APPENDIX A LABOR CATEGORY DESCRIPTIONS

APPENDIX B GSA PRICE LIST

Appendix A

Labor Category Descriptions

Program Manager I

Minimum Year Experience: 10 years in a related field with supervisory or managerial experience

Minimum Education: BS/BA or equivalent

Responsibilities: Plans, organizes, and directs all project activities. Ensures that project goals and objectives are met within contract terms and conditions. Interacts with client management and is adept in oral and written communication.

Program Manager II

Minimum Year Experience: 15 years in a related field with supervisory or management experience

Minimum Education: BS/BA or equivalent

Responsibilities: Plans, organizes, and directs all project activities. Ensures that project goals and objectives are met within contract terms and conditions. Interacts with client management and is adept in oral and written communication.

Project Manager

Minimum Year Experience: 5 Years

Minimum Education: BS/BA or equivalent

Responsibilities: Management of Information Technology related projects. Implement life cycle and project management methodologies to include tracking costs, schedule, risk identification/mitigation and performance progress. May lead small teams to achieve project outcomes.

Subject Matter Expert I

Minimum Year Experience: 8 Years, 4 of which directly relate to the required area of expertise

Minimum Education: BA/BS or equivalent

Responsibilities: Defines problems and analyzes and develops plans and requirements in a subject area for complex systems. Coordinates and manages preparation of analyses, evaluations, and recommendations for proper implementation of programs and system specifications in IT architecture, automation, telecommunications, networking, communication protocols, software, email, M&S, cloud and data storage and retrieval, etc.

Software Engineer II

Minimum Year Experience: 3 years applicable experience

Minimum Education: BS/BS or equivalent

Responsibilities: Leads software design, implementation, and integration tasks in a software development effort.

Help Desk Manager

Minimum Year Experience: 7 Years of applicable experience

Minimum Education: BA/BS or equivalent

Responsibilities: Provides help desk support to applications and systems being developed. Direct and supervise staff providing call center support, service desk support, and switchboard operations support. Manages and supervises the overall functioning of the help desk operations.

Systems Administrator II

Minimum Year Experience: 3 Years of applicable experience

Minimum Education: HS Degree or GED

Responsibilities: Conducts routine system administration tasks and logging data in system admin logs. Administer patches and corrective action to rectify issues across system(s). Interface with customers to understand problems, issues, requests and fulfill system administration activities.

Systems Administrator III

Minimum Year Experience: 7 years of applicable experience

Minimum Education: BS/BA or equivalent

Responsibilities: Conduct routine system administration tasks and logging data in system admin logs. Maintain system efficiency through troubleshooting a wide variety of systems and networks to include high volume/high availability systems. Troubleshoot problems and issues identified by customers and implement corrective actions quickly.

Network Administrator II

Minimum Year Experience: 3 Year

Minimum Education: HS Diploma or GED

Responsibilities: Conducts network administration for multiple systems/applications to include requirements and operations analysis; system vulnerability analysis; system plan and procedure development; use of back-up systems; fulfilling user requests; and resolving issues and outages. Independently performs tasks in operations systems discipline.

Cyber Security Engineer, Senior

Minimum Year Experience: 15 Years

Minimum Education: MS/MA or equivalent

Responsibilities: Manage medium to large cyber security teams in all aspects of cyber security with a vast array of IT systems involving end user as well as enterprise level networks. Develop long term strategies that increase security and mitigate cyber threats.

Data Scientist I

Minimum Year Experience: 3 Years

Minimum Education: BS/BA or equivalent

Responsibilities: Provides entry level expertise in information modeling, requirement analysis and facilitation using methodologies such as Integrated DEFinition (IDEF) or related techniques. Performs analysis to develop fully attributed logical information (data) and business process models following IDEF methodologies

Data Scientist II

Minimum Year Experience: 5 Years

Minimum Education: BS/BA or equivalent

Responsibilities: Provides mid-level expertise in information modeling, requirement analysis and facilitation using methodologies such as Integrated DEFinition (IDEF) or related techniques. Performs

analysis to develop fully attributed logical and physical information (data) and business process models following IDEF methodologies

Data Scientist III

Minimum Year Experience: 7 Years

Minimum Education: BS/BA or equivalent

Responsibilities: Provides high-level expertise in information modeling, requirement analysis and facilitation using methodologies such as Integrated DEFinition (IDEF) or related techniques. Performs analysis to develop fully attributed logical and physical information (data) and business process models following IDEF methodologies

Technical Writer

Minimum Year Experience: 2 Years

Minimum Education: AA/AS or equivalent

Responsibilities: Writes, edits, and rewrites technical material. Prepares user guides and other technical documentation for presentations.

Integration Engineer, Expert

Minimum Year Experience: 15 Years

Minimum Education: BS/BA or equivalent

Responsibilities: Creates strategies and plans for integration of multiple IT systems/subsystems into an operational unit, ensuring full functional and performance capabilities are retained. Coordinate with development and user teams to assess risks, goals and needs and ensure that all are adequately addressed. Introduces new hardware or software into a new or existing environment while minimizing disruption and mitigating risks.

Developer, Senior

Minimum Year Experience: 8 Years

Minimum Education: BS/BA or equivalent

Responsibilities: Create logical and functional software code in a variety of languages. Articulate the benefits and risks associated with different coding languages in different functional environments. React to problems and correcting the program as necessary.

Health IT Software Architect IV

Minimum Year Experience: 15 Years

Minimum Education: BS/BA or equivalent

Responsibilities: Coordination of program and project leaders to identify requirements for system architecture. Identify strategies for addressing requirements with analysis of requirements against fiscal, schedule, and performance issues. Create an architecture vision having experience in high volume and high availability networks and systems. Convey to team members the architectural vision for a program or project. Provide design choices to software developers, including but not limited to: platforms, coding and technical levels. Experience in establishing and enforcing standards and practices. Oversee the development team, and manage the full life cycle of the software development process.
