1. All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

2. Offeror’s and Agencies are advised that the Group MAS - Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services

3. This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision of implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances, the services must be performance by the publisher or manufacturer or one of their authorized agents.

1d. Description of All Labor Categories:

**Health Software Engineer III**
Seven (7) years of experience is required for the Software Engineer III. They are responsible for activities such as program design, coding, testing, debugging or documentation of medical data. This individual has technical knowledge and responsibility of all phases of applications systems analysis and programming. Understands the business or function for which application is designed. The Programmer may
  • Write programs according to specifications, which may be provided by Engineers, technical architects, or other computer scientists
  • Update, repair, modify and expand existing computer programs.
Level 3 is competent in healthcare subject matter and concepts and may lead individuals assisting in the work
Education: Bachelor of Sciences degree in engineering, physics, computer science, information security or other technically oriented curricula
Experience: 7 Years

**Health Subject Matter Expert IV**
The Subject Matter Expert V has twelve (12) years of industry experience in the relevant subject matter. This individual will use information technology expertise and/or healthcare industry focus expertise in fulfilling the interpreted customer specification. The Subject Matter Expert V is an highly experienced in the industry with regard to information technology. The Subject Matter Expert V provides thought leadership related to current and future customer plans with regard to the stated information technology.
Education: Bachelor’s Degree
Experience: 12 Years
Health Quality Assurance Engineer II
Five (5) years of experience is required for the Quality Assurance Engineer II. They perform inspections and sets quality assurance testing models for analysis of finished products and current healthcare data systems.

- Defining and documenting the organization's set of standard processes collaboratively with team members
- Reviewing existing processes, tools, and documents that support the Core Competencies, and providing suggested improvements.
- Establishing quality assurance practices that improve the quality of services.
- Providing periodic reports on the status of process initiatives to company senior management and internal and external customers.
- Conductiong process compliance audits, evaluating process effectiveness, and developing corrective actions.
- Consulting with company senior management, project managers, and external customers regarding process improvement initiatives.
- Perform debugging and root cause analysis of product issues or defects.
- Evangelizing new testing methodologies, best practices, and tools with goals to continuously improve test coverage.
- Work closely with developers in all phases of SDLC to build quality into our development process.

Level 2 performs more varied and difficult tasks compared to Level 1, yet has less autonomy than Level 3.

Education: Bachelor's Degree
Experience: 5 Years

Health Test Engineer III
Eight (8) years of experience is required for the Health Test Engineer III. They review, develop, and execute Test Plans and develop Test Reports, which document the results of unit, system, performance, and functionality tests. Performed testing on healthcare software, hardware, and system integration and regression. Develops test plans and suites, including test cases and procedures. Executes test plans and logs test results. Identifies and logs any defects, prioritizes them, and recommends fixes. Develops automation tools for testing. Setups and maintains test systems. Interacts with hardware and software engineers/developers.

Education: Bachelor's Degree
Experience: 8 Years

Healthcare Data Scientist II
Five (5) years of experience is required for the Data Scientist II. They work with stakeholders throughout the organization to identify opportunities for leveraging company data to drive business solutions. Mine and analyze data from company healthcare databases to drive optimization and improvement of product development, marketing techniques and business strategies. Assess the effectiveness and accuracy of new data sources and data gathering techniques. Develop custom data models and algorithms to apply to data sets. Use predictive modeling to increase and optimize customer experiences, revenue generation, ad targeting and other business outcomes. Develop company A/B testing framework and test model quality. Coordinate with different functional teams to implement models and monitor outcomes. Develop processes and tools to monitor and analyze model performance and data accuracy.

Education: BS degree in Engineering, Physics, Network Security, or Computer Science.
Experience: 5 Years

Subject Matter Expert III
The Subject Matter Expert III has nine (9) years of industry experience. This individual will use information technology expertise and/or industry focus expertise in fulfilling the interpreted customer specification. The Subject Matter Expert III is a highly experienced in the industry with regard to information technology. The Subject Matter Expert III provides executive knowledge and insight related to current and future customer plans with regard to the stated information technology, (FAR) and DoD procurement policies and procedures. Note:

Experience may be concurrent
Education: Bachelor’s degree
Experience: 9 Years

Project Manager I
Eight (8) years of experience is required for the Project Manager. They manage, plan and coordinate activities of projects. This individual reviews project proposals or plans to determine schedule, funding limitations, procedures for accomplishing projects, staffing requirements and allotment of available resources to various phases of projects. The Project Manager establishes work plans, procedures to ensure all tasks are performed in accordance with all applicable standards, and coordinates staffing for each phase of project and arranges for recruitment or
assignment of project personnel. The Project Manager identifies functional or crossfunctional requirements and resources required for each task. May prepare reports and deliver briefings on the status of project.

Education: Bachelor’s Degree.
Experience: 8 Years

**Quality Assurance Engineer III**

Seven (7) Years of experience is required for the Quality Assurance Engineer III. This individual performs inspections on systems, test for vulnerabilities and sets quality assurance testing models for analysis of finished products.

- Defining and documenting the organization’s set of standard processes collaboratively with team members
- Reviewing existing processes, tools, and documents that support the Core Competencies, and providing suggested improvements.
- Establishing quality assurance practices that improve the quality of services.
- Providing periodic reports on the status of process initiatives to company senior management and internal and external customers.
- Conducting process compliance audits, evaluating process effectiveness, and developing corrective actions.
- Consulting with company senior management, project managers, and external customers regarding process improvement initiatives.
- Performs the debugging and root cause analysis of product issues or defects.
- Evangelize new testing methodologies, best practices and tools with goals to continuously improve test coverage.
- Work closely with developers in all phases of SDLC to build quality into our development process

Education: Bachelor’s degree
Experience: 7 Years

2. **Maximum order:**
- OLM, OLM/RC - $250,000
- 54151HEAL/RC - $500,000
- 54151S/RC - $500,000

3. **Minimum order:**
- $100.00

4. **Geographic coverage (delivery area):**

Domestic Delivery Only (the 48 contiguous states, D.C., Hawaii, Alaska, and US Territories). Domestic Delivery also includes a port of consolidation point, within the aforementioned areas, for orders received from overseas activities.
5. Point(s) of production (city, county, and State or foreign country).
   Red Pulley Technology Solutions, Inc.
   3120 Fairview Park Drive, Suite 800
   Falls Church, VA 22042

6. Discount from list prices or statement of net price.
   Prices are listed as GSA Net. Discount deducted and IFF included.

7. Quantity Discounts:
   None

8. Prompt payment terms:
   Net 30. “Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.”

9. Foreign Items (list items by country of origin):
   Not Applicable

10a. Time of Delivery: (Contractor insert number of days.)
   Red Pulley Technology Solutions, Inc. will adhere to the delivery schedule stipulated in each delivery order and/or delivery order amendment.

10b. Expedited Delivery:
   See Urgent Requirements (11d) below.

10c. Overnight and 2-day delivery:
   See Urgent Requirements (11d) below.

10d. Urgent Requirements:
   When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent requirements of an ordering activity, ordering activities are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing). If the Contractor offers an accelerated delivery time acceptable to the ordering activity, and order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

11. F.O.B. point(s):
   Destination, Point of Exportation

12a. Ordering address(es):
   Red Pulley Technology Solutions, Inc.
   3120 Fairview Park Drive, Suite 800
   Falls Church, VA 22042

12b. Ordering procedures:
   For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address(es).
   Red Pulley Technology Solutions Inc.
   3120 Fairview Park Drive, Suite 800
   Falls Church, VA 22042
