Labor Category Descriptions

Systems Analyst
Analyzes, develops, operates, and maintains software libraries and catalogs. Provides support and direction for user groups in the use of the software/hardware systems and programs to support an integrated system. Performs a variety of systems engineering tasks and activities that are broad in nature and are concerned with major systems design, integration, and implementation, including personnel, hardware, software, budgetary, and support facilities and/or equipment.

Minimum Education/Degree: Bachelor's degree in Computer Science, Information Systems, Engineering, Business, or other related discipline

Minimum Years’ of Experience: 3 Years

Solutions Architect
Establishes system information requirements using analysis provided by information engineers in the development of enterprise-wide or large-scale information systems. Designs architecture including the software, hardware, and communications to support the total requirements as well as provide for present and future cross-functional requirements and interfaces. Ensures that these systems are compatible and in compliance with the standards for open systems architectures.

Minimum Education/Degree: Bachelor's degree in Computer Science, Information Systems, Engineering, Business, or other related discipline

Minimum Years’ of Experience: 4 Years

Lead / Information Security System Manager
Participates in risk assessment during the Certification and Accreditation process. Designs, develops, implements, and integrates information assurance architecture, system, or system component for use within data center, network, and enclave environments. Participates in information systems risk assessments and designs security countermeasures to mitigate identified risks.

Minimum Education/Degree: Bachelor's degree in Computer Science, Information Systems, Engineering, Business, or other related discipline
Minimum Years’ of Experience: 6 Years

Help Desk Technician
The Help Desk Technician is responsible for receiving, documenting, and resolving software, hardware, and network issues reported by users via telephone, e-mail, chat and in person. This individual must display superior telephone, root cause analysis, and issue resolution skills. The Help Desk Technicians is responsible for answering Helpdesk calls and emails while providing resolutions for incidents. Problem resolution involves gathering information, diagnosing the customers' needs, conducting research to find correct solutions, and confirming that the issue is fully resolved. Further installing, testing and configuring new workstations, peripheral equipment and software. Assisting in gathering information for equipment inventory & software license inventory. Writing IT documentation such as detailing problems, procedures, and resolutions.

Minimum Education/Degree: Associates Degree in Information Technology or related field.

Minimum Years’ of Experience: 2 Years

Senior Software Developer
Develops, deploys, and maintains software platforms and applications. Executes complex analytical and programming tasks utilizing extensive knowledge of a variety of programming languages. Has the ability to work independently on a wide range of software development related activities. Ability to apply strong analytical skills in the performance of complex tasks and assignments. Required to work in a cross functional manner with internal and external project stakeholders including Project Manager(s).

Minimum Education/Degree: Bachelor's degree in Computer Science, Information Systems, Engineering, Business, or other related discipline

Minimum Years’ of Experience: 7 Years

Trainer
Conducts the research necessary to develop and revise training courses and prepares appropriate training catalogs. Develops all instructor materials (course outline, workbooks, handouts, completion certificates, and course critique forms). Trains personnel by conducting formal classroom courses, workshops, seminars, and/or computer-based/computer-aided training. Provides daily supervision and direction to staff.

Minimum Education/Degree: Bachelor's degree in Computer Science, Information Systems, Engineering, Business, or other related discipline

Minimum Years’ of Experience: 5 Years
