1c. Labor Categories and Descriptions:

Due to the availability or limitation of education, occasionally substitution of experience as referenced below for a professional labor type with additional years of experience will be provided to the Federal Agency when responding to their requirements and it is solely the acquiring agency’s determination if the substitution is considered acceptable before an award.

**SENIOR TECHNICAL ENGINEER**

**Experience:** A minimum of 5 years of IT Experience in the Information Systems environment and 3 years of technology specific experience.

**Functional Responsibilities could include:** Providing high-end technical expertise in:

**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, mathematics.

**TECHNICAL CONSULTANT**

**Experience:** A minimum of 3 years of IT Experience in the Information Systems environment and 2 years of technology specific experience.

**Functional Responsibilities could include:** Providing high-end technical expertise in:

**Education**: Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

**JR. TECHNICAL CONSULTANT**

**Experience**: A minimum 2 years of IT Experience in the Information Systems environment.

**Education**: Associate Degree in a preferred discipline of CS/MIS.

**SYSTEM/NETWORK ANALYST**

**Experience**: A minimum 4 years of IT Experience in the Information Systems environment and 1 year of technology specific experience.

**Education**: Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

**TRAINER**

**Experience**: A minimum 3 years of IT Experience in the Information Systems environment and 1 year of specific experience.

**Functional Responsibilities**: Prepare training materials, Conduct training programs, Technical Writing/Documentation, Facilitation and implementation support, Technical Support, End User Support, SDLC, Operations, Security

**Education**: Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

**SENIOR DEVELOPER**

**Experience**: A minimum 7 years related work experience, with 2 years in the specific technology. Good written and verbal communication skills and software testing skills.

**Functional Responsibility could include**: Provide high level of technical expertise in: Requirement Gathering, Design, Database, Data Analytics, Architecture, Agile,

**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics

**DEVELOPER**

**Experience:** A minimum 5 years related work experience, with 2 years programming; good written and verbal communication skills and software testing skills.

**Education:** Associate Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics

**TECHNICAL ARCHITECT/SUBJECT MATTER EXPERT**

**Experience:** A minimum 12 years related experience in area of expertise and understands, articulates, and implements best practices related to their area of expertise. Demonstrated experience related to providing at least 1 year of technical architecture or SME service in the specific area of expertise.

**Functional Responsibility could include:** Provide high-end technical expertise to provide innovative, cost-effective, and efficient IT solutions to an organization. Participates in or oversees the development, testing, and implementation of the technical solutions related to: Requirement Gathering, Design, Database, Data Analytics, Architecture, Agile, Development, Testing, Documentation, Administration, Network, Engineering, Operations, Security, Infrastructure, Cloud Engineering, Migration, Solutioning, Modernization, AI, Machine Learning, Bid Data, Cybersecurity, SOAR Engineer/Developer, IOT, Blockchain, End User Support, User Experience, Product Management, Microservices, Open Source, Intel, Application Design/Architecture, Cloud, Domain Driven Design

**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics

**TECHNICAL ASSISTANT**

**Experience:** A minimum of 2 years of IT, administration, or management support experience related to an Information Systems environment.

**Functional Responsibilities could include:** Provide technical or administration support in: Requirement Gathering, Design, Database, Data Analytics, Architecture, Agile, Development, Testing, Documentation, Administration, Network, Engineering, Operations, Security, Infrastructure, Cloud Engineering, Migration, Solutioning, Modernization, AI, Machine Learning, Bid Data, Cybersecurity, SOAR Engineer/Developer, IOT, Blockchain, End User Support, User Experience, Product Management, Microservices, Open Source, Intel,
Application Design/Architecture, Cloud, Domain-Driven Design

**Education:** Associate Degree in a preferred discipline of Business, Management, CS/MIS, English, mathematics.

**TECHNICAL PROJECT LEAD**

**Experience:** A minimum of 3 years of related work experience on IT projects. Demonstrated ability to supervise technical staff; organize tasks and perform customer interface. Strong written and verbal communication skills and strong organizational skills.

**Functional Responsibility could include:** Acts as a team leader usually supporting the project manager or program manager. Helps ensure that projects are completed on time and under budget, forecasts monthly invoicing, and develops scope of work. Assists in planning team resources, developing biweekly reports, and supervising staff. **Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics

**PROGRAMMER/NETWORK ANALYST 1**

**Experience:** A minimum of 1 year related work experience, with 1 year programming or system analysis; good written and verbal communication skills and system analytical and programming skills.

**Education:** Associate Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

**PROGRAMMER/NETWORK ANALYST 2**

**Experience:** A minimum of 3 years of related work experience, with 2 years programming or system analysis; good written and verbal communication skills and system analytical and programming skills.

**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

**PROGRAMMER/NETWORK ANALYST 3**

**Experience:** A minimum of 5 years related work experience, with 5 years programming or system analysis; good written and verbal communication skills and system analytical and programming skills

Education: Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

CLOUD SENIOR TECHNICAL ENGINEER

Experience: A minimum 5 years of IT Experience in the Information Systems environment and 3 years of technology specific experience.

Education: Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

CLOUD TECHNICAL CONSULTANT

Experience: A minimum 3 years of IT Experience in the Information Systems environment and 2 years of technology specific experience.

Education: Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

CLOUD JR. TECHNICAL CONSULTANT

Experience: A minimum 2 years of IT Experience in the Information Systems environment.

CLOUD SYSTEM/NETWORK ANALYST

**Experience:** A minimum 4 years of IT Experience in the Information Systems environment and 1 year of technology specific experience.

**Functional Responsibilities could include:** Provide technical support in the areas of: Requirement Gathering, Design, Database, Data Analytics, Architecture, Agile, Development, Testing, Documentation, Administration, Network, Engineering, Operations, Security, Infrastructure, Cloud Engineering, Migration, Solutioning, Modernization, AI, Machine Learning, Bid Data, Cybersecurity, SOAR Engineer/Developer, IOT, Blockchain, End User Support, User Experience, Product Management, Microservices, Open Source, Intel, Application Design/Architecture, Cloud, Domain Driven Design

**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

CLOUD TRAINER

**Experience:** A minimum 3 years of IT Experience in the Information Systems environment and 1 year of specific experience.

**Functional Responsibilities:** Prepare training materials, Conduct training programs, Technical Writing/Documentation, Facilitation and implementation support, Technical Support, End User Support, SDLC, Operations, Security

**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

CLOUD SENIOR DEVELOPER

**Experience:** A minimum 7 years related work experience, with 2 years in the specific technology. Good written and verbal communication skills and software testing skills.

**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics

CLOUD DEVELOPER

**Experience:** A minimum 5 years related work experience, with 2 years programming; good written and verbal communication skills and software testing skills.

**Education:** Associate degree in a preferred discipline of CS/MIS.
Support, User Experience, Product Management, Microservices, Open Source, Intel, Application Design/Architecture, Cloud, Domain Driven Design

**Education:** Associate Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics

---

**CLOUD TECHNICAL ARCHITECT/SUBJECT MATTER EXPERT**

**Experience:** A minimum 12 years related experience in area of expertise and understands, articulates, and implements best practices related to their area of expertise. Demonstrated experience related to providing at least 1 year of technical architecture or SME service in the specific area of expertise.

**Functional Responsibility could include:** Provide high-end technical expertise to provide innovative, cost-effective, and efficient IT solutions to an organization. Participates in or oversees the development, testing, and implementation of the technical solutions related to: Requirement Gathering, Design, Database, Data Analytics, Architecture, Agile, Development, Testing, Documentation, Administration, Network, Engineering, Operations, Security, Infrastructure, Cloud Engineering, Migration, Solutioning, Modernization, AI, Machine Learning, Bid Data, Cybersecurity, SOAR Engineer/Developer, IOT, Blockchain, End User Support, User Experience, Product Management, Microservices, Open Source, Intel, Application Design/Architecture, Cloud, Domain Driven Design

**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

---

**CLOUD TECHNICAL ASSISTANT**

**Experience:** A minimum of 2 years of IT, administration, or management support experience related to an Information Systems environment.

**Functional Responsibilities could include:** Provide technical or administration support in: Requirement Gathering, Design, Database, Data Analytics, Architecture, Agile, Development, Testing, Documentation, Administration, Network, Engineering, Operations, Security, Infrastructure, Cloud Engineering, Migration, Solutioning, Modernization, AI, Machine Learning, Bid Data, Cybersecurity, SOAR Engineer/Developer, IOT, Blockchain, End User Support, User Experience, Product Management, Microservices, Open Source, Intel, Application Design/Architecture, Cloud, Domain Driven Design

---

**CLOUD PROGRAMMER/NETWORK ANALYST 1**

**Experience:** A minimum of 1 year related work experience, with 1 year programming or system analysis; good written and verbal communication skills and system analytical and
programming skills.

**Functional Responsibility could include:** Provides programming and analytical expertise in:
- Requirement Gathering
- Design
- Database
- Data Analytics
- Architecture
- Agile
- Development
- Testing
- Documentation
- Administration
- Network
- Engineering
- Operations
- Security
- Infrastructure
- Cloud Engineering
- Migration
- Solutioning
- Modernization
- AI

- SOAR Engineer/Developer
- IOT
- Blockchain
- End User Support
- User Experience
- Product Management
- Microservices
- Open Source
- Intel
- Application Design/Architecture
- Cloud
- Domain Driven Design

**Education:** Associate Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics

**CLOUD PROGRAMMER/NETWORK ANALYST 2**

**Experience:** A minimum of 3 years of related work experience, with 2 years programming or system analysis; good written and verbal communication skills and system analytical and programming skills.

**Functional Responsibility could include:** Provides programming and analytical expertise in:
- Requirement Gathering
- Design
- Database
- Data Analytics
- Architecture
- Agile
- Development
- Testing
- Documentation
- Administration
- Network
- Engineering
- Operations
- Security
- Infrastructure
- Cloud Engineering
- Migration
- Solutioning
- Modernization
- AI
- Machine Learning
- Bid Data
- Cybersecurity
- SOAR Engineer/Developer
- IOT
- Blockchain
- End User Support
- User Experience
- Product Management
- Microservices
- Open Source
- Intel
- Application Design/Architecture
- Cloud
- Domain Driven Design

**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

**CLOUD PROGRAMMER/NETWORK ANALYST 3**

**Experience:** A minimum of 5 years related work experience, with 5 years programming or system analysis; good written and verbal communication skills and system analytical and programming skills.

**Functional Responsibility could include:** Provides programming and analytical expertise in:
- Requirement Gathering
- Design
- Database
- Data Analytics
- Architecture
- Agile
- Development
- Testing
- Documentation
- Administration
- Network
- Engineering
- Operations
- Security
- Infrastructure
- Cloud Engineering
- Migration
- Solutioning
- Modernization
- AI
- Machine Learning
- Bid Data
- Cybersecurity
- SOAR Engineer/Developer
- IOT
- Blockchain
- End User Support
- User Experience
- Product Management
- Microservices
- Open Source
- Intel
- Application Design/Architecture
- Cloud
- Domain Driven Design

**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

**TRAINER ANALYST**

**Experience:** A minimum of 8 years’ experience

**Functional Responsibility could include:** Conducts training analysis, designs and develops training curricula, designs and develop multimedia/web storyboards and training, and measures and evaluates effectiveness of training.

**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.
**TRAINER ANALYST LEAD**  
**Experience:** A minimum of 10 years’ experience  
**Functional Responsibility could include:** Conducts training analysis, designs and develops training curricula, designs and develop multimedia/web storyboards and training, and measures and evaluates effectiveness of training.  
**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

**INSTRUCTIONAL DESIGN MANAGER**  
**Experience:** A minimum of 10 years’ experience, Project Management Certificate (e.g., PMP, Project Management Certificate)  
**Functional Responsibility could include:** Conducts training analysis, designs and develops training curricula, designs and develop multimedia/web storyboards and training, and measures and evaluates effectiveness of training. Provides management and oversight of the project including customer relations, budgetary control, quality management, and staff management.  
**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

**PROGRAM DIRECTOR**  
**Experience:** A minimum of 10 years’ experience  
**Functional Responsibility could include:** Ensures that programs are completed on time and under budget, forecasts monthly invoicing, and develops scope of work. Plans program resources, develops biweekly reports, and supervises staff.  
**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

**CURRICULUM DEVELOPER**  
**Experience:** A minimum of 5 years’ experience  
**Functional Responsibility could include:** Conducts training analysis, designs and develops training curricula, designs and develop multimedia/web storyboards and training, and measures and evaluates effectiveness of training.  
**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

**DATABASE ADMINISTRATOR/ SYSTEMS ENGINEER**  
**Experience:** A minimum of 5 years’ experience  
**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.
BUSINESS SYSTEMS ANALYST

**Experience:** A minimum 4 years of IT Experience in the Information Systems environment and 1 year of technology specific experience.

**Functional Responsibility could include:** Provide technical support in the areas of: Requirement Gathering, Design, Database, Data Analytics, Architecture, Agile, Development, Testing, Documentation, Administration, Network, Engineering, Operations, Security, Infrastructure, Cloud Engineering, Migration, Solutioning, Modernization, AI, Machine Learning, Bid Data, Cybersecurity, SOAR Engineer/Developer, IOT, Blockchain, End User Support, User Experience, Product Management, Microservices, Open Source, Intel, Application Design/Architecture, Cloud, Domain Driven Design

**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

TECHNICAL WRITER

**Experience:** A minimum 2 years’ experience

**Functional Responsibility could include:** Writes and updates material such as reports, manuals, briefs, proposals, instruction books, catalogs, and related technical and administrative publications concerned with work methods and procedures, and installation, operation, and maintenance.

**Education:** Bachelor’s Degree in a preferred discipline of Business, Management, CS/MIS, English, or Mathematics.

**Experience Substitutions for Below Labor Categories**

**Bachelors:** Associates degree plus two years’ experience

**Masters:** Bachelor’s degree plus two years of experience, or Associates degree plus four years’ experience

**PhD/Doctorate:** Master’s degree plus two years’ experience, or bachelor’s degree plus four years’ experience, or Associates degree plus six years’ experience.

**Certification(s):** Certification(s) related to the business management and the technology is equivalent to two years of experience or education requirement

The years of experience substituted may be used to satisfy education requirements. Completion of higher education which has not yet resulted in a degree may be counted as one-for-one years of experience for each year of higher education and may be used to satisfy education requirements.

SUBJECT MATTER EXPERT III

**Functional Responsibility:** As the team thought leader, responsible for providing high-level vision to program/project manager or senior client leadership to influence objectives of complex efforts. This IT and Industry focused experience includes technical, problem definition, managerial, analysis, administrative direction, requirements development, and implementation of complex to extremely complex systems and comprehensive methods in the subject matter area. Their expertise is specifically utilized in defining current and/or future structure and behavior of an organization’s processes, personnel, and sub-units to align them with the core and strategic goals and direction of an organization.

**Experience:** 12 years

**Education:** B.A. or B.S.
**SR. SYSTEMS ENGINEER**
Functional Responsibility: Leads the analysis and provides technical expertise in the areas of requirements gathering, design, data analytics, architecture, agile, development, database, security, and other IT related fields. Leads the implementation and configuration of platforms, systems, and software. Demonstrates and executes on requirements gathering that assist in the creation of workflow, organization, and planning for systems design, testing, integration, and modernization.

**Experience:** 10 years  
**Education:** B.A. or B.S.

**PROGRAM MANAGER I**
Functional Responsibility: As the team thought leader, organizes directs, and manages large contract operation support functions, involving multiple, complex, and inter-related project tasks. Demonstrates written and oral communication skills. Establishes and alters (as necessary) corporate management structure to direct effective contract support activities. Strong written and verbal communication skills and strong organizational skills are required.

**Experience:** 8 years  
**Education:** B.A. or B.S.

**PROJECT MANAGER I**
Functional Responsibility: As team or task leader, performs day-to-day management of assigned delivery order projects ensuring that projects are completed on time and under budget, forecasts monthly invoicing, and develops scope of work. Plans team resources that encompasses high performing teams composed of agile, data processing and other information system and management professionals who have previously been involved in analyzing, designing, integrating, testing, documenting, and implementing modernized information and/or telecommunications systems.

**Experience:** 5 years  
**Education:** B.A. or B.S.

**SR. CONSULTANT III**
Functional Responsibility: Leads in providing managerial, administrative and technical direction for requirements development and implementation for complete to extremely complex solutions. Makes determination on problem definition, analysis and requirements development. Advises on the preparation of analysis, evaluations, and recommendations of programs and systems that include: communications methodologies, information systems and analytics, agile lifecycle management, software development methodologies, risk management, modernization, and organization-wide impacting solutions.

**Experience:** 12 years  
**Education:** B.A. or B.S.

**ANALYST I**
Functional Responsibility: Leads or assists in the area of collecting, organizing and presenting information for proposals, reports, user manuals, installation guides and training materials. Creates and edits customer deliverables, special reports, functional documents, systems specifications, user manuals, policy documents, business architecture and system architecture documents, and agile software and lifecycle management manuals.

**Experience:** 2 years  
**Education:** A.A., A.S.

**HEALTH IT SUBJECT MATTER EXPERT**
Functional Responsibility: As the team thought leader in the health IT area, responsible for providing high-level vision to program/project manager or senior client leadership to influence
objectives of complex efforts. This IT and Industry focused experience includes technical, problem definition, managerial, analysis, administrative direction, requirements development, and implementation of complex to extremely complex systems and comprehensive methods in the subject matter area. Their expertise is specifically utilized in defining current and/or future structure and behavior of an organization’s processes, personnel, and sub-units to align them with the core and strategic goals and direction of an organization for health IT.

**Experience:** 12 years  
**Education:** B.A. or B.S.

**HEALTH IT SR. SYSTEMS ENGINEER**

Functional Responsibility: In the health IT area, leads the analysis and provides technical expertise in the areas of requirements gathering, design, data analytics, architecture, agile, development, database, security, and other IT related fields. Leads the implementation and configuration of platforms, systems, and software. Demonstrates and executes on requirements gathering that assist in the creation of workflow, organization, and planning for systems design, testing, integration, and modernization for health IT.

**Experience:** 10 years  
**Education:** B.A. or B.S.

**HEALTH IT PROGRAM MANAGER I**

Functional Responsibility: As the team thought leader health IT area, organizes directs, and manages large contract operation support functions, involving multiple, complex, and inter-related project tasks. Demonstrates written and oral communication skills. Establishes and alters (as necessary) corporate management structure to direct effective contract support activities. Strong written and verbal communication skills and strong organizational skills are required for health IT.

**Experience:** 8 years  
**Education:** B.A. or B.S.

**HEALTH IT PROJECT MANAGER I**

Functional Responsibility: As team or task leader health IT area, performs day-to-day management of assigned delivery order projects ensuring that projects are completed on time and under budget, forecasts monthly invoicing, and develops scope of work. Plans team resources that encompasses high performing teams composed of agile, data processing and other information system and management professionals who have previously been involved in analyzing, designing, integrating, testing, documenting, and implementing modernized information and/or telecommunications systems for health IT.

**Experience:** 5 years  
**Education:** B.A. or B.S.

**HEALTH IT SR. CONSULTANT III**

Functional Responsibility: Leads in providing health IT managerial, administrative and technical direction for requirements development and implementation for complete to extremely complex solutions. Makes determination on problem definition, analysis and requirements development. Advises on the preparation of analysis, evaluations, and recommendations of programs and systems that include: communications methodologies, information systems and analytics, agile lifecycle management, software development methodologies, risk management, modernization, and organization-wide health IT impacting solutions.

**Experience:** 12 years  
**Education:** B.A. or B.S.

**HEALTH IT ANALYST I**

Functional Responsibility: Leads or assists in the health IT area of collecting, organizing and
presenting information for proposals, reports, user manuals, installation guides and training materials. Creates and edits customer deliverables, special reports, functional documents, systems specifications, user manuals, policy documents, business architecture and system architecture documents, and agile software and lifecycle management manuals for health IT. 

**Experience:** 2 years  
**Education:** A.A., A.S.

**HACS SENIOR TECHNICAL ENGINEER**
**Experience:** 5 years  
**Education:** BA or BS

**HACS TECHNICAL CONSULTANT**
**Experience:** 3 years  
**Education:** BA or BS

**HACS JR. TECHNICAL CONSULTANT**
**Experience:** 2 years  
**Education:** BA or BS

**HACS SYSTEM/NETWORK ANALYST**
**Experience:** 4 years  
**Education:** BA or BS

**HACS TRAINER**
**Experience:** 3 years  
**Education:** BA or BS

**HACS SENIOR DEVELOPER**
Provide high level of technical expertise in: Requirement Gathering, Design, Database, Data Analytics, Architecture, Agile, Development, Testing, Documentation, Administration, Network, Engineering, Operations, Security, Infrastructure, situational awareness and incident response, information assurance, virus detection, 
**Experience:** 7 years  
**Education:** BA or BS

**HACS DEVELOPER**
Provide high level of technical expertise in: Requirement Gathering, Design, Database, Data Analytics, Architecture, Agile, Development, Testing, Documentation, Administration,

**Experience:** 5 years  
**Education:** AA or AS

**HACS TECHNICAL ARCHITECT/SUBJECT MATTER EXPERT**
Provide high-end technical expertise to provide innovative, cost-effective, and efficient IT solutions to an organization. Participates in or oversees the development, testing, and implementation of the technical solutions related to: Requirement Gathering, Design, Database, Data Analytics, Architecture, Agile, Development, Testing, Documentation, Administration, Network, Engineering, Operations, Security, Infrastructure Risk and Vulnerability Assessments, Cyber Hunt, Incident Response, and Penetration Testing, situational awareness and incident response

**Experience:** 12 years  
**Education:** BA or BS

**HACS SENIOR TECHNICAL ASSISTANT**
Provide technical or administrative support in: Requirement Gathering, Design, Database, Data Analytics, Architecture, Agile, Development, Testing, Documentation, Administration, Network, Engineering, Operations, Security, Infrastructure, virus detection, information assurance
