**Service Contract Labor Standards:** The Service Contract Labor Standards (SCLS) are applicable to this contract as it applies to the entire Consolidated MAS Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
**Cloud - AWS Advisor III**

**Functional Responsibilities:** Cloud architecture and solutions advisor to senior leadership and organizational leads responsible for IT service delivery and cloud adoption.

**Minimum Education:** Bachelor's

**Minimum Experience:** 20 years

---

**Cloud Computer Systems Engineer II**

**Functional Responsibilities:** Cloud Systems engineer that specializes in complex cloud integration and adoption practices for multi-cloud deployments of mission and business systems.

**Minimum Education:** Bachelor's

**Minimum Experience:** 10 years

---

**Cloud - Senior Functional Lead II**

**Functional Responsibilities:** Cloud architecture and engineering lead that enables a mission integrated approach to cloud adoption of complex systems and services.

**Minimum Education:** Master's

**Minimum Experience:** 10 years

---

**Cloud - Senior IT and Information Lead II**

**Functional Responsibilities:** Leads project level implementation of cloud hosted solutions of IT components and services in support of mission objectives.

**Minimum Education:** N/A

**Minimum Experience:** 8 years

---

**Cloud - Senior Software Developer I**

**Functional Responsibilities:** Supports development of software based solutions hosted in and on cloud services and infrastructure.

**Minimum Education:** N/A

**Minimum Experience:** 5 years
Cloud - Solutions Architect Lead II

Functional Responsibilities: Cloud architect and task lead for multi-cloud and/or hybrid cloud deployments.

Minimum Education: Bachelor's

Minimum Experience: 11 years

Cloud Solutions Engineer II

Functional Responsibilities: Cloud solution engineer that supports design and integrates mission-oriented solutions that leverage cloud services to solve mission challenges.

Minimum Education: Bachelor's

Minimum Experience: 10 years

Experience & Degree Substitution Equivalencies

Experience exceeding the minimum shown may be substituted for education. Likewise, education exceeding the minimum shown may be substituted for experience.

SIN 54151S

**Architect Level II**

**Functional Responsibilities:** Supports the design and implementation of commercial and private Information Technology architectures. Document configuration processes. Improve operations by performing systems analysis, problem definition, and solution development to address a mission need. Design and develop systems in accordance to specifications, standards, and programming best practices.

**Minimum Education:** Bachelor's

**Minimum Experience:** 5 years

**Architect Level III**

**Functional Responsibilities:** Designs and builds commercial and private Information Technology architectures. Advises customers on best practices. Also, designs and develops advanced architectures, software, services and systems integration components. Cuts across mission systems and DevOps environments.

**Minimum Education:** Bachelor's

**Minimum Experience:** 8 years

**Architect Senior**

**Functional Responsibilities:** Leads multi-disciplinary information technology engineering efforts, providing direction, interpretation and alternatives to complex technical problems in support of client work. Serve as IT expert on executive-level project teams. Provide technical direction, interpretation and alternatives to exceptionally complex problems and processes relating to the subject matter. Directs multiple teams through to project completion. Provides guidance and direction to lower level technicians, specialists, and managers.

**Minimum Education:** Bachelor's

**Minimum Experience:** 10 years

**Developer - Level II**

**Functional Responsibilities:** Supports design and development of software, services and IT automation components. Develops software within an organization. Directs the software engineering function in developing, releasing, and maintaining software applications/operating systems according to business needs.

**Minimum Education:** Bachelor's

**Minimum Experience:** 5 years
**Functional Responsibilities:** Builds and maintains infrastructure on AWS or Azure. Support migration of existing services to environment. Understands and applies more advanced concepts and processes to daily activities. Assists more senior level technicians, specialists, and managers in their activities. Develops, maintains, and enhances complex and diverse software systems (e.g., processing-intensive analytics, novel algorithm development, manipulation of extremely large data sets, real-time systems, and business management information systems) based upon documented requirements.

**Minimum Education:** Bachelor's

**Minimum Experience:** 2 years
