3. Minimum order: $100

4. Geographic coverage (delivery area). Domestic

5. Point(s) of production (city, county, and State or foreign country):

I-Mazing Solutions, Inc.
501 Independence Pkwy Ste 250
Chesapeake, VA 23320

6. Discount from list prices or statement of net price. Government Net Prices (discounts already deducted.)
7. Quantity discounts. **Additional 1% on task orders exceeding $250,000. Additional 2% on task orders exceeding $500,000.**

8. Prompt payment terms. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions. **Net 30 days. Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.**

9. Foreign items (list items by country of origin). **Not Applicable**

10a. Time of delivery. (Contractor insert number of days.) **Not Applicable**

10b. Expedited Delivery. Items available for expedited delivery are noted in this price list. **Not Applicable**

10c. Overnight and 2-day delivery. **Not Applicable**

10d. Urgent Requirements. **Not Applicable**

11. F.O.B. point(s). **Destination**

12a. Ordering address(es):

    I-Mazing Solutions, Inc.
    501 Independence Pkwy Ste 250
    Chesapeake, VA 23320

12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address(es):

    I-Mazing Solutions, Inc.
    501 Independence Pkwy Ste 250
    Chesapeake, VA 23320

14. Warranty provision. **Not Applicable**

15. Export packing charges, if applicable. **Not Applicable**

16. Terms and conditions of rental, maintenance, and repair (if applicable). **Not Applicable**

17. Terms and conditions of installation (if applicable). **Not Applicable**

18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). **Not Applicable**

18b. Terms and conditions for any other services (if applicable). **Not Applicable**
19. List of service and distribution points (if applicable). **Not Applicable**

20. List of participating dealers (if applicable). **Not Applicable**

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (***) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).
LABOR CATEGORY DESCRIPTIONS

1. Labor Category: APPLICATION PROGRAMMER
   Education: Bachelor’s Degree
   Years of Experience: Five (5) years of professional experience required.
   Functional Responsibilities: Designs, tests, and implements interface programs. Develops security procedures. Manages network performances. Troubleshoots and resolves complex problems to ensure no disruption of mission-critical applications. Recommends changes in methods or procedures where necessary.

2. Labor Category: DATA ANALYST I
   Education: Bachelor’s Degree Years of Experience: One (1) year of professional experience required. Preferred experience with maintenance and modernization of Navy ships. Secret Clearance. Data management and MS Office with emphasis in MS Excel
   Functional Responsibilities: Possesses a general understanding of doctrine, policies, operations, and organizations. Exhibits a general degree of ingenuity, creativity, and resourcefulness during the conduct of research and development and preparation of documents, briefings, and analyses which may include narrative, tabular, and graphic materials. Interprets policies, procedures, standards, guidelines, and objectives and applies operations research principles and techniques to analytic needs. Advises and collaborates with stakeholders to evaluate data and optimize data usage and promote information sharing. Analyzes, reports, and develops recommendations on data related to operational metrics. Prepares detailed assessment reports that represent data as useful information and ensure the analysis presents meaningful results. Contributes to uncovering and resolving issues associated with the development and implementation of operational programs.

3. Labor Category: DATA ANALYST II
   Education: Bachelor’s Degree
   Years of Experience: Five (5) years of professional experience required. Preferred experience with maintenance and modernization of Navy ships. Secret Clearance.
   Functional Responsibilities: Possesses a general understanding of doctrine, policies, operations, and organizations. Exhibits a general degree of ingenuity, creativity, and resourcefulness during the conduct of research and development and preparation of documents, briefings, and analyses which may include narrative, tabular, and graphic materials. Interprets policies, procedures, standards, guidelines, and objectives and applies operations research principles and techniques to analytic needs. Advises and collaborates with stakeholders to evaluate data and optimize data usage and promote information sharing. Analyzes, reports, and develops recommendations on data related to operational metrics. Prepares detailed assessment reports that represent data as useful information and ensure the analysis presents meaningful results. Contributes to uncovering and resolving issues associated with the development and implementation of operational programs.

4. Labor Category: DATA ANALYST III
   Education: Bachelor’s Degree
   Years of Experience: Minimum of seven (7) years managerial experience within last 20 years
   Functional Responsibilities: Possesses a general understanding of doctrine, policies, operations,
and organizations. Exhibits a general degree of ingenuity, creativity, and resourcefulness during the conduct of research and development and preparation of documents, briefings, and analyses which may include narrative, tabular, and graphic materials. Interprets policies, procedures, standards, guidelines, and objectives and applies operations research principles and techniques to analytic needs. Advises and collaborates with stakeholders to evaluate data and optimize data usage and promote information sharing. Analyzes, reports, and develops recommendations on data related to operational metrics. Prepares detailed assessment reports that represent data as useful information and ensure the analysis presents meaningful results. Contributes to uncovering and resolving issues associated with the development and implementation of operational programs.

5. **Labor Category:** PROGRAM MANAGER I  
**Education:** Bachelor’s Degree  
**Years of Experience:** Minimum of eight (8) years of experience in engineering or related field.  
**Functional Responsibilities:** Plan, direct, or coordinate the operations of public or private sector organizations. Duties and responsibilities include formulating policies, managing daily operations, and planning the use of materials and human resources, but are too diverse and general in nature to be classified in any one functional area of management or administration, such as personnel, purchasing, or administrative services. This employee will oversee a specific program or set of programs.

6. **Labor Category:** PROGRAM MANAGER II  
**Education:** Bachelor’s Degree  
**Years of Experience:** Ten (10) years of professional experience required.  
**Functional Responsibilities:** Plan, direct, or coordinate the operations of public or private sector organizations. Duties and responsibilities include formulating policies, managing daily operations, and planning the use of materials and human resources, but are too diverse and general in nature to be classified in any one functional area of management or administration, such as personnel, purchasing, or administrative services. This employee will oversee a specific program or set of programs.

7. **Labor Category:** PROGRAMMER II  
**Education:** Bachelor’s Degree  
**Years of Experience:** Three (3) years of professional experience required.  
**Functional Responsibilities:** Monitors and distributes helpdesk calls and assists with report programming. Possesses expert-level knowledge of computers and peripheral equipment, including operating systems and basic operations functions, system and memory configurations, and software. Develops high-level system design diagrams, program design, coding, testing, debugging and documentation. Conducts quality assurance reviews and the evaluation of existing and new software products. Installs, operates, configures, diagnoses, and repairs computers, related software, and peripheral equipment. Monitors activity and components of data communications networks and identifies software and hardware malfunctions. Determines users’ needs and problems, understands program requirements, and develops effective solutions; prepares documentation materials. Presents technical concepts and procedures on software. Establishes rapport quickly and effectively with groups and individuals and maintains effective working relationships.
8. **Labor Category:** PROJECT MANAGER  
**Education:** Bachelor’s Degree  
**Years of Experience:** Five (5) years of professional experience required.  
**Functional Responsibilities:** Responsible for planning, organizing, executing, and controlling performance of business and financial services projects, ensuring that goals and objectives are accomplished within prescribed timeframe and funding parameters. Provides primary interface with client management personnel regarding strategic issues. Coordinates all contractor delivery orders, performs quality assurance reviews of project deliverables, and adherence to customer requirements. Delivers presentations and leads client meetings.

9. **Labor Category:** SENIOR SYSTEMS ENGINEER  
**Education:** Bachelor’s Degree  
**Years of Experience:** Six (6) years  
**Functional Responsibilities:** Defines, designs and develops system requirements. Performs tradeoff analyses of performance, life-cycle cost, risk, productivity, and other system or program requirements, including modeling, simulation. Assesses architecture and current hardware limitations, defines and designs system specifications, and evaluates input/output processes and working parameters for hardware/software compatibility.

10. **Labor Category:** LEAD DEVELOPER  
**Education:** Bachelor’s Degree  
**Years of Experience:** Five (5) years of professional experience required.  
**Functional Responsibilities:** Conducts or participates in multidisciplinary research and collaborates with equipment designers and/or hardware engineers in the planning, design, development, and utilization of electronic data processing systems software. Determines computer user needs; advises hardware designers on machine characteristics that affect software systems such as storage capacity, processing speed, and input/output requirements; designs and develops compilers and assemblers, utility programs, and operating systems.

11. **Labor Category:** SYSTEMS ANALYST  
**Education:** Bachelor’s Degree  
**Years of Experience:** Two (2) experience with functional databases to include: TAAS, STAARS, STRIPES, 200 BIZ, ESR, AIT, BM, WFM, QA, TRAINING, PERSONNEL, SME, TCHA, CONTRACTING, BUSINESS OBJECTS, and other data storage and business solutions. Secret Clearance.  
**Functional Responsibilities:** Provides technical assistance for maintaining and developing the CM environment for hardware and software product build, staging, testing, and integration. Has a general understanding of the basic concepts of defining hardware and software configuration processes and procedures. Conducts configuration status accounting, and tracks and reports all CM problems and changes in product documents/software. Conducts configuration audits and supports audits to verify that requirements of all baselines have been met by the as-built software. Provides technical assistance for software quality assurance process audits. With minimal guidance, defines, documents and maintains the Configuration Control Board (CCB), including roles and responsibilities of CCB members. With minimal guidance, defines hardware and software configuration processes and procedures, version control processes, and policies and
procedures to ensure they are followed on hardware and software development projects. Assists with the use of CM tools to store, track, and manage configuration items.

12. **Labor Category:** TECHNICAL INFORMATION SPECIALIST  
**Education:** Bachelor’s Degree  
**Years of Experience:** Four (4) years full-time experience in technical data management of Submarine Combat Systems and or Mechanical Systems acquisition life cycle programs  
**Functional Responsibilities:** Performs system capacity analysis and planning, maintains servers, creates monitoring reports and logs, and ensures functionality of system links. Performs configuration management and documentation of network and system topologies. Prepares technical implementation plans that provide integrated solutions including actions, milestones, timelines, and critical paths required for complete solutions. Possesses comprehensive knowledge of the organization’s hardware, software, and network components in addition to knowledge of programming languages and operating systems, current equipment and technologies in use, enterprise backup and recovery procedures, and system performance monitoring tools. Plans, organizes, and documents complex system design activities and configure systems to be consistent with the customer policies and procedures.

13. **Labor Category:** TECHNICAL WRITER  
**Education:** Bachelor’s Degree  
**Years of Experience:** Two (2) years of experience in the preparation of varied types of technical documentation on naval ship systems, in addition to experience in the detailed information search and interpretation of technical data in the preparation of technical documentation. Minimum Confidential Security Clearance  
**Functional Responsibilities:** Analyses and prepares documentation, and is responsible for writing, editing, and interpreting technical documentation standards and preparing documentation for both technical and lay audiences. May include elements of research and graphic design.

14. **Labor Category:** TESTER  
**Education:** High School or GED  
**Years of Experience:** One (1) Year in a related field.  
**Functional Responsibilities:** Conducts test, evaluation, and analysis activities with minimal guidance. Provides content towards the development of test and evaluation plans and test procedures. Tests software applications for operational deployment throughout the entire systems’ life cycle. Contributes to test and evaluation planning and preparation activities. Contributes to the planning and development of test environments that are to be integrated into the test enterprise architecture. Performs tests and experimentation in support of test activities/experimentations to include test architecture development, equipment calibrations, repairs, modifications, and adjustments to support task objectives. Analyzes capabilities for potential vulnerabilities that may result from improper system configuration, hardware or software flaws, or operational weaknesses. Presents any security issues that are found to the system owner with an assessment of impact and a recommendation for mitigation or a technical solution.
