</tr>
<tr>
<td>OLM</td>
<td>Order-Level Materials (OLMs)</td>
</tr>
</tbody>
</table>

1b. Lowest Priced Model Number and Price for each SIN: Not Applicable

1c. SERVICES OFFERED: See Price List

2. MAXIMUM ORDER PER SIN: $500,000

This maximum order threshold is a dollar amount at which it is suggested that the ordering agency request higher discounts from the contractor before issuing the order. The contractor may: (1) Offer a new lower price, (2) Offer the lowest price available under the contract, or (3) Decline the order within five (5) days. In accordance with the Maximum Order provisions contained in the Schedule, a delivery order may be placed against the Schedule contract even though it exceeds the maximum order threshold.

3. MINIMUM ORDER LIMITATION: $100

5. POINT OF PRODUCTION: United States

6. BASIC DISCOUNT: Prices listed are net, discounts have been deducted and the industrial funding fee has been added

7. QUANTITY DISCOUNT: Additional 1% for orders over $250,000

8. PROMPT PAYMENT TERMS: 0%, Net 30 Days

9a. GOVERNMENT PURCHASE CARDS ARE ACCEPTED UP TO THE MICRO-PURCHASE THRESHOLD.

9b. GOVERNMENT PURCHASE CARDS ARE NOT ACCEPTED ABOVE THE MICRO-PURCHASE THRESHOLD.

10. FOREIGN ITEMS: None

11a. TIME OF DELIVERY: 54151S: As negotiated with the Ordering Agency

11b. EXPEDITED DELIVERY: Contact Contractor

11c. OVERNIGHT AND 2-DAY DELIVERY: Contact Contractor

11d. URGENT REQUIREMENTS: Contact Contractor

12. F.O.B. POINT: FOB Destination
13a. ORDERING ADDRESS: Titan One Zero, LLC  
1765 Greensboro Station Tower 1  
STE 900  
McLean, VA 22102

13b. ORDERING PROCEDURES: For supplies and service the ordering procedures, information on Blanket Purchase Agreements (BPAs), and a sample BPA may be found at the GSA/FSS Schedule homepage (gss.gsa.gov/schedule).

14. PAYMENT ADDRESS: Same as Ordering Address

15. WARRANTY PROVISION: Standard Commercial Warranty

16. EXPORT PACKING CHARGES: Not Applicable

17. TERMS AND CONDITIONS OF GOVERNMENT PURCHASE CARD ACCEPTANCE: Titan One Zero, LLC will accept credit cards for payments equal to or less than the micro purchase threshold for oral or written delivery orders. Government purchase cards will be acceptable for payment above the micro-purchase threshold. In addition, bank account information for wire transfer payments will be shown on the invoice. Will be accepted above the micro-purchase threshold

18. TERMS AND CONDITIONS OF RENTAL: Not Applicable

19. TERMS AND CONDITIONS OF INSTALLATION: Not Applicable

20. TERMS AND CONDITIONS OF REPAIR PARTS: Not Applicable

20a. TERMS AND CONDITIONS FOR ANY OTHER SERVICES: Not Applicable

21. LIST OF SERVICE AND DISTRIBUTION POINTS: Not Applicable

22. LIST OF PARTICIPATING DEALERS: Not Applicable

23. PREVENTIVE MAINTENANCE: Not Applicable

24a. SPECIAL ATTRIBUTES: Not Applicable

24b. SECTION 508 COMPLIANCE INFORMATION: Not Applicable

25. DATA UNIVERSAL NUMBER SYSTEM (DUNS) NUMBER: 079480571

26. CONTRACTOR HAS REGISTERED IN THE SYSTEM FOR AWARD MANAGEMENT (SAM) DATABASE.
TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 54151S)

1. SCOPE
   a. The prices, terms and conditions stated under Special Item Number 54151S Information Technology Professional Services apply exclusively to IT Services within the scope of this Information Technology Schedule.
   b. The Contractor shall provide services at the Contractor’s facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. PERFORMANCE INCENTIVES
   a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract in accordance with this clause.
   b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
   c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3. ORDER
   a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made, and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
   b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. PERFORMANCE OF SERVICES
   a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
   b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
   c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.
   d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.
5. **STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)**

(a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-

(1) Cancel the stop-work order; or

(2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

(b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-

(1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and

(2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6. **INSPECTION OF SERVICES**

The Inspection of Services–Fixed Price (AUG 1996) (Deviation – May 2003) clause at FAR 52.246-4 applies to firm-fixed price orders placed under this contract. The Inspection–Time-and-Materials and Labor-Hour (JAN 1986) (Deviation – May 2003) clause at FAR 52.246-6 applies to time-and-materials and labor-hour orders placed under this contract.

7. **RESPONSIBILITIES OF THE CONTRACTOR**

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Deviation – May 2003) Rights in Data – General, may apply.

8. **RESPONSIBILITIES OF THE ORDERING ACTIVITY**

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Services.

9. **INDEPENDENT CONTRACTOR**

All IT Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.
10. ORGANIZATIONAL CONFLICTS OF INTEREST
   a. Definitions.
      “Contractor” means the person, firm, unincorporated association, joint venture, partnership, or
      corporation that is a party to this contract.

      “Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief
      executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any
      joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges
      or affiliates, or any other successor or assignee of the Contractor.

      An “Organizational conflict of interest” exists when the nature of the work to be performed under a
      proposed ordering activity contract, without some restriction on ordering activities by the Contractor and
      its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or
      (ii) impair the Contractor's or its affiliates’ objectivity in performing contract work.

   b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of
      the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief
      executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule
      contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize,
      or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual
      orders placed against the schedule contract. Examples of situations, which may require restrictions, are
      provided at FAR 9.508.

11. INVOICES
    The Contractor, upon completion of the work ordered, shall submit invoices for IT services. Progress payments
    may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based
    upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring
    services performed during the preceding month.

12. PAYMENTS
    For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or
    vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made
    only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and
    Labor-Hour Contracts at FAR 52.232-7 (DEC 2002), (Alternate II – Feb 2002) (Deviation – May 2003) applies to
    time-and-materials orders placed under this contract. For labor-hour orders, the Payment under
    Time-and-Materials and Labor-Hour Contracts at FAR 52.232-7 (DEC 2002), (Alternate II – Feb 2002) (Deviation
    – May 2003)) applies to labor-hour orders placed under this contract.

13. RESUMES
    Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. INCIDENTAL SUPPORT COSTS
    Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately
    with the ordering activity in accordance with the guidelines set forth in the FAR.

15. APPROVAL OF SUBCONTRACTS
    The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer,
    written consent before placing any subcontract for furnishing any of the work called for in a task order.

16. DESCRIPTION OF IT SERVICES AND PRICING
    Please refer to the labor category descriptions and pricing incorporated into this GSA Pricelist.
TITAN ONE ZERO, LLC
LABOR CATEGORY DESCRIPTION

Principle System Architect (Associate)
Functional Responsibility: Guides system full life cycle system implementation planning through assessment or preparation of system management plans and system integration and test plans. Develops system configuration documentation, including detailed designs for capacity planning, security systems and disaster recovery. Analyzes users’ requirements and high-level system architecture to develop system requirements specifications. Develops detailed system Architecture and system design documentation. Develops Disaster Recovery Plans. Analyzes the network, telecommunications, and overall system architecture.
Minimum/General Experience: Minimum of 10 years’ experience
Minimum Education: Bachelor’s degree in relevant IT or business discipline.

Principle System Architect (Intermediate)
Functional Responsibility: Guides system full life cycle system implementation planning through assessment or preparation of system management plans and system integration and test plans. Develops system configuration documentation, including detailed designs for capacity planning, security systems and disaster recovery. Analyzes users’ requirements and high-level system architecture to develop system requirements specifications. Develops detailed system Architecture and system design documentation. Develops Disaster Plans. Analyzes the network, telecommunications, and overall system architecture.
Minimum/General Experience: Minimum of 15 years’ experience
Minimum Education: Bachelor’s degree in relevant IT or business discipline.

Principle System Architect (Senior)
Functional Responsibility: Guides system full life cycle system implementation planning through assessment or preparation of system management plans and system integration and test plans. Develops system configuration documentation, including detailed designs for capacity planning, security systems and disaster recovery. Analyzes users’ requirements and high-level system architecture to develop system requirements specifications. Develops detailed system Architecture and system design documentation. Develops Disaster Recovery Plans. Analyzes the network, telecommunications, and overall system architecture.
Minimum/General Experience: Minimum of 20 years’ experience
Minimum Education: Bachelor’s degree in relevant IT or business discipline.

Subject Matter Expert (Senior)
Functional Responsibility: An SME has proficiency in his or her subject and guides other professionals on the project to ensure the content is accurate. A subject matter expert (SME) is an individual who is considered an expert on particular subjects or flagged as an expert in a piece of management software or other technology. The subject matter expert has a particular territory in which he or she has demonstrated above-average knowledge or experience. A subject matter expert is an individual with a deep understanding of a process, function, technology, machine, material or type of equipment. Individuals designated as subject matter experts are typically sought out by others interested in learning more about or leveraging their unique expertise to solve specific problems or help meet particular technical challenges. Develops detailed system Architecture and system design documentation. Develops Disaster Recovery Plans. Analyzes the network, telecommunications, and overall system architecture.
Minimum/General Experience: Minimum of 15 years’ experience
Minimum Education: Bachelor’s degree in relevant IT or business discipline.
Subject Matter Expert (Master)

**Functional Responsibility:** An SME has proficiency in his or her subject and guides other professionals on the project to ensure the content is accurate. A subject matter expert (SME) is an individual who is considered an expert on particular subjects or flagged as an expert in a piece of management software or other technology. The subject matter expert has a particular territory in which he or she has demonstrated above-average knowledge or experience. A subject matter expert is an individual with a deep understanding of a process, function, technology, machine, material or type of equipment. Individuals designated as subject matter experts are typically sought out by others interested in learning more about or leveraging their unique expertise to solve specific problems or help meet particular technical challenges. Develops detailed system Architecture and system design documentation. Develops Disaster Recovery Plans. Analyzes the network, telecommunications, and overall system architecture.

**Minimum/General Experience:** Minimum of 20 years’ experience  
**Minimum Education:** Bachelor’s degree in relevant IT or business discipline.

Data Architect

**Functional Responsibility:** Determines and identifies high level functional and technical requirements based on interactions with the user community and knowledge of the enterprise architecture. Designs architecture to include the software, hardware and communications to support the total requirements as well as provide for present and future cross-functional requirements and interfaces. Applies business practices to methodologies/principles and business process modernization and automation projects. Applies, as appropriate, transaction flow analysis, internal control and risk analysis and modern business methods and performance measurement techniques. Assist in establishing standards for information systems procedures. Develops and applies organization-wide information models for use in designing and building integrated, shared management systems.

**Minimum/General Experience:** Minimum of 15 years’ experience  
**Minimum Education:** Bachelor’s degree in relevant IT or business discipline.

Hardware Engineer (Senior)

**Functional Responsibility:** Performs requirements analysis, hardware design, development, installation, testing, and maintenance for application system components for large-scale and distributed systems. Performs operating system and/or product evaluation, integration, testing, and problem diagnosis/resolution. Provides technical leadership, reviews work products, and makes technical recommendations, as needed, for changes in the supported technical architecture. Applies business practices to methodologies/principles and business process modernization and automation projects. Applies, as appropriate, transaction flow analysis, internal control and risk analysis and modern business methods and performance measurement techniques. Assist in establishing standards for information systems procedures. Develops and applies organization-wide information models for use in designing and building integrated, shared management systems.

**Minimum/General Experience:** Minimum of 6 years’ experience  
**Minimum Education:** Bachelor’s degree in relevant IT or business discipline

Hardware Engineer (Master)

**Functional Responsibility:** Performs complex assignments on operating systems and application programs; Performs work on moderately complex system design; Codes, tests, and debugs applications; Analyzes a variety of systems, programs, and develops documentation, and design specifications; Analyzes system specifications and develops methods for problem solution; May perform system test and integration and select computer systems, languages and equipment; Defines nature of data contained in the database. Applies business practices to methodologies/principles and business process modernization and automation projects. Applies, as appropriate, transaction flow analysis, internal control and risk analysis and modern business methods and performance measurement techniques. Assist in establishing standards for information systems procedures. Develops and applies organization-wide information models for use in designing and building integrated, shared management systems.

**Minimum/General Experience:** Minimum of 10 years’ experience  
**Minimum Education:** Bachelor’s degree in relevant IT or business discipline
Senior Functional Analyst
**Functional Responsibility:** Analyze user needs to determine functional and cross-functional requirements. Performs functional allocation to identify required tasks and their interrelationships. Identifies resources required for each task.

**Minimum/General Experience:** Minimum of 3 years’ experience

**Minimum Education:** Bachelor’s degree in relevant IT or business discipline.

Principal Information Engineer (Associate)
**Functional Responsibility:** Under general direction, applies specialization within a line of business to provide programming and technical leadership in support to provide programming and technical leadership in support of customer needs, develops, codes, tests and implements computer programs and subsystems utilizing multiple programming languages. Leads subsystem design and participates in system design projects, assists on coding, testing, implementation, and documentation projects. Participates in implementations, major system upgrades or enhancements, and conversions. Interfaces with customers to define system requirements and priorities. Analyzes and assists others in resolving production problems, supports business studies, costing and feasibility studies and proposal preparation efforts.

**Minimum/General Experience:** Minimum of 6 years’ experience

**Minimum Education:** Bachelor’s degree in relevant IT or business discipline.

Principal Information Engineer (Intermediate)
**Functional Responsibility:** Under broad direction, designs and implements data processing systems which meet customer business needs, leads and participates in system design teams. Plans, schedules and coordinates project implementations and ensures that customer requirements are met. Assists others on technical or industry-related issues. Anticipates customer problems and recommends solutions. Applies business process improvement practices to reengineer methodologies/principles and business process modernization projects. Applies, as appropriate, activity and data modeling, transaction flow analysis, internal control and risk analysis and modern business methods and performance measurement techniques. Assist in establishing standards for information systems procedures. Develops and applies organization-wide information models for use in designing and building integrated, shared software and database management systems. Constructs sound, logical business improvement opportunities consistent with corporate Information Management guiding principles, cost savings, and open system architecture objectives. Provides daily supervision and direction to staff.

**Minimum/General Experience:** Minimum of 8 years’ experience

**Minimum Education:** Bachelor’s degree in relevant IT or business discipline.

Application Engineer (Associate)
**Functional Responsibility:** Analyzes functional business applications and design specifications for functional activities. Develops block diagrams and logic flow charts. Translates detailed design into computer software. Tests, debugs and refines the computer software to produce the required product. Prepares required documentation, including both program-level and user-level documentation. Enhances software to reduce operating time or improve efficiency. Provides technical direction to programmers to ensure program deadlines are met.

**Minimum/General Experience:** Minimum of 4 years’ experience

**Minimum Education:** Bachelor’s degree in relevant IT or business discipline.

Application Engineer (Intermediate)
**Functional Responsibility:** Analyzes and studies complex system requirements. Designs software tools and subsystems to support software reuse and domain analyses and manages their implementation. Manages software development and support using formal specifications, data flow diagrams, other accepted design techniques and Computer-Aided Software Engineering (CASE) tools. Estimates software development costs and schedule. Reviews existing programs and assists in making refinements, reducing operating time and improving current techniques. Supervises software configuration management.

**Minimum/General Experience:** Minimum of 6 years’ experience

**Minimum Education:** Bachelor’s degree in relevant IT or business discipline.
Principal Industry Functional Area Expert (Associate)

**Functional Responsibility:** Serves as the technical monitor and have provided technical knowledge and analysis of highly specialized applications and operational environment, high-level functional systems analysis, design, integration, documentation, and implementation advice on exceptionally complex problems that necessitate high-level knowledge of the subject matter for effective implementation.

**Minimum/General Experience:** Minimum of 10 years’ experience

**Minimum Education:** Bachelor’s degree in relevant IT or business discipline.

Principal Industry Functional Area Expert (Intermediate)

**Functional Responsibility:** Serves as the technical monitor and have provided technical knowledge and analysis of highly specialized applications and operational environment, high-level functional systems analysis, design, integration, documentation, and implementation advice on exceptionally complex problems that necessitate high-level knowledge of the subject matter for effective implementation.

Participates as needed in all phases of software development with emphasis on the planning, analysis, modeling, simulation, testing, integration, documentation and presentation phases.

**Minimum/General Experience:** Minimum of 12 years’ experience

**Minimum Education:** Bachelor’s degree in relevant IT or business discipline.

Executive Project/ Program Manager

**Functional Responsibility:** Serves as the contractor's single contract manager and shall be the contractor's authorized interface with the Government Contracting Officer (KO), Government management personnel and customer agency representatives. Responsible for formulating and enforcing work standards, assigning contractor schedules, reviewing work discrepancies, supervising contractor personnel and communicating policies, purposes, and goals of the organization to subordinates.

**Minimum/General Experience:** Minimum of 12 years’ experience

**Minimum Education:** Bachelor’s degree in relevant IT or business discipline.

**SUBSTITUTIONS**

Titan One Zero, LLC reserves the right to make the following substitutions in the education and/or experience requirements of any of the service skill categories set forth herein.

1. One year of experience is the equivalent of one year of education.
2. One year of education is the equivalent of one year of experience.
3. Certification related to the technology is equivalent to two years of experience or education requirement.
