</table>

1b. LOWEST PRICED MODEL NUMBER AND PRICE FOR EACH SIN:

(Government net price based on a unit of one)

Engineering Technician II – Cyber Security $51.80
Engineering Technician II - $51.80

1c. HOURLY RATES (Services only):

See attached APPENDIX A – GSA PROPOSED PRICE LIST

2. MAXIMUM ORDER*: $500,000.00

NOTE TO ORDERING ACTIVITIES: *If the best value selection places your order over the Maximum Order identified in this catalog/pricelist, you have an opportunity to obtain a better schedule contract price. Before placing your order, contact the aforementioned contactor for a better price. The contractor may (1) offer a new price for this requirement (2) offer the lowest price available under this contract or (3) decline the order. A delivery order that exceeds the maximum order may be placed under the schedule contract in accordance with FAR 8.404.

3. MINIMUM ORDER: $100.00

4. GEOGRAPHIC COVERAGE: 48 States; DC – Hawaii, Alaska, Puerta Rico

5. POINT(S) OF PRODUCTION: N/A
6. **DISCOUNT FROM LIST PRICES:** *GSA Net Prices are shown on the attached GSA Pricelist. Negotiated discount has been applied.*

7. **QUANTITY DISCOUNT(S):** 1% < $200,000.00

8. **PROMPT PAYMENT TERMS:** Net 30 Days

9.a  Government Purchase Cards are accepted at or below the micro-purchase threshold. Contact contractor for limit.

9.b  Government Purchase Cards are accepted above the micro-purchase threshold. Contact contractor for limit.

10. **FOREIGN ITEMS:** Not Applicable

11a. **TIME OF DELIVERY:** 30 Days, Subject to Task Order

24b. Section 508 Compliance for Electronic and Information Technology (EIT): BL King Consulting LLC is 508 Compliant

25. DUNS NUMBER: 078726329

26. NOTIFICATION REGARDING REGISTRATION IN SYSTEM FOR AWARD MANAGEMENT (SAM) DATABASE: Contractor has an Active Registration in the SAM database. Cage Code: 72YC1

APPENDIX A LABOR CATEGORY DESCRIPTIONS

APPENDIX B GSA PRICE LIST
**BL King Consulting LLC**

**Labor Category Descriptions**

**Engineering Technician II**

**Duties/Responsibilities:** The Engineering Technician provides deployment, fielding, installation, operation and field support on systems, system elements, interfacing systems, components, devices and processes. Possesses a broad knowledge of industry practices, standards and technology areas and develops, implements, installs, removes, tests, modifies and/or operates complex equipment and systems. Prepares and executes integrated system test plans for preventative maintenance programs and instructs customers in the operations and system maintenance. Serves as liaison with customer and provides technical and engineering expertise at field sites. Conducts installation and preventive and remedial maintenance of systems/equipment, and provides associated training to customer personnel. Identifies and orders spare and replacement parts.

Engineering Technician levels are determined by the type and complexity of activities that assigned personnel are required to perform, the degree of supervision available, the degree of responsibility for task or program performance and the level of authority to be exercised over the resources assigned to the program.

<table>

</tr>
</tbody>
</table>
Engineer I

**Duties/Responsibilities**: Performs engineering tasks, research, studies and analysis that provide engineering, technical, and managerial direction for problem definition, analysis, requirement development, and implementation for complex systems in the engineering disciplines. These tasks are required to meet technical requirements in support of associated large scale mission critical projects. Makes recommendations and advises on system development, improvements, optimization, or support efforts. Performs risk assessments and analysis employing modeling and simulation techniques.

Engineering disciples include but are not limited to electrical, communications (voice, data, and video), nuclear, radar, mission, environmental, aircraft integration, hardware, industrial, logistics, materials, mechanical, production and manufacturing, and reliability.

Engineer levels are determined by the type and complexity of activities that assigned personnel are required to perform, the degree of supervision available, the degree of responsibility for task or program performance and the level of authority to be exercised over the resources assigned to the program.

Subject Matter Expert II

**Duties/Responsibilities:** Subject Matter Experts serve as technical or management experts on executive-level project teams providing technical or management direction, analysis, research, interpretation and alternatives for exceptionally complex problems and processes relating to the subject matter. SMEs generate strategies for enhanced operations in a cross-functional area mode throughout the organization and utilize their specialized expertise to assess the operational and functional baseline for clients and their organizational components. SMEs develop advanced technological or management concepts, principles, and solutions to complex problems which are highly innovative and ingenious and guide their development into a final product/solution. The SME has domain, management and expert technical knowledge of functional areas and programmatic knowledge practice-wide.

Subject Matter Expert levels are determined by the type and complexity of activities that assigned personnel are required to perform, the specialized experience required to effectively perform the tasks, the degree of responsibility for task or program performance and the level of authority to be exercised over the resources assigned to the program. Subject Matter Experts operate independently in a specific functional area or a domain including but not limited to engineering, information assurance, logistics, modeling and simulation, network/communications, quality assurance, requirements analysis, risk analysis, systems design and development, operations research, configuration/data management, defense/intelligence analysis, business process reengineering, financial management, planning, policy analysis and test and evaluation.
