Contract Number: 47QTCA20D009R
Period Covered by Contract: May 6, 2020 – May 5, 2025
Price list effective through Mod #1

General Services Administration
Federal Supply Service

Products and ordering information in this Authorized FSS Pricelist are also available on the GSA Advantage! System.

Agencies can browse GSA Advantage! by accessing the Federal Supply Service’s Home Page via the Internet at http://www.fss.gsa.gov/
1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s).

SIN
54151S    Information Technology Professional Services
33411     Purchasing of New Electronic Equipment
511210    Software Licenses
611420    Information Technology Training
54151     Software Maintenance Services

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. Prices included herein are net prices and discounts have been applied.

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. Please refer to the Labor Category Descriptions.

2. Maximum order
   $500,000

3. Minimum order
   $100

4. Geographic coverage (delivery area).
   Domestic delivery is delivery within the 48 contiguous states, Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories.

5. Point(s) of production (city, county, and State or foreign country).
   USA

6. Discount from list prices or statement of net price.
   Prices included herein are net prices and discounts have been applied.

7. Quantity discounts.
   1.5% discount on orders greater than $400,000

8. Prompt payment terms. Net 30 - Information for the ordering offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions

9a. The Government purchase card is accepted at or below the micro-purchase threshold.

9b. The Government purchase card is accepted above the micro-purchase threshold.

10. Foreign items (list items by country of origin).
    Not Applicable
11a. Time of delivery.
As Negotiated between the Contractor and the Ordering Activity

11b. Expedited Delivery.
As Negotiated between the Contractor and the Ordering Activity

11c. Overnight and 2-day delivery.
As Negotiated between the Contractor and the Ordering Activity

11d. Urgent Requirements.
As Negotiated between the Contractor and the Ordering Activity

12. F.O.B. point(s).
Destination

13a. Ordering address.
Intrepid Networks, LLC.
1011 East Colonial Dr, Suite 501
Orlando FL 32803

13b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.

14. Payment address.
Intrepid Networks, LLC.
1011 East Colonial Dr, Suite 501
Orlando FL 32803

15. Warranty provision.
Not Applicable

16. Export packing charges, if applicable.
Not Applicable

17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level).
None

18. Terms and conditions of rental, maintenance, and repair (if applicable).
Not Applicable

19. Terms and conditions of installation (if applicable).
Not Applicable

20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable).
Not Applicable

20a. Terms and conditions for any other services (if applicable).
None
21. List of service and distribution points (if applicable). 
   None

22. List of participating dealers (if applicable). 
   None

23. Preventive maintenance (if applicable). 
   None

24a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, 
     and/or reduced pollutants). 
     Not Applicable

24b. If applicable, indicate that Section 508 compliance information is available on Electronic and 
     Information Technology (EIT) supplies and services and show where full details can be found 
     (e.g. contractor's website or other location.) The EIT standards can be found at: 
     www.Section508.gov/.

25. Data Universal Number System (DUNS) number. 
   078727510

26. Notification regarding registration in SAM.gov (formerly the Central Contractor Registration) 
    database. 
    Intrepid Networks maintains an active registration on SAM.gov 
    CAGE Code: 6VYD3

Labor Category Descriptions

Software Engineer I (Junior)

- Provides support as an applications programmer and has limited programming experience.
- Possesses knowledge of target computer equipment is desired.
- Supports the development of complex software to satisfy design objectives
- Possesses knowledge and limited experience on standards, and design tools.

MINIMUM EDUCATION: BA/BS
MINIMUM YEARS OF EXPERIENCE: 3 YEARS

Software Engineer II (Journeyman)

- Possesses strong programming experience
- Ability to develop complex software solutions to satisfy design objectives and customer requirements.
- Possesses strong working knowledge of target computer equipment
- Possesses ability to develop complex software to satisfy design objective.
- Possesses strong working knowledge of applicable standards, programming languages, and use of design tools.

MINIMUM EDUCATION: BA/BS
MINIMUM YEARS OF EXPERIENCE: 6 YEARS

Software Engineer III (Senior)

- Ability to lead in the development of complex software solutions to satisfy design objectives and customer requirements.
- Deep knowledge of applicable standards, programming language, and deep experience with design tools.
- Capable of supervising a staff of Software Engineers as required.
- Manages projects and develops and executes to schedules and task lists
- Develops technical documentation detailing the project design parameters.
- May perform other duties as assigned.

MINIMUM EDUCATION: BA/BS
MINIMUM YEARS OF EXPERIENCE: 10 YEARS
UI/UX Engineer I (Junior)

- Must possess some experience and capability in gathering of user requirements, designing of graphic elements, and building of navigation components. This includes the expert ability to interpret data and qualitative feedback and incorporate into design requirements.
- Possesses some experience with design software and wireframe tools.
- Capable of assisting in the developing of information architectures.
- Capable of assisting in the illustration of design ideas using storyboards, process flows, and site maps.
- Capable of assisting in the execution of usability testing plans and procedures.

MINIMUM EDUCATION: BA/BS
MINIMUM YEARS OF EXPERIENCE: 3 YEARS

UI/UX Design Engineer II (Journeyman)

- Must possess strong experience and capability in gathering of user requirements, designing of graphic elements, and building of navigation components. This includes the expert ability to interpret data and qualitative feedback and incorporate into design requirements.
- Possesses deep experience with design software and wireframe tools.
- Capable of developing information architectures.
- Capable of conducting the illustration of design ideas using storyboards, process flows, and site maps.
- Capable of implementing usability testing plans and procedures.

MINIMUM EDUCATION: BA/BS
MINIMUM YEARS OF EXPERIENCE: 6 YEARS

UI/UX Design Engineer III (Senior)

- Capable of leading the gathering of user requirements, designing of graphic elements, and building of navigation components. This includes the expert ability to interpret data and qualitative feedback and incorporate into design requirements.
- Possesses deep experience with design software and wireframe tools.
- Capable of leading the development of information architectures.
- Capable of leading and conducting the illustration of design ideas using storyboards, process flows, and site maps.
- Lead and execute the development and implementation of usability testing plans and procedures.

MINIMUM EDUCATION: BA/BS
MINIMUM YEARS OF EXPERIENCE: 10 YEARS
Software Architect (Senior)

- Provides development of project Software Quality Assurance Plan and the implementation of procedures that conforms to the requirements of the contract.
- Provides an independent assessment of how the project's software development process is being implemented relative to the defined process and recommends methods to optimize the organization's process.
- May be responsible for all activities involving quality assurance and compliance with applicable regulatory requirements.
- Conducts audits and reviews/analyzes data and documentation.
- Develops and implements procedures and test plans for assuring quality in a system development environment which supports large databases and applications.

MINIMUM EDUCATION: BA/BS
MINIMUM YEARS OF EXPERIENCE: 10 YEARS

Quality Assurance Engineer (Journeyman)

- Contributes to development of project Software Quality Assurance Plan and the implementation of procedures that conforms to the requirements of the contract.
- Provides an independent assessment of how the project's software development process is being implemented relative to the defined process and recommends methods to optimize the organization's process.
- May be responsible for all activities involving quality assurance and compliance with applicable regulatory requirements.
- Conducts audits and reviews/analyzes data and documentation.
- Implements procedures and test plans for assuring system quality.

MINIMUM EDUCATION: BA/BS
MINIMUM YEARS OF EXPERIENCE: 6 YEARS
Quality Assurance Engineer (Senior)

- Leads development of project Software Quality Assurance Plan and the implementation of procedures that conforms to the requirements of the contract.
- Provides an independent assessment of how the project's software development process is being implemented relative to the defined process and recommends methods to optimize the organization's process.
- Capable of being responsible for all activities involving quality assurance and compliance with applicable regulatory requirements.
- Conducts audits and reviews/analyzes data and documentation.
- Develops and implements procedures and test plans for assuring system quality.

MINIMUM EDUCATION: BA/BS

MINIMUM YEARS OF EXPERIENCE: 10 YEARS

Test Engineer (Journeyman)

- Demonstrated capability in designing and performing tests of complex systems.
- Competency in quality assurance/quality control, testing, and/or revision and version control.
- Demonstrated capability in creating and implementing testing methods, recording the test results, and providing recommendations to improve solution based on the results.
- Proven ability to work independently or under only general direction.
- Good written and oral skills

MINIMUM EDUCATION: BA/BS

MINIMUM YEARS OF EXPERIENCE: 5 YEARS

Training Specialist II (Journeyman)

- Supports the assessment, design and conceptualization of training scenarios, approaches, objectives, plans, tools, aids, curriculums, and other state of the art technologies related to training and behavioral studies.
- Identifies the best approach training requirements to include, but not limited to hardware, software, simulations, course assessment and refreshment, assessment centers, oral examinations interviews, computer assisted and adaptive testing, behavior-based assessment and performance, and team and unit assessment and measurement.
- Supports the development and updating of training courses.
- Supports the preparation of training catalogs and course materials.
- Trains personnel by conducting formal classroom courses, workshops, and seminars.

MINIMUM EDUCATION: BA/BS

MINIMUM YEARS OF EXPERIENCE: 5 YEARS
Training Specialist III (Senior)

- Assesses, designs, and conceptualizes training scenarios, approaches, objectives, plans, tools, aids, curriculums, and other state of the art technologies related to training and behavioral studies.
- Identifies the best approach training requirements to include, but not limited to hardware, software, simulations, course assessment and refreshment, assessment centers, oral examinations interviews, computer assisted and adaptive testing, behavior-based assessment and performance, and team and unit assessment and measurement.
- Develops and revises training courses.
- Prepares training catalogs and course materials.
- Trains personnel by conducting formal classroom courses, workshops, and seminars.

MINIMUM EDUCATION: BA/BS
MINIMUM YEARS OF EXPERIENCE: 10 YEARS

Embedded Engineer (Journeyman)

- Strong experience in the design and development of the complete life-cycle of an embedded software system.
- Strong experience developing and implementing a wide range of low-level embedded software (including device drivers, Linux kernel modules, network stack development, porting existing software to new embedded platforms, etc). Must be proficient in C and C++, with knowledge of up-to-date OS coding techniques, IP protocols, and hardware interfaces. Strong experience with software configuration tools.
- Can design, develop, debug, and update new boards
- Capability to support in-house and in-the-field engineering activities including travel to customer sites and customer test locations, military facilities, etc. to directly support the testing, evaluation, and deployment of the systems
- Experience integrating other systems, sensors, and components
- Embedded development including battery powered, microcontroller-based, rugged wireless safety systems
- Very strong communication and documentation skills. Creates Internal and external product documentation including development plans, design, and user documentation
- Executes test plans for hardware and software validation

MINIMUM EDUCATION: BA/BS
MINIMUM YEARS OF EXPERIENCE: 6 YEARS
Embedded Engineer (Senior)

- Strong experience in leading the design and development of the complete life-cycle of an embedded software system.
- Strong experience developing and implementing a wide range of low-level embedded software (including device drivers, Linux kernel modules, network stack development, porting existing software to new embedded platforms, etc). Must be proficient in C and C++, with knowledge of up-to-date OS coding techniques, IP protocols, and hardware interfaces. Strong experience with software configuration tools.
- Can design, develop, debug, and update new boards
- Capability to lead and support in-house and in-the-field engineering activities including travel to customer sites and customer test locations, military facilities, etc. to directly support the testing, evaluation, and deployment of the systems
- Experience integrating other systems, sensors, and components
- Embedded development including battery powered, microcontroller-based, rugged wireless safety systems
- Very strong communication and documentation skills. Creates Internal and external product documentation including development plans, design, and user documentation
- Creates and executes test plans for hardware and software validation

MINIMUM EDUCATION: BA/BS
MINIMUM YEARS OF EXPERIENCE: 10 YEARS

Systems Engineer I (Junior)

- Experienced in providing systems engineering support on systems, major system elements, and/or interfacing systems.
- Assists in the development of strategic and implementation plans for information systems.
- Applies engineering discipline to support strategic systems migration.
- Contributes to system architecture and design requirements.
- Assists in system definition, trade-offs and design activity.
- Reviews, evaluates and analyzes design interfaces.
- Prepares, reviews and evaluates interface documentation, specifications, test plans, and requirements.
- Supports system test programs and analyzes system testing.

MINIMUM EDUCATION: BA/BS
MINIMUM YEARS OF EXPERIENCE: 3 YEARS
Systems Engineer II (Journeyman)

- Experienced in providing systems engineering support on systems, major system elements, and/or interfacing systems.
- Develops strategic and implementation plans for information systems.
- Proven ability to apply reverse engineering and re-engineering disciplines to support strategic systems migration.
- Contributes to system architecture and design requirements.
- Provides system definition, trade-off and design support.
- Reviews and evaluates and analyzes design interfaces.
- Prepares, reviews and evaluates interface documentation, specifications, test plans, and requirements.
- Supports system test programs and analyzes system testing.

MINIMUM EDUCATION: BA/BS
MINIMUM YEARS OF EXPERIENCE: 6 YEARS

Systems Engineer III (Senior)

- Experienced in providing systems engineering support on systems, major system elements, and/or interfacing systems.
- Develops strategic and implementation plans for software and system solutions.
- Proven ability to apply reverse engineering and re-engineering disciplines to support strategic systems migration.
- Leads and Contributes to system architecture and design requirements.
- Conducts system definition, trade-off and design.
- Reviews and evaluates and analyzes design interfaces.
- Prepares, reviews and evaluates interface documentation, specifications, test plans, and requirements.
- Supports system test programs and analyzes system testing.

MINIMUM EDUCATION: MA/MS
MINIMUM YEARS OF EXPERIENCE: 5 YEARS
Chief Engineer / Systems Architect (SME)

Senior scientist who independently performs a variety of system design and engineering tasks which are broad in nature and are concerned with design and implementation of major enterprise systems development and integration, including supporting personnel, hardware, software, and support facilities and/or equipment. Supervises team of Sr. Systems Engineers, Network Engineers, Sr. Network Engineers, and Network Engineers through project completion and is considered a Subject Matter Expert (SME) in one or more specific areas of computer system design and networking. Principal Duties and Responsibilities

- Plans and performs systems and/or software engineering research, design development, and other assignments in conformance with system and network design, engineering, and customer specifications.
- Capable of supervising and coordinating the activities of a team of engineers
- Responsible for highly complex technical/engineering projects.
- Can serve as lead technical authority on a project

MINIMUM EDUCATION: MA/MS
MINIMUM YEARS OF EXPERIENCE: 15 YEARS

Program Manager (Journeyman)

- Proven technical and management experience, from inception to deployment, of one or more projects
- Demonstrated ability to provide guidance and direction in multiple tasks across several functional areas and the use of different technologies.
- Manages moderate program/technical support operations potentially involving multiple projects/task orders and personnel at multiple locations.
- Organizes, directs, and coordinates planning and execution of all program/technical support activities.
- Provides daily supervision and direction to support staff. Monitors performance and evaluates areas to improve efficiency.
- Operates independently, managing substantial program/technical support operations involving multiple projects/task orders and personnel at diverse locations.
- Must be able to plan and budget staff and data resources. Proven experience in the management and control of funds and resources, demonstrated capability in managing complex multi-task contracts. Must have demonstrated experience in managing all key project areas

MINIMUM EDUCATION: BA/BS
MINIMUM YEARS OF EXPERIENCE: 6 YEARS
Program Manager (Senior)

- Proven technical and management experience, from inception to deployment, of multiple complex projects.
- Demonstrated ability to provide guidance and direction in multiple tasks across several functional areas and including use of different technologies.
- Manages moderate to complex program/technical support operations potentially involving multiple projects/task orders and personnel at multiple locations, both CONUS and OCONUS.
- Organizes, directs, and coordinates planning and execution of all program/technical support activities.
- Establishes and alters management structure as necessary to effectively direct program/technical support activities.
- Confers with appropriate Government management officials regarding the status of specific Contractor program/technical activities and problems, issues, or conflicts.
- Shall have demonstrated ability to interface with management and brief senior leadership on status of program status and risks (both technical and programmatic).

MINIMUM EDUCATION: BA/BS

MINIMUM YEARS OF EXPERIENCE: 10 YEARS
Service Contract Labor Standards (SCLS) Statement

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Professional Services Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
