1.4 Hourly Rates (Services only):

Please see the Authorized GSA Schedule pricelist starting on page 17. Descriptions of all job titles, experience, functional responsibility and education are available in this document.

1.5 Maximum Order*:

The Maximum Order value for Special Item Number 54151S - $500,000.
The Maximum Order value for Special Item Number 54151HEAL - $500,000

Note to Ordering Activities: *If the best value selection places your order over the Maximum Order identified in this catalog/pricelist, you have an opportunity to obtain a better schedule contract price. Before placing your order, contact the aforementioned contactor for a better price. The contractor may (1) offer a new price for this requirement (2) offer the lowest price available under this contract or (3) decline the order. A delivery order that exceeds the maximum order may be placed under the schedule contract in accordance with FAR 8.404.

1.6 Minimum Order:

The minimum dollar value of orders to be issued is $100.00.
1.7 Point(s) of Production:
N/A (services only)

1.8 Discount from List Prices:
Government net prices (discounts already deducted). Quantity Discount(s): None

1.9 Prompt Payment Terms:
0% discount for net 30 days.

1.10 Government Purchase Cards
Government Purchase Cards must be accepted at or below the micro-purchase threshold. Government Purchase Cards are not accepted above the micro-purchase threshold. Contact contractor for limit.

1.11 Foreign Items:
N/A (services only)

1.12 Time of Delivery:
As negotiated between ScribeDoc.Com, Inc. and the ordering Activity.

1.13 Ordering Address:
Agencies should address all orders to the following address.
ScribeDoc.Com, Inc.
800 Corporate Dr, Suite 300, Third Floor, Stafford, VA -22554
Phone: 703-989-2627 /
Email: sandy@scribedoc.com

1.14 Ordering Procedures:
Ordering activities shall use the ordering procedures described in Federal Acquisition Regulation 8.405-3 when placing an order or establishing a BPA for supplies or services. The ordering procedures, information on Blanket Purchase Agreements (BPA’s) and a sample BPA can be found at the GSA/FSS Schedule Homepage (fss.gsa.gov/schedules).

1.15 Payment Address:
Agencies should address all payments to the following address.
ScribeDoc.Com, Inc.
800 Corporate Dr, Suite 300, Third Floor, Stafford, VA -22554
Phone: 703-989-2627 /
Email: sandy@scribedoc.com

1.16 Warranty Provision
N/A (services only).

1.17 Export Packing Charges: N/A

1.18 Terms and Conditions of Government Purchase Card Acceptance:
Contractor must accept the credit card for payments equal to or less than the micro-purchase for oral or written orders under this contract. The Contractor and the ordering agency may agree to use the credit card for dollar amounts over the micro-purchase threshold (See GSAR 552.232-79 Payment by Credit Card). In addition, bank account information for wire transfer payments will be shown on the invoice.

1.19 Special Attributes Such as Environmental Attributes:
(e.g. recycled content, energy efficiency, and/or reduced pollutants): N/A

1.20 Section 508 Compliance for Electronic and Information Technology (EIT)
ScribeDoc’s compliance with Section 508 is part of a unified corporate commitment to support accessibility of Electronic and Information Technology for all. ScribeDoc offers extensive experience in developing solutions that meet Federal Section 508 accessibility standards, and insuring that third-party solutions we implement are likewise compliant. We utilize in-house Section 508 experts who use a wide range of accessibility testing validation tools. If applicable, Section 508 compliance information on the supplies and services in this contract are available at the following:
1.21 Notification Regarding Registration in SAM (System of Award Management Database):
Contractor has an Active Registration in the SAM database.

1.22 Service Contract Act:
The Service Contract Act (SCA) is applicable to this contract and applies to the entire IT 70 Schedule and all services provided. While no specific labor categories have been identified as being subject to SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29CRF 5413.300), this contract still maintains the provisions and protections for SCA eligible labor categories. If and/or when the Contractor adds SCA labor categories/employees to the contract through the modification process, the Contractor must inform the Contracting Officer and establish a SCA matrix identifying the GSA labor category titles, the occupational code, SCA labor category titles and applicable wage determination (WD) number.

2.0 Terms and Conditions Applicable to Information Technology (IT) Professional Services (Special Item Number 54151S and 54151HEAL)

2.1 SCOPE
The prices, terms and conditions stated under Special Item Number 132-51 Information Technology Professional Services apply exclusively to IT Professional Services within the scope of this Information Technology Schedule. The Contractor shall provide services at the Contractor’s facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2.2 Performance Incentives I-FSS-60 Performance Incentives (April 2000)

a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract.
b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity’s mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

2.3 Order
Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.

a. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

2.4 Performance of Services

a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.
d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per
dime rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

2.5 Stop-Work Order (FAR 52.242-15)

The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either:

- Cancel the stop-work order;
- Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if:

- The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
- The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.

If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

2.6 Responsibilities of the Contractor

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Dec 2007) Rights in Data – General, may apply.

2.7 Responsibilities of the Ordering Activity

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Professional Services.

2.8 Independent Contractor

All IT Professional Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

2.9 Organizational Conflict of Interest

Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.

To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist.
in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

2.10 Invoices

The Contractor, upon completion of the work ordered, shall submit invoices for IT Professional services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

2.11 Payments

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order.

2.12 Resumes

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

2.13 Incidental Support Costs

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

2.14 Approval of Subcontracts

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

54151S Help Desk Specialist

Job Duties Description: Provides first line technical support to computer customers with questions regarding account administration, distribution of software and documentation, system and network status, and problem entry via problem tracking
tool. Maintain and update tracking tool. May report recurring problems to management. Provides support to end users on a variety of issues. • Identifies, researches, and resolves technical problems. • Responds to telephone calls, email and personnel requests for technical support. • Documents, tracks, and monitors the problem to ensure a timely resolution.

Education Level Required: High school education or equivalent and 7 years of technical training and/or relevant experience.

Certifications: CompTIA A+ Certification; CompTIA Network+ Certification; CompTIA Security+ Certification; MCSA: Windows 10; MCSE: Desktop Infrastructure.

54151S System Administrator

Job Duties Description: Responsible for managing the functionality, monitoring and efficiency of one or more operating systems, servers and user support and open trouble tickets with system vendors.

Principal Duties and Responsibilities: Duties to include setting up administrator and service accounts, maintaining system documentation, tuning system performance, installing system wide software, validating and implementing critical system patches, and allocating storage space. Schedules, plans, and oversees system upgrades. Open trouble tickets with system vendors. Develops functional requirements through interaction with end-users and coordinates with development team on systematic enhancements or changes. Provide basic support on Information Assurance, Security checklist patching, Cyber Security, Assessment and Authorization Support to systems.

Education Level Required: High school diploma or equivalent and 3 years of relevant data processing experience. Knowledge of personal computer and server processes and network operations is preferred. Should be a well-developed technical resource capable of handling simple and medium assignments.

54151S Database Specialist

Job Duties Description: Responsible for designing, tuning, and maintaining the database. This includes the design of the tables, fields, screens, triggers and stored procedures so as to optimize the database performance (efficiency, reliability, scalability). Will analyze database systems and programs, which include access methods, access time, file structures, device allocation, validation checks, statistical methods, and security. Will also work with user community to understand data access and integration needs, ensure integration of systems through the database structure, perform data modeling, monitor database standards and procedures, system usage and performance, troubleshoot and resolve database and data problems, and develop and administer disaster recovery plans.

Other responsibilities may include: Maintaining and creating Users, Nodes, Instances, Databases, Tables Spaces, Containers, Buffer Pools and Logs. Migrating data between databases. Extracting data from one system into flat files and then loading into the database without constraints. Writing Stored procedures, Triggers to populate data from non-constraints tables to normalized tables with constraints. Writing scripts to create instances, databases, web enabling access.

Education Level Required: Overall four (4) years experience in analyzing, designing, developing, and administering databases (Oracle, MS SQL, DB2, DMS, Sybase, MS-Access). Minimum Education: Bachelor’s degree in Computer Sciences, Information Systems, Mathematics or Engineering or equivalent combination of education and experience. Candidates having Associate Degree will also be considered if they have at least six (6) years of experience analyzing and designing databases.

Certification Requirements: None

54151HEAL Business Analyst

Job Duties Description: Coordinates and supports the development, enhancement, and maintenance of products and services applicable to multiple lines of a customer's business using information technology. Responsible for analyzing the various business processes and systems in an organization and how they interact with each other. Responsible for identifying the performance bottlenecks and
recommend steps to eradicate them with the goal of making the processes and therefore the systems more efficient. Identify ways to re-design and improve the processes, work closely with the design group to implement the process changes, and integrate them. Constantly monitor the performance of the IT systems and ensure optimal process efficiency and performance. Coordinates with business stakeholders, and interact with the customers’ technology team to ensure the alignment of the customers’ business needs and IT solutions. Also perform the analysis of the architecture of the system, study what hardware, operating system and software the organization uses, what is the role of each hardware and software element, what databases the organization runs and on what platforms, is the data being used reliable, which processes run on which platform/hardware, in what programming languages have the business logic been written. Anticipates and identifies user problems and needs.

Recommends IT solutions based on customer requirements and industry trends.

Education Level Required: Overall six (6) years of experience in analyzing the business processes, coordinating and supporting the development, enhancement, and maintenance of products and services applicable to multiple lines of a customer's business using latest information technology practices and trends. Minimum Education: Bachelor’s degree in Computer Sciences, Information Systems, Business, Mathematics or Engineering or equivalent combination of education and experience.

Certification Requirements: None

---

**54151S Program Analyst**

Job Duties Description: Responsible for performing complex program assignments in analyzing, defining, coding in the design, and implementing cost effective information technology solutions. Develops and review operator and control instructions. Prepares and conducts system and programming tests requiring interfacing of hardware and software. Conducts system programming activities such as program language codes, processing routines and report generators. Develops flow charts and diagrams outlining process and steps in operation; prepares documentation of program development, conducts program test and makes modification to code as needed. May analyze system capabilities to resolve input/output problems. A high aptitude for analytical problem solving and the ability to work independently is desired. Work on multiple projects simultaneously; some of a high priority/high visibility nature will be required. Ability to exercise independent judgment and control of project with minimal guidance also will be required.

Education Level Required: BA/BS Degree and 5+ years of relevant experience (can substitute graduate degree) in a related field and 8 years of systems programming experience, including leadership skills. Requires comprehensive knowledge of this field and the ability to complete highly complex assignments. Basic PC skills are required. Must possess advanced technical and project management's skills in the areas of trend and data analysis.

---

**54151HEAL IT Training Consultant**

Job Duties Description: Functional Responsibility: Gather requirements, develop, and deliver information technology related training to customers. Work with the IT, MIS, and other IT related staff to innovate and re-engineer current business practices. Assist customers with the personnel growth and education & training goals. Conduct analysis for the best industry practices, research and development in the IT areas.

Experience managing and delivering systems training with emphasis on the information technology areas. Expertise in the areas of developing and implementing e-commerce, e-business, and client-server systems. Design, Develop, and Deliver training to IT, MIS, and related staff.

Education Level Required: Bachelor’s degree or equivalent professional experience; Experience: 6 years of applicable experience, with 3 years managing teams or delivering training products. An advanced degree is equivalent to 3 years of experience.

This table reflects all agreed upon pricing, whether accepted as proposed or negotiated. The data also includes other proposed or negotiated discounts, e.g. volume discounts, prompt payment terms, etc. ScribeDoc.com, Inc. understands that the Industrial Funding Fee must be set aside for remittance to GSA on a quarterly basis. The Industrial Funding Fee (IFF) is a separate collection mechanism and any increase or decrease in the fee does not change the price discount relationship stated above. The current IFF is .75% and should be calculated as follows:

\[
\text{Negotiated price divided by (1 minus .0075) which equates to Negotiated price divided by 0.9925. Example: } (\frac{\$100,000}{0.9925}) = \$100,755.67
\]

ScribeDoc.com, Inc is an 8A, EDWOSB certified, consulting services company with a culture of innovation and a focus on solving problems for our clients. With ISO 9001:2015 certifications, ScribeDoc combines over a decade of federal experience, institutional knowledge with a deep commitment to customer relationships. We help streamline business processes and modernize IT through technology innovations while simultaneously facilitating efficiencies. Our team of experts use strategy and design and use data and technology to transform enterprises, resolve bottlenecks and solve problems.
5.0 Blanket Purchase Agreements (BPAs)

(Insert Customer Name)
In the spirit of the Federal Acquisition Streamlining Act, (ordering activity) and (Contractor) enter into a cooperative agreement to further reduce the administrative costs of acquiring commercial items from the General Services Administration (GSA) Federal Supply Schedule Contract(s).

Federal Supply Schedule contract BPAs eliminate contracting and open market costs such as: search for sources; the development of technical documents, solicitations and the evaluation of offers. Teaming Arrangements are permitted with Federal Supply Schedule Contractors in accordance with Federal Acquisition Regulation (FAR) 9.6. This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the ordering activity that works better and costs less.
