Company Overview

Network Specialty Group, Inc. (NSG) is a minority-owned and operated, small disadvantaged business, established in 1994. Our core practices include Program Support, Application Development, IT Operations, and Cyber Security.

We are rated at the Capability Maturity Model® Integration (CMMI®) Level Dev/3 by the Software Engineering Institute (SEI). We are an ISO 9001:2008, ISO 20000-1:2011 and ISO 27001:2013 accredited company. We consistently apply the best practices of the Information Technology Infrastructure Library (ITIL) v3. We were a FedRAMP accredited 3PAO company until 2020 and are ISO 17020:2012 accredited.

NSG holds a GSA Multiple Award Schedule contract as well as a GSA 8(a) STARS II contract for Constellations I and II, for all four functional areas. The firm also is an integrated team with Global Solutions Group, Inc. for a STARS3 contract.

Current and past customers include the US Department of Agriculture (USDA) Forest Service (FS) with numerous successful projects such as the IT Support Services (ITSS) Contract, NetForensics Implementation Contract, CIO Security/SecureCAP Contract, and Web Information Delivery (WID) Contract; Department of Commerce (DOC) Office of the Inspector General (OIG) for both the IT Security and Engineering Support Services Contract and the SharePoint Support Contract; the Small Business Administration (SBA) for the IT Security Support Services Contract; and numerous others such as the National Institutes of Health (NIH), Department of Homeland Security (DHS), Department of Energy (DOE), Housing and Urban Development (HUD), Agricultural Marketing Service (AMS), and the Economic Research Service (ERS).

As our tagline suggests, our mission is to provide **Innovative** business practices and solutions, to **Activate** those solutions, which in turn **Elevates** our clients’ performance levels.
Scope of the Contract

Under our GSA Multiple Award Schedule (MAS) Contract, Network Specialty Group, Inc. (NSG) can provide systems analysis, design, and implementation, and other IT professional services for federal agencies and departments. The contract also is available for states and municipalities under “Cooperative Purchasing.”

Special Item Number (SIN) 54151S

Information Technology Services

Federal government agencies and departments can order these services from NSG under SIN 54151S. State and local agencies can procure these services under SIN 54151SSTLOC.

IT Professional Services and/or labor categories for database planning and design; systems analysis, integration, and design; programming, conversion and implementation support; network services, data/records management, and testing. NOTE: Subject to Cooperative Purchasing

Special Item Number (SIN) OLM

Order-Level Materials

If any OLMs become part of a task order, they are placed under SIN OLM (for task orders for Federal government agencies and departments) or SIN OLMSTSTLOC (for state or local agencies).

Order-Level Materials (OLMs) are supplies and/or services acquired in direct support of an individual task or delivery order placed against a Federal Supply Schedule (FSS) contract or FSS blanket purchase agreement (BPA). OLMs are not defined, priced, or awarded at the FSS contract level. They are unknown before a task or delivery order is placed against the FSS contract or FSS BPA. OLMs are only authorized for inclusion at the order level under a Time-and-Materials (T&M) or Labor-Hour (LH) Contract Line Item Number (CLIN) and are subject to a Not to Exceed (NTE) ceiling price. OLMs include direct materials, subcontracts for supplies and incidental services for which there is not a labor category specified in the FSS contract, other direct costs, and indirect costs. OLMs are purchased under the authority of the FSS Program and are not “open market items.”

Items awarded under ancillary supplies/services or other direct cost (ODC) SINs are not OLMs. These items are defined, priced, and awarded at the FSS contract level, whereas OLMs are unknown before an order is placed. Ancillary supplies/services and ODC SINs are for use under all order type CLINs (Fixed-Price (FP), T&M, and LH), whereas the Order-Level Materials SIN is only authorized for use under T&M and LH order CLINs.

The Order-Level Materials SIN is only authorized for use in direct support of another awarded SIN. Price analysis for OLMs is not conducted when awarding the FSS contract or FSS BPA; therefore, GSAR 538.270 and 538.271 do not apply to OLMs. OLMs are defined and priced at the ordering activity level in accordance with GSAR clause 552.238-82 Special Ordering Procedures for the Acquisition of Order-Level Materials. Prices for items provided under the Order-Level Materials SIN must be inclusive of the Industrial Funding Fee (IFF). The cumulative value of OLMs in an individual task or delivery order cannot exceed 33.33% of the total value of the order.
Advantages of Using a GSA Schedule Contract

Do you need a quick, convenient, and cost-effective way to order services from Moran Environmental Recovery, LLC (NSG)? Our GSA Schedule contract provides an excellent solution. It offers the following advantages:

- **Dramatic time savings.** You can typically complete the task order initiation process (as specified in FAR 8.405) very quickly—often in a matter of weeks.
- **Minimal administrative burden.** When you place an order with NSG through our GSA Contract, the order will be considered to have been placed using “full and open competition.”
  - You are not required to synopsize the requirement ahead of time in FedBizOpps.
  - GSA has already determined that prices offered by GSA contractors are “fair and reasonable.”
  - All applicable federal procurement laws and regulations, including “small business” set-asides and other types of set-asides, already have been applied.
- **No dollar limits on task orders.**
- **Small Disadvantaged Business credit.** You will receive Small Business credit and Small Disadvantaged Business credit for all GSA Task Orders issued to NSG.
- **Flexibility.** For example, you can set up a “Blanket Purchase Agreement” (BPA) with NSG if you do not know the precise amount or types of services that you would like purchase. You can use the BPA as an ordering device in which all your offices can participate, allowing them to place orders directly.
- **Direct relationship** with NSG.
  - GSA will not get involved in your selection process.
  - Your agency will not have to transfer funds to GSA and will not have to set up an interagency agreement.
  - NSG will deliver services and submit invoices directly to your agency. You will remit payment directly to NSG. GSA does not inject itself into the client/contractor relationship.
## Prices

The following prices are “net” (prices shown include all applicable discounts and are inclusive of the 0.75% Industrial Funding Fee).

NSG acknowledges that the Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule (MAS) and all services provided. While no specific labor categories have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCLS/SCA eligible labor categories. If and/or when the contractor adds SCLS/SCA labor categories to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS/SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
Position Descriptions

Program Manager

**Functional Responsibility**
Works under very broad supervision in providing management and technical direction to program personnel on IT-related projects. Regularly exercises independent judgment and a high-level of analytical skill in solving complex technical, administrative and managerial problems. Performs the overall management for contract support operations. Organizes, directs, and coordinates the planning and production of all contract activities, projects and support activities, including those of subcontractors. Works with customers to identify business objectives and develops strategy and proposal to implement solutions for customers. Builds and leads teams to initiate, plan, control, execute, and close programs. Establishes program management processes and ensure they are adopted so that risks are mitigated and quality solutions are delivered in a timely fashion. Navigates through and resolves complex delivery issues. Manages IT Program Management Life Cycle and System Development Life Cycle.

**Minimum Years of Experience**
10

**Minimum Education**
Bachelor's Degree in IT or IT-related field or in a scientific or engineering discipline with proven experience in IT

**Required Certifications**
None

Project Manager

**Functional Responsibility**
Plans and directs information technology projects (or groups of related tasks) and assists the Program Manager in working with the government Contracting Officer, the COTR, government management personnel, and client agency representatives. Responsible for all aspects of field and/or task-level project performance (i.e., technical, contractual, administrative, financial). Under the guidance of the Program Manager, ensures the IT technical solutions and schedules are implemented in a timely manner. Supervises personnel involved in all aspects of project activity (e.g., systems design; programming; quality control), organizes and assigns responsibilities to subordinates, oversees the successful completion of all assigned tasks, and maintains customer contacts to ensure conformity to all contractual obligations. Exercises independent judgment, as well as a high-level of analytical skill, in solving non-routine technical, administrative, and managerial problems.

**Minimum Years of Experience**
8

**Minimum Education**
Bachelor's Degree in IT or IT-related field or in a scientific or engineering discipline with proven experience in IT
**Junior Analyst**

**Functional Responsibility**
As part of the front-end of IT systems development projects (e.g., requirements definition; concept development), helps to clearly define the customer’s operations and business practices and associated requirements for information systems support. Identifies potential problems and information systems and technology solutions. Must be able to work with functional specialists, automation specialists, contractors, vendors, and customers to effectively adhere to customer requirements. Acts as a focal point to coordinate all disciplines in the recommended solution. Ensures long-term requirements of systems operations and administration are included in the overall information systems planning of the organization. Responsible for the installation, maintenance, configuration, and integrity of computer software. Implements operating system enhancements that will improve the reliability and performance of the system.

**Minimum Education**
Bachelor’s Degree in IT or IT-related field or in a scientific or engineering discipline with proven experience in IT

**Required Certifications**
None

**Substitution Factors**

Education and experience may be substituted for each other. Each year of relevant experience may be substituted for 1 year of education, and vice versa. Successful completion of each year of higher education that has not yet resulted in a degree may be counted 1-for-1 for a year of experience. In addition, certifications, professional licenses, and vocational technical training may be substituted for experience or education with the written approval of the ordering activity.

**Substitution Matrix**

<table>
<thead>
<tr>
<th>High School Degree</th>
<th>A GED is an acceptable substitute for a High School degree.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bachelor's Degree</td>
<td>An Associate Degree + 2 years of relevant experience, or 4 years of relevant experience can substitute for a Bachelor’s Degree.</td>
</tr>
<tr>
<td>Bachelor's Degree</td>
<td>Relevant Professional Certification can substitute for a Bachelor's Degree.</td>
</tr>
<tr>
<td>Bachelor's Degree</td>
<td>A Bachelor's Degree in a relevant field can substitute for 4 years of experience.</td>
</tr>
<tr>
<td>Master's Degree</td>
<td>A Master's Degree in a relevant field can substitute for 2 years of experience.</td>
</tr>
<tr>
<td>Ph.D.</td>
<td>A Ph.D. in a relevant field can substitute for 4 years of experience.</td>
</tr>
</tbody>
</table>

Network Specialty Group (NSG) may, at its discretion, map staff that exceed the minimum associated with each labor category. Labor category qualifications set the minimum requirement necessary to qualify to perform services. The labor category qualifications do not set an education or experience ceiling.
Customer Information

1a. Awarded Special Item Numbers (SINs):

<table>

</tbody>
</table>

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.

See page 4.

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibilities and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item.

See pages 7-13.

2. Maximum Order: SIN 54151S: $500,000; SIN OLM: $250,000.

Note: These are not limits on the size of any task order under the contract. NSG may honor orders exceeding these amounts in accordance with Clause 52.216-19.

3. Minimum Order: $100

5. Points of Production: Same as company address.

6. Discount from List Prices or Statement of Net Price: Government net prices (discounts already deducted). See “Prices” section, above.
7. **Quantity/Volume Discounts:**

For any individual GSA Task order, NSG will apply quantity discounts as follows:

<table>
<thead>
<tr>
<th>Labor Category</th>
<th>Quantity Discount % to be applied to GSA Rates (with IFF) for any individual GSA Task Order &gt;$3.5 million</th>
