Special Item No. 54151S - Information Technology Professional Services			
#	SIN	Labor Category	Price
1	54151S	Applications Systems Analyst/Programmer - Junior	\$87.30
2	54151S	Applications Systems Analyst/Programmer - Intermediate	\$97.00
3	54151S	Applications Systems Analyst/Programmer - Senior	\$106.70
4	54151S	Solution Architect	\$106.70
5	54151S	Senior Software Engineer 5	\$135.80

SIN 54151S - Information Technology Professional Services			
Labor Category	Description	Education Requirement	Minimum Years of Experience
Applications Systems Analyst/Programmer - Junior	Devises or modifies procedures to solve complex problems considering computer equipment capacity and limitations, operating time, and form of desired results. Designs, codes, tests, debugs, and documents	Bachelor's degree in Computer Science, or management information systems, or related area	0 to 2 years of experience in the field.
Applications Systems Analyst/Programmer - Intermediate	Under general supervision, formulates and defines system scope and objectives through research and fact-finding to develop or modify moderately complex information systems. Prepares detailed specifications from which programs will be written. Designs, codes, tests, debugs, documents, and maintains those programs. Competent to work on most phases of applications systems analysis and programming activities but requires instruction and guidance in other phases.	Bachelor's degree in Computer Science, or management information systems, or related area	4 years of experience in the field.
Applications Systems Analyst/Programmer - Senior	Under general direction, formulates and defines system scope and objectives. Devises or modifies procedures to solve complex problems considering computer equipment capacity and limitations, operating time, and form of desired results. Prepares detailed specifications from which programs will be written. Designs, codes, tests, debugs, and documents those programs. Competent to work at the highest technical level of all phases of applications systems analysis and programming activities. May be responsible for completion of a phase of a project. Regularly provides guidance and training to less- experienced analyst/programmers.	Bachelor's degree in Computer Science, or management information systems, or related area	6 years of experience in the field.
Solution Architect	Prepares solution ideation, solution design, and solution implementation. Establishes the complete business context for the solution and defines the vision and requirements for the solution. Elaborate potential options or prototype development. Select the optimal option and develops the roadmap for the selected solution. Communicate to the stakeholders and guides the implementation team.	Bachelor's degree in Computer Science, or management information systems, or related area	8 years of experience in the field.
Senior Software Engineer 5	Assume ownership in the design, develop and delivery of high-quality products and/or systems and services that exceed customers' or business partners' expectations. Serving as a technical lead on projects by setting technical direction as well as mentoring and supporting the work of more junior colleagues.	Bachelor's degree in Computer Science, or management information systems, or related area	12 years of experience in the field.
