CUSTOMER INFORMATION:

1a. TABLE OF AWARDED SPECIAL ITEM NUMBERS (SINs)

Services – Special Item Numbers	
SIN	DESCRIPTION
54151S	Information Technology Professional Services
Products – Special Item Numbers	
SIN	DESCRIPTION
33411	Purchasing of New Equipment
511210	Software Licenses
54151	Software Maintenance Services

1b. LOWEST PRICED MODEL NUMBER AND PRICE FOR EACH SIN:

(Government net price based on a unit of one)

See Pricelist starting on page 5

1c. HOURLY RATES (Services only):

See Pricelist starting on page 5

2. Maximum order: \$500,000

NOTE TO ORDERING ACTIVITIES: *If the best value selection places your order over the Maximum Order identified in this catalog/pricelist, you have an opportunity to obtain a better schedule contract price. Before placing your order, contact the aforementioned contractor for a better price. The contractor may (1) offer a new price for this requirement (2) offer the lowest price available under this contract or (3) decline the order. A delivery order that exceeds the maximum order may be placed under the schedule contract in accordance with FAR 8.404.

3. Minimum order: \$100.00

4. Geographic coverage (delivery area): 48 states and DC of the United States, Canada, UAE, Saudi Arabia, Qatar, Oman, Bahrain and Kuwait

5. Point(s) of production (city, county, and State or foreign country): United States

6. Discount from list prices or statement of net price: *GSA Net Prices are shown on the attached GSA Pricelist. Negotiated discount has been applied and the IFF has been added.*

7. Quantity discounts:

Volume Discount – Additional 1% discount on orders over \$200,000

8. Prompt payment terms. Note: Net 30 Days Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9a. Government purchase cards are accepted at or below the micro-purchase threshold.

9b. Government purchase cards are accepted above the micro-purchase threshold.

10. Foreign items (list items by country of origin): N/A

11a. Time of delivery: 30 days ARO for products and TBD at the Task Order Level for services

11b. Expedited Delivery: TBD at the Task Order Level for both products and services

11c. Overnight and 2-day delivery: TBD at the Task Order Level for both products and services

11d. Urgent Requirements: TBD at the Task Order Level for both products and services

12. F.O.B. point(s): Destination

13a. Ordering address(es):

KNZ Solutions
Khaled Mussa
9100 Baltimore ST NE, Suite 110
Blaine, MN 55449
Email: gsa@knzsolutions.com

13b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.

14. Payment address(es):

KNZ Solutions
9100 Baltimore ST NE, Suite 110
Blaine, MN 55449

15. Warranty provision: Products – Manufacture Warranty / Services - 15

16. Export packing charges: N/A

17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level): N/A

18. Terms and conditions of rental, maintenance, and repair (if applicable): N/A

19. Terms and conditions of installation (if applicable): N/A

20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable): N/A

20a. Terms and conditions for any other services (if applicable): N/A

21. List of service and distribution points (if applicable): N/A

22. List of participating dealers (if applicable): N/A

23. Preventive maintenance: N/A

24a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants): N/A

24b. 508 compliant - Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services. Full details can be found at. The EIT standards can be found at: www.Section508.gov/.

25. Data Universal Number System (DUNS) number: 080911486

26. Notification regarding registration in System for Award Management (SAM) database. SAM registration is current and accurate in the SAM database

27. Final Pricing: The rates shown below include the Industrial Funding Fee (IFF) of 0.75%.

SIN 54151S				
Labor Category Title	Labor Category Description (250 words)	Education Requirement	Min Years of Experience	Required Licenses/Certifications
IT Business Analyst	Works as liaison between business leaders and technical team(s) to define project requirements and success factors.	Bachelor's degree or 4 years of experience can be substituted for a bachelor's degree, MBA preferred, or 5-6 years of experience can be substituted for a master's degree	5 years	None
IT Senior Technical Architect	Defines enterprise information architecture by analyzing information requirements; contributes to systems architecture designs, components, and technologies. Studies business operations and contributes to technology solution designs to optimize organization's performance.	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree	10 years	Relevant continuing education and professional certifications such as CCNA, CCNP, CCIE, VCP, PCCSA, PCNSA
IT Principal Technical Architect	Defines enterprise information architecture by analyzing information requirements; advises senior leadership on systems architecture, components, and technologies. Studies business operations and designs technology solutions to optimize organization's performance.	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree; Master's preferred or 5-6 years of experience can be substituted for a master's degree	15 years	Relevant continuing education and professional certifications such as CCNP, CCIE, VCP, VCAP, PCNSA, PCNSE
IT Infrastructure Automation Engineer	Advance the infrastructure teams from a traditional infrastructure methodology to an infrastructure as code approach. Setup AWS environments with Cloud Formation, Terraform and Ansible. Move legacy datacenter to the cloud. Develop self-service portal for server builds, providing an automated build and configuration process for BareMetal that is hardware agnostic and helping lead the hosting services team through the DevOPs journey	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree	10 years	Relevant continuing education and professional certifications such as CCNP, CCIE, VCP, VCAP, PCNSA, PCNSE
IT Associate Project Manager	Provides project coordination and administrative support for activities to track team members' time, assists in required reporting on timelines, costs, resources, and risks. Assist in documenting project risks, potential IT risks and provides recommendations for resolutions.	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree	2 years	None
IT Project Manager	Track and communicate overall project performance with client, including timelines, costs, resources, and risks. Manage client expectations and success criteria for projects; prepare weekly/monthly status reports. Identify IT project risks and inefficiencies and provide recommendations for resolution, mitigation, and contingency planning.	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree	5 years	Continuing industry education and professional certifications CAPM, PMP or other certifications, such as ITIL, Six Sigma or equivalent.

IT Program Manager	Management oversight to multiple project managers, each leading project that comprise a program. Communication with client leadership and executives, responsible to deliver initiatives on schedule and within budget. Directs the activities of IT technical tasks, analytical problem solving and provides technical direction to support staff. Resource planning and administration of projects and the overall program, and ensures deliverables are completed correctly and on-time.	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree; Master's preferred or 5-6 years of experience can be substituted for a master's degree	10 years	Continuing industry education and professional certifications CAPM, PMP or other certifications, such as ITIL, Six Sigma or equivalent.
IT Associate Security Engineer	Team member assisting senior engineers to implement network security policies, protect network from unauthorized access, monitor network usage, and resolve access issues.	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree	2 years	None
IT Senior Security Engineer	Safeguards information assets by identifying potential and actual information security exposures. Defines access privileges, control structures, and resources. Detects and responds to data breaches. Ensures compliance with industry requirements. Implements security improvements by assessing current situation, evaluating trends, and anticipating requirements. Provide Level 3 support to clients and teammate engineers. Able to make technical decisions on all project tasks and interface with all levels of client team.	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree	7 years	Relevant continuing education and advanced professional certifications such as CCNP, CCIE, VCP, VCAP, PCNSA, PCNSE, CISSP
IT Principal Security Engineer	Safeguards information assets by identifying potential and actual information security exposures. Defines access privileges, control structures, and resources. Detects and responds to data breaches. Ensures compliance with industry requirements. Implements security improvements by assessing current situation, evaluating trends, and anticipating requirements. Able to make technical decisions on all project tasks and interface with all levels of client team. Advanced professional certifications and industry experience.	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree; Master's preferred or 5-6 years of experience can be substituted for a master's degree	10 years	Relevant continuing education and highest-level professional certifications such as CCIE, VCP, VCAP, PCNSE, CISSP
IT Senior System Engineer	Broad, advanced technical skills and background to design, implement, and maintain multiple technologies including compute, storage, network, and public/private cloud. Provide Level 3 support to clients and teammate engineers Able to complete project tasks independently and communicate with all levels of client technical team.	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree	7 years	Relevant continuing education and professional certifications such as VCP, VCAP, NCAP, NPX, MCSE, MCITP, MCTS, MCSA, MCP

IT Principal System Engineer	Broad, advanced technical skills and background to design, implement, and maintain multiple technologies including compute, storage, network, and public/private cloud. Able to make technical decisions on all project tasks and interface with all levels of client team. Advanced professional certifications and industry experience.	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree; Master's preferred or 5-6 years of experience can be substituted for a master's degree	10 years	Relevant continuing education and professional certifications such as VCP, VCAP, NCAP, NPX, MCSE, MCITP, MCTS, MCSA, MCP
IT Software Defined Network (SDN) Engineer	Technical services to support the installation and performance of client's software-defined data networks, particularly Cisco ACI and VMWare NSX. Able to make technical decisions on all project tasks and interface with all levels of client team.	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree	10 years	Relevant continuing education and professional certifications such as CCNP, CCIE, VCP, VCAP, PCNSA, PCNSE
IT Associate Network Engineer	Technical services to support the installation and performance of client's data networks. Base familiarity with routing and switching technology. Able to serve as project team member taking direction from more senior engineers.	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree	2 years	None
IT Senior Network Engineer	Technical services to support the installation and performance of client's data networks. Advanced familiarity with routing and switching technology. Provide Level 3 support to clients and teammate engineers. Able to make technical decisions on all project tasks and interface with all levels of client team.	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree	7 years	Relevant continuing education and professional certifications such as CCNP, CCIE, VCP, VCAP, PCNSA, PCNSE
IT Principal Network Engineer	Technical services to support the installation and performance of client's data networks. Advanced familiarity with routing and switching technology. Able to make technical decisions on all project tasks and interface with all levels of client team. Advanced professional certifications and industry experience.	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree	10 years	Relevant continuing education and advanced professional certifications such as CCIE, VCAP, PCNSE
IT Agile Coach	A consultant who works within a team to promote discovery, collaboration, learning, and problem solving to reduce risk and improve delivery assurance using metrics and models aligned to team purpose. They are effective at working with teams to accomplished project objectives	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree; Master's preferred or 5-6 years of experience can be substituted for a master's degree	7 years	None

IT Senior UC Engineer	Analyzes existing voice and data networks, recommending solutions, including the setup, configuration, and testing of new communications firewalls, routers, and voice gateways. Educate the customer about new technologies and IP Telephony methodology. Has working knowledge of VoIP servers (e.g. Cisco Call Manager) and network management application (e.g. Cisco Unity). Provide Level 3 support to clients and teammate engineers. Able to make technical decisions on all project tasks and interface with all levels of client team.	Bachelor's degree in computer science, IT, or 4 years of experience can be substituted for a bachelor's degree	7 years	Certification required, including, but not limited to, CCNP Collaboration, CCIE. or equivalent.

SIN 33411 - Purchasing New Equipment

Product Name	Product Description	Manufacturer Name	Manufacturer Part Number	UOI	Price
APC 16 Port Multi-Platform Analog KVM	Manage multiple servers with just one keyboard, monitor and mouse.	American Power Conversion	AP5202	EA	\$821.91
APC KVM 2G, Analog, 1 Local User, 8 Ports	Manage multiple servers with just one keyboard, monitor and mouse. Includes: CD with software, Installation guide, Rack mounting brackets	American Power Conversion	KVM0108A	EA	\$402.12
APC KVM 2G, Analog, 1 Local User, 16 ports	Manage multiple servers with just one keyboard, monitor and mouse. Includes: CD with software, Installation guide, Rack mounting brackets	American Power Conversion	KVM0116A	EA	\$544.89

APC Smart-UPS 2000VA RM 3U 120V RUGGEDIZED VERSION	High availability, ruggedized power protection for shipboard and other transportation applications. Includes: CD with software, User manual	American Power Conversion	SU2000R3X155	EA	\$4,119.40
APC Smart-UPS 3000VA RM 5U 120V SHIPBOARD	High availability, ruggedized power protection for shipboard and other transportation applications. Includes: CD with software, Rack mounting support rails, Smart UPS signalling RS-232 cable, User manual	American Power Conversion	SU3000RMX93	EA	\$2,315.11
APC Smart -UPS 1500VA RM 2U 120V SHIPBOARD	High availability, ruggedized power protection for shipboard and other transportation applications. Includes: CD with software, Installation guide, Smart UPS signalling RS-232 cable	American Power Conversion	SUA1500R2X93	EA	\$992.34
APC Smart-UPS 1500VA USB 120V SHIPBOARD	High availability, ruggedized power protection for shipboard and other transportation applications. Includes: Smart UPS signalling RS-232 cable, USB cable, User manual	American Power Conversion	SUA1500X93	EA	\$864.08
APC Smart-UPS 1000VA LCD 120V TAA	Intelligent and efficient network power protection from entry level to scaleable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other ... Includes: CD with software, Smart UPS signalling RS-232 cable, USB cable, User manual	American Power Conversion	SMT1000US	EA	\$604.86
APC Smart-UPS 1500VA LCD RM 2U 120V TAA	Intelligent and efficient network power protection from entry level to scaleable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other ... Includes: CD with software, Documentation CD, Installation guide, Rack mounting support rails, USB cable	American Power Conversion	SMT1500RMUS	EA	\$907.96
APC Smart-UPS 1500VA LCD 120V TAA	Intelligent and efficient network power protection from entry level to scaleable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other ... Includes: CD with software, Documentation CD, Smart UPS signalling RS-232 cable, USB cable	American Power Conversion	SMT1500US	EA	\$806.70
APC Smart-UPS 2200VA LCD RM 2U 120V TAA	Intelligent and efficient network power protection from entry level to scaleable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other ... Includes: CD with software, Documentation CD, Rack mounting brackets, Rack mounting support rails, Smart UPS signalling RS-232 cable, USB cable	American Power Conversion	SMT2200RMUS	EA	\$1,333.25
APC Smart-UPS 2200VA LCD 120V TAA	Intelligent and efficient network power protection from entry level to scaleable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other ... Includes: CD with software, Documentation CD, Smart UPS signalling RS-232 cable, USB cable	American Power Conversion	SMT2200US	EA	\$1,073.35

APC Smart-UPS 3000VA LCD RM 2U 120V TAA	Intelligent and efficient network power protection from entry level to scaleable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other Includes: CD with software, Documentation CD, Installation guide, Rack mounting hardware, Rack mounting support rails, Smart UPS signalling RS-232 cable, USB cable	American Power Conversion	SMT3000RMUS	EA	\$1,626.90
APC Smart-UPS 750VA LCD 120V TAA	Intelligent and efficient network power protection from entry level to scaleable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other Includes: CD with software, Documentation CD, USB cable	American Power Conversion	SMT750US	EA	\$373.98
APC Smart-UPS X 1000VA Rack/Tower LCD 120V TAA	Intelligent and efficient network power protection from entry level to scaleable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other Includes: CD with software, Documentation CD, Installation guide, Rack mounting brackets, Removable support feet, Smart UPS signalling RS-232 cable, USB cable	American Power Conversion	SMX1000US	EA	\$695.31
APC Smart-UPS X 1500VA Rack/Tower LCD 120V with Network Card TAA	Intelligent and efficient network power protection from entry level to scaleable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other Includes: CD with software, Documentation CD, Installation guide, Rack mounting hardware, Rack mounting support rails, Removable support feet, Smart UPS signalling	American Power Conversion	SMX1500RMNCUS	EA	\$1,316.37
APC Smart-UPS X 1500VA Rack/Tower LCD 120V, TAA	Intelligent and efficient network power protection from entry level to scaleable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other Includes: CD with software, Documentation CD, Installation guide, Rack mounting hardware, Rack mounting support rails, Removable support feet, Smart UPS signalling	American Power Conversion	SMX1500RMUS	EA	\$870.83
APC Smart-UPS X 2000VA Short Depth Tower/Rack Convertible LCD 100-127V with Network Card TAA	Intelligent and efficient network power protection from entry level to scaleable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other Includes: CD with software, Documentation CD, Installation guide, Network management card, Rack mounting brackets, Rack mounting hardware, Rack mounting support	American Power Conversion	SMX2000LVNCUS	EA	\$1,643.78

<p>APC Smart-UPS X 2000VA Short Depth Tower/Rack Convertible LCD 100-127V TAA</p>	<p>Intelligent and efficient network power protection from entry level to scaleable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other Includes: CD with software, Documentation CD, Installation guide, Rack mounting brackets, Rack mounting hardware, Rack mounting support rails, Removable support</p>	<p>American Power Conversion</p>	<p>SMX2000LVUS</p>	<p>EA</p>	<p>\$1,296.12</p>

INFORMATION TECHNOLOGY CATEGORY

SIN 511210 Software Licenses Terms and Conditions

1. Inspection/Acceptance. The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any software that has been tendered for acceptance. The ordering activity may require repair or replacement of nonconforming software at no increase in contract price. The ordering activity must exercise its post-acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the software, unless the change is due to the defect in the software.

2. Guarantee/Warranty

a. Unless specified otherwise in this contract, the Contractor's standard commercial guarantee/warranty as stated in the contract's commercial pricelist will apply to this contract. AIT DISCLAIMS ANY AND ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WITH RESPECT TO THE SOFTWARE OR ANY THIRD PARTY PROGRAMS.

b. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

3. Technical Services The Contractor, without additional charge to the ordering activity, shall provide a hot line technical support number _____ ("Support Number") for the purpose of providing user assistance and guidance in the implementation of the software. The technical support number is available from during regular business hours (8am-5pm EST) Monday-Friday excluding federally recognized holidays.

4. Software Maintenance

a. Software maintenance included in term software license fees includes:

- The Ordering Activity's Support Number access during implementation;
- AIT's provisioning of released Software enhancements ("Upgrades"),

- AIT giving the ordering activity access to any conversion program AIT has developed to assist in implementing Upgrades; and
- AIT reporting any issues experienced by the Ordering Activity to Third Party licensors.

b. Software maintenance does NOT include customized changes to Software. c. Invoices for Software maintenance shall be submitted by the Contractor on a quarterly or monthly basis, after the completion of such period. Maintenance charges must be paid in arrears (31 U.S.C. § 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, WILL BE SHOWN ON THE INVOICE.

5. Periods of Term Licenses (SIN 132-32)

- a. The Contractor shall honor orders for periods for the duration of the contract period or a lesser period of time.
- b. Term licenses may be discontinued by the ordering activity on a thirty (30) calendar day written notice to the Contractor.
- c. Annual Funding. When annually appropriated funds are cited on an order for term licenses and/or maintenance, the period of the term licenses shall automatically expire on September 30 of the contract period, or at the end of the contract period, whichever occurs first. Renewal of the term licenses orders citing the new appropriation shall be required, if the term licenses is to be continued during any remainder of the contract period.
- d. Cross-Year Funding Within Contract Period. Where an ordering activity's specific appropriation authority provides for funds in excess of a 12 month (fiscal year) period, the ordering activity may place an order under this schedule contract for a period up to the expiration of the contract period, notwithstanding the intervening fiscal years.
- e. Ordering activities should notify the Contractor in writing thirty (30) calendar days prior to the expiration of an order, if the term licenses is to be terminated at that time. Orders for the continuation of term licenses will be required if the term licenses is to be continued during the subsequent period.

6. Utilization of Licenses

- a. Software acquisition is limited to commercial computer software defined in FAR Part 2.101.

b. When acquired by the ordering activity, commercial computer software and related documentation so legend shall be subject to the following:

- (1) Title to and ownership of the software and documentation shall remain with the Contractor, unless otherwise specified.
- (2) Software licenses are by site and by ordering activity. An ordering activity is defined as a cabinet level or independent ordering activity. The software may be used by any subdivision of the ordering activity (service, bureau, division, command, etc.) that has access to the site the software is placed at, even if the subdivision did not participate in the acquisition of the software. Further, the software may be used on a sharing basis where multiple agencies have joint projects that can be satisfied by the use of the software placed at one ordering activity's site. This would allow other agencies access to one ordering activity's database. For ordering activity public domain databases, user agencies and third parties may use the computer program to enter, retrieve, analyze and present data. The user ordering activity will take appropriate action by instruction, agreement, or otherwise, to protect the Contractor's proprietary property with any third parties that are permitted access to the computer programs and documentation in connection with the user ordering activity's permitted use of the computer programs and documentation. For purposes of this section, all such permitted third parties shall be deemed agents of the user ordering activity.
- (3) Except as is provided in paragraph 8.b(2) above, the ordering activity shall not provide or otherwise make available the software or documentation, or any portion thereof, in any form, to any third party without the prior written approval of the Contractor. Third parties do not include prime Contractors, subcontractors and agents of the ordering activity who have the ordering activity's permission to use the licensed software and documentation at the facility, and who have agreed to use the licensed software and documentation only in accordance with these restrictions. This provision does not limit the right of the ordering activity to use software, documentation, or information therein, which the ordering activity may already have or obtains without restrictions.
- (4) The ordering activity shall have the right to use the computer software

and documentation with the computer for which it is acquired at any other facility to which that computer may be transferred, or in cases of Disaster Recovery, the ordering activity has the right to transfer the software to another site if the ordering activity site for which it is acquired is deemed to be unsafe for ordering activity personnel; to use the computer software and documentation with a backup computer when the primary computer is inoperative; to copy computer programs for safekeeping (archives) or backup purposes; to transfer a copy of the software to another site for purposes of benchmarking new hardware and/or software; and to modify the software and documentation or combine it with other software, provided that the unmodified portions shall remain subject to these restrictions.

- (5) "Commercial Computer Software" may be marked with the Contractor's standard commercial restricted rights legend, but the schedule contract and schedule pricelist, including this clause, "Utilization Limitations" are the only governing terms and conditions, and shall take precedence and supersede any different or additional terms and conditions included in the standard commercial legend.

7. Software Conversion Full monetary credit will be allowed to the ordering activity when conversion from one version of the software to another is made as the result of a change in operating system , or from one computer system to another. Under a term license (132-32), conversion credits which accrued while the earlier version was under a term license shall carry forward and remain available as conversion credits which may be applied towards the perpetual license price of the new version.

INFORMATION TECHNOLOGY CATEGORY

SIN 33411 Purchasing of New Equipment Terms and Conditions

TERMS AND CONDITIONS APPLICABLE TO PURCHASING NEW ELECTRONIC EQUIPMENT (SPECIAL ITEM NUMBER 33411)

1. MATERIAL AND WORKMANSHIP All equipment furnished hereunder must satisfactorily perform the function for which it is intended.
2. ORDER Written orders, EDI orders (GSA Advantage! and FACNET), credit card orders, and orders placed under blanket purchase agreements (BPA) agreements shall be the basis for purchase in accordance with the provisions of this contract. If time of delivery extends beyond the expiration date of the contract, the

Contractor will be obligated to meet the delivery and installation date specified in the original order. For credit card orders and BPAs, telephone orders are permissible.

3. TRANSPORTATION OF EQUIPMENT FOB DESTINATION. Prices cover equipment delivery to destination, for any location within the geographic scope of this contract.

4. INSTALLATION AND TECHNICAL SERVICES

a. INSTALLATION. When the equipment provided under this contract is not normally self-installable, the Contractor's technical personnel shall be available to the ordering activity, at the ordering activity's location, to install the equipment and to train ordering activity personnel in the use and maintenance of the equipment. The charges for such services are listed in the price schedule.

b. INSTALLATION, DEINSTALLATION, REINSTALLATION. The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act apply. The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 33411.

c. OPERATING AND MAINTENANCE MANUALS. The Contractor shall furnish the ordering activity with one (1) copy of all operating and maintenance manuals which are normally provided with the equipment being purchased.

5. INSPECTION/ACCEPTANCE The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any equipment that has been tendered for acceptance. The ordering activity may require repair or replacement of nonconforming equipment at no increase in contract price. The ordering activity must exercise its post acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

6. WARRANTY

a. Unless specified otherwise in this contract, the Contractor's standard commercial warranty as stated in the contract's commercial pricelist will apply to this contract.

b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the

Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

d. If inspection and repair of defective equipment under this warranty will be performed at the Contractor's plant, the address is as follows: Abba Technologies, Inc. 5301 Beverly Hills Ave NE Albuquerque, New Mexico 87113.

7. PURCHASE PRICE FOR ORDERED EQUIPMENT The purchase price that the ordering activity will be charged will be the ordering activity purchase price in effect at the time of order placement, or the ordering activity purchase price in effect on the installation date (or delivery date when installation is not applicable), whichever is less.

8. RESPONSIBILITIES OF THE CONTRACTOR The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City or otherwise) covering work of this character, and shall include all costs, if any, of such compliance in the prices quoted in this offer.

9. TRADE-IN OF INFORMATION TECHNOLOGY EQUIPMENT When an ordering activity determines that Information Technology equipment will be replaced, the ordering activity shall follow the contracting policies and procedures in the Federal Acquisition Regulation (FAR), the policies and procedures regarding disposition of information technology excess personal property in the Federal Property Management Regulations (FPMR) (41 CFR 101-43.6), and the policies and procedures on exchange/sale contained in the FPMR (41 CFR part 101-46).
