**Service Contract Labor Standards:** The Service Contract Labor Standards (SCLS) is applicable to this contract as it applies to the entire Multiple Awards Schedule and all services provided. While no specific labor categories for this SIN have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.

**Business Process Re-engineering Manager**

**Functional Responsibilities:** Applies process improvement and reengineering methodologies and principles to conduct process modernization projects. Responsible for effective transitioning of existing project teams, and the facilitation of project teams in the accomplishment of project activities and objectives. Provides group facilitation, interviewing, training, and provides additional forms of knowledge transfer. Key coordinator between multiple project teams to ensure enterprise-wide integration of reengineering efforts. Provides daily supervision and direction to Business Process Reengineering staff and other team members.

**Minimum Education:** Masters  
**Minimum Experience:** 10 years

**Business Process Re-engineering Manager II**

**Functional Responsibilities:** Applies process improvement and reengineering methodologies and principles to conduct process modernization projects. Responsible for effective transitioning of existing project teams, and the facilitation of project teams in the accomplishment of project activities and objectives. Provides group facilitation, interviewing, training, and provides additional forms of knowledge transfer. Key coordinator between multiple project teams to ensure enterprise-wide integration of reengineering efforts. Provides daily supervision and direction to Business Process Reengineering staff and other team members.

**Minimum Education:** Masters  
**Minimum Experience:** 12 years

**Business Process Re-engineering Specialist**

**Functional Responsibilities:** Applies process improvement and reengineering methodologies and principles to conduct process modernization projects. Duties include activity and data modeling, developing modern business methods, identifying best practices, and creating and assessing performance measurements.

**Minimum Education:** Bachelors  
**Minimum Experience:** 4 years

**Cataloger**

**Functional Responsibilities:** Responsible for bibliographic description of new materials acquired for the collection, using copy cataloging and item creation. Accessing cataloging databases to retrieve copy cataloging records for use in local systems. Access using Internet or other telecommunication devices. Have familiarity with current cataloging procedures and standard descriptive schemes. Must be able to work with authority control functionality in online, integrated library systems. Provides data analysis and conversion expertise when required.

**Minimum Education:** Bachelors  
**Minimum Experience:** 2 years

**Clerical II**

**Functional Responsibilities:** Directly supports management by providing general office functions, which include typing correspondence; filing, answering telephones and assisting other administrative support as necessary.

**Minimum Education:** Associates  
**Minimum Experience:** 2 years
**Clerical III**  
**Functional Responsibilities:** Directly supports management by providing general office functions, which include typing correspondence; filing, answering telephones and assisting other administrative support as necessary.  
**Minimum Education:** Associates  
**Minimum Experience:** 3 years

**Clerical IV**  
**Functional Responsibilities:** Directly supports management by providing general office functions, which include typing correspondence; filing, answering telephones and assisting other administrative support as necessary.  
**Minimum Education:** Associates  
**Minimum Experience:** 4 years

**Communications Network Manager**  
**Functional Responsibilities:** Evaluates communication hardware and software, troubleshoots LAN/MAN/WAN and other network related problems, and provides technical expertise for performance and configuration of networks. Performs general LAN/MAN/WAN administration, provides technical leadership in the integration and test of complex large-scale computer integrated networks. Supervises staff.  
**Minimum Education:** Bachelors  
**Minimum Experience:** 4 years

**Computer Operator II**  
**Functional Responsibilities:** Monitors and supports computer processing. Coordinates input, output, and file media. Distributes output and controls computer operation, which may be mainframe, mini, or client/server based or peripheral equipment.  
**Minimum Education:** Associates  
**Minimum Experience:** 1 year

**Computer Operator III**  
**Functional Responsibilities:** Monitors and supports computer processing. Coordinates input, output, and file media. Distributes output and controls computer operation, which may be mainframe, mini, or client/server based or peripheral equipment.  
**Minimum Education:** Associates  
**Minimum Experience:** 18 months

**Computer Operator IV**  
**Functional Responsibilities:** Monitors and supports computer processing. Coordinates input, output, and file media. Distributes output and controls computer operation, which may be mainframe, mini, or client/server based or peripheral equipment.  
**Minimum Education:** Associates  
**Minimum Experience:** 2 years
Computer Programmer I
Functional Responsibilities: Assists with the analysis of information requirements. Aids in the evaluation of problems with workflow, organization, and planning and helps develop appropriate corrective action.

Minimum Education: Bachelors
Minimum Experience: 0

Computer Programmer II
Functional Responsibilities: Participates in the design of software tools and subsystems to support reuse and domain analysis. Assists Applications Engineer and Applications Programmer to interpret software requirements and design specifications to code and integrate and test software components.

Minimum Education: Bachelors
Minimum Experience: 1 year

Computer Programmer III
Functional Responsibilities: Analyzes functional business applications and design specifications for functional activities. Develops block diagrams and logic flow charts. Translates detailed design into computer software. Tests, debugs, and refines the computer software to produce the required product. Prepares required documentation, including both program-level and user-level documentation. Enhances software to reduce operating time or improve efficiency. Provides technical direction to programmers to ensure program deadlines are met.

Minimum Education: Bachelors
Minimum Experience: 2 years

Computer Programmer IV
Functional Responsibilities: Analyzes functional business applications and design specifications for functional activities. Develops block diagrams and logic flow charts. Translates detailed design into computer software. Tests, debugs, and refines the computer software to produce the required product. Prepares required documentation, including both program-level and user-level documentation. Enhances software to reduce operating time or improve efficiency. Provides technical direction to programmers to ensure program deadlines are met.

Minimum Education: Bachelors
Minimum Experience: 5 years

Computer Security Specialist II
Functional Responsibilities: Provide support to plan, coordinate, and implement the organization’s information security. Provide support for facilitating and helping agencies identify their current security infrastructure and define future programs, design and implementation of firewall and other related security issues on LANs/WANs. A working knowledge of several of the following areas is required: understanding of business security practices and procedures; knowledge of current security tools available; hardware/software firewalls and there implementation; different communication protocols; encryption techniques/tools; familiarity with commercial products (ex. - DNS, RSA, Smartcard, Cyberguard, BBN, TimeStep), and current Internet/EC technology.

Minimum Education: Bachelors
Minimum Experience: 5 years
**Computer Systems Analyst I**

**Functional Responsibilities:** Analyzes information requirements. Evaluates analytically and systematically problems of workflows, organization, and planning and assists senior level Computer Systems Analyst to develop appropriate corrective action. Help develop plans for automated information systems from project inception to conclusion. Defines the problem, and develops system requirements and program specifications, from which programmers prepare detailed flow charts, programs, and tests. Coordinates closely with senior level analysts and programmers to ensure proper implementation of program and system specifications. Develops, in conjunction with functional users, system alternative solutions.

**Minimum Education:** Associates

**Minimum Experience:** 0

---

**Computer Systems Analyst II**

**Functional Responsibilities:** Analyzes and develops computer software possessing a wide range of capabilities, including numerous engineering, business, and records management functions. Develops plans for automated information systems from project inception to conclusion. Analyzes user interfaces, maintain hardware and software performance tuning, analyze workload and computer usage, maintain interfaces with outside systems, analyze downtimes, analyze proposed system modifications, upgrades and new COTS. Analyzes the problem and the information to be processed. Defines the problem, and develops system requirements and program specifications, from which programmers prepare detailed flow charts, programs, and tests. Coordinates closely with programmers to ensure proper implementation of program and system specifications. Develops, in conjunction with functional users, system alternative solutions.

**Minimum Education:** Associates

**Minimum Experience:** 1 year

---

**Computer Systems Analyst III**

**Functional Responsibilities:** Analyzes and develops computer software possessing a wide range of capabilities, including numerous engineering, business, and records management functions. Develops plans for automated information systems from project inception to conclusion. Analyzes user interfaces, maintain hardware and software performance tuning, analyze workload and computer usage, maintain interfaces with outside systems, analyze downtimes, analyze proposed system modifications, upgrades and new COTS. Analyzes the problem and the information to be processed. Defines the problem, and develops system requirements and program specifications, from which programmers prepare detailed flow charts, programs, and tests. Coordinates closely with programmers to ensure proper implementation of program and system specifications. Develops, in conjunction with functional users, system alternative solutions.

**Minimum Education:** Bachelors

**Minimum Experience:** 3 years

**Functional Responsibilities:** Analyzes and develops computer software possessing a wide range of capabilities, including numerous engineering, business, and records management functions. Develops plans for automated information systems from project inception to conclusion. Analyzes user interfaces, maintain hardware and software performance tuning, analyze workload and computer usage, maintain interfaces with outside systems, analyze downtimes, analyze proposed system modifications, upgrades and new COTS. Analyzes the problem and the information to be processed. Defines the problem, and develops system requirements and program specifications, from which programmers prepare detailed
flow charts, programs, and tests. Coordinates closely with programmers to ensure proper implementation of program and system specifications. Develops, in conjunction with functional users, system alternative solutions.

**Minimum Education:** Bachelors  
**Minimum Experience:** 6 years

**Continuity of Operations Plan/Disaster Recovery Engineer III**  
**Functional Responsibilities:** Leads complex DR and data center assessments for disaster recovery solution recommendations and implementations; specializes in Dr/COOP design architecture based on the critical nature of the applications to support customer missions; identifies appropriate solutions to fit each customer specifics; serves as the Technical Point of Contact for issue resolution of customer issues; and provides pre- sales technical support in the form of presentations, white papers, and client meetings.

**Minimum Education:** Bachelors  
**Minimum Experience:** 3 years

**Continuity of Operations Plan/Disaster Recovery Manager**  
**Functional Responsibilities:** Specializes in data center operations and all associated business continuity and disaster recovery solutions; well versed in the risks inherent to disaster recovery; manages projects; serves as primary technical interface with Government program management and technical personnel for delivery order performance; oversees delivery order performance; ensures deliverable quality; and reports schedule, cost and execution performance.

**Minimum Education:** Bachelors  
**Minimum Experience:** 4 years

**Data Communications Specialist**  
**Functional Responsibilities:** Analyzes network characteristics and recommends procurement, removals, and modifications to network components. Designs and optimizes network topologies and site configurations. Plans installations, transitions, and cutovers of network components and capabilities. Coordinates requirements with users and suppliers.

**Minimum Education:** Associates  
**Minimum Experience:** 3 years

**Director**  
**Functional Responsibilities:** Manages and supervises the design, development, and implementation of enterprise-wide, high-level, or large-scale information systems. Responsible for all aspects of the task to include planning, analysis, design, implementation, and testing of information systems. Ensures these systems are in compliance with task or specifications and government requirements. Provides direction and supervision to other management and technical staff.

**Minimum Education:** Masters  
**Minimum Experience:** 12 years

**Financial Consultant**  
**Functional Responsibilities:** Manages the overall performance of the engagement. Ensures that the goals and objectives of the engagement are accomplished within the prescribed timeframe and funding parameters. Provides updates on the progress of the engagement to the Financial Senior Consultant and issues the final report. Conducts quality control inspections and reviews.

**Help Desk Manager II**  
**Functional Responsibilities:** Provides daily supervision and direction to staff who are responsible for phone and in-person support to users in the areas of e-mail, directories, standard Windows desktop applications, and applications developed or deployed under this contract. These personnel serve as the first point of contact for troubleshooting hardware/software PC and printer problems.

**Minimum Education:** Bachelors  
**Minimum Experience:** 7 years

**Help Desk Specialist I**  
**Functional Responsibilities:** Provides phone and in-person support to users in the areas of e-mail, directories, standard Windows desktop applications, and applications developed under this contract or predecessors. Serves as the initial point of contact for troubleshooting hardware/software PC and printer problems.

**Minimum Education:** Associates  
**Minimum Experience:** 1 year

**Help Desk Specialist III**  
**Functional Responsibilities:** Provides phone and in-person support to users in the areas of e-mail, directories, standard Windows desktop applications, and applications developed under this contract or predecessors. Serves as the initial point of contact for troubleshooting hardware/software PC and printer problems.

**Minimum Education:** Bachelors  
**Minimum Experience:** 2 years

**Information Systems Architect**  
**Functional Responsibilities:** Establishes system information requirements using analysis of the information engineer(s) in the development of enterprise-wide or large-scale information systems. Designs architecture to include the software, hardware, and communications to support the total requirements as well as provide for present and future cross-functional requirements and interfaces. Ensures these systems are compatible and in compliance with the standards for open systems architectures, the Open Systems Interconnection (OSI) and International Standards Organization (ISO) reference models, and profiles of standards.

**Minimum Education:** Masters  
**Minimum Experience:** 10 years

**Key Entry Operator I**  
**Functional Responsibilities:** Performs daily entry via on-line data terminal, key-to-tape, key-to-disk, or similar device. Verifies data entered, where applicable.

**Minimum Education:** Associates  
**Minimum Experience:** 1 year
**Key Entry Operator II**

**Functional Responsibilities:** Performs daily entry via on-line data terminal, key-to-tape, key-to-disk, or similar device. Verifies data entered, where applicable.

**Minimum Education:** Associates  
**Minimum Experience:** 2 years

**Librarian**

**Functional Responsibilities:** Provides independent and complex technical library assistance of a specialized nature utilizing IT systems to manage work requests and generate reports on a daily basis to support daily workload. Coordinates, directs, and participates in major support activities of the library such as circulation, technical services, or serials.

**Minimum Education:** Bachelors  
**Minimum Experience:** 1 year

**Library Technician II**

**Functional Responsibilities:** Under the direction of an assigned supervisor, perform a wide variety of complex and difficult paraprofessional library/media center activities and assist in directing a major unit of library/media center operations and activities. Utilize IT systems to generate reports on a daily basis to support daily workload. Provides data analysis and conversion expertise. Performs analysis tasks as required to gather required information to enable systems designs to be performed. Assists with providing supervision and direction to staff working in the same subject areas.

**Minimum Education:** Associates  
**Minimum Experience:** 2 years

**Library Technician III**

**Functional Responsibilities:** Routinely process incoming work requests using IT systems and generate reports to support daily workload. Routinely process incoming work requests using IT systems and generate reports leveraging various databases, to support daily workload. Will assist the library staff in staff scheduling, supply purchases and electronic reference resource selection. Will assist the professional technical services staff in a variety of functions, including: bibliographic data entry; collection development, acquisitions & fund accounting; serials check-in, routing, binding & claiming; and stacks maintenance, shelving, weeding & collection shifts. Provides minimal supervision and direction to other support staff employed in the same work areas.

**Minimum Education:** Associates  
**Minimum Experience:** 3 years

**Management Consultant II**

**Functional Responsibilities:** Proficient in analysis and definition of business needs, applying methodologies, support of program management, exposure to client issues, and development of project deliverables. Provides assistance on completing work plan activities, analyzes relevant data and information, and institutes and supports business solutions. Other experience includes process improvement diagnoses, process modeling and documentation, benchmarking activities, and exposure to change management principles. Provides analytical and program support and is focused on high performance work and understands Agency business needs. Regarding consulting services, this position completes assigned engagement tasks within the project scope and budget, while meeting deliverable requirements. Serves as a key analytical resource on engagement team. Assumes responsibility for conducting relevant research, distilling data, and creating reports. Actively engages consulting tools and
methodologies to meet project objectives and complete program management activities. Maintains responsibility for quality assurance practices and fostering completion and accuracy of system documentation. May also participate in organizational assessments, and performance measures and indicators.

**Minimum Education:** Bachelors  
**Minimum Experience:** 10 years

**Management Consultant III**  
**Functional Responsibilities:** Proficient in analysis and definition of business needs, applying methodologies, support of program management, exposure to client issues, and development of project deliverables. Provides assistance on completing work plan activities, analyzes relevant data and information, and institutes and supports business solutions. Other experience includes process improvement diagnoses, process modeling and documentation, benchmarking activities, and exposure to change management principles. Provides analytical and program support and is focused on high performance work and understands Agency business needs. Actively engages consulting tools and methodologies to meet project objectives and complete program management activities. Maintains responsibility for quality assurance practices and fostering completion and accuracy of system documentation. May also participate in organizational assessments, and performance measures and indicators.

**Minimum Education:** Masters  
**Minimum Experience:** 12 years

**Microsoft Exchange Subject Matter Expert (SME)**  
**Functional Responsibilities:** Provide Microsoft Exchange expertise and technical support to facilitate the migration of legacy email systems. Duties to include:
- Identify technical dependencies and issues that impact migration
- Identify options/solutions to address dependencies and issues to maintain schedule
- Implement solutions and work a rounds to dependencies/issues in client environment if necessary
- Point of escalation to address issues during migration
- Participate in client meetings to schedule and coordinate migration
- Develop architecture/interface diagrams as necessary client issues and feedback.

**Minimum Education:** Bachelors  
**Minimum Experience:** 4 years

**Network Technician I**  
**Functional Responsibilities:** Conducts site surveys. Assesses and documents current site network configuration and user requirements. Designs and optimizes network topologies. Follows engineering plans and site installation Technical Design Packages. Develops installation schedules. Works with network installation team. Assists in the preparation of drawing and documenting configuration changes at each site. Prepares site installation and test reports.

**Minimum Education:** Associates  
**Minimum Experience:** 1 year
Network Technician II

**Functional Responsibilities:** Conducts site surveys. Assesses and documents current site network configuration and user requirements. Designs and optimizes network topologies. Follows engineering plans and site installation Technical Design Packages. Develops installation schedules. Works with network installation team. Assists in the preparation of drawing and documenting configuration changes at each site. Prepares site installation and test reports.

**Minimum Education:** Associates

**Minimum Experience:** 2 years

Network Technician III

**Functional Responsibilities:** Organizes and directs network installations on site surveys. Assesses and documents current site network configuration and user requirements. Designs and optimizes network topologies. Directs and leads preparation of engineering plans and site installation Technical Design Packages. Develops installation schedules. Mobilizes network installation team. Directs and leads preparation of drawings documenting configuration changes at each site. Prepares site installation and test reports. Coordinates post installation operations and maintenance support.

**Minimum Education:** Associates

**Minimum Experience:** 3 years

Network Technician IV

**Functional Responsibilities:** Organizes and directs network installations on site surveys. Assesses and documents current site network configuration and user requirements. Designs and optimizes network topologies. Directs and leads preparation of engineering plans and site installation Technical Design Packages. Develops installation schedules. Mobilizes network installation team. Directs and leads preparation of drawings documenting configuration changes at each site. Prepares site installation and test reports. Coordinates post installation operations and maintenance support.

**Minimum Education:** Associates

**Minimum Experience:** 4 years

Principal Information Engineer

**Functional Responsibilities:** Applies an enterprise-wide set of disciplines for the planning, analysis, design and construction of information systems on an enterprise-wide basis or across a major sector of the enterprise. Develops analytical and computational techniques and methodology for problem solutions. Performs enterprise wide strategic systems planning, business information planning, business and analysis. Performs process and data modeling in support of the planning and analysis efforts using both manual and automated tools. Applies reverse engineering and re-engineering disciplines to develop migration strategic and planning documents. Provides technical guidance in software engineering techniques and automated support tools.

**Minimum Education:** Bachelors

**Minimum Experience:** 6 years

Principal Systems Architect

**Functional Responsibilities:** Establishes system information requirements using analysis of the information engineer(s) in the development of enterprise-wide or large-scale information systems. Designs architecture to include the software, hardware, and communications to support the total
requirements as well as provide for present and future cross-functional requirements and interfaces. Ensures these systems are compatible and in compliance with the standards for open systems architectures, the Open Systems Interconnection (OSI) and International Standards Organization (ISO) reference models, and profiles of standards. Ensures that the common operating environment is TAFIM compliant.

Minimum Education: Masters
Minimum Experience: 7 years

**Program Manager**

**Functional Responsibilities:** Serves as the contractor's single contract manager and shall be the authorized interface with the contract level Contracting Officer's Representative (COR), government management personnel, and customer agency representatives. Responsible for formulating and enforcing work standards, assigning contractor schedules, reviewing work discrepancies, supervising contractor personnel and communicating policies, purposes, and goals of the organization to subordinates.

Minimum Education: Bachelors
Minimum Experience: 10 years

**Project Control Specialist**

**Functional Responsibilities:** Directs all financial management and administrative activities, such as budgeting, manpower and resource planning, and financial reporting. Performs complex evaluations of existing procedures, processes, techniques, models, and/or systems related to management problems or contractual issues, which would require a report and recommend solutions. Develops work breakdown structures, prepare charts, tables, graphs, and diagrams to assist in analyzing problems. Provides daily supervision and direction to staff.

Minimum Education: Bachelors
Minimum Experience: 6 years

**Project Control Specialist II**

**Functional Responsibilities:** Directs all financial management and administrative activities, such as budgeting, manpower and resource planning, and financial reporting. Performs complex evaluations of existing procedures, processes, techniques, models, and/or systems related to management problems or contractual issues, which would require a report and recommend solutions. Develops work breakdown structures, prepare charts, tables, graphs, and diagrams to assist in analyzing problems. Provides daily supervision and direction to staff.

Minimum Education: Bachelors
Minimum Experience: 8 years

**Project Coordinator II**

**Functional Responsibilities:** Provide project management support to coordinate migration of multiple legacy email systems to the Agency EMS (Enterprise Messaging System) or equivalent. Duties to include:

- Point of contact for client migration
- Develop and update of MS project plan
- Interface with client IT management and technical staff to schedule migration in accordance with master integrated project plan
• Participate and lead meetings with client to review and finalize migration plan and other documentation
• Identify all project dependencies and develop resolution and/or work a round to maintain schedule
• Draft and finalize (based on client and other input) the Communications Plan, Migration Schedule, Risk/Mitigations, etc.
• Participate in regular client and operations conference calls and meetings
• Point of escalation for facilitate resolutions to issues/incidents during migration
• Take meeting notes and define/track action items

**Minimum Education:** Bachelors
**Minimum Experience:** 4 years

---

**Project Manager**

**Functional Responsibilities:** Serves as the project manager for a large, complex task order (or a group of task orders affecting the same common/standard/migration system) and shall assist the Program Manager in working with the contract-level Contracting Officer's Representative (COR), the task order-level COR(s), government management personnel and customer agency representatives. Under the guidance of the Program Manager, responsible for the overall management of the specific task order(s) and ensuring that the technical solutions and schedules in the task order are implemented in a timely manner.

**Minimum Education:** Bachelors
**Minimum Experience:** 8 years

---

**Quality Assurance Analyst**

**Functional Responsibilities:** Provides technical and administrative direction for personnel performing software development tasks, including the review of work products for correctness, adherence to the design concept and to user standards, review of program documentation to assure government standards / requirements are adhered to, and for progress in accordance with schedules. Coordinates with the Project Manager and/or Quality Assurance Manager to ensure problem solution and user satisfaction. Makes recommendations, if needed, for approval of major systems installations. Prepares milestone status reports and deliveries/presentations on the system concept to colleagues, subordinates, and end user representatives.

**Minimum Education:** Bachelors
**Minimum Experience:** 6 years

---

**Quality Assurance Manager**

**Functional Responsibilities:** Establishes and maintains a process for evaluating software and associated documentation. Determines the resources required for quality control. Maintains the level of quality throughout the software life cycle. Conducts formal and informal reviews at pre-determined points throughout the development life cycle. Provides daily supervision and direction to support staff.

**Minimum Education:** Bachelors
**Minimum Experience:** 8 years

---

**Senior AutoCAD Manager III**

**Functional Responsibilities:** Certified in ARCHIBUS or equivalent; expert level command of various MS Office products as well as Crystal Reports Professional Edition; specializes in CAD floor plan
drawings and managing facility real property data and experienced in using CAFM Systems, as well as technical experience using AutoCAD; experienced in team/project leadership.

**Minimum Education:** Masters  
**Minimum Experience:** 10 years

**Senior AutoCAD Specialist I**  
**Functional Responsibilities:** Thorough understanding of AutoCAD and various MS Office products; specializes in facility data and drawings, as well as data change events and associated document management; experienced in team/project leadership.

**Minimum Education:** Bachelors  
**Minimum Experience:** 4 years

**Senior AutoCAD Specialist II**  
**Functional Responsibilities:** Thorough understanding of AutoCAD and various MS Office products; specializes in facility data and drawings, as well as data change events and associated document management; experienced in team/project leadership.

**Minimum Education:** Bachelors  
**Minimum Experience:** 7 years

**Senior AutoCAD Specialist III**  
**Functional Responsibilities:** Thorough understanding of AutoCAD and various MS Office products; specializes in facility data and drawings, as well as data change events and associated document management; experienced in team/project leadership.

**Minimum Education:** Bachelors  
**Minimum Experience:** 10 years

**Senior Business Process Engineering Specialist**  
**Functional Responsibilities:** Applies process improvement and reengineering methodologies and principles to conduct process modernization projects. Responsible for effective transitioning of existing project teams, and the facilitation of project teams in the accomplishment of project activities and objectives. Provides group facilitation, interviewing, training, and provides additional forms of knowledge transfer. Key coordinator between multiple project teams to ensure enterprise-wide integration of reengineering efforts. Provides daily supervision and direction to Business Process Reengineering Specialist.

**Minimum Education:** Masters  
**Minimum Experience:** 8 years

**Senior Cataloger**  
**Functional Responsibilities:** Responsible for bibliographic description of new materials acquired for the collection, using copy cataloging, original cataloging, holdings, and item creation. Maintaining the bibliographic integrity of the ILS system, performing file maintenance, performing inventory of collection components, answering questions on the current library collection, and preparing any required reports overseeing the disposition of unwanted and duplicate materials. Provides data analysis and conversion expertise when required. Provides supervision and direction when required to any staff working in the cataloging area.
Minimum Education: Masters
Minimum Experience: 5 years

Senior Database Analyst I
Functional Responsibilities: Provides highly technical expertise in the use of DBMS. Evaluates and recommends available DBMS products to support validated user requirements. Defines file organization, indexing methods, and security procedures for specific user applications.

Minimum Education: Bachelors
Minimum Experience: 2 years

Senior Database Analyst II
Functional Responsibilities: Provides highly technical expertise in the use of DBMS. Evaluates and recommends available DBMS products to support validated user requirements. Defines file organization, indexing methods, and security procedures for specific user applications.

Minimum Education: Bachelors
Minimum Experience: 4 years

Senior Database Analyst III
Functional Responsibilities: Manages the development of data base projects. Plans and budgets staff and data base resources. When necessary, reallocates resources to maximize benefits. Prepares and delivers presentations on data base management systems (DBMS) concepts. Provides daily supervision and direction to support staff.

Minimum Education: Bachelors
Minimum Experience: 6 years

Senior Database Analyst IV
Functional Responsibilities: Manages the development of data base projects. Plans and budgets staff and data base resources. When necessary, reallocates resources to maximize benefits. Prepares and delivers presentations on data base management systems (DBMS) concepts. Provides daily supervision and direction to support staff.

Minimum Education: Bachelors
Minimum Experience: 8 years

Senior Financial Consultant
Functional Responsibilities: Organizes and directs the overall performance of the contract. Interacts with management personnel assigned to the engagement and is responsible for decisions made with respect to any technical or administrative matters encountered. Approves the engagement planning and is responsible for approval of the final report.

Minimum Education: Masters
Minimum Experience: 10 years

Senior Functional Analyst
Functional Responsibilities: Analyze user needs to determine functional and cross-functional requirements. Performs functional allocation to identify required tasks and their interrelationships. Identifies resources required for each task. Provides daily supervision and direction to support staff.
Minimum Education: Bachelors
Minimum Experience: 7 years

**Senior Help Desk Specialist**  
**Functional Responsibilities:** Responsible for Help Desk staff and the activities associated with the identification, prioritization and resolutions of reported problems. Provides phone and in-person support to users in the areas of e-mail, directories, standard Windows desktop applications, and applications developed under this contract or predecessors. Serves as the initial point of contact for troubleshooting hardware/software PC and printer problems.

Minimum Education: Bachelors
Minimum Experience: 3 years

**Senior Information Engineer**  
**Functional Responsibilities:** Applies business process improvement practices to re-engineer methodologies/principles and business process modernization projects. Applies, as appropriate, activity and data modeling, transaction flow analysis, internal control and risk analysis and modern business methods and performance measurement techniques. Assist in establishing standards for information systems procedures. Develops and applies organization-wide information models for use in designing and building integrated, shared software and database management systems. Constructs sound, logical business improvement opportunities consistent with corporate Information Management guiding principles, cost savings, and open system architecture objectives. Provides daily supervision and direction to staff.

Minimum Education: Bachelors
Minimum Experience: 5 years

**Senior Information Systems Training Specialist**  
**Functional Responsibilities:** Conducts the research necessary to develop and revise training courses and prepares appropriate training catalogs. Develops all instructor materials (course outline, background material, and training aids). Develops all student materials (course manuals, workbooks, handouts, completion certificates, and course critique forms). Trains personnel by conducting formal classroom courses, workshops, seminars, and/or computer based/computer aided training. Provides daily supervision and direction to staff.

Minimum Education: Bachelors
Minimum Experience: 4 years

**Senior Librarian**  
**Functional Responsibilities:** Supports the design, development, and implementation of enterprise-wide or large-scale virtual digital library systems. Provides specific subject matter expertise as required in system or information areas to allow coordination between library personnel and technical staff. Utilize IT systems to generate reports on a daily basis to support daily workload. Provides data analysis and conversion expertise. Performs analysis tasks as required to gather required information to enable systems designs to be performed. Provides supervision and direction to staff working in the same subject areas.

Minimum Education: Masters
Minimum Experience: 3 years
**Senior Logistician**

**Functional Responsibilities:** Responsible for development of logistics management plans to support acquisition and life cycle support of electronic, electromechanical and other military or commercial systems/equipment; monitors planning schedule execution and integrates/develops recommendations for corrective or remedial action; develop status reports reflecting support milestone progress and problems; and provides technical guidance to junior logistician personnel for development of logistics management documentation.

**Minimum Education:** Bachelors  
**Minimum Experience:** 6 years

**Senior Principal**

**Functional Responsibilities:** Manages and supervises the design, development and implementation of enterprise-wide, high level or large-scale IT systems. Responsible for all aspects of the task to include planning, analysis, design, implementation, and testing of information systems. Ensures these systems are in compliance with task or specifications and government requirements. Provides direction and supervision to other management and technical staff.

**Minimum Education:** Masters  
**Minimum Experience:** 15 years

**Senior Program Control Specialist**

**Functional Responsibilities:** Maintains current project documentation and record of changes including status reports. Assists in establishing budget and monitoring performance. Directs all or most activities related to financial and administrative functions, such as budgeting, manpower and resource planning, and financial reporting. May research, report on, and recommend solutions to contractual issues.

**Minimum Education:** Bachelors  
**Minimum Experience:** 10 years

**Senior Program Manager**

**Functional Responsibilities:** Serves as the contractor's single Senior Manager and shall be the contractor's authorized interface with the Government Contracting Officer (CO), the contract level Contracting Officer's Representative (COR), government management personnel and customer agency representatives. Responsible for formulating and enforcing work standards, assigning contractor schedules, reviewing work discrepancies, supervising contractor personnel, and communicating policies, purposes, and goals of the organization to subordinates. Shall be responsible for the overall contract performance and shall not serve in any other capacity under this contract.

**Minimum Education:** Bachelors  
**Minimum Experience:** 11 years

**Senior Project Manager**

**Functional Responsibilities:** Manages and supervises the design, development, and implementation of enterprise-wide or large-scale information systems. Responsible for all aspects of the task to include planning, analysis, design, implementation, and testing of information systems. Ensures these systems are in compliance with task or specifications and government requirements. Provides direction and supervision to other management and technical staff.

**Minimum Education:** Bachelors  
**Minimum Experience:** 9 years
**Senior Systems Architect**

**Functional Responsibilities:** Establishes system information requirements using analysis of the information engineer(s) in the development of enterprise-wide or large-scale information systems. Designs architecture to include the software, hardware, and communications to support the total requirements as well as provide for present and future cross-functional requirements and interfaces. Ensures these systems are compatible and in compliance with the standards for open systems architectures, the Open Systems Interconnection (OSI) and International Standards Organization (ISO) reference models, and profiles of standards. Ensures that the common operating environment is TAFIM compliant.

**Minimum Education:** Bachelors  
**Minimum Experience:** 5 years

---

**Senior Systems Engineer I**

**Functional Responsibilities:** Analyzes functional business applications and design specifications for functional activities. Develops block diagrams and logic flow charts. Translates detailed design into computer software. Selects commercially available off-the-shelf software and develops interface design to meet functional requirements. Tests, debugs, and refines the computer software to produce the required product. Prepares required documentation, including both program-level and user-level documentation. Enhances software to reduce operating time or improve efficiency. Provides technical direction to programmers to ensure program deadlines are met.

**Minimum Education:** Bachelors  
**Minimum Experience:** 3 years

---

**Senior Systems Engineer II**

**Functional Responsibilities:** Analyzes functional business applications and design specifications for functional activities. Develops block diagrams and logic flow charts. Translates detailed design into computer software. Selects commercially available off-the-shelf software and develops interface design to meet functional requirements. Tests, debugs, and refines the computer software to produce the required product. Prepares required documentation, including both program-level and user-level documentation. Enhances software to reduce operating time or improve efficiency. Provides technical direction to programmers to ensure program deadlines are met.

**Minimum Education:** Bachelors  
**Minimum Experience:** 6 years

---

**Senior Systems Engineer III**

**Functional Responsibilities:** Analyzes and studies complex system requirements. Designs software tools and subsystems to support software reuse and domain analyses and manages their implementation. Selects commercially available off-the-shelf software and develops interface design to meet functional requirements. Manages software development and support using formal specifications, data flow diagrams, other accepted design techniques and Computer Aided Software Engineering (CASE) tools. Estimates software development costs and schedule. Reviews existing programs and assists in making refinements, reducing operating time, and improving current techniques. Supervises software configuration management.

**Minimum Education:** Bachelors  
**Minimum Experience:** 8 years
**Senior Systems Engineer IV**

**Functional Responsibilities:** Analyzes and studies complex system requirements. Designs software tools and subsystems to support software reuse and domain analyses and manages their implementation. Selects commercially available off-the-shelf software and develops interface design to meet functional requirements. Manages software development and support using formal specifications, data flow diagrams, other accepted design techniques and Computer Aided Software Engineering (CASE) tools. Estimates software development costs and schedule. Reviews existing programs and assists in making refinements, reducing operating time, and improving current techniques. Supervises software configuration management.

**Minimum Education:** Bachelors
**Minimum Experience:** 10 years

---

**Senior Voice/Data Communications Specialist**

**Functional Responsibilities:** Supervises, evaluates, designs, and maintains existing or proposed data/voice telecommunication systems. Analyses needed and proposes recommended solutions. Assists in preparation of specifications and flow charts.

**Minimum Education:** Bachelors
**Minimum Experience:** 5 years

---

**Senior Work Management Software Analyst**

**Functional Responsibilities:** Analyzes and develops computer software possessing a wide range of capabilities, including numerous engineering, business, and records management functions. Develops plans for automated information systems from project inception to conclusion. Analyzes user interfaces, maintain hardware and software performance tuning, analyze workload and computer usage, maintain interfaces with outside systems, analyze downtimes, analyze proposed system modifications, upgrades and new COTS. Analyzes the problem and the information to be processed. Defines the problem, and develops system requirements and program specifications, from which programmers prepare detailed flow charts, programs, and tests. Coordinates closely with programmers to ensure proper implementation of program and system specifications. Develops, in conjunction with functional users, system alternative solutions.

**Minimum Education:** Masters
**Minimum Experience:** 7 years

---

**Software Project Director/Work Management Software Architect**

**Functional Responsibilities:** Responsible for creating and/or maintaining the work management software team(s). Responsible for all employee management, including direct liaison with agency COTR. Responsible for facilitating the use of project teams to accomplish project activities and objectives as designated by client requirements. Responsible for studying client requirements with client input to design the most cost-effective solution to any and all project elements. Constructs project teams through a combination of interviewing, hiring, restaffing, task-oriented staff repositioning, training, and retraining. Responsible for maintaining all communication channels between client workforce and project team.

**Minimum Education:** Masters
**Minimum Experience:** 8 years

---

**Supervisory Auditor/Accountant**

**Functional Responsibilities:** Supervises the engagement and is responsible for the implementation of procedures to be followed relative to the audit plan or project plan. Is responsible for drafting the audit or
engagement report prior to its submission for approval. Assumes responsibility for the coordination of subordinate activities. Conducts on-site quality control inspections and reviews.

**Minimum Education:** Bachelors  
**Minimum Experience:** 5 years

**System Technician I**  
**Functional Responsibilities:** Builds and integrates computer systems and networks. Prepares reports and studies concerning hardware and network systems. Prepares functional requirements and specifications for hardware and software acquisitions. Ensures that problems have been properly identified and solutions will satisfy the user's requirements.

**Minimum Education:** Associates  
**Minimum Experience:** 1 year

**System Technician II**  
**Functional Responsibilities:** Builds and integrates computer systems and networks. Prepares reports and studies concerning hardware and network systems. Prepares functional requirements and specifications for hardware and software acquisitions. Ensures that problems have been properly identified and solutions will satisfy the user's requirements.

**Minimum Education:** Associates  
**Minimum Experience:** 2 years

**System Technician III**  
**Functional Responsibilities:** Builds and integrates computer systems and networks. Prepares reports and studies concerning hardware and network systems. Prepares functional requirements and specifications for hardware and software acquisitions. Ensures that problems have been properly identified and solutions will satisfy the user's requirements. Ensures that problems have been properly identified and solutions will satisfy the user's requirements.

**Minimum Education:** Associates  
**Minimum Experience:** 4 years

**System Technician IV**  
**Functional Responsibilities:** Builds and integrates computer systems and networks. Prepares reports and studies concerning hardware and network systems. Prepares functional requirements and specifications for hardware and software acquisitions. Ensures that problems have been properly identified and solutions will satisfy the user's requirements. Ensures that problems have been properly identified and solutions will satisfy the user's requirements.

**Minimum Education:** Bachelors  
**Minimum Experience:** 6 years

**System Administrator**  
**Functional Responsibilities:** Supervises and manages the daily activities of configuration and operation of business systems, which may be mainframe, mini, or client/server based. Optimizes system operation and resource utilization and performs system capacity analysis and planning. Provides assistance to users in accessing and using business systems.

**Minimum Education:** Bachelors
Minimum Experience: 2 years

**Systems Engineer I**

**Functional Responsibilities:** Provides input for engineering management plans, monitors schedule execution; assists in the preparation of status reports; and provides technical contributions to hardware and software engineers for development of engineering designs and documentation.

Minimum Education: Bachelors
Minimum Experience: None

**Systems Engineer II**

**Functional Responsibilities:** Prepares engineering management plans, monitors schedule execution, and integrates recommendations for corrective and remedial action; prepares status reports and provides technical guidance to junior engineers for development of engineering designs and documentation.

Minimum Education: Bachelors
Minimum Experience: 4 years

**Technical Information Specialist I**

**Functional Responsibilities:** Supports the professional staff in technical information research. Will assist the professional staff in a variety of functions, including product/software research, patent research, online search and retrieval, supporting information systems designs, physical or electronic library maintenance, and other duties associated with information acquisition and maintenance.

Minimum Education: Associates
Minimum Experience: 1 year

**Technical Information Specialist II**

**Functional Responsibilities:** Supports the professional staff in technical information research. Will assist the professional staff in a variety of functions, including product/software research, patent research, online search and retrieval, supporting information systems designs, physical or electronic maintenance, and other duties associated with information acquisition and maintenance.

Minimum Education: Associates
Minimum Experience: 2 years

**Technical Information Specialist III**

**Functional Responsibilities:** Supports the professional staff in technical information research. Will assist the professional staff in a variety of functions, including product/software research, patent research, online search and retrieval, supporting information systems designs, physical or electronic maintenance, and other duties associated with information acquisition and maintenance.

Minimum Education: Bachelors
Minimum Experience: 4 years

**Technical Information Specialist IV**

**Functional Responsibilities:** Supports the professional staff in technical information research. Will assist the professional staff in a variety of functions, including product/software research, patent research, online search and retrieval, supporting information systems designs, physical or electronic maintenance, and other duties associated with information acquisition and maintenance.
Minimum Education: Bachelors
Minimum Experience: 6 years

**Technical Writer I**

**Functional Responsibilities:** Assists in collecting and organizing information required for preparation of user's manuals, training materials, installation guides, proposals, and reports. Edits functional descriptions, system specifications, user's manuals, special reports, or any other customer deliverables and documents.

Minimum Education: Associates
Minimum Experience: 1 year

**Technical Writer II**

**Functional Responsibilities:** Assists in collecting and organizing information required for preparation of user's manuals, training materials, installation guides, proposals, and reports. Edits functional descriptions, system specifications, user's manuals, special reports, or any other customer deliverables and documents.

Minimum Education: Bachelors
Minimum Experience: 2 years

**Technical Writer III**

**Functional Responsibilities:** Assists in collecting and organizing information required for preparation of user's manuals, training materials, installation guides, proposals, and reports. Edits functional descriptions, system specifications, user's manuals, special reports, or any other customer deliverables and documents.

Minimum Education: Bachelors
Minimum Experience: 3 years

**Technical Writer IV**

**Functional Responsibilities:** Assists in collecting and organizing information required for preparation of user's manuals, training materials, installation guides, proposals, and reports. Edits functional descriptions, system specifications, user's manuals, special reports, or any other customer deliverables and documents.

Minimum Education: Bachelors
Minimum Experience: 3 years

**Training Instructor**

**Functional Responsibilities:** The individual will be responsible for training course/curricula design and/or the authoring, media digitization, and graphics implementation of training products.

Minimum Education: Bachelors
Minimum Experience: 5 years

**Training Instructor/Course Developer**

**Functional Responsibilities:** The individual will be responsible for training course/curricula design and/or the authoring, media digitization, and graphics implementation of training products. Responsibilities may also include defining curricula, creating course content/materials (teacher’s guides, grading schemes, student handouts, laboratory exercise, tests, and audiovisual presentation materials).
Individuals are also responsible for setting up and conducting classes, soliciting student feedback, and reporting on student performance.

**Minimum Education:** Bachelors  
**Minimum Experience:** 5 years

**Training Specialist**  
**Functional Responsibilities:** Conducts the research necessary to develop and revise training courses. Develops and revises these courses and prepares appropriate training catalogs. Prepares instructor materials (course outline, background material, and training aids). Prepares student materials (course manuals, workbooks, handouts, completion certificates, and course critique forms). Trains personnel by conducting formal classroom courses, workshops and seminars.

**Minimum Education:** Bachelors  
**Minimum Experience:** 3 years

**Voice/Data Communication Specialist**  
**Functional Responsibilities:** Supervises, evaluates, designs, and maintains existing or proposed data/voice telecommunication systems. Analyzes needed and proposes recommended solutions. Assists in preparation of specifications and flow charts.

**Minimum Education:** Bachelors  
**Minimum Experience:** 3 years

**Work Management Software Analyst**  
**Functional Responsibilities:** Analyzes and develops computer software possessing a wide range of capabilities, including numerous engineering, business, and records management functions. Develops plans for automated information systems from project inception to conclusion. Analyzes user interfaces, maintain hardware and software performance tuning, analyze workload and computer usage, maintain interfaces with outside systems, analyze downtimes, analyze proposed system modifications, upgrades and new COTS. Analyzes the problem and the information to be processed. Defines the problem, and develops system requirements and program specifications, from which programmers prepare detailed flow charts, programs, and tests. Coordinates closely with programmers to ensure proper implementation of program and system specifications. Develops, in conjunction with functional users, system alternative solutions.

**Minimum Education:** Bachelors  
**Minimum Experience:** 5 years

**Work Management Software Application Developer**  
**Functional Responsibilities:** Responsible for supporting client workflow requirements in an individual implementation role, or as part of a Work Management Software project team. Studies electronic or manual tools used in workflow process issues relating to legacy systems and develops applications for client staff use. Responsible for developing tools based upon Implementation Staff’s strategies for transfer and alteration of processes to new electronic tools and second-generation systems. Participates in data conversion projects, both from electronic, non-standard, descriptive formats, as well as from manual descriptive formats. Responsible for implementing hardware and software solutions as designated by Work Management Software Technical Leader. Supports client training on newly developed applications and works closely with Implementation Staff and Specialists to document applications use manuals. Researches technology changes in database access and design tools and integrates new products or tools into existing applications environment. Tests and debugs implementation of developed applications.
Minimum Education: Masters
Minimum Experience: 4 years

**Work Management Software Implementation Specialist**

**Functional Responsibilities:** Responsible for supporting client workflow requirements in an individual implementation role, or as part of a Work Management Software project team. Studies electronic or manual tools used in workflow process issues relating to legacy systems and develops strategies for transfer and alteration of processes to new electronic tools and second-generation systems. Participates in data conversion projects, both from electronic, non-standard, descriptive formats, as well as from manual descriptive formats. Responsible for implementing hardware and software solutions as designated by Work Management Software Technical Leader, or Work Management Software Consultants. Hardware installation assistance and support, including configuration and troubleshooting of basic desktop and ILS client software packages on client workstations and accompanying peripherals.

Minimum Education: Masters
Minimum Experience: 2 years

**Work Management Software Project Technical Leader**

**Functional Responsibilities:** Individual responsible for daily supervision of onsite Work Management Software Project Team. Reports directly to Work Management Software Director/ Software Architect for direction and guidance in project development. Responsible for all employee management decisions made involving project team, Communication duties may include direct liaison with agency COTR. Responsible for rapid deployment of project team implementation specialists and staff for immediate troubleshooting assistance on project problem areas. Responsible for facilitating the use of project teams to accomplish project activities and objectives as designated by client requirements. Responsible for studying client requirements with client input to design the most cost-effective solution to any and all project elements. Assists in constructing project teams through a combination of interviewing, hiring, restaffing, task- oriented staff repositioning, training, and retraining.

Minimum Education: Masters
Minimum Experience: 6 years

**Experience & Degree Substitution Equivalencies**

Experience exceeding the minimum shown may be substituted for education. Likewise, education exceeding the minimum shown may be substituted for experience.

Special Item Number 541611
Labor Category Descriptions

**Consultant**

**Functional Responsibilities:** Similar duties as a Management Consultant; however, does not play a key role. This position may provide technical and research assistance to the Management Consultant.

**Minimum Education:** Bachelors

**Minimum Experience:** 1 year

**Management Consultant I**

**Functional Responsibilities:** Possesses demonstrated ability to exercise thought leadership. Shall demonstrate knowledge, experience, and ability in the development of solutions, recommendations, or outcomes across multiple complex tasks and/or organizations. Evaluate options in the context of project objectives and contributes to the implementation of strategic direction, to include research assistance. Support project objectives through activities such as research analysis, survey development, and systems staff member. May also provide technical skills in support of an objective. As a result may conduct interviews (via phone or in-person or other means), gather data, and develop recommendations in support of project objectives. May provide editorial or graphics support. May conduct data preparation and editing.

**Minimum Education:** Bachelors

**Minimum Experience:** 2 years

**Management Consultant III**

**Functional Responsibilities:** Possesses demonstrated ability to exercise thought leadership. Shall demonstrate knowledge, experience, and ability in the development of solutions, recommendations, or outcomes across multiple complex tasks and/or organizations. Evaluate options in the context of project objectives and contributes to the implementation of strategic direction, to include research assistance. Support project objectives through activities such as research analysis, survey development, and systems staff member. May also provide technical skills in support of an objective. As a result may conduct interviews (via phone or in-person or other means), gather data, and develop recommendations in support of project objectives. May provide editorial or graphics support. May conduct data preparation and editing.

**Minimum Education:** Bachelors

**Minimum Experience:** 6 years

**Management Consultant IV**

**Functional Responsibilities:** Possesses demonstrated ability to exercise thought leadership. Shall demonstrate knowledge, experience, and ability in the development of solutions, recommendations, or outcomes across multiple complex tasks and/or organizations. Evaluate options in the context of project objectives and contributes to the implementation of strategic direction, to include research assistance. Support project objectives through activities such as research analysis, survey development, and systems staff member. May also provide technical skills in support of an objective. As a result may conduct interviews (via phone or in-person or other means), gather data, and develop recommendations in support of project objectives. May provide editorial or graphics support. May conduct data preparation and editing.

**Minimum Education:** Bachelors
Minimum Experience: 8 years

**Sr. Management Consultant I**

**Functional Responsibilities:** Possesses expert-level, demonstrated ability to exercise thought leadership. Shall demonstrate knowledge, experience, and ability in the development of solutions, recommendations, or outcomes across multiple complex tasks and/or organizations. Evaluate options in the context of project objectives and contributes to the implementation of strategic direction. Supports project objectives through activities such as conducting interviews (via phone or in-person or other means), gathering data, and developing recommendations in support of project objectives. May also provide technical skills in support of an objective. Directs the activities of other staff as necessary.

Minimum Education: Bachelors
Minimum Experience: 9 years

**Sr. Management Consultant II**

**Functional Responsibilities:** Possesses expert-level, demonstrated ability to exercise thought leadership. Shall demonstrate knowledge, experience, and ability in the development of solutions, recommendations, or outcomes across multiple complex tasks and/or organizations. Evaluate options in the context of project objectives and contributes to the implementation of strategic direction. Supports project objectives through activities such as conducting interviews (via phone or in-person or other means), gathering data, and developing recommendations in support of project objectives. May also provide technical skills in support of an objective. Directs the activities of other staff as necessary.

Minimum Education: Bachelors
Minimum Experience: 12 years

**Sr. Management Consultant III**

**Functional Responsibilities:** Possesses expert-level, demonstrated ability to exercise thought leadership. Shall demonstrate knowledge, experience, and ability in the development of solutions, recommendations, or outcomes across multiple complex tasks and/or organizations. Evaluate options in the context of project objectives and contributes to the implementation of strategic direction. Supports project objectives through activities such as conducting interviews (via phone or in-person or other means), gathering data, and developing recommendations in support of project objectives. May also provide technical skills in support of an objective. Directs the activities of other staff as necessary.

Minimum Education: Masters
Minimum Experience: 15 years

**Sr. Management Consultant IV**

**Functional Responsibilities:** Possesses expert-level, demonstrated ability to exercise thought leadership. Shall demonstrate knowledge, experience, and ability in the development of solutions, recommendations, or outcomes across multiple complex tasks and/or organizations. Evaluate options in the context of project objectives and contributes to the implementation of strategic direction. Supports project objectives through activities such as conducting interviews (via phone or in-person or other means), gathering data, and developing recommendations in support of project objectives. May also provide technical skills in support of an objective. Directs the activities of other staff as necessary.

Minimum Education: Masters
Minimum Experience: 18 years
**Quality Administration Assistant**

**Functional Responsibilities:** Supports project objectives by reviewing deliverables and associated documentation for accuracy prior to submission to client. May provide editorial or graphics support. Skilled in a wide range of word-processing and other administrative skills, including but not limited to scheduling and administration. May also provide quality control and support for Management and Sr. Management interviews.

**Minimum Education:** Bachelors

**Minimum Experience:** 2 years

**Experience & Degree Substitution Equivalencies**

Experience exceeding the minimum shown may be substituted for education. Likewise, education exceeding the minimum shown may be substituted for experience.
