CUSTOMER INFORMATION

1a. Table of Awarded Special Item Number:

SIN	Category	SIN Description
54151S	Information Technology Professional Services	IT Professional Services and/or labor categories for database planning and design; systems analysis, integration, and design; programming, conversion and implementation support; network services, data/records management, and testing.
541370GEO	Earth Observation Solutions	Provides geospatial earth observation technologies, products, and services to include, but not limited to ground, satellite and aerial based sensor data and imagery; worldwide digital transmission, internet, data, and video services and products through various networks, platforms, and applications. Offerings include global coverage, imagery, archive storage and distribution, monitoring, basemaps (mosaics), and earth observation solutions for accurate, mission critical information for uses to include, but not limited to, environmental, agriculture, meteorology, forestry, fish & wildlife habitats, disaster response and recovery, defense, maritime, mapping, humanitarian support, transportation, and public safety.
	OLM	Order Level Materials

1b. LOWEST PRICED MODEL NUMBER AND PRICE FOR EACH SIN: See attached pricelist.

1c. HOURLY RATES: See attached pricelist.

2. Maximum order:

<u>SIN Title</u>	<u>Maximum Order</u>
54151S Information Technology Professional Services	\$500,000.00
541370GEO Earth Observation Solutions	\$1,00,000.00
Order Level Materials	\$250,000.00

3. Minimum order: \$100.00

4. Geographic coverage (delivery area): CONUS

5. Points of production: Same as Contractor Address

6. Discount from list prices: GSA Net Prices are shown on the attached GSA Pricelist. Negotiated discount has been applied and the IFF has been added.

7. Quantity discounts: 1% for orders greater than \$300,000

8. Prompt payment terms: Net 30 Days. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9.a. Government Purchase Cards must be accepted at or below the micro-purchase threshold.

9.b. Government Purchase Cards are accepted above the micro-purchase threshold.

10. FOREIGN ITEMS: None

11a. Time of Delivery: Services Specified on the Task Order

11b. Expedited Delivery: Contact Contractor

- 11c. Overnight and 2-day delivery: Contact Contractor
- 11d. Urgent Requirements: Contact Contractor
- 12. F.O.B. Points: Destination
- 13a. Ordering Address: Same as Contractor
- 13b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's), are found in Federal Acquisition Regulation (FAR) 8.405-3.
- 14. Payment address: Same as company address
- 15. Warranty provision: Contractor's standard commercial warranty.
- 16. Export Packing Charges: Not Applicable
- 17. Terms and conditions of Government purchase card acceptance (any thresholds above the micropurchase level): Contact Contractor
- 18. Terms and conditions of rental, maintenance, and repair: Not Applicable
- 19. Terms and conditions of installation: Not Applicable
- 20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices:
Not Applicable
- 20a. Terms and conditions for any other services: Not Applicable
- 21. List of service and distribution points: Not Applicable
- 22. List of participating dealers: Not Applicable
- 23. Preventive maintenance: Not Applicable
- 24a. Environmental attributes, e.g., recycled content, energy efficiency, and/or reduced pollutants: Not Applicable
- 24b. Section 508 Compliance for EIT: As Applicable
- 25. Data Universal Number System (DUNS) number. 621791599
- 26. NOTIFICATION REGARDING REGISTRATION IN SYSTEM FOR AWARD MANAGEMENT (SAM) DATABASE:
Contractor has an Active Registration in the SAM database.

541370GEO LABOR CATEGORY DESCRIPTIONS

Labor Category	Labor Category Description	Minimum Education	Minimum Years of Experience
EOS Project Manager III	Oversees medium to large scale EOS projects comprised of sub-projects and distinct mission critical information for uses to include environmental, maritime, mapping, humanitarian support, transportation, and public safety. deliverables. Coordinates and delegates EOS assignments for consultant staff numbering over 20; focal point of contact for Issuing Entity regarding geospatial earth observation technology project status, meetings, reporting, scope changes and financial, administrative and technical issues.	Bachelor's Degree	8
EOS Project Manager II	Oversees medium scaled EOS projects comprised of sub-projects and distinct mission critical information for uses to include environmental, maritime, mapping, humanitarian support, transportation, and public safety. Coordinates and delegates EOS assignments for consultant staff numbering over 10; focal point of contact for Issuing Entity regarding project status, meetings, reporting, scope changes and financial, administrative and technical issues.	Bachelor's Degree	5
EOS Project Manager I	Oversees small scaled, non-complex EOS projects, comprised of small number of deliverables and/or phases to include environmental, maritime, mapping, humanitarian support, transportation, and public safety. Coordinates and delegates assignments for consultant staff numbering over 10; focal point of contact for Issuing Entity regarding project status, meetings, reporting, scope changes and financial, administrative and technical issues.	Bachelor's Degree	2
EOS Subject Matter Expert	Subject matter expert in EOS vertical markets and practices to include but not limited to environmental, agriculture, meteorology, forestry, fish & wildlife habitats, disaster response and recovery, defense, maritime, mapping,	Bachelor's Degree	5

Labor Category	Labor Category Description	Minimum Education	Minimum Years of Experience
	humanitarian support, transportation, public safety, land records, and public health.		
EOS Analyst III	Responsible for EOS technical analysis and configuration using commercially available technology, such as the Esri suite of products. Design capabilities with respect to projects involving earth observations including land records, asset management, public safety and other key customer focus areas. Experienced in the creation and analysis of geospatial data models, security, geographic editing, workflow and version control. Expert user of desktop software and integration with web services and cloud based geospatial services. Fluent with GPS data collection and workflow within a customer's geospatial ecosystem.	Bachelor's Degree	8
EOS Analyst II	Responsible for EOS technical analysis and configuration using commercially available technology, such as the Esri suite of products. Design capabilities with respect to projects involving earth observations including land records, asset management, public safety and other key customer focus areas. Experienced in the creation of geospatial data models, geographic editing, workflow and version control. Experienced user of desktop software and integration with web services and cloud based geospatial services.	Bachelor's Degree	5
EOS Analyst I	Responsible for EOS technical analysis and configuration using commercially available technology, such as the Esri suite of products. Knowledge of data models, security, geographic editing, workflow and version control.	Bachelor's Degree	2
EOS Technician II	Responsible for planning and implementing EOS data conversion activities for earth observation data. Work with EOS technical staff and desktop and server side software to deliver map production, data management, data analysis, and perform data conversion activities. Performs QA/QC on geospatial data, processes and workflows.	Bachelor's Degree	2
EOS Technician I	Work with EOS technical staff and desktop software to deliver earth observation map production, data management, data analysis, and perform data conversion activities. Performs QA/QC on geospatial data, processes and workflows.	Bachelor's Degree	1
EOS Software Developer and Architect III	Design and development of EOS applications and software. Lead geospatial development team when required. Integrate with external systems, relational database management systems, and cloud-based services using services, commercial and open source application programming interfaces (API). Responsible for the development of geospatial technical automated and manual testing and the implementation of unit tests. Skilled in the use commercial and open source technology. Service oriented, client side, web-based and mobile architecture. Fluent in the deployment of geospatial software in the customer environment. Skilled in EOS and Agile software development methodology and tools.	Bachelor's Degree	8
EOS Software Developer and Architect II	Design and development of EOS applications and software. Integrate with external systems, relational database management systems, and cloud-based services using services, commercial and open source application programming interfaces (API). Responsible for the development of geospatial technical automated and manual testing and the implementation of unit tests. Skilled in the use commercial and open source technology. Service oriented, client side, web-based and mobile architecture. Skilled in the deployment of geospatial	Bachelor's Degree	5

Labor Category	Labor Category Description	Minimum Education	Minimum Years of Experience
	software in the customer environment. Skilled in EOS and Agile software development methodology and tools.		
EOS Software Developer	Design and development of EOS applications and software. Integrate with external systems, relational database management systems, and cloud-based services using services, commercial and open source application programming interfaces (API). Participate in the development of geospatial technical automated and manual testing and the implementation of unit tests. Usage of both commercial and open source technology. Service oriented, client side, web-based and mobile architecture. Knowledgeable in both EOS and Agile software development methodology and tools.	Bachelor's Degree	2
EOS Mobile and Field Data Collector II	Responsible for planning and implementing field and mobile data conversion and collection activities for EOS data. Maintains data development tools and software, GPS receivers and other related tools. Perform field data collection using GPS technology, handheld computers, and mobile phones. Develop and implement workflow to migrate data from the field to office databases, including cloud computing. Manages and reports on field collection activities. As required act as supervisor and/or lead the data development component of a project. Make use of commercial and open source EOS technology as required.	Bachelor's Degree	5
EOS Mobile and Field Data Collector I	Maintains data development tools and software, GPS receivers and other related. Perform EOS field data collection for using GPS technology, handheld computers, and mobile phones. Implement workflow to migrate data from the field to office databases, including cloud computing. Make use of commercial and open source EOS technology as required.	Bachelor's Degree	1
EOS Enterprise Architect	Design and development of EOS geospatial technical architecture for enterprise deployment. Integrate with external systems, relational database management systems, and cloud-based services. Skilled in the geospatial architecture requirements for use commercial and open source technology. Client side and web-based and service oriented architecture. Fluent in version control design and workflow. Fluent in EOS database security and roles. Fluent in information systems technology required to support EOS architecture.	Bachelor's Degree	8
EOS System Architect	Design and development of EOS geospatial technical architecture. Integrate with external systems, relational database management systems, and cloud-based services. Skilled in the architecture requirements for the use of earth observation commercial and open source technology. Client side and web-based and service oriented architecture. Fluent in information systems technology required to support EOS architecture.	Bachelor's Degree	5

Skilled in the Agile development methodology and the definition of Agile sprints. Interfaces between the customer and the software and data development teams.	Bachelor's Degree	2

Section III Terms and Conditions for all IT Contractors

1) Organizational Conflicts Of Interest

a) Definitions.

"Contractor" means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract. "Contractor and its affiliates" and "Contractor or its affiliates" refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An "Organizational conflict of interest" exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor's or its affiliates' objectivity in performing contract work.

b) To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508

2) Services Performed

- a) All services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.
- b) The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
- c) The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.

3) Travel. Any Contractor travel required in the performance of services must comply with the Pub. L.99-234 and FAR Part 31.205-46, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel.

4) Warranty

- a) Unless otherwise specified in this contract, the Contractor's standard commercial warranty as stated in the contract's commercial pricelist will apply to this contract.
- b) The Contractor's commercial guarantee/warranty shall be included in the Commercial Supplier Agreement to include Enterprise User License Agreements or Terms of Service (TOS) agreements, if applicable.
- c) Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.
