Notification regarding registration in System for Award Management (SAM) database:	Registered

Services and Products:

IPS is a cybersecurity firm formed in 2014 that provides a niche range of cybersecurity support services. Our trained professionals offer a comprehensive range of cybersecurity services, including:

- **CYBERSECURITY GOVERNANCE**

- Cloud Security Assessment
- Configuration Management Implementation
- Cybersecurity Policy, SOP, and Metrics Implementation
- Incident Response Management
- Penetration Testing
- Risk Management Framework Ongoing Authorization Implementation
- Risk and Vulnerability Assessment

- **DEVSECOPS IMPLEMENTATION**

- Continuous Integration / Continuous Delivery (CI/CD) Pipeline Implementation
- Continuous Monitoring Strategic Implementation
- Container Hardening
- Cross Domain Solution (CDS) Implementation
- Static/Dynamic Software Vulnerability Analysis
- Threat Analysis
- Zero Trust Implementation

- **SECMLOPS IMPLEMENTATION**

- Adversarial AI/ML Defense
- AI Ecosystem Assessment
- AI/ML Model Assurance Assessment
- Attack Surface Monitoring
- Big Data Cybersecurity and Threat Analysis
- Inference Engine Assessment
- Secure Algorithm Delivery via Supply Chain Risk Management

IPS is ISO 9001:2015 certified. Documented procedures and instructions provide the outline for service preparation, maintenance, delivery, and monitoring. The Mission of IPS is “*Instituting effective cybersecurity governance into sustainable practice*”.

Labor Rates:

Labor rates are listed as “not to exceed” and are to be used when performing work requested as a straight hourly rate. Work performed against a task order will be priced as work or services performed and may reflect lower rates than posted. All rates include the Industrial Funding Fee (IFF) of 0.75%.

Labor Category Descriptions and Education/Experience Requirements:

Labor Category – Cybersecurity Analyst (SIN 54151HACS)	
Description:	Provides Cybersecurity related consulting services to clients by performing the following duties:
Position Duties/ Responsibilities:	Performs application, database, network, and web server vulnerability scans. Interprets the risk level of the scan results based on organizational mission and High Value Assets and assist the organization in creating a risk baseline and risk tolerance level. Reports metrics to leadership allowing leadership to make actionable decisions based on quantifiable data and trends.
General Experience:	Risk and vulnerability assessments of relevant technology focus areas (e.g., local computing environment, network and infrastructure, enclave boundary, supporting infrastructure, and applications).
Specialized Experience:	Risk Management Framework, Risk Mitigation Techniques, and Vulnerability Analysis.

Education/Experience Requirements:

The table below provides minimum education and general or specialized experience requirements for each labor category level.

Education and General/Specialized Experience Minimum Requirements						
Degree/Education:	Bachelor's		Master's		Ph.D.	
Experience Level:	Gen. Exp.	Spec. Exp.	Gen. Exp.	Spec. Exp.	Gen. Exp.	Spec. Exp.
Cybersecurity Analyst II Min. Reqs.:	1-5	1				
Cybersecurity Analyst III Min. Reqs.:	5-10	3				
Cybersecurity Analyst IV Min. Reqs.:			10+	5		

*Gen. Exp. = General Experience; Spec. Exp. = Specialized Experience

Labor Category – Cybersecurity Consultant (SIN 54151HACS)	
Description:	Provides Cybersecurity Governance related consulting services to clients by performing the following duties:
Position Duties/ Responsibilities:	Responsible for developing and implementation of cybersecurity governance, including policies and procedures to ensure protection of confidentiality, integrity, and availability of organizational IT assets and data.
General Experience:	Supply chain risk management and vulnerability mitigation and remediation strategies.
Specialized Experience:	Cybersecurity Governance, Risk Management Framework, Risk Mitigation Techniques, Supply Chain Risk Management, and Vulnerability Management.

Education/Experience Requirements:

The table below provides minimum education and general or specialized experience requirements for each labor category level.

Education and General/Specialized Experience Minimum Requirements						
Degree/Education:	Bachelor’s		Master’s		Ph.D.	
Experience Level:	Gen. Exp.	Spec. Exp.	Gen. Exp.	Spec. Exp.	Gen. Exp.	Spec. Exp.
Cybersecurity Consultant Min. Reqs.:			15+	10		

*Gen. Exp. = General Experience; Spec. Exp. = Specialized Experience

Labor Category – IT Specialist (SIN 54151S)	
Description:	Provides IT Specialist related consulting services to clients by performing the following duties:
Position Duties/ Responsibilities:	Analyze science, engineering, business, and other data processing problems to implement and improve computer systems. Analyze user requirements, procedures, and problems to automate or improve existing systems and review computer system capabilities, workflow, and scheduling limitations. May analyze or recommend commercially available software.
General Experience:	Experience working in a technology field/company. Requires good knowledge of day-to-day operations in any Information Technology company. Training in office automation tools is required.
Specialized Experience:	Must be knowledgeable with various productivity tools.

Education/Experience Requirements:

The table below provides minimum education and general or specialized experience requirements for each labor category level. This position also requires an ITIL certification.

Education and General/Specialized Experience Minimum Requirements						
Degree/Education:	Bachelor's		Master's		Ph.D.	
Experience Level:	Gen. Exp.	Spec. Exp.	Gen. Exp.	Spec. Exp.	Gen. Exp.	Spec. Exp.
IT Specialist III Min. Reqs.:	5-10	3				

Labor Category – IT Project Manager (SIN 54151S)	
Description:	Provides IT Project Manager related consulting services to clients by performing the following duties:
Position Duties/ Responsibilities:	Plan, initiate, and manage information technology (IT) projects; Lead and guide the work of technical staff. Serve as liaison between business and technical aspects of projects.
General Experience:	Experience in managing a large-scale IT application and systems. Requires strong knowledge of project management principles
Specialized Experience:	5+ years with RMF, Cybersecurity, and Risk Methodologies.

Education/Experience Requirements:

The table below provides minimum education and general or specialized experience requirements for each labor category level. Must hold valid PMP certification.

Education and General/Specialized Experience Minimum Requirements						
Degree/Education:	Bachelor's		Master's		Ph.D.	
Experience Level:	Gen. Exp.	Spec. Exp.	Gen. Exp.	Spec. Exp.	Gen. Exp.	Spec. Exp.
IT Project Manager III Min. Reqs.:	5-10	5				

Labor Category – System Integration Engineer (SIN 54151S)	
Description:	Provides System Integration Engineer (Validation & Verification) related consulting services to clients by performing the following duties:
Position Duties/ Responsibilities:	Design and develop solutions to complex applications problems, system administration issues, or network concerns. Perform systems management and integration functions.
General Experience:	Designs technical solutions, engineering designs and accurate cost estimate to meet client requirements. Researches solutions and product alternatives, and also coordinates with field engineer and client to ensure technical service requirements are accurate.
Specialized Experience:	Demonstrated ability to work across functions to ensure all aspects of system operations are sustained.

Education/Experience Requirements:

The table below provides minimum education and general or specialized experience requirements for each labor category level.

Education and General/Specialized Experience Minimum Requirements
