Prices Shown Herein are Net (discount deducted)

CUSTOMER INFORMATION

1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s).

SINs	Recovery	SIN Title
54151S	54151SRC	Information Technology Professional Services
518210C	518210CRC	Cloud Computing and Cloud Related IT Professional Services
OLM	OLMSTLOC OLMRC	Order-Level Materials (OLM's)

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. See Page 4

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility, and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate "Not applicable" for this item. See Page 4

2. Maximum order:

SINs	Maximum Order
54151S	\$500,000
518210C	\$500,000
OLM	\$250,000

3. Minimum order: \$100

4. Geographic coverage (delivery area). V - 48 States, DC

5. Point(s) of production (city, county, and State or foreign country). 10560 Main Street, PS140, Fairfax, VA 22030

6. Discount from list prices or statement of net price. Government Net Prices (discounts already deducted.)

7. Quantity discounts. 1% for orders over \$250,000

8. Prompt payment terms. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions. Net 30 days

9. Foreign items (list items by country of origin). Not Applicable

- 10a. Time of delivery. (Contractor insert number of days.) Contact Contractor or To Be Determined at the Task Order level.
- 10b. Expedited Delivery. Items available for expedited delivery are noted in this price list. Contact Contractor or To Be Determined at the Task Order level.
- 10c. Overnight and 2-day delivery. Contact Contractor or To Be Determined at the Task Order level.
- 10d. Urgent Requirements. Contact Contractor or To Be Determined at the Task Order level.
11. F.O.B. point(s). 10560 Main Street, PS140, Fairfax, VA 22030
- 12a. Ordering address(es). 10560 Main Street, PS140, Fairfax, VA 22030
- 12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.
13. Payment address(es). 10560 Main Street, PS140, Fairfax, VA 22030
14. Warranty provision. Standard Commercial Warranty Terms & Conditions
15. Export packing charges, if applicable. Not Applicable
16. Terms and conditions of rental, maintenance, and repair (if applicable). Not Applicable
17. Terms and conditions of installation (if applicable). Not Applicable
- 18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). Not Applicable
- 18b. Terms and conditions for any other services (if applicable). Not Applicable
19. List of service and distribution points (if applicable). Not Applicable
20. List of participating dealers (if applicable). Not Applicable
21. Preventive maintenance (if applicable). Not Applicable
- 22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). Not Applicable
- 22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location.) The EIT standards can be found at: www.Section508.gov/.
Not Applicable
23. Unique Entity Identifier (UEI) number. ZX1GFA6715J3

24. Notification regarding registration in System for Award Management (SAM) database.

SIN/SIN(s)	Labor Category	GSA Pricing	Unit of Price
54151S, 518210C	Program Manager	\$126.36	Hour
54151S	Project Manager II	\$110.59	Hour
54151S	Business Systems Analyst	\$80.05	Hour
54151S	Senior Software Developer	\$119.65	Hour
54151S	Service Desk Manager	\$123.03	Hour
54151S	Database Administrator, Mid	\$89.77	Hour
54151S	Data Analyst	\$88.54	Hour
54151S, 518210C	Network Engineer	\$101.39	Hour
54151S, 518210C	Systems Security Specialist	\$112.85	Hour
54151S, 518210C	Systems Administrator, Mid	\$89.49	Hour
54151S, 518210C	Systems Administrator, Senior	\$108.13	Hour
54151S	Technical Writer	\$80.12	Hour

Labor Category	Description	Minimum Education	Minimum Years of Experience
Program Manager	Performs day-to-day program management of overall contract support operations, possibly involving multiple projects and groups of personnel at multiple locations. Organizes, directs, and coordinates the planning and production of all contract support activities. Demonstrates written and oral communication skills. At least eight (8) years of direct supervision of IT software development, Infrastructure as a Service (IaaS), Platform as a Service (PaaS) integration, maintenance projects, and/or telecommunications systems. Must be capable of leading projects that involve the successful management of teams composed of data processing and other information management professionals who have been involved in analysis, design, integration, testing, documenting, converting, extending, and implementing automated information and/or telecommunications systems.	Bachelor's degree in related Business or relevant field; MA/MS in related field or MBA is highly preferred.	8
Project Manager II	Manages small projects or single tasks on large, complex projects. Schedules and assigns duties to subordinates and subcontractors and ensures assignments are completed as directed. Ensures compliance with contract requirements. May be a senior technical expert who provides advice, design, and development on complex technical tasks. Leads software projects on a variety of software platforms. Skills should include cost and budget management, risk management, resource management and very strong customer interfacing abilities. Must be strong at creating and verifying software project documentation including systems requirements, systems designs, test plans, and project reviews. Works independently without direct supervision. Must possess strong written and oral communication skills to ensure effective interaction with customers and project team members.	Bachelor's degree in Computer Science, Information Systems, Business, or a related discipline.	6
Business Systems Analyst	Reviews, analyzes, and evaluates business systems and user needs. Documents requirements, defines scope and objectives, and formulates systems to parallel overall business strategies. Familiar with relational database concepts, and client-server concepts. Relies on experience and judgment to plan and accomplish goals. Performs a variety of tasks. Works under general supervision. A certain degree of creativity and latitude is required. Typically reports to a manager.	Bachelor's degree in Computer Science, Information Systems, Business, or a related discipline.	4

Senior Software Developer	Analyzes and studies complex system requirements. Designs software tools and subsystems to support software reuse and domain analyses and manages their implementation. Manages software development and support using formal specifications, data flow diagrams, and other accepted design techniques. Interprets software requirements and design specifications to code, and integrates and tests software components. Estimates software development costs and schedule. May supervise a staff of programmers and/or other engineers. Works independently without direct supervision.	Bachelor's degree in relevant field.	7
Service Desk Manager	Provides help desk support to applications and systems being developed. Direct and supervise staff providing call center support, service desk support, and switchboard operations support. Manages and supervises the overall functioning of the help desk operations.	Bachelor's degree in relevant field.	7
Database Administrator, Mid	Provide technical expertise in the design of database structures. The Database Administrator shall have experience in the logical design of database structure. This includes record content and record to record (set) relationships to achieve a desired information processing goal. The individual shall have experience in the design and use of databases in current database environments. The individual shall have experience in translation of the logical design into the schema view of the logical and physical aspects of the database. He/she shall be knowledgeable in the design and translation of schemas to partition the total view of the database into subset views of each distinct application, experience in maintenance of privacy locks and monitoring of sub- schemas validated against the schema and programs compiled against the subschema. The individual shall also be able to determine when and where problems exist in a database and provide solutions to fix those problems found. He/she will institute and implement database archived backup and recovery and performance procedures.	Bachelor's degree in Computer Science, Information Systems, Business, or a related discipline.	4

Data Analyst	Facilitate Data Governance. Ensure currency, communication and compliance of data governance. Align data governance with agency standards for the data model and business domains. Establish data governance processes. Establish standardized processes for capturing and maintaining metadata from data sources. Develop New Data Models. Develop data models for the source and target data based on the data exchange requirements. Develop new business rules for source data transfers to target databases. Analyze and design the source to target business rules and transformations.	Bachelor's degree in Computer Science, Information Systems, Business, or a related discipline.	4
Network Engineer	Supervises all personnel engaged in the operation and support of network facilities, including all communications equipment in large scale or multi- shift operations. Supervises complex operations that involve two or more additional functions such as, but not limited to, network operations, systems security, systems software support, and production support activities. Familiar with cloud-based network solutions such as VPN, network switches, governance, and PaaS.	Bachelor's degree in Computer Science, Information Systems, Business, or a related discipline.	6
Systems Security Specialist	System analysis and evaluation of hardware and network capabilities and configurations. Must demonstrate the ability to work independently or under only general direction. Reviews computer systems in terms of machine capabilities and man-machine interface. Prepares reports and studies concerning hardware. Prepares functional requirements and specifications for hardware acquisitions. Ensures that problems have been properly identified and solutions will satisfy the user's requirements. Designs and optimizes network topologies. Directs and leads preparation of engineering plans for cloud based solutions or on-premise Technical Design Packages. Develops hardware installation schedules. Directs and leads preparation of drawings documenting configuration changes for each site or cloud infrastructure configuration. Prepares site installation and test reports.	Bachelor's degree in Computer Science or related field	5

Systems Administrator, Mid	Administration of operating systems or open systems and/or legacy systems and/or cloud systems. General experience includes operations experience on a large-scale computer system or a multi-server local area network. Supervises and manages the daily activities of configuration and operation of business systems which may be cloud, mainframe, mini, or client/server based. Optimizes system operation and resource utilization, and performs system capacity analysis and planning. Provides assistance to users in accessing and using business systems.	Bachelor's degree in Computer Science or related field	5
Systems Administrator, Senior	Administration of operating systems or open systems and/or legacy systems and/or cloud systems. General experience includes operations experience on a large-scale computer system or a multi-server local area network. Supervises and manages the daily activities of configuration and operation of business systems which may be mainframe, mini, or client/server based. Optimizes system operation and resource utilization, and performs system capacity analysis and planning. Provides assistance to users in accessing and using business systems. Consults with user management and technical staff to clarify client needs, problems, and strategy. Assigns, coordinates, and reviews work tasks of lower-level staff. May train lower-level staff. Works independently without direct supervision.	Bachelor's degree in Computer Science or related field	7
Technical Writer	Writes a variety of technical articles, reports, brochures, and/or manuals for documentation for a wide range of uses. May be responsible for coordinating the display of graphics and the production of the document. Familiar with a variety of the field's concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals. Performs a variety of tasks. Leads and directs the work of others. A wide degree of creativity and latitude is expected. Typically reports to a manager or head of a unit/department.	Bachelor's degree in Information Systems, Business, or a related discipline.	4

Service Contract Labor Standards: The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule (MAS) and all services provided. While no specific labor categories have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR

22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS/SCA eligible labor categories. If and / or when the contractor adds SCLS/SCA labor categories to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS/SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
