MULTIPLE AWARD SCHEDULE (MAS)

CATEGORY: INFORMATION TECHNOLOGY
SUBCATEGORY: IT SERVICES

SIN 54151S  Information Technology Professional Services

IT Professional Services and/or labor categories for database planning and design; systems analysis, integration, and design; programming, conversion and implementation support; network services, data/records management, and testing.

The Contractor shall not resell IT Professional Services, except that IT professional services may only be resold in direct support of products that are authorized to be sold via the schedule contract, e.g. SIN 54151 - Software Maintenance Services that supports SIN 511210 - Software Licenses. (This does not include SINs within the IT Services Subcategory).

NOTE: Subject to Cooperative Purchasing

FSC/PSC Code: D399

CATEGORY: PROFESSIONAL SERVICES
SUBCATEGORY: BUSINESS ADMINISTRATIVE SERVICES

SIN 541611  Management and Financial Consulting, Acquisition and Grants Management Support, and Business Program and Project Management Services

Provide operating advice and assistance on administrative and management issues. Examples include: strategic and organizational planning, business process improvement, acquisition and grants management support, facilitation, surveys, assessment and improvement of financial management systems, financial reporting and analysis, due diligence in validating an agency’s portfolio of assets and related support services, strategic financial planning, financial policy formulation and development, special cost studies, actuarial services, economic and regulatory analysis, benchmarking and program metrics, and business program and project management.

FSC/PSC Code: R408
OLMs are supplies and/or services acquired in direct support of an individual task or delivery order placed against a Schedule contract or BPA. OLM pricing is not established at the Schedule contract or BPA level, but at the order level. Since OLMs are identified and acquired at the order level, the ordering contracting officer (OCO) is responsible for making a fair and reasonable price determination for all OLMs.

OLMs are procured under a special ordering procedure that simplifies the process for acquiring supplies and services necessary to support individual task or delivery orders placed against a Schedule contract or BPA. Using this new procedure, ancillary supplies and services not known at the time of the Schedule award may be included and priced at the order level.

OLM SIN-Level Requirements/Ordering Instructions:

OLMs are:

- Purchased under the authority of the FSS Program
- Unknown until an order is placed
- Defined and priced at the ordering activity level in accordance with GSAR clause 552.238-115 Special Ordering

Procedures for the Acquisition of Order-Level Materials. (Price analysis for OLMs is not conducted when awarding the FSS contract or FSS BPA; therefore, GSAR 538.270 and 538.271 do not apply to OLMs)

- Only authorized for use in direct support of another awarded SIN.
- Only authorized for inclusion at the order level under a Time-and-Materials (T&M) or Labor-Hour (LH) Contract Line Item Number (CLIN)
- Subject to a Not To Exceed (NTE) ceiling price

OLMs are not:

- "Open Market Items"
- Items awarded under ancillary supplies/services or other direct cost (ODC) SINs (these items are defined, priced, and awarded at the FSS contract level)

OLM Pricing:

- Prices for items provided under the Order-Level Materials SIN must be inclusive of the Industrial Funding Fee (IFF).
- The value of OLMs in a task or delivery order, or the cumulative value of OLMs in orders against a FSS BPA awarded under an FSS contract, cannot exceed 33.33%.

NOTE: When used in conjunction with a Cooperative Purchasing eligible SIN, this SIN is Cooperative Purchasing Eligible.

NOTE: Subject to Cooperative Purchasing

FSC/PSC Code: 0000

</tr>
</tbody>
</table>

1c. Identification of Services and Hourly Rates:

See Pages 9 through 15, below.

2. Maximum Order:

$500,000

3. Minimum Order:

$100.00

4. Geographic Coverage (delivery Area):

Domestic, 50 States, DC, Puerto Rico, and U.S. Territories

5. Point(s) of production (city, county, and state or foreign country):

Ashburn, Virginia

6. Discount from list prices or statement of net price:

The GSA Net Prices published on the GSA Advantage website reflect the fully burdened price. The negotiated discount has been applied and the Industrial Funding Fee has been added.

7. Quantity Discounts:

Not Applicable

8. Prompt Payment Terms:
None

Information for Ordering Offices: Prompt Payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9. Foreign items (list items by country of origin):

Not Applicable

10a. Time of Delivery (Contractor insert number of days):

Specified on the Task Order

10b. Expedited Delivery.

The Contractor will insert the sentence “Items available for expedited delivery are noted in this price list.” under this heading. The Contractor may use a symbol of its choosing to highlight items in its price list that have expedited delivery:

Please contact the Contractor for availability and rates.

10c. Overnight and 2-day delivery.

The Contractor will indicate whether overnight and 2-day delivery are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery:

Please contact the Contractor for availability and rates.

10d. Urgent Requirements.

The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor’s representative to effect a faster delivery:

Ordering Activities can contact the Contractor’s Representative for the purpose of requesting accelerated delivery to meet urgent requirements.

11. F.O.B Points(s):

Destination

12a. Ordering Address(es):

Steve Sergi
Warriors Recruiting, LLC.
19775 Belmont Executive Plaza

Not Applicable.

22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor’s website or other location.)

The definition of EIT and the accessibility standards were developed by the Access Board. These standards, requirement exceptions, the FAR rule and a wealth of other information regarding the Federal IT Accessibility Initiative can be found at www.section508.gov. The accessibility standards also can be found at 36 CFR Part 1194.

23. Unique Entity Identifier (UEI) number:

078298687

24. Notification regarding registration in System for Award Management (SAM) database:

Contractor has a current registration in SAM.
Lab Manager – Lab Manager ensures efficient and effective departmental operations, including department quality control and compliance adherence. Plans and implements the overall laboratory policies, procedures, and services for a unit and/or shift. Typically manages through subordinate managers and professionals in larger groups of moderate complexity. Provides input to strategic decisions that affect the functional area of responsibility. May give input into developing the budget. Capable of resolving escalated issues arising from operations and requiring coordination with other departments.

Minimum Education – Bachelor’s Degree in related field or equivalent.
Minimum/General Experience – 3 years

QA Test Engineer - Improve reliability of new product development processes, maintain company quality standards, or review products, processes and systems on an ongoing basis to determine where improvements can be made. May develop and implement quality control methodologies to ensure compliance with quality assurance standards, guidelines, and procedures; develop and define major and minor characteristics of quality including quality metrics and scoring parameters and determines requisite quality control resources for an actual task order; establish and maintain a process for evaluating hardware, software, and associated documentation and/or assist in the evaluation; conduct and/or participate in formal and informal reviews at pre-determined points throughout the development life cycle.

Minimum Education – Bachelor’s Degree in related field or equivalent.
Minimum/General Experience – 3 years

Test Automation Engineer – Perform manual and automated testing of web applications and back-end data processes for a big data and analytics platform. Work with architects and developers to define test approach, prepare test data, develop manual or automated test scripts using automated testing tools and frameworks (e.g. UFT), and validate that software meets requirements / acceptance criteria. Execute automated regression testing. Support production deployment and validations. Support production application - perform data quality checks; investigate production inquiries and issues. Work on sprint team in agile, rapid development and deployment environment. Communicate status to team lead / project oversight.

Minimum Education - Bachelor’s Degree in related field or equivalent.
Minimum/General Experience – 5 years

Configuration Manager - Responsible for maintenance and continuous improvement of the process, working methods and tools, including configuration management of computer systems, networks and their configurations, workstations and their configuration, software development activity, performance tool development and distribution, and applications distribution. Configuration change tracking and documentation control to include, but not limited to concepts of operation, requirements
identification and documentation, preliminary and detailed system definition, system design review, performance monitoring tools and production software. Ensure the CM process is introduced and implemented according to guidelines from the process owner.

Minimum Education – Bachelor’s degree in Computer Science or a related IT field or equivalent.
Minimum/General Experience - 5 years

**Software Development Business Analyst** – Under broad guidance, analyzes, designs, programs, debugs, modifies, and maintains software enhancements and/or new products used in local, networked, or Internet-related computer programs. Prepares feasibility studies to evaluate requirements for new and revised programs. Translates detailed design specifications into computer program instructions, debugs routine programs, prepares system test data and prepares program documentation. Completes documentation and procedures for installation and maintenance. Implements features using Java to extend built-in application functionality based on customer requirements. Builds scalable solutions that handle large, complex datasets in relational database environments. Takes part in our agile development process (scrum) with plenty of interaction with end-users. Writes clean, extensible, well-documented code that’s built to last in both validated and non-validated environments.

Minimum Education – Bachelor’s degree in Computer Science or a related IT field or equivalent.
Minimum/General Experience - 2 years

**Business Analyst II** - Support budget formulation: research and compile budget data. Develop estimates and justifications. Identify operational cost. Develop annual budget work plans and schedules. Take initiative to engage cross team personnel in meeting product deliverables, creating reports to display progress gained or lost within projects, lead initiatives to completion with little supervision, implement critical thinking and problem solving skills to clear potential or realized blockers.

Minimum Education – Bachelor’s degree in Computer Science or a related IT field or equivalent.
Minimum/General Experience – 4 years

**Software Developer** – Developing new software applications in partnership with business analysts and technical architects. Upgrading existing software as the user organization’s needs change. Localizing software products for different international markets. Testing software to ensure the code is correct, fixing (‘debugging’) errors where they occur, and rerunning and rechecking the program until it produces the correct results. Working with trainers and technical writers to develop user support materials.

Minimum Education – Bachelor’s degree in Computer Science or a related IT field or equivalent.
Minimum/General Experience - 5 years
Sr Product Manager – Develops new software product concepts, designs, and/or enhancements to existing product design that reflect market and user requirements. Conducts research and develops a good understanding of the customer's needs, new technologies, trends in the market, and competitors. Develops requirements documents, functional specifications, and mock-ups to clearly illustrate product ideas and concepts. Develops business plan for products and participates in all phases of the product development lifecycle, including analysis, design, testing, and integration of products as well as the introduction of products to the market. Works on cross-functional team to translate customer needs and technology directions into product definitions.

Minimum Education - Bachelor’s degree in Computer Science or a related IT field or equivalent. Minimum/General Experience – 7 years

Cloud Systems Database Admin - Provides all activities related to the administration of computerized databases. Projects long-range requirements for database administration and design in conjunction with other managers in the information systems function. Designs, creates, and maintains databases in a client/server environment. Conducts quality control and auditing of databases in a client/server environment to ensure accurate and appropriate use of data. Advises users on access to various client/server databases. Designs, implements, and maintains complex databases with respect to JCL, access methods, access time, device allocation, validation checks, organization, protection and security, documentation, and statistical methods. Applies knowledge and experience with database technologies, development methodologies, and front-end /back-end programming languages (e.g., SQL). Performs database programming and supports systems design. Includes maintenance of database dictionaries, overall monitoring of standards and procedures, file design and storage, and integration of systems through database design.

Minimum Education - Bachelor’s degree in Computer Science or a related IT field or equivalent. Minimum/General Experience – 5 years

Cloud Systems Admin - Developmental maintains and supports the integrity of the operating system environment and various computer systems. Administers, installs, and troubleshoots a variety of operating systems. Being a Systems Administrator, performs systems maintenance tasks, such as system back-up, recovery, and file maintenance. Schedules, installs, and tests system software upgrades. Additionally, Systems Administrator configures software and resolves technical problems. Monitors and maintains software licensing and maintenance agreements. Typically reports to a project leader or manager. Occasionally directed in several aspects of the work.

Minimum Education - Bachelor’s degree in Computer Science or a related IT field or equivalent. Minimum/General Experience – 1 year

Senior Audit Associate I - Assists in the design and administration of audit policy and procedure. Oversees the auditing of accounting and financial data of various departments within an organization; coordinates projects with external auditors. Writes reports on how to improve finance, operation, and management processes and systems. Additionally, manages subordinate staff in the day-to-day performance of their jobs. Ensures that project/department milestones/goals are met and adhering to
approved budgets. Has full authority for personnel actions. Extensive knowledge of department processes

Minimum Education - Bachelor’s Degree in related field or equivalent.
Minimum/General Experience - 5 years

SharePoint Administrator - Build all-in-one SharePoint VMs for developer environments; Run system health checks and diagnostic tools; Provide support for access requests, Site collection manager; Ensure compliance with established governance policies; Install and configure SharePoint Server on a multiple server farm; Install patches and cumulative updates on a multiple server farm; Install and update third party tools and custom features on a multiple server farm; Maintain system health; Troubleshoot reported issues based on correlation ID; Troubleshoot common issues with SharePoint Service Applications including Search and the User Profile Service; Work with Microsoft Support Services on escalated items such as possible product bugs; Write common PowerShell scripts to modify configurations; Manage content databases from SQL Management Studio, Audit security; Move site collections from staging to production.

Minimum Education – Bachelor’s Degree in related field or equivalent.
Minimum/General Experience – 5 years

SharePoint Developer - Use Visual Studio to develop custom SharePoint features in C#; Create Visual Studio solutions that contain unit tests Implement full exception handling and SharePoint logging in features; Use source control to manage changes to custom solutions Create install, update, and uninstall scripts to assist custom solution deployment; Store and re-run unit tests to avoid regressions in future releases (re-evaluate); Develop the following custom components as features: web parts, event receivers, lists, libraries, and content types; Interpret issue reports and create unit tests to reproduce the issue in a development environment; Build CAML queries in code Access and modify large lists / libraries; Use the appropriate classes and methods from SharePoint object model; Consume SharePoint web services for cross-farm / cross-web application operations.

Minimum Education – Bachelor’s Degree in related field or equivalent.
Minimum/General Experience – 5 years

Sr SharePoint Developer - Use Visual Studio to develop custom SharePoint features in C#; Create Visual Studio solutions that contain unit tests Implement full exception handling and SharePoint logging in features; Use source control to manage changes to custom solutions Create install, update, and uninstall scripts to assist custom solution deployment; Store and re-run unit tests to avoid regressions in future releases (re-evaluate); Develop the following custom components as features: web parts, event receivers, lists, libraries, and content types; Interpret issue reports and create unit tests to reproduce the issue in a development environment; Build CAML queries in code Access and modify large lists / libraries; Use the appropriate classes and methods from SharePoint object model; Consume SharePoint web services for cross-farm / cross-web application operations; Develop the following custom components as features: timer jobs, web services, and authentication providers;
Write complex PowerShell scripts to modify content and configurations in existing sites; Build solutions based on SharePoint App Model Implement appropriate design pattern for business problem.

Minimum Education – Bachelor’s Degree in related field or equivalent.
Minimum/General Experience – 7 years

Program Support Specialist – Experience working on a team or in an office environment under the guidance of a Project Manager/Leader. Will assist Project Manager by scheduling meetings; booking meeting rooms; coordinating travel arrangements including booking travel tickets and settlement of related expenses; preparing and distributing minutes of meetings; maintenance and ordering of office supplies. Will be able to work with minimal supervision, multitask effectively as well as utilize independent judgment, and have the initiative to take on new tasks and challenges. Will possess technical skills and be proficient in the use of Adobe, Word, Excel, Outlook, and SharePoint. Will be familiar with required inputs and outputs for each project phase. Will be able to provide project status with little effort.

Minimum Education – High School Diploma
Minimum/General Experience – 5 years

Executive Assistant – Experience working in an office environment. Will assist management by producing information by transcribing, formatting, inputting, editing, retrieving, copying, and transmitting text, data, and graphics. Will read, research, and route technical correspondence. Will draft letters and documents and collect and analyze information. Will maintain executive's appointment schedule by planning and scheduling meetings, conferences, teleconferences, and travel. Will represent the executive by attending meetings in the executive's absence, speaking for the executive. Will welcome guests and customers by greeting them, in person or on the telephone, answering or directing inquiries. Will maintain customer confidence and protects operations by keeping information confidential. Will complete projects by assigning work to clerical staff and follow up on results.

Minimum Education – High School Diploma
Minimum/General Experience – 2 years
CRITERIA FOR EXPERIENCE/EDUCATION SUBSTITUTIONS

Due to the availability or limitation of education, occasionally, substitution of experience (as referenced below) for a professional labor type with additional years of experience will be provided to the Federal Agency when responding to their IT requirements and it is solely the acquiring agency’s determination if the substitution is considered acceptable prior to an award. Additional education over the minimum required in any labor category may be substituted for required experience as follows:

<table>
<thead>
<tr>
<th>Required Education</th>
<th>Actual Education</th>
<th>Credit for Additional Experience (Years)</th>

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).
The use of the Order Level Materials (OLM) SIN is limited to 59 OLM-eligible subcategories under the MAS program. Supplies and/or services provided utilizing OLM authority must be acquired in direct support of an individual task or delivery order that is placed under an OLM-eligible subcategory as identified below:

1) Apparel
2) Audio Visual Products
3) Audio Visual Services
4) Awards
5) Background Investigations
6) Business Administrative Services
7) Compensation and Benefits
8) Document Services
9) Electronic Commerce
10) Environmental Services
11) Facilities Maintenance and Repair
12) Facilities Services
13) Facilities Solutions
14) Financial Services
15) Fire/Rescue/Safety/Environmental Protection Equipment
16) Fitness Solutions.
17) Flags
18) Flooring
19) Fuel Management
20) Furniture Services
21) Healthcare Furniture
22) Household, Dormitory & Quarters Furniture
23) Human Resources
24) Identity Protection Services
25) Industrial Products
26) Industrial Products and Services Maintenance and Repair
27) IT Hardware
28) IT Services
29) IT Software
30) IT Solutions
