*The Service Contract Labor Standards (SCLS) is applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.*

### Labor Category Descriptions

#### Software Developer

**Minimum/General Experience:** 1 Year

**Functional Responsibility:** Processes user needs to customize software for computer programs, designs prototype applications, implements and tests source code, and troubleshoots software applications. Develops software solutions to meet customer needs. Creates and implements the source code of new applications. Tests source code and debugging code. Evaluates existing applications and performing updates and modifications. Develops technical handbooks to represent the design and code of new applications. Has experience in one or more of the following: Java, .NET, EDI, SQL, MuleSoft, QuickSense, ServiceNow, Testers, Big Data, Hadoop, Robotic Process Automation

**Minimum Education:** Bachelor's Degree

#### Business Analyst

**Minimum/General Experience:** 1 Year

**Functional Responsibility:** Assesses the effectiveness and efficiency of an organization's IT systems, and develops plans to improve any shortcomings in them. Evaluates current IT systems, including hardware, software, and network features. Communicates with management and employees to determine system requirements. Plans new systems that address any issues with the current systems. Prepares cost-benefit analysis reports for all proposed upgrades. Collaborates with the IT team to implement plan. Tests the new systems to validate that they are working as expected. Reports back on all improvements made, as well as any setbacks. Creates training processes and documentation to
teach others how to use new systems. Keeps up to date with the latest developments in information systems. Ensures that all budget and timeline constraints are met.

**Minimum Education:** Bachelor’s Degree

Due to the availability or limitation of education, occasionally substitution of experience as referenced below for a professional labor type with additional years of experience will be provided to the Federal Agency when responding to their IT requirements and it is solely the acquiring agency’s determination, if the substitution is considered acceptable prior to an award.

**Substitution Policy:**
Any combination of additional years of experience in the proposed field of expertise plus full-time college level study in the particular field totaling four (4) years will be an acceptable substitute for a Bachelor’s degree.
