AUTHORIZED FEDERAL SUPPLY SCHEDULE PRICE LIST

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage!®, a menu-driven database system.

The INTERNET address GSA Advantage!® is: GSAAdvantage.gov.

GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY EQUIPMENT, SOFTWARE AND SERVICES (SCHEDULE 70)

SPECIAL ITEM NUMBER 132-51 INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES

FSC/PSC Class D302 It And Telecom- Systems Development
FSC/PSC Class D306 It And Telecom- Systems Analysis
FSC/PSC Class D307 It And Telecom- It Strategy And Architecture
FSC/PSC Class D308 It And Telecom- Programming
FSC/PSC Class D317 It And Telecom- Web-Based Subscription
FSC/PSC Class D399 It And Telecom- Other It And Telecommunications

CONTRACT NUMBER: 47QTCA19D00DU
For more information on ordering from Federal Supply Schedules click on the FSS Schedules button at fss.gsa.gov.

CONTRACT PERIOD: 6/19/2019 – 6/18/2024

PROMETHEUS COMPUTING LLC

</table>

1c. DESCRIPTION OF LABOR CATEGORIES: A description of the labor categories can be found on page 7.

2. MAXIMUM ORDER: $500,000

3. MINIMUM ORDER: $0

4. GEOGRAPHIC COVERAGE (DELIVERY AREA): Worldwide

5. POINT OF PRODUCTION: Prometheus Computing offices – Labor Categories Only

6. DISCOUNT FROM LIST PRICES: Prices shown are NET Prices. Basic Discounts have been deducted.

7. QUANTITY DISCOUNTS: N/A

8. PROMPT PAYMENT TERMS: 0% if payment is made within 0 days – Net 30 days

"Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions."

9a. GOVERNMENT PURCHASE CARDS AT OR BELOW THE MICRO-PURCHASE THRESHOLD: Prometheus Computing accepts Government Purchase cards at or below the micro-purchase threshold.

10. FOREIGN ITEMS: N/A
11a. **TIME OF DELIVERY:** Contact Contractor

11b. **EXPEDITED DELIVERY:** N/A

Items available for expedited delivery are noted in this price list.

11c. **OVERNIGHT AND 2-DAY DELIVERY:** N/A

11d. **URGENT REQUIREMENT:** Contact Contractor

When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering agency, agencies are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering agency, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

12. **F.O.B. POINT:** CONUS – 48 Contiguous States and District of Columbia

Note: All travel required in the performance of this contract and orders placed hereunder must comply with the Federal Travel Regulations (FTR) or Joint Travel Regulations (JTR), as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts. The Contractor shall not add the Industrial Funding Fee onto travel costs.

13a. **ORDERING ADDRESS:**
Attn: Diane Griesser
Prometheus Computing LLC
6514 Twin Lake Drive New Market, MD 21774
Phone: 240-344-4222
Fax: 828-293-5927
Email: d.griesser@prometheuscomputing.com

13b. **ORDERING PROCEDURES:** For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.

14. **PAYMENT ADDRESS:**
Prometheus Computing LLC
6514 Twin Lake Drive New Market, MD 21774

EFT information will be present on each invoice.
15. WARRANTY PROVISION: N/A

**Senior Program Manager**

**Functional Responsibility:** Serves as the contract manager and administrator over the entire contract effort. Acts as the primary interface and point of contact with Government project officer on technical and contract administration issues. Supervises project operations by developing management procedures, planning and directing project execution, monitoring and reporting progress. Manages and controls financial and administrative aspects of the project with respect to contract requirements, enforces work standards, and assigns schedules.

**Required Experience**

*Minimum years of experience: 11 years*

Must have experience with IT as it relates to the contract, technical management, or a combination thereof. Must have experience with management of government funded IT and computer science based programs.

**Required Education**

*Minimum education: Master’s degree in Computer Science, Engineering, or a related IT field.*

*PMP Certification.*
**Software Developer V**

**Functional Responsibility**
Primarily software design, development and research. Responsible for and applies expertise in programming procedures to complex software modules and packages, including operating systems and application software. Leads teams in developing specifications for software programming applications, or modifying/maintaining existing software modules. Participates in all life cycle phases of software development with emphasis on the planning, development, testing, and deployment phases. May lead deployment teams. Uses a variety of software technologies and tools to accomplish task activities. May select software tools to be used on development projects. Responsible for the supervision of subordinate software developers. May make presentations to client staff on the progress of development activities.

**Required Experience**
*Minimum years of experience: 8 years*

**Required Education**
*Minimum education: Master’s degree in Computer Science, Engineering, or a related IT field.*

**Software Developer IV**

**Functional Responsibility**
Primarily software design, development and research. Responsible for and applies expertise in programming procedures to complex software modules and packages, including operating systems and application software. May lead a team in developing software programming applications, or modify/maintain existing software modules. Participates in all life cycle phases of software development with emphasis on the planning, development, testing, and deployment phases. May lead deployment teams. Uses a variety of software technologies and tools to accomplish task activities. May select software tools to be used on development projects. May be responsible for the supervision of subordinate software developers. May make presentations to client staff on the progress of development activities.

**Required Experience**
*Minimum years of experience: 6 years*
At least 3 years of experience working in an IT or scientific environment.

**Required Education**
*Minimum education: Bachelor’s degree in Computer Science, Engineering, or a related IT field.*
Master’s degree preferred.
Software Developer III

**Functional Responsibility**
Primarily software design, development and research. Responsible for and applies expertise in programming procedures to complex software modules and packages, including operating systems, application software, and databases. Helps develop specifications for software programming applications, or modifies/maintains existing software modules. Participates in all life-cycle phases of software development with emphasis on the planning, programming, testing, and deployment phases. Uses a variety of software technologies and tools to accomplish task activities. May occasionally supervise other software developers.

**Required Experience**
*Minimum years of experience: 3 years*
At least 1 years of experience working in an IT or scientific environment.

**Required Education**
*Minimum education: Bachelor’s degree in Computer Science, Engineering, or a related IT field.*

Software Developer II

**Functional Responsibility**
Primarily software design, development and research. Responsible for and applies expertise in programming procedures to complex software modules and packages, including operating systems, application software, and databases. May help develop specifications for software programming applications, or modifies/maintains existing software modules. Participates in all life-cycle phases of software development with emphasis on the programming, testing, and deployment phases. Uses a variety of software technologies and tools to accomplish task activities.

**Required Experience**
*Minimum years of experience: 1 year*

**Required Education**
*Minimum education: Bachelor’s degree in Computer Science, Engineering, or a related IT field.*
**Software Developer I**

**Functional Responsibility**
Primarily software design, development and research. Under constant supervision, applies expertise in programming procedures to assigned software modules and packages, including operating systems, application software, and databases. May provide some support in developing specifications for software applications, or modifying/maintaining existing software modules. May participate in some or all phases of software development with emphasis on the programming and unit testing phases. Uses a variety of software technologies and tools to accomplish task activities.

**Required Experience**
*Minimum years of experience: 0 years*

**Required Education**
*Minimum education: Bachelor’s degree in Computer Science, Engineering, or a related IT field.*

**Software Engineer II**

**Functional Responsibility**

**Required Experience**
*Minimum years of experience: 1 year*

**Required Education**
*Minimum education: Bachelor’s degree in Computer Science, Engineering, or a related IT field.*

**Technician**

**Functional Responsibility**
Works under supervision to perform a variety of IT and technical tasks such as databases, data entry, and data management. Supports the planning and performance of IT and technical specifications. Supports IT activities related to the development and integration of database projects. Works under the supervision of a computer scientist and/or project manager.

**Required Experience**
*Minimum years of experience: 0 years*

**Required Education**
*Minimum education: Bachelor’s degree in Computer Science, Engineering, or a related IT field.*
**Senior Software Architect**

**Functional Responsibility**
Establishes and develops complex information requirements for large-scale IT systems, databases, and/or networks. Designs complex architectures that include software, hardware, and communications solutions to support the total client requirements, as well as provide for present and future cross-functional requirements and interfaces. Evaluates compatibility of information system development efforts with agency architectures and recommends appropriate adjustments. May supervise large teams performing complex system design requirements.

**Required Experience**
*Minimum years of experience: 6 years*

**Required Education**
*Minimum education: Master’s degree in Computer Science, Engineering, or a related IT field.*

**Senior Software Engineer**

**Functional Responsibility**
Possesses in-depth knowledge of principles, concepts, and techniques appropriate for engineering support relating to resources and facilities management, database planning and design, systems analysis and design, network services, programming, conversion and implementation support, network services project management, data/records management, and other computer related services. Interprets requirements, performs highly complex analyses, and resolves complex problems. Develops advanced technological ideas and guides their development into a final product. May act as advisor to customers on advanced technical research studies and applications. Provides leadership efforts, training, mentoring, and guidance. May lead medium to large projects, including defining scope, objectives, and methods.

**Required Experience**
*Minimum years of experience: 6 years*

**Required Education**
*Minimum education: Master’s degree in Computer Science, Engineering, or a related IT field.*
**Project Technical Manager**

**Functional Responsibility**
Provides management oversight, handles contractual matters, and is liaison between the Contracting Officer (CO), the Contracting Officer’s Representative (COR) and the corporate program manager and corporate executives on a project. Coordinates activities/seeks resolution of contractual/technical issues. Responsible for IT project performance including cost, schedule, deliverables, contractual compliance; and accountable for deliverables to ensure meeting terms of contract. Supervises engineers, scientists, analysts, and technicians. Enforces work standards, schedules, reviews work discrepancies, supervises staff, recommends project hires/ terminations, and communicates policies, purposes, and goals to staff. Prepares status reports and makes presentations on project progress.

**Required Experience**
*Minimum years of experience: 6 years*
At least 2 years of experience in providing technical leadership to IT and/or software engineering projects.

**Required Education**
*Minimum education: Bachelor’s degree in Computer Science, Engineering, or a related IT field.*
*PMP Certification.*
