GENERAL SERVICES ADMINISTRATION
FEDERAL SUPPLY SERVICE
AUTHORIZED FEDERAL SUPPLY SCHEDULE PRICE LIST

MULTIPLE AWARD SCHEDULE
FSC GROUP MAS

EastBanc Technologies, LLC
1211 31st St. NW
Washington, DC 20007
Phone: (202) 295-3000 Fax: (202) 295-3001
POC: Jill E Da Silva
Email: Jdasila@eastbanctech.com
Internet Address: www.eastbanctech.com

Contract Number: 47QTCA22D0020
Period Covered by Contract: Effective November 22, 2021 – November 21, 2026
General Services Administration
Federal Supply Service
Pricelist current through Modification P0-0001, dated November 22, 2021.

For more information on ordering from Federal Supply Schedule click on the FSS Schedules button at fss.gsa.gov. On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order is available through GSA Advantage!™, a menu-driven database system. The INTERNET address for GSA Advantage!™ is: http://www.GSAAdvantage.gov.
INFORMATION FOR ORDERING ACTIVITIES

1a. AUTHORIZED SPECIAL ITEM NUMBERS (SINs):

<table>
<thead>
<tr>
<th>SIN</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>54151S</td>
<td>Information Technology Professional Services</td>
</tr>
<tr>
<td>OLM</td>
<td>Order-Level Materials (OLM)</td>
</tr>
</tbody>
</table>

1b. Lowest Priced Model Number and Price for each SIN: See Price List

1c. SERVICES OFFERED: See Price List

2. MAXIMUM ORDER PER SIN:

<table>
<thead>
<tr>
<th>SIN</th>
<th>MAXIMUM ORDER</th>
</tr>
</thead>
<tbody>
<tr>
<td>54151S</td>
<td>$500,000 per SIN/Order</td>
</tr>
<tr>
<td>OLM</td>
<td>$250,000 per SIN/Order</td>
</tr>
</tbody>
</table>

This maximum order threshold is a dollar amount at which it is suggested that the ordering agency request higher discounts from the contractor before issuing the order. The contractor may: (1) Offer a new lower price, (2) Offer the lowest price available under the contract, or (3) Decline the order within five (5) days. In accordance with the Maximum Order provisions contained in the Schedule, a delivery order may be placed against the Schedule contract even though it exceeds the maximum order threshold.

3. MINIMUM ORDER LIMITATION: $100

4. GEOGRAPHIC COVERAGE (DELIVERY AREA): The geographic scope of this contract is the 48 contiguous states.

5. POINT OF PRODUCTION: United States

6. BASIC DISCOUNT: Prices listed are net, discounts have been deducted and the industrial funding fee has been added

7. QUANTITY DISCOUNT: 1% additional discount on single task orders above $400,000

8. PROMPT PAYMENT TERMS: Net 30. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9. FOREIGN ITEMS: None

10a. TIME OF DELIVERY: As negotiated between the Contractor and the Ordering Activity

10b. EXPEDITED DELIVERY: Contact Contractor

10c. OVERNIGHT AND 2-DAY DELIVERY: Contact Contractor

10d. URGENT REQUIREMENTS: Contact Contractor

11. F.O.B. POINT: Destination

12a. ORDERING ADDRESS: EastBanc Technologies, LLC
    1211 31st St, NW
    Washington, DC 20007
12b. ORDERING PROCEDURES: For supplies and service the ordering procedures, information on Blanket Purchase Agreements (BPAs), and a sample BPA may be found at the GSA/FSS Schedule homepage (gss.gsa.gov/schedule).

13. PAYMENT ADDRESS: Same as Ordering Address

14. WARRANTY PROVISION: Standard Commercial Warranty

15. EXPORT PACKING CHARGES: Not Applicable

16. TERMS AND CONDITIONS OF RENTAL: Not Applicable

17. TERMS AND CONDITIONS OF INSTALLATION: Not Applicable

18a. TERMS AND CONDITIONS OF REPAIR PARTS: Not Applicable

18b. TERMS AND CONDITIONS FOR ANY OTHER SERVICES: Not Applicable

19. LIST OF SERVICE AND DISTRIBUTION POINTS: Not Applicable

20. LIST OF PARTICIPATING DEALERS: Not Applicable

21. PREVENTIVE MAINTENANCE: Not Applicable

22a. SPECIAL ATTRIBUTES: Not Applicable

22b. SECTION 508 COMPLIANCE INFORMATION: Not Applicable

23. UNIQUE ENTITY IDENTIFIER (UEI) NUMBER: L83VL7UJCS46

24. NOTIFICATION REGARDING REGISTRATION IN SYSTEM OF AWARD MANAGEMENT (SAM) DATABASE: 1PZV8

Service Contract Labor Standards (SCLS)
The Service Contract Labor Standards (SCLS), also referred to as the Service Contract Act (SCA) is applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories/services have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCA eligible labor categories. If and/or when the contractor adds SCA labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCA matrix identifying the GSA labor category titles, the occupational code, SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
ARCHITECT LEVEL 3

RESPONSIBILITIES:
Leads, defines and develops architectural design and provides the technical vision using cloud technologies, enterprise systems development, API development, web, progressive web apps (PWA), mobile web and native applications development, and open-source software. Suggests and implements architectural improvements and performs technical leadership for the whole project team assisting developers with complex technical challenges and mentor employees in software development best practices. Sets standards and best practices and brings expert knowledge as well as the expertise of the underlying technology, oversees the implementation and if required hands it over to customers. Experienced in technical leadership, designing highly available solutions, fault-tolerant systems, microservices architecture, REST APIs for on-premises, cloud or hybrid infrastructure. Demonstrates good knowledge of modern container technologies and deep understanding of DevOps tasks, CI / CD, as well as understanding of Monitoring and Security Best Practices.

EDUCATION AND EXPERIENCE:
7+ years of experience developing, designing and architecting apps and systems, with a BS or MS degree in Computer Science, Information Systems, Mathematics, or other related discipline. Experience in software development and coding in various languages. Excellent knowledge of software and application design and architecture. Knowledge of UML and other modeling methods. Understanding of software quality assurance principles.

PROJECT MANAGER LEVEL 3

RESPONSIBILITIES:
Runs complex mid to large-size projects from design and development to delivery and production. Maintains positive client relationships while managing a wide range of day-to-day client interactions. Proactively, manages customer expectations with regard to scope, quality, schedule, and budget. Works with Technical Lead and Business Analysts to define requirements and proactively manage project scope during implementation. Develops and tightly manages project timeline and budget to ensure on time and successful delivery. Maintains and/or achieves target profitability and revenue growth of assigned projects. Directs and oversees the project team. Maintains project documentation through the entire project lifecycle.

EDUCATION AND EXPERIENCE:
6+ years of experience as a technical project manager, with a BS or MS degree in Computer Science, Information Systems, Engineering, Business, Mathematics, or other related discipline. Experience with website/web applications architecture and software development. Significant client-facing experience. Flexible, innovative, and committed to the successful completion of assignments. Able to act as a liaison between the brand/design teams and the technical development team. Excellent oral and written communication skills with the ability to communicate effectively with executives, project stakeholders, design, and IT teams. PMP and/or agile certification is a plus.
Business Analyst Level 3

Responsibilities:
Specifies requirements at different levels: system, sub-system or component, interaction between components, integration with 3rd party systems, single business process, web service, etc. Conducts As-Is, To-Be, JAD sessions (shares meeting recaps and gathers feedback). Builds and manages a product backlog: epics, sub-epics, user stories, acceptance criteria. Prioritizes backlog and reviews backlog together with business and development teams. Manages feedback and comments on requirements. Understands if requirements are complete, consistent, comprehensive, and feasible. Mentors and oversees the job of junior BAs. Can lead and organize the work of BA group.

Education and Experience:
5+ years of experience as a Business Analyst, with a BS or MS degree in Computer Science, Engineering, Business, Economics, or other related discipline. Has proven experience working with a cross-functional team of engineers and designers to build products. Has experience with Agile methodologies and tools. Work experience in programming, hybrid data storage solutions, statistics, data science, machine learning, software engineering, and project management is a plus.

Team Lead Level 1

Responsibilities:
Leads a team of engineers. Identifies and resolves project issues, gathers data, and analyzes business needs. Reviews, analyzes, and modifies systems per requirements via tasks including but not limited to coding, testing, and debugging. If needed, develops software applications on different levels, including networking, hardware, virtualization, operating systems (OS), application, frontend, application programming interface (API), and protocols. Follows and makes sure the team follows the best development practices, methodologies, and tools such as source control systems, bug tracking systems, and continuous integration systems. Utilizes technologies, frameworks, and components for different tiers of the future solutions.

Education and Experience:
2 years of engineering experience with a BS or MS degree in Computer Science, Engineering, Business, Economics, or other related discipline.

Developer Level 2

Responsibilities:
Develops and implements client/server distributed software architecture and applications using enterprise technologies for backend or frontend application development. Develops software applications on different levels, including networking, hardware, virtualization, operating systems (OS), application, frontend, application programming interface (API), and protocols. Applies object-oriented methodologies including refactoring and patterns of object-oriented design as well as application architecture patterns. Performs testing activities and unit test produced code to maintain high quality products and solutions. Prepares software application documentation. Follows team development practices and methodologies and tools such as source control systems, bug tracking systems, and continuous integration systems; and has experience with cloud technologies and distributed systems development.

Education and Experience:
4+ years of relevant software development experience, with a BS or MS degree in Computer Science, Software Engineering, Information Systems/Technology, Mathematics, or other related discipline. Experience working in an Agile/Scrum environment. Excellent troubleshooting and problem-solving skills.
Developer Level 3

Responsibilities:
Leads, designs, develops and implements client/server distributed software architecture and applications using enterprise technologies for backend or frontend application development. Develops software applications on different levels, including networking, hardware, virtualization, operating systems (OS), application, frontend, application programming interface (API), and protocols. Applies object-oriented methodologies including refactoring and patterns of object-oriented design as well as application architecture patterns. Performs testing activities and unit test produced code to maintain high quality products and solutions. Prepares software application documentation. Follows team development practices and methodologies and tools such as source control systems, bug tracking systems, and continuous integration systems; and has experience with cloud technologies and distributed systems development.

Education and Experience:
6+ years of relevant software development experience, with a BS or MS degree in Computer Science, Software Engineering, Information Systems/Technology, Mathematics, or other related discipline. Experience working in an Agile/Scrum environment. Excellent troubleshooting and problem-solving skills.

Machine Learning Engineer Level 3

Responsibilities:

Education and Experience:
5+ years of artificial intelligence/machine learning experience, with a BS or MS degree in Data Science, Statistics, Mathematics, Computer Science, or other related discipline. Hands-on experience implementing machine learning solutions, including data preparation, model training/tuning, testing and deployment. Familiar with the use of relational databases, Python programming language. Understanding of data structures, data modeling and software architecture. Ability to work in an Agile environment. Strong problem-solving and analytical skills. Excellent communication skills.

Data Scientist Level 3

Responsibilities:

Education and Experience:
5+ years of experience as a Data Scientist, with a BS or MS degree in Data Science, Statistics, Mathematics, Computer Science, or other related discipline. Familiar with the use of relational databases, Python programming language. Experience with SQL for advanced querying and joining of heterogeneous data sets. Experience designing, developing, and deploying analytic software and algorithms. Ability to work in an Agile environment. Strong problem-solving and analytical skills. Excellent communication skills.
UI/UX Designer Level 3

Responsibilities:
Analyzes customer requirements, user profiles, and tasks. Translates software requirements into useful, usable, and desirable designs. Designs task flow, screen layouts, interaction flows, mockups. Identifies and solves usability and UI design problems. Drives and tracks adoption of usability enhancements. Documents UI standards. Collaborates closely with other subject matter experts, developers, marketing teams, and other business stakeholders. Sets standards and best practices, brings expert knowledge and mentors junior designers.

Education and Experience:
5 years of UI/UX design experience with a BS or MS degree in Design, Human-Computer Interaction, Computer Science, Information Systems, Engineering, Business, or other related discipline. Strong visual and UX design skills. Solid understanding of current web technologies (CSS, JavaScript, Web and mobile apps). Understanding and experience of most popular UI Guidelines and modern styles. Solid analytical skills to be able to develop prototypes with customers.
