operating system, such as sophisticated file maintenance routines, large telecommunications networks, computer accounting, and advanced mathematical/scientific software packages, assists all phases of software systems programming applications, and participates in the evaluation of new and existing software products.

Minimum Education: Bachelor’s Degree in appropriate field

**LABOR CATEGORY TITLE: APPLICATION SYSTEMS ANALYST IV**

Minimum/General Experience: Eight (8) Years of Experience
Functional Responsibility: Formulates/defines the system scope, objectives and the development or modification of procedures to solve complex problems considering computer equipment capacity and limitations, operating time, and form of desired results. The Application Systems Analyst IV prepares detailed specifications, builds programs and configures environments for computer systems including, the design, development, testing, implementation, and documentation of new software and enhancements of existing applications, the formulation/definition of specifications for complex operating software programming applications or modifies/maintains complex existing applications using engineering releases and utilities from the manufacture, works with project managers, developers, and end users to ensure application designs meet business requirements, designs, codes, tests, debugs, and documents those programs, the configuration of the overall operating system, such as sophisticated file maintenance routines, large telecommunications networks, computer accounting, and advanced mathematical/scientific software packages, assists all phases of software systems programming applications and participates in the evaluation of new and existing software products.

Minimum Education: Requires Bachelor’s Degree in appropriate field and 8 years of experience.

LABOR CATEGORY TITLE: CONSULTANT

Minimum/General Experience: Four (4) Years of Experience

Functional Responsibility: Analyzes process and re-engineering, with an understanding of technical problems and solutions as they relate to the current and future business and information technology environments. The Consultant conducts process and technical improvement activities, integrates new technology to improve processes and recommends and facilitates quality improvement efforts.

Minimum Experience: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: SENIOR CONSULTANT

Minimum/General Experience: Eight (8) Years of Experience

Functional Responsibility: Provides leadership and direction in a technical/functional area. Develops domain specific technical/functional architecture solutions to solve client business problems. Leads project personnel in analyzing, designing, and implementing the domain specific technical/functional solutions. The Senior Consultant conducts process improvement activities, integrates new processes with existing ones and recommends and facilitates quality improvement efforts.

Minimum Education: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: DATABASE ADMINISTRATOR I

Minimum/General Experience: Two (2) Years of Experience

Functional Responsibility: Assists with all the activities related to the administration of computerized databases including, participates in the identification of long-range requirements for database administration and design in conjunction with other personnel in the information systems function, designs, creates, and maintains databases, participates in quality control and auditing of databases to ensure accurate and appropriate use of data, advises users on access to various client/server databases, participates in the design, implementation, and maintenance of databases with respect to access methods, access time, device allocation, validation checks, organization, protection and security, documentation, and statistical methods, applies knowledge and experience with database technologies, development methodologies, and programming languages. Performs database programming and supports systems design, maintains database dictionaries, monitors database standards and procedures for file design and data storage.

Minimum Experience: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: DATABASE ADMINISTRATOR II

Minimum/General Experience: Four (4) Years of Experience.
Functional Responsibility: performs all the activities related to the administration of computerized databases including; participates in the identification of long-range requirements for database administration and design in conjunction with other personnel in the information systems function, designs, creates, and maintains databases, conducts quality control and auditing of databases to ensure accurate and appropriate use of data, advises users on access to various client/server databases designs, implements, and maintains databases with respect to access methods, access time, device allocation, validation checks, organization, protection and security, documentation, and statistical methods, applies knowledge and experience with database technologies, development methodologies, and programming languages. Performs database programming and supports systems design, maintains database dictionaries, monitors database standards and procedures for file design and data storage.

Minimum Education: Requires Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: DATABASE ADMINISTRATOR III

Minimum/General Experience: Six (6) Years of Experience

Functional Responsibility: Performs all the activities related to the administration of computerized databases including, identifies long-range requirements for database administration and design in conjunction with other personnel in the information systems function, designs, creates, and maintains databases, conducts quality control and auditing of databases to ensure accurate and appropriate use of data, advises users on access to various client/server databases, designs, implements, and maintains databases with respect to access methods, access time, device allocation, validation checks, organization, protection and security, documentation, and statistical methods, applies knowledge and experience with database technologies, development methodologies, and programming languages. Performs database programming and supports systems design, maintains database dictionaries, monitors database standards and procedures for file design and data storage.

Minimum Education: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: HELP DESK SPECIALIST II

Minimum/General Experience: Two (2) years of experience.

Functional Responsibility: Provides end-user support to diagnose and resolve system problems. The Help Desk Specialist II responds to end users in a timely manner through a defined process that is effective in resolving the user’s problem, provides support to end users on a variety of issues identifies, researches, and resolves technical problems, responds to telephone calls, email and personnel requests for technical support, documents, tracks, and monitors the problem to ensure a timely resolution, interact with network services, software systems engineering, and/or applications development to restore service and/or identify and correct core problem, simulates or recreates user problems to resolve operating difficulties.

Minimum Education: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: HELP DESK SPECIALIST III

Minimum/General Experience: Four (4) years of experience.

Functional Responsibility: Provides end-user support to diagnose and resolve system problems. The Help Desk Specialist I responds to end users in a timely manner through a defined process that is effective in resolving the user’s problem provides support to end users on a variety of issues, identifies, researches, and resolves technical problems, responds to telephone calls, email and personnel requests for technical support, documents, tracks, and monitors the problem to ensure a timely resolution, interacts with network services, software systems engineering, and/or applications development to restore service and/or identify and correct core problem, simulates or recreates user problems to resolve operating difficulties, recommends systems modifications to reduce user problems.

Minimum Education: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: PROGRAM MANAGER

Minimum/General Experience: Six (6) years of experience.
Functional Responsibility: Organizes, directs, and manages system development and maintenance contract functions, involving multiple, complex and inter-related project tasks. The Program Manager plans and manages projects to control overall systems development project scope, budgets and schedules for multi-project schedules. Program Managers maintain contractor interface with senior levels of the customers organization and consult with customer and project personnel to formulate and review task plans and deliverables. The Program Manager monitors conformance of system development project task schedules and costs.

Minimum Education: Bachelor’s Degree in appropriate field.

LABOR CATEGORY TITLE: PROJECT MANAGER

Minimum/General Experience: Four (4) years of experience.

Functional Responsibility: Lead teams of staff on large information Technology projects or significant segments of large complex system development projects. The Project Manager is responsible for analyzing new and complex project related problems and creating innovative solutions involving finance, scheduling, technology, methodology, tools, and solution components, providing application systems analysis and programming activities for a project, preparing long and short-range plans for application selection, systems development, systems maintenance, and production activities and for necessary support resources, oversees all aspects of a project.

Minimum Education: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: SUBJECT MATTER SPECIALIST I

Minimum/General Experience: Four (4) years of experience.

Functional Responsibility: Possesses in-depth knowledge of a particular area, such as business, computer science, engineering, mathematics, or the various sciences, provides technical knowledge and analysis of highly specialized applications and operational environments, high-level functional systems analysis, design, integration, documentation and implementation advice on complex problems that need knowledge of the subject matter for effective implementation, participates as needed in all phases of software development with emphasis on the planning, analysis, testing, integration, documentation, and presentation phases, applies principles, methods and knowledge of the functional area of capability to assist in developing or maintaining an automated solution.

Minimum Education: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: SUBJECT MATTER SPECIALIST II

Minimum/General Experience: Six (6) years of experience.

Functional Responsibility: Possesses in-depth knowledge of a particular area, such as business, computer science, engineering, mathematics, or the various sciences, provides technical knowledge and analysis of highly specialized applications and operational environments, high-level functional systems analysis, design, integration, documentation and implementation advice on complex problems that need knowledge of the subject matter for effective implementation, participates as needed in all phases of software development with emphasis on the planning, analysis, testing, integration, documentation, and presentation phases, applies principles, methods and knowledge of the functional area of capability to assist in developing or maintaining an automated solution.

Minimum Education: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: SUBJECT MATTER III

Minimum/General Experience: Eight (8) years of experience.

Functional Responsibility: Possesses in-depth knowledge of a particular area, such as business, computer science, engineering, mathematics, or the various sciences, provides technical knowledge and analysis of highly specialized applications and operational environments, high-level functional systems analysis, design, integration, documentation and implementation advice on complex problems that need knowledge of the subject matter for effective implementation, participates as needed in all phases of software development with emphasis on the planning, analysis, testing, integration, documentation, and presentation phases, applies principles, methods and knowledge of the functional area of capability to assist in developing or maintaining an automated solution.

Minimum Education: Requires Bachelor’s Degree in appropriate field
LABOR CATEGORY TITLE: SYSTEMS ENGINEER

Minimum/General Experience: Three (3) years of experience.

Functional Responsibility: Provides analysis related to the design, development, and integration of hardware, software, man-machine interfaces and all system level requirements to provide an integrated computing solution. The Systems Engineer is responsible for configuring, testing and monitoring the computer hardware and interfaces needed for the computing solution.

Minimum Education: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: TEST ENGINEER I

Minimum/General Experience: One (1) year of experience.

Functional Responsibility: Designs, implements, and conducts test and evaluation procedures to ensure system requirements are met. The Test Engineer I develops, maintains, and upgrades automated test scripts and architectures for application products. Also writes, implements, and reports status for system test cases for testing. Analyzes test cases and provides regular progress reports.

Minimum Education: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: TEST ENGINEER II

Minimum/General Experience: Three (3) years of experience.

Functional Responsibility: Designs, implements, and conducts test and evaluation procedures to ensure system requirements are met, develops, maintains, and upgrades automated test scripts and architectures for application products. Also writes, implements, and reports status for system test cases for testing. Analyzes test cases and provides regular progress report, serves as subject matter specialist providing testing know-how for the support of user requirements of complex to highly complex software/hardware applications, directs and/or participates in all phases of risk management assessments and software/hardware development with emphasis on analysis of user requirements, test design and test tools selection, evaluates, recommends, and implements automated test tools and strategies.

Minimum Education: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: TEST ENGINEER III

Minimum/General Experience: Four (4) years of experience.

Functional Responsibility: Designs, implements, and conducts test and evaluation procedures to ensure system requirements are met, develops, maintains, and upgrades automated test scripts and architectures for application products. Also writes, implements, and reports status for system test cases for testing. Analyzes test cases and provides regular progress report, serves as subject matter specialist providing testing know-how for the support of user requirements of complex to highly complex software/hardware applications, directs and/or participates in all phases of risk management assessments and software/hardware development with emphasis on analysis of user requirements, test design and test tools selection and evaluates, recommends, and implements automated test tools and strategies.

Minimum/General Experience: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: DATA ANALYST I

Minimum/General Experience: Zero (0) years of experience.

Functional Responsibility: Utilizes generic, application independent, embedded data mining, algorithm-specific and/or analytical programming tools to derive or discover new information from data, finding patterns across data sets. Applies knowledge discovery in databases (KDD) finding patterns across multi-dimensions.

Minimum Education: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: DATA ANALYST II

Minimum/General Experience: Four (4) years of experience.
Functional Responsibility: Utilizes generic, application independent, embedded data mining, algorithm-specific and/or analytical programming tools to derive or discover new information from data, finding patterns across data sets. Applies knowledge discovery in databases (KDD) finding patterns across multi-dimensions.

Minimum Education: Bachelor’s Degree in appropriate field

LABOR CATEGORY TITLE: DATA ANALST III.

Minimum/General Experience: Six (6) years of experience.
