Services only, see hourly rate below.

1c. Professional Job Description

Hourly Rate: $150

Senior Systems Developer

Functional Responsibilities: This position requires that the individual be exceptionally proficient at assessing and managing the technical aspects of the project. Specific areas of skill include:

- Web site development – Use of state of the art development tools and methods
- User interface design – Ability to work intimately with clients and other stakeholders to produce an application GUI that is efficient, easy to navigate, and visually pleasing.
- SQL Server Database management – Thorough understanding of this tool as it applies to large scale federal projects, especially in the healthcare and clinical domains
- Electronic Medical Record – intimate knowledge of data domains, access and security concerns, practical use for clinical tool development. Extensive experience (over 20 years) with the Veterans Administration’s VISTA EMR.
- Federal Information Security – ability to develop applications consistent with Federal information security regulations.

Experience: This is a senior position requires expertise only gained after at least 15 years of professional project development in the Federal domain.

Education: Position requires at least a Master’s degree from an accredited institution

Trainings/Certifications: This position requires the successful completion of a federal background check and obtaining security clearance consistent with handling patient information, and full compliance with federal trainings specific to the client agency e.g., HIPAA, Privacy and Information Security.
