**CUSTOMER INFORMATION**

1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s).

SIN/NAICS	SIN/NAICS Description
33411	Information Technology – IT Hardware
54151S	Information Technology Professional Services
ANCILLARY	Ancillary Supplies and Services
OLM	Order-Level Materials

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply:

- See Page 8

1c. If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item.

**LABOR CATEGORY DESCRIPTIONS**

<b>Commercial Job Title:</b>	<b>Junior Technician</b>
<b>Minimum/General Experience:</b>	3 Years of related Technical Experience
<b>Functional Responsibility:</b>	Installation of telecommunications network infrastructure supporting a wide range of capabilities, including voice, data, video, and /or wireless services. Helps to develop designs and plans for installation and maintenance of telecommunications systems from project inception to conclusion. Closely coordinates with other installation technicians as team lead to ensure proper implementation of physical network services.
<b>Minimum Education:</b>	HS Diploma or equivalent field

Contract Holder

Member

<b>Commercial Job Title:</b>	<b>Senior Technician</b>
<b>Minimum/General Experience:</b>	7 Years of related Technical Experience
<b>Functional Responsibility:</b>	Installation of telecommunications network infrastructure supporting a wide range of capabilities, including voice, data, video, and /or wireless services. Helps to develop designs and plans for installation and maintenance of telecommunications systems from project inception to conclusion. Closely coordinates with other installation technicians as team lead to ensure proper implementation of physical network services.
<b>Minimum Education:</b>	Bachelors Degree in Computer Science, Information Systems, Business or equivalent field

<b>Commercial Job Title:</b>	<b>Project Manager</b>
<b>Minimum/General Experience:</b>	5 Years of related Technical Experience
<b>Functional Responsibility:</b>	Performs day-to-day management of overall contract support operations, involving multiple projects and groups of personnel at multiple locations. Organizes, directs, and coordinates the planning and production of all contract support activities. Demonstrates written and oral communication skills. Establishes and alters (as necessary) corporate management structure to direct effective contract support activities. Must be capable of negotiating and making binding decisions for the company.
<b>Minimum Education:</b>	Bachelors Degree in Computer Science, Information Systems, Business or equivalent field

<b>Commercial Job Title:</b>	<b>Field Engineer</b>
<b>Minimum/General Experience:</b>	5 Years of related Technical Experience
<b>Functional Responsibility:</b>	<p>Installs and maintains fixed and mobile telecommunications systems, including cabling, signal strength evaluation, quality check, and placement of roof and pole mounts. Utilizes electronic test and measurement equipment as required to validate installation and monitor performance of satellite equipment. Uses power or hand tools and operates heavy machinery, as needed, to construct and/or install satellite antennas and related equipment. Routinely works at jobsites not located at the primary place of employment. Maintenance tasks include thorough testing, repair and replacement of system components.</p> <p>Coordinates with support desk personnel and end customers during initial installation and on-site dispatches. Performs detailed site surveys and creates installation procedures and material lists. Responsible for final quality review of satellite equipment installation and maintenance and related documentation.</p>
<b>Minimum Education:</b>	Bachelors Degree in Computer Science, Information Systems, Business or equivalent field

<b>Commercial Job Title:</b>	<b>Senior Programmer</b>
<b>Minimum/General Experience:</b>	7 Years of related Technical Experience
<b>Functional Responsibility:</b>	<p>Works on the full lifecycle of software and application projects (analysis, design and development), creating and developing new applications, maintaining/supporting existing systems, assisting with implementations and analyzing escalated technical problems that may arise. Works in support of client exercises and tests. Gathers and documents requirements, prioritizes needs, and provides client-focused solutions that add new capabilities.</p> <p>Oversees and participates in installations and configuration of clients' systems. Identifies and corrects escalated issues providing support to clients. Consults with other functional departments as needed.</p>
<b>Minimum Education:</b>	Bachelors Degree in Computer Science, Information Systems, Business or equivalent field

<b>Commercial Job Title:</b>	<b>Engineer</b>
<b>Minimum/General Experience:</b>	5 Years of related Technical Experience
<b>Functional Responsibility:</b>	Must be able to understand design of information systems, including the design of the application architecture, database, and interfaces. Responsible for gathering and planning from user requirements and translating them into system designs. Plans large-scale systems projects through vendor comparison and cost studies. Requires expert knowledge of LAN/WAN systems, networks, and applications. Performs engineering design evaluations and works to complete projects within budget and scheduling restraints. Develops, implements, and monitors information systems policies and controls to ensure data accuracy, security, and regulatory compliance. Reviews reports of computer and peripheral equipment production, malfunction, and maintenance to determine and address problems.
<b>Minimum Education:</b>	Bachelors Degree in Computer Science, Information Systems, Business or equivalent field

### SUBSTITUTION OF EDUCATION/EXPERIENCE

Degree Requirement	Substitution of Relevant Experience
Associates Degree	2 Additional Years
Bachelors Degree	4 Additional Years
Masters Degree	6 Additional Years
Phd	8 Additional Years

**Service Contract Labor Standards:** The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule (MAS) and all services provided. While no specific labor categories have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCLS/SCA eligible labor categories. If and / or when the contractor adds SCLS/SCA labor categories to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS/SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.

2. **Maximum Order:** \$500,000.00
3. **Minimum Order:** \$100.00
4. **Geographic Coverage (delivery Area):** Worldwide
5. **Point(s) of production (city, county, and state or foreign country):** Same as company address
