CUSTOMER INFORMATION

1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s).

<table>
<thead>
<tr>
<th>SINs</th>
<th>Recovery</th>
<th>SIN Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>54151S</td>
<td>54151SRC</td>
<td>Health Information Technology Services</td>
</tr>
<tr>
<td>OLM</td>
<td>OLMSTLOC OLMRC</td>
<td>Order-Level Materials (OLM’s)</td>
</tr>
</tbody>
</table>

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. See rates on page 7.

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item. See Labor category descriptions starting on page 4.

2. Maximum order:

<table>
<thead>
<tr>
<th>SINs</th>
<th>Maximum Order</th>
</tr>
</thead>
<tbody>
<tr>
<td>54151HEAL</td>
<td>$500,000</td>
</tr>
<tr>
<td>OLM</td>
<td>$250,000</td>
</tr>
</tbody>
</table>

3. Minimum order: $100

4. Geographic coverage (delivery area). Worldwide

5. Point(s) of production (city, county, and State or foreign country). Same as contractor address

6. Discount from list prices or statement of net price. Government Net Prices (discounts already deducted.)

7. Quantity discounts. None

8. Prompt payment terms. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions. Net 30 days

9. Foreign items (list items by country of origin). Not Applicable

10a. Time of delivery. (Contractor insert number of days.) To Be Determined at the Task Order level
10b. Expedited Delivery. Items available for expedited delivery are noted in this price list. To Be Determined at the Task Order level

10c. Overnight and 2-day delivery. To Be Determined at the Task Order level

10d. Urgent Requirements. To Be Determined at the Task Order level

11. F.O.B. point(s). Destination

12a. Ordering address(es). Same as contractor address

12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address(es). Same as contractor address

14. Warranty provision. Standard Commercial Warranty

15. Export packing charges, if applicable. Not Applicable

16. Terms and conditions of rental, maintenance, and repair (if applicable). Not Applicable

17. Terms and conditions of installation (if applicable). Not Applicable

18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). Not Applicable

18b. Terms and conditions for any other services (if applicable). Not Applicable

19. List of service and distribution points (if applicable). Not Applicable

20. List of participating dealers (if applicable). Not Applicable

21. Preventive maintenance (if applicable). Not Applicable

22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). Not Applicable

22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor’s website or other location.) The EIT standards can be found at: www.Section508.gov/. Not Applicable

23. Unique Entity Identifier (UEI) number. NLLHMLKNM3M7

24. Notification regarding registration in System for Award Management (SAM) database. Contractor registered and active in SAM
Sr. Project Manager
Functional Responsibilities: The role of the Senior Project Manager is to plan, execute, and finalize projects according to strict deadlines and within budget. This includes acquiring resources and coordinating the efforts of team members and third-party contractors or consultants in order to deliver projects according to plan. The Project Manager will also define the project's objectives and oversee quality control throughout its life cycle.
Minimum Education: Bachelors
Minimum Experience: 15

Technical Architect
Functional Responsibilities: The Systems Architect's role is to strategically design and implement in-house information systems and networked software architectures that support core organizational functions, and assure their high availability. This individual will gain organizational commitment for all systems and software plans, as well as evaluate and select all technologies required to complete those plans. In addition, the Systems Architect provides technical leadership across the organization, from strategic decision making down to the project planning level.
Minimum Education: Bachelors
Minimum Experience: 15

Quality Assurance Manager
Functional Responsibilities: The Quality Assurance Manager's role is to develop, establish, and enforce quality assurance standards and measures for the information technology services within the organization. Overseeing a contingent of QA Analysts, Software Application Testers, and QA Developer, this individual shall direct research and development in support of business cases, proposed projects, and systems requirements over the course of software development lifecycles. The QA Manager shall apply proven analytical and problem-solving skills to help validate IT processes through careful testing in order to maximize the benefit of business investments in IT initiatives.
Minimum Education: Bachelors
Minimum Experience: 15

Senior Requirements Analyst
Functional Responsibilities: The Senior Business Requirements Analyst's role is to elicit, analyze, specify, and validate the business needs of project stakeholders, be they customers or end-users. This includes interviewing stakeholders and gathering and compiling user requirements to convey to development teams throughout the software lifecycle. This Business Requirements Analyst shall also apply proven communication, analytical, and problem-solving
skills to help support the development process, and to ensure that project deliverables are met according to specifications.

Minimum Education: Bachelors
Minimum Experience: 7

**Senior Developer**

Functional Responsibilities: The senior developer's role is to design, code, test, and analyze software programs and applications. This includes researching, designing, documenting, and modifying software specifications throughout the production lifecycle. The software developer shall also analyze and amend software errors in a timely and accurate fashion and provide status reports where required. May also lead the design and implement databases across the organization, while ensuring high levels of data availability. This individual may also be responsible for defining standards and models for database architectures. May evaluate and select all technology components, such as software, hardware, and networking capabilities, for database management systems and applications.

Minimum Education: Bachelors
Minimum Experience: 7

**Developer**

Functional Responsibilities: The developer's role is to design, code, test, and analyze software programs and applications. This includes researching, designing, documenting, and modifying software specifications throughout the production lifecycle. The software developer shall also analyze and amend software errors in a timely and accurate fashion and provide status reports where required. May also design and implement databases across the organization, while ensuring high levels of data availability. This individual is also responsible for defining standards and models for database architectures.

Minimum Education: Bachelors
Minimum Experience: 2

**Senior QA Analyst**

Functional Responsibilities: The Senior Quality Assurance Analyst's role is to develop and establish quality assurance standards and measures for the information technology services within the organization. This individual shall also gather and analyze data in support of business cases, proposed projects, and systems requirements. This shall include writing test plans and scripts for tracking defects and fixes in product development, software application development, information systems, and operations systems. The QA Analyst shall apply proven analytical and problem-solving skills to help validate IT processes through careful testing in order to maximize the benefit of business investments in IT initiatives.

Minimum Education: Bachelors
Minimum Experience: 7
**QA Analysts**

**Functional Responsibilities:** The Quality Assurance Analyst's role is to develop and establish quality assurance standards and measures for the information technology services within the organization. This individual shall also gather and analyze data in support of business cases, proposed projects, and systems requirements. This shall include writing test plans and scripts for tracking defects and fixes in product development, software application development, information systems, and operations systems. The QA Analyst shall apply proven analytical and problem-solving skills to help validate IT processes through careful testing in order to maximize the benefit of business investments in IT initiatives.

Minimum Education: Bachelors
Minimum Experience: 2

**Senior QA Developer**

**Functional Responsibilities:** The Senior QA developer's role is to design, code, configure, test, and analyze software programs and applications designed to test other software. This includes researching, designing, documenting, and modifying software throughout the production lifecycle. The QA developer shall also analyze and amend software errors in a timely and accurate fashion and provide status reports where required.

Minimum Education: Bachelors
Minimum Experience: 5

**DevOps Support Engineer**

**Functional Responsibilities:** Works with developers, quality assurance, support and customers to oversee code releases and deployment of cloud infrastructure, combining an understanding of systems architecture, coding and the software development lifecycle. They are responsible for ensuring the stability, integrity/security, and efficient operation of information systems used internally or by customers. This is achieved by monitoring, maintaining, supporting, and optimizing all cloud accounts, networked software and associated operating systems.

Minimum Education: Bachelors
Minimum Experience: 4

**Service Contract Labor Standards:** The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule (MAS) and all services provided. While no specific labor categories have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS/SCA eligible labor categories. If and / or when the contractor adds SCLS/SCA labor categories to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS/SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
