Multiple Award Schedule (MAS)

Precise Systems, Inc.
22290 Exploration Dr.  STE 400
Lexington Park, MD 20653
Phone: (301) 737-7100
www.goprecise.com

CONTRACT NUMBER: 47QTCA20D007Q
PERIOD COVERED BY CONTRACT: March 23, 2020 through March 22, 2025

PRICELIST CURRENT THOROUGH MODIFICATION #PA-0010 October 13, 2021

BUSINESS SIZE: Other than Small

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage!™, a menu-driven database system. The Internet address for GSA Advantage!™ is www.gsaadvantage.gov.
<table>
<thead>

Note: Contractor has been awarded Special Item Numbers 54151S and OLM under the Cooperative Purchasing and all SIN(s) under Disaster Recovery Programs.

1b. Lowest Priced Model Number and Price for each SIN: Not Applicable

1c. SERVICES OFFERED: See Price List

2. MAXIMUM ORDER PER SIN:
<table>
<thead>
<tr>
<th>SIN</th>
<th>MAXIMUM ORDER</th>
</tr>
</thead>
<tbody>
<tr>
<td>541330ENG</td>
<td>$1,000,000 per SIN/Order</td>
</tr>
<tr>
<td>54151S</td>
<td>$500,000 per SIN/Order</td>
</tr>
</tbody>
</table>

This maximum order threshold is a dollar amount at which it is suggested that the ordering agency request higher discounts from the contractor before issuing the order. The contractor may: (1) Offer a new lower price, (2) Offer the lowest price available under the contract, or (3) Decline the order within five (5) days. In accordance with the Maximum Order provisions contained in the Schedule, a delivery order may be placed against the Schedule contract even though it exceeds the maximum order threshold.

3. MINIMUM ORDER LIMITATION: $100

5. POINT OF PRODUCTION: United States

6. BASIC DISCOUNT: Prices listed are net, discounts have been deducted and the industrial funding fee has been added

7. QUANTITY DISCOUNT: 1% on orders greater than $250,000

8. PROMPT PAYMENT TERMS: 0%, Net 30

9. FOREIGN ITEMS: None

10a. TIME OF DELIVERY: As negotiated with the Ordering Agency

10b. EXPEDITED DELIVERY: Contact Contractor

10c. OVERNIGHT AND 2-DAY DELIVERY: Contact Contractor
10d. URGENT REQUIREMENTS: Contact Contractor

11. F.O.B. POINT: FOB Destination

12a. ORDERING ADDRESS: Precise Systems, Inc.
22290 Exploration Dr. STE 400
Lexington Park, MD 20653

12b. ORDERING PROCEDURES: For supplies and service the ordering procedures, information on Blanket Purchase Agreements (BPAs), and a sample BPA may be found at the GSA/FSS Schedule homepage (gss.gsa.gov/schedule).

13. PAYMENT ADDRESS: Same as Ordering Address

14. WARRANTY PROVISION: Standard Commercial Warranty

15. EXPORT PACKING CHARGES: Not Applicable

16. TERMS AND CONDITIONS OF RENTAL: Not Applicable

17. TERMS AND CONDITIONS OF INSTALLATION: Not Applicable

18a. TERMS AND CONDITIONS OF REPAIR PARTS: Not Applicable

18b. TERMS AND CONDITIONS FOR ANY OTHER SERVICES: Not Applicable

19. LIST OF SERVICE AND DISTRIBUTION POINTS: Not Applicable

20. LIST OF PARTICIPATING DEALERS: Not Applicable

21. PREVENTIVE MAINTENANCE: Not Applicable

22a. SPECIAL ATTRIBUTES: Not Applicable

22b. SECTION 508 COMPLIANCE INFORMATION: Not Applicable

23. UNIQUE ENTITY IDENTIFIER (UEI) NUMBER: 603124512

24. CONTRACTOR HAS REGISTERED IN THE SYSTEM FOR AWARD MANAGEMENT (SAM) DATABASE.
PRECISE SYSTEMS, INC.
LABOR CATEGORY DESCRIPTION

SIN 54151S:

**IT Program Manager**
**Functional Responsibility:** Provides overall IT management, technical guidance, and interfaces with Government program manager. Manages multiple projects and tasks that involve the analysis, design, implementation and/or operation of information systems. Responsible for deliverable quality and integrity of the final work product on large information system programs.

**Minimum/General Experience:** Minimum of 6 years’ experience.
**Minimum Education:** Bachelor’s Degree in computer science or related field.

**IT Project Analyst Jr.**
**Functional Responsibility:** Assists with project support for budget, acquisition, management, and/or IT issues. Assists with project execution and coordinates resolution of project problems with appropriate personnel. Recommends and implements corrective action. Adapts operational and test approaches successfully used in precedent systems.

**Minimum/General Experience:** Zero years of experience.
**Minimum Education:** Bachelor’s Degree in computer science or related field.

**IT Project Analyst**
**Functional Responsibility:** Oversees project support for budget, acquisition, management and/or IT issues. Assists with project execution and coordinates resolution of project problems with appropriate personnel. Recommends and implements corrective action. Adapts operational and test approaches successfully used in precedent systems.

**Minimum/General Experience:** Minimum of 2 years’ experience.
**Minimum Education:** Bachelor’s Degree in computer science or related field.

**IT Project Analyst Sr.**
**Functional Responsibility:** Leads project support for budget, acquisition, management and/or IT issues. Assists with project execution and coordinates resolution of project problems with appropriate personnel. Recommends and implements corrective action. Adapts operational and test approaches successfully used in precedent systems.

**Minimum/General Experience:** Minimum of 4 years’ experience.
**Minimum Education:** Bachelor’s Degree in computer science or related field.

**IT Program Management Analyst Jr.**
**Functional Responsibility:** Provides management and technical guidance, establishes project budget and milestones, monitors adherence to budget and schedule, and interfaces with the Government Project Manager. Directs the work of employees assigned to the project and is responsible for deliverable quality of information system projects.

**Minimum/General Experience:** Minimum of 6 years’ experience.
**Minimum Education:** Bachelor’s Degree in computer science or related field.

**IT Program Management Analyst**
**Functional Responsibility:** Provides management and technical guidance, establishes project budget and milestones, monitors adherence to budget and schedule, and interfaces with the Government Project Manager. Directs the work of employees assigned to the project and is responsible for deliverable quality of information system projects.

**Minimum/General Experience:** Minimum of 10 years’ experience.
**Minimum Education:** Bachelor’s Degree in computer science or related field.
IT Engineer Jr.
**Functional Responsibility:** Performs a variety of technical planning, system integration, verification and validation, cost and risk, and supportability and effectiveness analyses for total systems. Analyses are performed within the total system to include concept, design, fabrication, test, installation, operation, maintenance, and disposal.
**Minimum/General Experience:** Zero years of experience.
**Minimum Education:** Bachelor’s Degree in computer science or related field.

IT Engineer Mid
**Functional Responsibility:** Performs a variety of technical planning, system integration, verification and validation, cost and risk, and supportability and effectiveness analyses for total systems. Analyses are performed within the total system to include concept, design, fabrication, test, installation, operation, maintenance, and disposal.
**Minimum/General Experience:** Minimum of 2 years’ experience.
**Minimum Education:** Bachelor’s Degree in computer science or related field.

IT Engineer Sr.
**Functional Responsibility:** Performs a variety of technical planning, system integration, verification and validation, cost and risk, and supportability and effectiveness analyses for total systems. Analyses are performed within the total system to include concept, design, fabrication, test, installation, operation, maintenance, and disposal.
**Minimum/General Experience:** Minimum of 4 years’ experience.
**Minimum Education:** Bachelor’s Degree in computer science or related field.

IT Principal Engineer
**Functional Responsibility:** Applies extensive technical expertise and has full knowledge of other related disciplines.
**Minimum/General Experience:** Minimum of 6 years’ experience.
**Minimum Education:** Bachelor’s Degree in computer science or related field.

IT Principal Engineer Sr.
**Functional Responsibility:** Applies advanced technical principles, theories, and concepts. Contributes to the development of new principles and concepts.
**Minimum/General Experience:** Minimum of 10 years’ experience.
**Minimum Education:** Bachelor’s Degree in computer science or related field.

IT Subject Matter Expert Engineering
**Functional Responsibility:** Provides extensive technical expertise to a large segment of major functional areas.
**Minimum/General Experience:** Minimum of 15 years’ experience.
**Minimum Education:** Bachelor’s Degree in computer science or related field.

Computer Systems Analyst Jr.
**Functional Responsibility:** Performs systems analysis, software design, software development and database administration. Utilize knowledge of quality assurance, quality control, and independent verification and validation techniques. Researches data and develops analytical techniques and methodologies. Possesses knowledge of acquisition practices required to design, develop, integrate, test and manufacture a major system.
**Minimum/General Experience:** Zero years of experience.
**Minimum Education:** Bachelor’s Degree in computer science or related field.
Computer Systems Analyst
**Functional Responsibility:** Performs systems analysis, software design, software development and database administration. Utilize knowledge of quality assurance, quality control, and independent verification and validation techniques. Researches data and develops analytical techniques and methodologies. Possesses knowledge of acquisition practices required to design, develop, integrate, test and manufacture a major system.

**Minimum/General Experience:** Minimum of 2 years’ experience.

**Minimum Education:** Bachelor’s Degree in computer science or related field.

Computer Systems Analyst Sr.
**Functional Responsibility:** Lead systems analysis, software design, software development and database administration. Utilize knowledge of quality assurance, quality control, and independent verification and validation techniques. Researches data and develops analytical techniques and methodologies. Possesses knowledge of acquisition practices required to design, develop, integrate, test and manufacture a major system.

**Minimum/General Experience:** Minimum of 4 years’ experience.

**Minimum Education:** Bachelor’s Degree in computer science or related field.

Principal Computer Systems Analyst
**Functional Responsibility:** Provides technical support, software troubleshooting, email and network connectivity. Resolves hardware problems and ensures software and operating system compatibilities. Manages and provides Tier 2 helpdesk support and performs remote software/patch installation, and centralized PC management.

**Minimum/General Experience:** Minimum of 6 years’ experience.

**Minimum Education:** Bachelor’s Degree in computer science or related field.

Principal Computer Systems Analyst Sr.
**Functional Responsibility:** Lead systems analysis, software design, software development and database administration. Utilize knowledge of quality assurance, quality control, and independent verification and validation techniques. Researches data and develops analytical techniques and methodologies. Possesses knowledge of acquisition practices required to design, develop, integrate, test and manufacture a major system.

**Minimum/General Experience:** Minimum of 10 years’ experience.

**Minimum Education:** Bachelor’s Degree in computer science or related field.

Subject Matter Expert Information Technology
**Functional Responsibility:** Provides extensive technical expertise to a large segment of major functional areas.

**Minimum/General Experience:** Minimum of 15 years’ experience.

**Minimum Education:** Bachelor’s Degree in computer science or related field.

SIN: 541330ENG:

Engineer, Jr.
**Functional Responsibility:** Contributes to the completion of routine technical tasks. Develops solutions to routine technical problems of limited scope.

**Minimum/General Experience:** Minimum of 0 years’ experience.

**Minimum Education:** Bachelor’s Degree in engineering or related field.
Engineer, Mid
Functional Responsibility: Contributes to the completion of specific programs and projects. Complete understanding and wide application of technical principles, theories, and concepts in the field. General knowledge of other related disciplines. Provides technical solutions to a wide range of difficult problems. Solutions are imaginative, thorough and practicable, and consistent with organization objectives.
Minimum/General Experience: Minimum of 2 years’ experience.
Minimum Education: Bachelor’s Degree in engineering or related field.

Engineer, Sr.
Functional Responsibility: Contributes to the completion of specific programs and projects. Complete understanding and wide application of technical principles, theories, and concepts in the field. General knowledge of other related disciplines. Provides technical solutions to a wide range of difficult problems. Solutions are imaginative, thorough and practicable, and consistent with organization objectives.
Minimum/General Experience: Minimum of 4 years’ experience.
Minimum Education: Bachelor’s Degree in engineering or related field.

Principal Engineer
Functional Responsibility: Guides the successful completion of major programs and may function in a project leadership role. Applies extensive technical expertise and has full knowledge of other related disciplines. Develops technical solutions to complex problems which require the regular use of ingenuity and creativity.
Minimum/General Experience: Minimum of 6 years’ experience.
Minimum Education: Bachelor’s Degree in engineering or related field.

Principal Engineer, Sr.
Functional Responsibility: Develops advanced technological ideas and guides their development into a final product. Applies advanced technical principles, theories, and concepts. Contributes to the development of new principles and concepts. Works on unusually complex technical problems and provides solutions which are highly innovative and ingenious.
Minimum/General Experience: Minimum of 10 years’ experience.
Minimum Education: Bachelor’s Degree in engineering or related field.

Subject Matter Expert
Functional Responsibility: Develops advanced technological ideas and guides their development into a final product. Provides extensive technical expertise to a large segment of major functional areas. Leads and works with teams on unusually complex technical problems and provides solutions which are highly innovative and ingenious.
Minimum/General Experience: Minimum of 15 years’ experience.
Minimum Education: Bachelor’s Degree in engineering or related field.

Engineering Technician I**
Functional Responsibility: Contributes to the completion of routine production tasks by following clearly documented procedures and work instructions. Entry Level Skills. Technical aptitude and willingness to learn. Work involves little or no problem solving, emphasis on following clearly documented procedures or work instructions.
Minimum/General Experience: Minimum of 0 years’ experience.
Minimum Education: High School Diploma or equivalent
Engineering Technician II**

**Functional Responsibility:** Contributes to the completion of routine production tasks by following moderately documented procedures and work instructions. Formal training, relevant experience, or education in related discipline. Must exhibit a technical understanding of routine production activates and documents (drawings, schematics, BOMs, test procedures etc.). Work involves limited problem solving, emphasis on learning technical area.

**Minimum/General Experience:** Minimum of 2 years’ experience.

**Minimum Education:** High School Diploma or equivalent

---

Engineering Technician III**

**Functional Responsibility:** Contributes to the completion of both routine and specialized production tasks where they are able to exhibit talent in areas where documented procedures and work instructions may not exist or be in draft form. Fully competent to perform a variety of common technician level tasks (ex. Cable assembly, soldering, electro-much assembly, etc.). Demonstrate originality and innovation in some of the specialized tasks assigned. Demonstrates in-depth understanding of production and engineering level documentation (drawings, schematics, BOMs, test procedures etc.). Proficient at solving most routine technical issues requiring specialized knowledge gained through experience.

**Minimum/General Experience:** Minimum of 4 years’ experience.

**Minimum Education:** High School Diploma or equivalent

---

Engineering Technician IV**

**Functional Responsibility:** Contributes to the completion of both routine and specialized production tasks where they are able to exhibit talent in areas where documented procedures and work instructions may not exist or be in draft form. Skilled in performing a wide variety of technical tasks (ex. Cable assembly, soldering, electro-much assembly, etc.). Clearly demonstrates originality and innovation in specialized tasks. Demonstrates in-depth understanding of production and engineering documentation (drawings, schematics, BOMs, test procedures etc.). Demonstrates the ability to define and implement process improvements and take leadership rolls in specific task areas. Individual has demonstrated a growing understanding of interfacing processes. Proficient at solving all routine, and many uncommon, technical issues requiring specialized knowledge gained through experience.

**Minimum/General Experience:** Minimum of 6 years’ experience.

**Minimum Education:** High School Diploma or equivalent

---

Engineering Technician V**

**Functional Responsibility:** Guides the completion of production tasks for a specific program or project. Individual may function in a technician lead role for a specific project or product line. Exceptionally skilled to perform a variety of common and complex tech level tasks. Many tasks may be specialized and require extensive use of originality and innovation. Formal training or certifications may be required. Demonstrates understanding of system level design, configuration, functionality, and interdependencies. Knowledge base must expand beyond technical. Individual must exhibit clear understanding of entire production process and general understanding of interfacing processes (ex Engineering, Procurement, Field Service, etc.). Ability to coordinate work of others. Proficient at solving a wide variety of technical issues. Usually requires experience in a multitude of areas. Also must exhibit a general understanding of the overall design release and production processes and how decisions or recommendations will impact these areas.

**Minimum/General Experience:** Minimum of 10 years’ experience.

**Minimum Education:** High School Diploma or equivalent
Engineering Technician VI**

**Functional Responsibility:** Coordinates and directs the completion of production tasks for multiple programs or projects. Expert level proficiency in a variety of common and complex tech level tasks. Proves in-depth understanding of production processes as well as all interfacing processes. Exhibits strong leadership and communication skills. Able to provide technical expertise and handle the most difficult technical problems. Also requires a thorough understanding of design release, production, QA, procurement, and field service processes and how decisions and recommendations will impact all areas.

**Minimum/General Experience:** Minimum of 10 years’ experience.

**Minimum Education:** Associates Degree in engineering or related field

---

Project Analyst, Jr.

**Functional Responsibility:** Assists in resolution of routine problems of limited scope and complexity following established policies and procedures. Some degree of use and/or application of basic principles, theories, and concepts. Very limited knowledge of industry practices and standards.

**Minimum/General Experience:** Minimum of 0 years’ experience.

**Minimum Education:** Bachelor’s Degree in related field

---

Project Analyst

**Functional Responsibility:** Solves routine problems of limited scope and complexity following established policies and procedures. Limited use and/or application of basic principles, theories, and concepts. Limited knowledge of industry practices and standards.

**Minimum/General Experience:** Minimum of 2 years’ experience.

**Minimum Education:** Bachelor’s Degree in related field

---

Project Analyst, Sr.

**Functional Responsibility:** Contributes to the completion of organizational projects and goals. Frequent use and general knowledge of industry practices, techniques, and standards. General application of concepts and principals.

**Minimum/General Experience:** Minimum of 4 years’ experience.

**Minimum Education:** Bachelor’s Degree in related field

---

Project Manager

**Functional Responsibility:** Develops solutions to a variety of complex problems. Oversees all phases of projects from pursuit and capture through execution and contract completion. Responsible for the cost, schedule, technical and contract performance of company projects. Participates in the negotiation of contracts and contract changes. Serves as primary customer contact for project activities, leading project review sessions with customer to discuss cost, schedule, technical and contract performance. In execution, establishes project budget and milestones, monitors adherence to budget and schedule. Anticipates cost/schedule variances, risks and technical difficulties and develops effective corrections. Directs the work of employees assigned to the project. Manages the coordination of the activities of a section or department with responsibility for results in terms of costs, methods, and employees. In some instances, this manager may be responsible for a functional area and may have subordinate supervisors.

**Minimum/General Experience:** Minimum of 6 years’ experience.

**Minimum Education:** Bachelor’s Degree in related field
Project Manager, Sr.

**Functional Responsibility:** Oversees and directs all phases of projects from pursuit and capture through execution and contract completion. Responsible for the cost, schedule, technical and contract performance of company projects. Serves as primary customer contact for project activities, leading project review sessions with customer to discuss cost, schedule, technical and contract performance. Develops new business or expands the product line with the customer. In execution, establishes project budget and milestones, monitors adherence to budget and schedule. Anticipates cost/schedule variances, risks and technical difficulties and develops effective corrections. Directs the work of employees assigned to the project. Establishes operational objectives and assignments, and delegates assignments to subordinate managers. Objectives are reviewed by senior management to determine success of operation. Involved in developing, modifying, and executing organization policies, which affect immediate operation(s). May manage multiple functions, organizations, locations, products and/or technical disciplines.

**Minimum/General Experience:** Minimum of 10 years’ experience.

**Minimum Education:** Bachelor’s Degree in related field

Program Manager

**Functional Responsibility:** Develops solutions to a variety of complex problems. Directs assigned Project Managers in all phases of projects from pursuit and capture through execution and contract completion. Responsible for the cost, schedule, technical and contract performance of assigned company projects. Supervises execution of projects by Project Managers, to include establishment of project budget and milestones and adherence to budgets and schedules. Manages the coordination of the activities of a section or department with responsibility for results in terms of costs, methods, and employees. In some instances, this manager may be responsible for a functional area and may have subordinate supervisors.

**Minimum/General Experience:** Minimum of 6 years’ experience.

**Minimum Education:** Bachelor’s Degree in related field

Program Manager, Sr.

**Functional Responsibility:** Oversees and directs assigned Project and Program Managers in all phases of projects from pursuit and capture through execution and contract completion. Responsible for the cost, schedule, technical and contract performance of assigned company projects. Monitors Project and Program Manager customer contacts; participates in project review sessions with customer to discuss cost, schedule, technical and contract performance. Supervises execution of projects by Project and Program Managers, to include establishment of project budget and milestones and adherence to budgets and schedules. Establishes operational objectives and assignments, and delegates assignments to subordinate managers. Objectives are reviewed by senior management to determine success of operation. Involved in developing, modifying and executing organization policies, which affect immediate operation(s). May manage multiple functions, organizations, locations, products and/or technical disciplines.

**Minimum/General Experience:** Minimum of 8 years’ experience.

**Minimum Education:** Bachelor’s Degree in related field

**SUBSTITUTIONS**

Precise Systems, Inc. reserves the right to make the following substitutions in the education and/or experience requirements of any of the service skill categories set forth herein.

1. One year of experience is the equivalent of one year of education.
2. One year of education is the equivalent of one year of experience.
3. Certification related to the technology is equivalent to two years of experience or education requirement.

The Service Contract Labor Standards (SCLS) is applicable to this contract and it includes SCLS applicable labor categories. The prices for the indicated SCLS labor categories are based on the U.S. Department of Labor Wage Determination Numbers identified in the matrix. The prices offered are based on the preponderance of where work is performed and should the contractor perform in an area with lower SCLS rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.
