Federal Supply Service
Authorized Federal Supply Schedule Price List

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage! ®, a menu-driven database system. The INTERNET address GSA Advantage! ® is: GSAAdvantage.gov.

INFORMATION TECHNOLOGY SCHEDULE PRICELIST
GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY EQUIPMENT, SOFTWARE AND SERVICES

Special Item No. 54151S - Information Technology Professional Services

SPECIAL ITEM NUMBER 54151S - INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES
FPDS Code D301 IT Facility Operation and Maintenance
FPDS Code D302 IT Systems Development Services
FPDS Code D306 IT Systems Analysis Services
FPDS Code D307 Automated Information Systems Design and Integration Services
FPDS Code D308 Programming Services
FPDS Code D310 IT Backup and Security Services
FPDS Code D311 IT Data Conversion Services
FPDS Code D313 Computer Aided Design/Computer Aided Manufacturing (CAD/CAM) Services
FPDS Code D316 IT Network Management Services
FPDS Code D317 Creation/Retrieval of IT Related Automated News Services, Data Services, or Other Information Services (All other information services belong under Schedule 76)
FPDS Code D399 Other Information Technology Services, Not Elsewhere Classified

RIVER TECH
AN AKMA COMPANY

10807 New Allegiance Drive, Suite 350-200, Colorado Springs CO 80921 - 3796
TELEPHONE 703-766-6260
Fax 571-482-5340

CONTRACT NUMBER: 47QTCA22D0007
Period covered by contract October 4th 2021 to October 3rd 2026

Pricelist current through October 4th 2021
INFORMATION FOR ORDERING ACTIVITIES

1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s), 54151S and OLM. See Price List on page 4 and Labor Category Description starting on page 6

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. See Price List on Page 4

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item. See Price List on Page 4

2. Maximum order. $500,000

3. Minimum order. $100

5. Point(s) of production (city, county, and State or foreign country). US

6. Discount from list prices or statement of net price. Net pricing shown on page 4

7. Quantity discounts. TBD at task order level

8. Prompt payment terms. None

9. Foreign items (list items by country of origin). N/a

10a. Time of delivery. (Contractor insert number of days.) TBD at Task Order Level

10b. Expedited Delivery. The Contractor will insert the sentence “Items available for expedited delivery are noted in this price list,” under this heading. The Contractor may use a symbol of its choosing to highlight items in its price lists that have expedited delivery. TBD at Task Order Level

10c. Overnight and 2-day delivery. The Contractor will indicate whether overnight and 2-day delivery are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery. TBD at Task Order Level

10d. Urgent Requirements. The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor’s representative to effect a faster delivery. TBD at Task Order Level

11. F.O.B. point(s). Destination

12a. Ordering address(es).

2553 Dulles View Drive, Suite 700
Herndon VA 20171
12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address(es).
   2553 Dulles View Drive, Suite 700
   Herndon VA 20171

14. Warranty provision. N/a

15. Export packing charges, if applicable. N/a

16. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level). N/a

17. Terms and conditions of rental, maintenance, and repair (if applicable). N/a

18a. Terms and conditions of installation (if applicable). N/a

18b. Terms and conditions for any other services (if applicable). N/a

19. List of service and distribution points (if applicable). N/a

20. List of participating dealers (if applicable). N/a

21. Preventive maintenance (if applicable). N/a

22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). N/a

22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor’s website or other location.) The EIT standards can be found at: www.Section508.gov/. N/a

23. Data Universal Number System (DUNS) number: 079736673

24. Notification regarding registration in System for Award Management (SAM) database. Yes

| Senior Project / Program Manager          | 6                                  | • Responsible for all contract activities. Sets policies and procedures, technical standards and methods, and priorities. Coordinates the management of all work performed on tasks under the contract.  
• Coordinates the efforts of subcontractors, team members, and vendors. Acts as the central point of contact with the Contracting Officer (CO), the Contracting Officer’s Representative (COR), and other client officials.  
• Exercises full authority to act for the company in the performance of the required work and services under all task orders. Works independently, or under the general direction of senior level company management, on all phases of performance including contract management, project/task order management, coordination of resource needs, coordination with corporate resources and management.  
• Reports to senior company management on contract and task performance and issues. Has direct accountability for the technical correctness, timeliness and quality of deliverables, and the implementation and measurement of corporate and client quality standards and methodologies.  
• Has a broad and deep knowledge of the IT industry, business administration, and human resource management and has excellent oral and written communications skills. | BA or  
May be substituted with 4 years of related experience. |

| **Database Administrator** | 5 | - Installs, configures and populates databases in Physical and Virtual environments.  
- Performs database tuning, backup and recovery ensuring maximum system availability.  
- Develops procedures, packages and scripts to facilitate data manipulation with both internal and external application interfaces.  
- Coordinates with Software Development Team ensuring data availability for manipulation.  
- Research and recommend innovative, and where possible automate approaches for database administration and monitoring tasks.  
- Identify approaches that leverage existing resources and provide economies of scale.  
- Perform daily system monitoring, verifying the integrity and availability of all resources, systems and key processes, reviewing system and application logs, and verifying completion of scheduled jobs such as backups, data transfers and data exchanges.  
- Perform backup operations, ensuring all required file systems and system data are successfully backed up to the appropriate media, recovery disks are created, and media is recycled and sent off site as necessary.  
- Investigate and troubleshoot issues providing end user and program support.  
- Repair and recover from hardware or software failures. | BA  
or  
May be substituted with 4 years of related experience. |
| **Test Engineer** | 4 | - Perform engineering-level and integration testing and evaluation of systems. Integration-level testing will be completed continuously, as defined during the Agile development periods. Engineering-level testing will be conducted on the product increment after system integration testing and before independent verification and validation (IV&V).  
- Developing and documenting test routines simulating the end-user environment. Engineering testing of the system will consist of evaluating the functionality of the user interface tools and widgets within the specified system framework/applications/widgets.  
- Interface with Development, management, and IV&V team(s) to ensure testing and evaluation support aligns with the project’s integrated master schedule (IMS).  
- Develop, update, and catalog Project test cases, procedures and results with collaborative input from the development team in direct alignment with system | BA  
or  
May be substituted with 4 years of related experience. |

| **Network Engineer** | 3                                   | • Ensure that the LAN maintains compliance with the agency information assurance (IA) guidelines.  
• Monitor and notify the supervisor of all LAN hardware and software related failures.  
• Perform initial troubleshooting analysis of all LAN hardware and software related failures.  
• De-install failed LAN hardware and then install and configure replacement hardware supplied by the Government.  
• Monitor applicable repositories for software patches, configurations, and Security Technical Implementation Guides (STIGs) applicable to the LAN hardware and software.  
• Prepare the network documentation including:  
  o Instructional documentation covering specific procedures or information with regards to OISPL LAN hardware and software maintenance.  
  o Prepare, or update, Standard Operating Procedural (SOP) documentation for all LAN hardware and software.  
  o Prepare SOVT documentation to capture the patches implemented, the test cases used, the test results, and the Government provided vulnerability scan results of the LAN systems.  
  o Prepare a LAN diagrams for each project  
  o Provide LAN integration of new or updated components  
  o Integrate updated or new components into the LAN. | Associate Degree  
or  
May be substituted with 2 years of related experience |
| **Systems Technologist II** | 3                                   | • Inspect and test equipment/systems to ensure technical integrity. Recommends changes to the maintenance procedures. Recommends changes to equipment to improve system operation based on original equipment manufacturers (OEM) specifications.  
• Provide design solutions whereby individual equipment meets current government client security standards.  
• Review design and development documents for communication equipment/system installation.  
• Provide security testing and assessment of equipment.  
• Brief management, exchange technical information, resolve communication system failures, provide support for identified requirements, discuss action plans, and/or coordinate efforts during professional contacts. | Associate Degree  
or  
May be substituted with 2 years of related experience |
