Cooperative Purchasing (STLOC) and Disaster Recovery Purchasing (RC) are available.

1b. LOWEST PRICED MODEL NUMBER AND PRICE FOR EACH SIN:
(Government net price based on a unit of one)

Located on Page 11.

1c. HOURLY RATES (Services only):

Located on Page 11.

2. MAXIMUM ORDER: $500,000

NOTE TO ORDERING ACTIVITIES: *If the best value selection places your order over the Maximum Order identified in this catalog/pricelist, you have an opportunity to obtain a better schedule contract price. Before placing your order, contact the aforementioned contactor for a better price. The contractor may (1) offer a new price for this requirement (2) offer the lowest price available under this contract or (3) decline the order. A delivery order that exceeds the maximum order may be placed under the schedule contract in accordance with FAR 8.404.

3. MINIMUM ORDER: $100

4. GEOGRAPHIC COVERAGE: Domestic, 50 states, Washington, DC, Puerto Rico, US Territories

5. POINT(S) OF PRODUCTION: N/A

6. DISCOUNT FROM LIST PRICES: GSA Net Prices are shown on the attached GSA Pricelist. Negotiated discount has been applied and the IFF has been added.
7. QUANTITY DISCOUNT(S):  
   Single Orders over 12 months.  
   $250,000.00 - $499,999.99 = 1%  
   $500,000.00 - $999,999.99 = 1.5%  
   $1,000,000.00 - $2,999,999.99 = 2%  
   $3,000,000.00 - $9,999,999.99 = 2.5%  
   Equal or Greater than $10,000,000.00 = 3.0%

8. PROMPT PAYMENT TERMS: Net 30

9. FOREIGN ITEMS: N/A

10a. TIME OF DELIVERY: As negotiated with ordering activity.

10b. EXPEDITED DELIVERY: Negotiated at the task order level.

10c. OVERNIGHT AND 2-DAY DELIVERY: Negotiated at the task order level.

10d. URGENT REQUIREMENTS: Agencies may contact the Contractor's representative to affect a faster delivery. Customers are encouraged to contact the contractor for the purpose of requesting accelerated delivery.

11. FOB POINT: N/A

12a. ORDERING ADDRESS: Same as Contractor.

12b. ORDERING PROCEDURES: Ordering activities shall use the ordering procedures described in Federal Acquisition Regulation 8.405-3 when placing an order or establishing a BPA for supplies or services. The ordering procedures, information on Blanket Purchase Agreements (BPA’s) and a sample BPA can be found at the GSA/FSS Schedule Homepage (fss.gsa.gov/schedules).

13. PAYMENT ADDRESS: Same as contractor.

14. WARRANTY PROVISION: Not applicable.

15. EXPORT PACKING CHARGES: Not applicable.

16. TERMS AND CONDITIONS OF RENTAL, MAINTENANCE, AND REPAIR (IF APPLICABLE): N/A

17. TERMS AND CONDITIONS OF INSTALLATION (IF APPLICABLE): N/A

18a. TERMS AND CONDITIONS OF REPAIR PARTS INDICATING DATE OF PARTS PRICE LISTS AND ANY DISCOUNTS FROM LIST PRICES (IF AVAILABLE): N/A

18a. TERMS AND CONDITIONS FOR ANY OTHER SERVICES (IF APPLICABLE): N/A

19. LIST OF SERVICE AND DISTRIBUTION POINTS (IF APPLICABLE): N/A

20. LIST OF PARTICIPATING DEALERS (IF APPLICABLE): N/A

21. PREVENTIVE MAINTENANCE (IF APPLICABLE): N/A
We are a software company that strives to build sustainable relationships through the delivery of innovative solutions. Agile software development is at the heart of "how we work," which allows us to bring people together for strong collaboration and problem solving. We provide enterprise-level Agile coaching and development services. The Da Vinci Agile Coaching Model is built on four pillars that ensure successful adoption and scale across an organization. The enterprise framework we have built supports this foundation through recognition of, and integration with, legacy processes. We passionately believe "how we work" is the intangible our developers demonstrate for our clients every day. Our high-performing team members provide leadership and chemistry on your teams. We provide architects, developers and testers that enjoy accountability, team success and delivering meaningful products.

## Labor Category Descriptions

<table>
<thead>
<tr>
<th>.Net Developer</th>
<th>54151S</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Minimum Education:</strong></td>
<td>Bachelor’s Degree in Computer Science, Computer Information Systems, or related field. Bachelor’s Degree can be waived with an additional four (4) years of experience.</td>
</tr>
<tr>
<td><strong>Minimum Years of Experience:</strong></td>
<td>Three (3) years of experience developing software using .Net languages.</td>
</tr>
<tr>
<td><strong>Functional Responsibilities:</strong></td>
<td>Contributes to the design, development, implementation, and maintenance of custom system software, and/or the installation and maintenance of purchased systems software, as well as the configuration and support of hardware systems. Writes code using .Net languages such as, but not limited to C# and VB. Creates applications from scratch, configures existing systems and provides user support. Configuring existing systems entails a .Net Developer to analyze the client’s business objectives, outline an approach, and implement new processes or modifications to existing systems to obtain the client’s vision. Applies effective system design principles and software development methodologies, as well as produces and maintains documentation such as system requirements, designs, resource inventories, and plans.</td>
</tr>
</tbody>
</table>
**Agile Coach | 54151S**

**Minimum Education:** Bachelor’s Degree in Computer Science, Computer Information Systems, or business-related field and CSM (Certified ScrumMaster). Bachelor’s Degree can be waived with an additional four (4) years of experience.

**Minimum Years of Experience:** Four (4) years of experience leading Agile transformations.

**Functional Responsibilities:** Trains corporate teams on Agile methodology and oversees the development of Agile teams to ensure effective outcomes for the organization. Demonstrates a strong ability to identify bottleneck(s) and help teams become more efficient. Introduces ways to adhere to Agile principles by using various techniques for common team activities. Utilizes various mechanisms to track, assess and communicate team progress. Proficient with drawing storyboards, leading scrum meetings, creating product backlogs, writing user stories, and developing IT acceptance criteria.

---

**Electronic Health Record (EHR) System Analyst | 54151HEAL**

**Minimum Education:** Bachelor’s Degree in Computer Science, Computer Information Systems, or related field. Bachelor’s Degree can be waived with an additional four (4) years of experience.

**Minimum Years of Experience:** Five (5) years of technology or business administration experience.

**Functional Responsibilities:** Assists with the design, development, system configuration, implementation, and support of assigned EHR applications/systems for the organization. Communicates clearly and accurately with SMEs to solicit and review clinical content as they build document imaging and management systems. Coordinate’s project, division and/or department budgets and provides appropriate financial reports and metrics for making department decisions. Independently manages multiple large-scale IT internal business projects or single department-scale projects from inception to close, including resource management, risk identification and mitigation, quality assurance, and change control. Develops proposals and business plans that ensure quality IT solutions and delivery. Plans, trains, and evaluates the effectiveness and functionality of systems in place.

---

**IT Project Manager | 54151S**

**Minimum Education:** Bachelor’s degree in Computer Science, Computer Information Systems, Project Management, Business Administration, or related field. Bachelor’s Degree can be waived with an additional four (4) years of experience.

**Minimum Years of Experience:** Five (5) years of project management experience.

**Functional Responsibilities:** Applies project management principles, methodologies, standards, and best practices in leading and managing all phases of information technology projects. Plans, executes, monitors, reports, and coordinates the people, processes, and technologies to deliver on-time and on-budget project results. Facilitates meetings (e.g., status update, planning, brainstorming, requirements gathering). Develops, updates, and publishes project plans (e.g., communication plan, risk plan, project governance plan). Identifies and resolves project conflicts by obtaining the necessary resources. Monitor’s deadlines and costs of project to make sure the team is staying on schedule and budget. Communicates status of the project to stakeholders and immediate supervisors to keep everyone up to date.

**Minimum Years of Experience:** Seven (7) years of experience in developing software using .Net languages.

**Functional Responsibilities:** Produces code using .Net languages such as C# and VB. .Net developers create applications from scratch, configure existing systems, and provide user support. Takes full stack ownership by consistently writing production-ready and testable code. Conducts code reviews to provide guidance on engineering best practices and compliance with development procedures. Ensures all aspects of product development follow compliance and security best practices.

---

**IT Senior Application Analyst | 54151S**

**Minimum Education:** Bachelor’s Degree in Computer Science, Computer Information Systems, or related field. Bachelor’s Degree can be waived with an additional four (4) years of experience.

**Minimum Years of Experience:** Five (5) years of experience.

**Functional Responsibilities:** Consults with client’s management team to help develop a single version of the truth (SVOT) of how they want their application/software to operate in the future. Provides accurate quality analyses of new program applications. Research hardware environment and software to determine root-cause analysis to resolve problems, documents the solution, and communicates resolution to the client. Makes recommendations on how to efficiently develop and/or reuse existing code. Regularly assesses applications and makes modifications and or updates to ensure currency and functionality within established environment and implements application configuration changes accordingly. Analyzes metrics on software issues, identifies patterns, and implements viable solutions for sustained performance. Conducts testing, locates potential problems, and solves them in an efficient manner.

---

**Senior Business Intelligence Consultant | 54151S**

**Minimum Education:** Bachelor’s Degree in Computer Science, Computer Information Systems, or related field. Bachelor’s Degree can be waived with an additional four (4) years of experience.

**Minimum Years of Experience:** Five (5) years of experience in business intelligence developer or similar role.

**Functional Responsibilities:** Develops and implements effective/strategic business solutions through systematic data engineering and research. Evaluates and presents information in a manner that will facilitate management’s understanding of the results and impacts. Develops, implements, enhances, and maintains business intelligence reporting and dashboards.

---

**Senior Data Warehouse Developer | 54151S**

**Minimum Education:** Bachelor’s Degree in Computer Science, Computer Information Systems, or related field. Bachelor’s Degree can be waived with an additional four (4) years of experience.

**Minimum Years of Experience:** Five (5) years of data warehouse development and/or maintenance experience.

**Functional Responsibilities:** Responsible for designing and creating the data warehouse and all related extraction, transformation, and load of data functions in the company. Develops ETL Mapping with ETL tools or something similar. Tests new designs to ensure the system runs smoothly. Creates and implements dashboard and scorecards for tracking purposes.
**Senior Java Developer | 54151S**

**Minimum Education:** Bachelor’s Degree in Computer Science, Computer Information Systems, or related field. Bachelor’s Degree can be waived with an additional four (4) years of experience.

**Minimum Years of Experience:** Seven (7) years of programming applications specific to Java standards.

**Functional Responsibilities:** Develops web and software applications that are specific to JavaScript and the Java 2 Platform Enterprise Edition (J2EE or JavaEE) standards. Leads development and a small team of developers to create cutting-edge enterprise-level internet applications. Solves programming problems and debug codes using multiple programming tools. Reviews thread dumps, server, and application logs to identify and support application issues.

---

**IT Senior SAS Developer | 54151S**

**Minimum Education:** Bachelor’s Degree in Computer Science, Computer Information Systems, or related field. Heavily preferably a masters in statistics or related field. Bachelor’s Degree can be waived with an additional four (4) years of experience.

**Minimum Years of Experience:** Seven (7) years of statistical analysis system developer experience.

**Functional Responsibilities:** Senior SAS developers, also known as statistical analysis system programmers, are IT professionals who focus on data collection and analysis. Aggregate’s data and manipulates it for the purpose of analyzing current projects and productivity, as well as predicts future trends and needs. Develops new SAS procedures, scripts, and macros to incorporate new data into the enterprise’s SAS data warehouse. Utilizes statistical knowledge, programming techniques, and workflow management skills in data management and analysis. Collaborates with statistical and/or medical colleagues on decisions involving data collection methods, writing, and archival, and the application of appropriate statistical methods for the analysis under the direction of the statistical consultants. These tasks frequently involve using SAS and R, as well as custom packages within the area of research focus for both data management and analysis.

---

**Health IT Senior SAS Developer | 54151HEAL**

**Minimum Education:** Bachelor’s Degree in Computer Science, Computer Information Systems, or related field. Heavily preferably a masters in statistics or related field. Bachelor’s Degree can be waived with an additional four years of experience.

**Minimum Years of Experience:** Seven (7) years of statistical analysis system developer experience.

**Functional Responsibilities:** Senior SAS developers, also known as statistical analysis system programmers, are IT professionals who focus on data collection and analysis. ### Senior Solutions Architect | 54151S

**Minimum Education:** Bachelor’s Degree in Computer Science, Computer Information Systems, or related field. Bachelor’s Degree can be waived with an additional four (4) years of experience.

**Minimum Years of Experience:** Five (5) years of experience in solutions architect or similar role.

**Functional Responsibilities:** Translates the functional requirements into the architecture of the solution. Selects the most appropriate technologies and options based on the requirements. Ensures the solution architecture aligns with enterprise architecture roadmaps and adheres to enterprise architecture principles. Drives the adoption of best practices around coding, design, quality, and performance. Stages and deploys solution into test and live environments.

### Test Automation Engineer | 54151S

**Minimum Education:** Bachelor’s Degree in Computer Science, Computer Information Systems, or related field. Bachelor’s Degree can be waived with an additional four (4) years of experience.

**Minimum Years of Experience:** Five (5) years of experience of software testing.

**Functional Responsibilities:** Understands business and technology needs. Provides testing methodologies and partakes in testing. Designs, analyzes, and implements system test automation scripts. Creates a functional test plan, tests defined project features, and automates the execution of those tests. Gathers feedback from end users to make modifications to existing systems. Provides technical support via email, phone, social media, and in person.
