Labor Category Descriptions:

SIN 54151S – Information Technology Professional Services

LABOR CATEGORY TITLE: SOFTWARE ENGINEER I
Minimum/General Experience: One (1) year of experience
Functional Responsibility: Responsible for developing and customizing software using modern toolsets to enhance business processes. Demonstrates solutions by developing documentation, flowcharts, layouts, diagrams, charts, and pseudo code. Develops software solutions by studying information needs; conferring with users; studying systems flow, data usage, and work processes; investigating problem areas; following the software development lifecycle. Provide programming services in support of custom software development, systems integration, interface development and operations and maintenance for software projects. Relies on experience and judgment to plan and accomplish goals. Can solve simple problems and will often require direct supervision provided by more experienced personnel.

Minimum Education: Bachelor’s Degree in Computer Science, Information Systems, Business or equivalent field.

LABOR CATEGORY TITLE: SOFTWARE ENGINEER II
Minimum/General Experience: Three (3) years of experience
Functional Responsibility: Responsible for developing and customizing software using modern toolsets to enhance business processes. Demonstrates solutions by developing documentation, flowcharts, layouts, diagrams, charts, and pseudo code. Develops software solutions by studying information needs; conferring with users; studying systems flow, data usage, and work processes; investigating problem areas; following the software development lifecycle. Provide programming services in support of custom software development, systems integration, interface development and operations and maintenance for software projects. Have skills in industry accepted programming languages, operate autonomously, and participate in agile development activities.

Minimum Education: Bachelor’s Degree in Computer Science, Information Systems, Business or equivalent field.

LABOR CATEGORY TITLE: SOFTWARE ENGINEER III
Minimum/General Experience: Five (5) years of experience in related field
Functional Responsibility: Responsible for implementing computer systems in a phased approach of requirements analysis and conceptual design, site survey, system design review, critical design review, installation, integration, and testing. Responsible for performing requirements analysis for a wide range of users. Must be able to present system designs for user approval at formal reviews. Must be capable of performing configuration management, integrating software, interpreting software test results, and recommending solutions for unsatisfactory test results. Must be knowledgeable in life-cycle support, including maintenance, administration, and management. Must be able to provide solutions to identified software defect reports.

Minimum Education: Bachelor’s Degree in Computer Science or equivalent field.

LABOR CATEGORY TITLE: SOFTWARE ENGINEER IV
Minimum/General Experience: Eight (8) years of experience in related field
Functional Responsibility: Responsible for managing and providing technical leadership to a small to medium sized technical team during the software development lifecycle. Actively participates in technical design sessions and developing technical solutions for complex problems. Responsible for creating development standards and managing code reviews. Responsible for providing technical leadership with regards to all aspects of software development. Oversees technical design, development and implementation of large projects and/or major software products and systems. Acts as a liaison between the technical team and management staff. Charged with leading the implementation of software development activities in support of customer requirements and system specifications. Utilizing contemporary programming techniques and languages, a Senior Software Developer develops software components and provides leadership to Junior Software
Developers.
Minimum Education: Bachelor’s Degree in Computer Science or equivalent field.

LABOR CATEGORY TITLE: IT SENIOR CONSULTANT II
Minimum/General Experience: Four (4) years of experience in related field
Functional Responsibility: Provide advanced consulting and IT analysis support on technology programs across all levels of the systems lifecycle. They provide advanced IT program support, and apply industry-standard methods to define, develop, deliver, and operate IT systems to meet mission needs. They provide stakeholder analysis and identify innovative ways to deliver systems to meet user needs. They have a background in applying enterprise-wide disciplines for the planning, analysis, design and construction of Information Systems. They use analytical, engineering and computational techniques, tools and methodologies for problem solving, solution development, information systems design and programming.
Minimum Education: Bachelor’s Degree in Computer Science, Information Systems, Business or equivalent field.

LABOR CATEGORY TITLE: ENTERPRISE ARCHITECT
Minimum/General Experience: Five (5) years of experience in related field
Functional Responsibility: Serves in a leadership or senior advisory role to the client in a specific area of functional or technical expertise to make recommendations that have an enterprise-wide impact in areas such as strategy, architecture, evaluation and selection of alternative approaches, implementation issues, and business process improvement. Includes the development of white papers, strategic planning documents, trade-off analyses, gap analyses, ROI justifications, study recommendations, concept of operations, enterprise architecture, and other documents.
Minimum Education: Bachelor’s Degree in Computer Science, Information Systems, Business or equivalent field

SIN 518210C – Cloud and Cloud-Related IT Professional Services

LABOR CATEGORY TITLE: CLOUD PROJECT MANAGER II
Minimum/General Experience: Five (5) years of experience in related field
Functional Responsibility: The Cloud Project Manager must have experience managing Information Technology related projects. The Cloud Project Manager II is specialized in management of cloud computing products and services, including applications, data and services residing in the cloud. Manages services, storage, databases, networking, software, analytics, and intelligence in the cloud. Must be well versed in life cycle and project management methodologies. Must have experience in tracking costs, schedules, and performance progress. Must be able to identify and mitigate risks.
Minimum Education: Bachelor’s Degree in Computer Science, Information Systems, Business or equivalent field

LABOR CATEGORY TITLE: CLOUD SOFTWARE MANAGER II
Minimum/General Experience: Five (5) years of experience in related field
Functional Responsibility: The Cloud Manager is specialized in management of cloud computing products and services, including applications, data and services residing in the cloud. The Cloud Manager can create or use cloud management tools, such as resource distribution, usage monitoring, data integration and disaster recovery processes, such as resource distribution, usage monitoring, data integration and disaster recovery processes.
Minimum Education: Bachelor’s Degree in Computer Science, Information Systems, Business or equivalent field
LABOR CATEGORY TITLE: CLOUD DEVELOPER

Minimum/General Experience: Five (5) years of experience in related field

Functional Responsibility: The Cloud Software Developer will plan, organize, and mentor platform resources and activities within the Enterprise Systems Department. The Cloud software Developer will have experience with containerized architectures and hybrid cloud deployments to AWS. Provide programming services in support of custom software development, systems integration, interface development and operations and maintenance for software projects. Have skills in industry accepted programming languages, operate autonomously, and participate in agile development activities.

Minimum Education: Bachelor’s Degree in Computer Science, Information Systems, Business or equivalent field
