Instruction may be provided in diverse settings, such as the establishment's or agency's training facilities, and through diverse means, such as correspondence, television, the Internet, or other electronic and distance-learning methods. The training provided may include the use of simulators and simulation methods. Proposed professional services shall be in support of planning, creating, and/or executing testing and test
administration, learning management, internship, or development of new courses or subject matter delivered via an instructor-led (i.e. traditional classroom setting or conference/seminar) and/or web-based (i.e. Internet/Intranet, software packages and computer applications) system.

Examples include Training Services that are instructor led Training or Web Based Training of Education Courses, Course Development and Test Administration, Learning Management, and Internships; Environmental Training Services in order to meet Federal mandates and Executive Orders; training of agency personnel to deal with media and media responses; Logistics Training Services related to system operations, automated tools for supply and value chain management, property and inventory management, distribution and transportation management, and maintenance of equipment and facilities; Audit & Financial training services related to course development and instruction required to support audit, review, financial assessment and financial management activities.

Any firm offering Defense Acquisition Workforce Improvement Act (DAWIA) and Federal Acquisition Certification in Contracting (FAC-C) Training for Acquisition Workforce Personnel will include an identify only DAWIA and FAC-C courses that have been deemed DAU equivalent or approved by the Federal Acquisition Institute (FAI).

NOTE: In accordance with OMB Policy Letter 05-01, civilian agencies must follow the course equivalency determinations accepted by the Defense Acquisition University (DAU) to ensure that core training is comparable across the workforce and qualifies for certification. When procuring FAC-C and DAWIA training for the audience identified below, the task order level Contracting Officer shall confirm that the courses being acquired are listed on one of the following websites: https://www.fai.gov/drupal/certification/verified-contracting-course-vendor-listing OR http://icatalog.dau.mil/appg.aspx (click on commercial vendors). Training Audience-Acquisition professionals interested in completing FAC-C or DAWIA.

**SIN OLM Order-Level Materials (OLM)**

OLM OLMs are supplies and/or services acquired in direct support of an individual task or delivery order placed against a Schedule contract or BPA. OLM pricing is not established at the Schedule contract or BPA level, but at the order level. Since OLMs are identified and acquired at the order level, the ordering contracting officer (OCO) is responsible for making a fair and reasonable price determination for all OLMs.

OLMs are procured under a special ordering procedure that simplifies the process for acquiring supplies and services necessary to support individual task or delivery orders placed against a Schedule contract or BPA. Using this new procedure, ancillary supplies and services not known at the time of the Schedule award may be included and priced at the order level.

OLM SIN-Level Requirements/Ordering Instructions:

OLMs are:

- Purchased under the authority of the FSS Program
- Unknown until an order is placed
- Defined and priced at the ordering activity level in accordance with GSAR clause 552.238-115 Special Ordering Procedures for the Acquisition of Order-Level Materials. (Price analysis for OLMs is not conducted when awarding the FSS contract or FSS BPA; therefore, GSAR 538.270 and 538.271 do not apply to OLMs)
- Only authorized for use in direct support of another awarded SIN.
- Only authorized for inclusion at the order level under a Time-and-Materials (T&M) or Labor-Hour (LH) Contract Line Item Number (CLIN)
- Subject to a Not To Exceed (NTE) ceiling price

OLMs are not:
- "Open Market Items."
- Items awarded under ancillary supplies/services or other direct cost (ODC) SINs (these items are defined, priced, and awarded at the FSS contract level)

OLM Pricing:
- Prices for items provided under the Order-Level Materials SIN must be inclusive of the Industrial Funding Fee (IFF).
- The value of OLMs in a task or delivery order, or the cumulative value of OLMs in orders against a FSS BPA awarded under an FSS contract, cannot exceed 33.33%.

NOTE: When used in conjunction with a Cooperative Purchasing eligible SIN, this SIN is Cooperative Purchasing Eligible.

Cooperative Purchasing: Yes
Set Aside: No
FSC/PSC Code: 0000
Maximum Order: $250,000

**DISASTER RECOVERY PURCHASING**

In accordance with Section 833 of the 2007 National Defense Authorization Act (Public Law 109-amended 40 U.S.C. 502, State and local governments can now use GSA Schedule contracts for products and services needed to help prevent, prepare for, and respond to a major disaster declared by the President under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) or to facilitate recovery from terrorism or nuclear, biological, chemical, or radiological attack. State and local government entities includes any states of the Unites States, counties, municipalities, cities, towns, townships, tribal governments, public authorities (including public or Indian housing agencies under the United States Housing Act of 1937), school districts, colleges and other institutions of higher education, council of governments (incorporated or not), regional or interstate government entities, or any agency or instrumentality of the preceding entities (including any local educational agency or institution of higher education), and including legislative and judicial departments. It does not include contractors of State or local governments. State and local government entities are responsible for ensuring that the products or services purchased are used to prevent, prepare for, respond or facilitate recovery from a major disaster declared by the President.

| Business Process Consultant | Responsible for defining and developing business processes, policies, roles and responsibilities, and performance metrics. Conducts analysis of business processes: current state analysis, gap analysis, benchmarking, best practices identification, organizational assessment, and other related tasks. Takes project from original concept through final implementation. May coordinate with business and technology teams, ascertaining system requirements, such as program functions, output requirements, input data acquisition, and system techniques and controls. Plans and implements process improvements, including: future state design, change management, and transition planning. Conduct client interviews. May deliver presentations and training courses including measurement, analysis, improvement, and control. May perform cost and benefit analysis. Interfaces with all areas of project including customer, computer services, and client services. Works on moderately complex tasks where analysis of client’s data requires an evaluation of various factors. Exercises independent judgment within broadly defined practices and policies in selecting methods, techniques and evaluation criteria for obtaining results. | Bachelors degree + 5 years relevant experience. | High School + 9 yrs relevant experience Associates + 7 yrs relevant experience Masters + 3 yrs relevant experience PhD + 0 yrs relevant experience |
| Policy Analyst I | Analyzes actual and predictable interacting operational activities of a military, governmental, or business system to obtain a qualitative or quantitative, rational basis for decision-making, policies (e.g., Doctrine, Organization, Training, Leader Development, Material, Personnel, Facilities) or resource allocation in support of US Government policy goals and objectives. Utilizes judgment, experience and subject matter expertise, decision support tools, and basic to extremely complex modeling and measurement techniques, mathematics, statistical methods and other principles in the professional body of knowledge in determining solutions. Provides integral policy support in the capability development and integration of solutions and the conceptualization, design, development, testing, verification and validation, documentation, and implementation of modeling and simulation based decision support system applications. Works on problems of diverse scope where analysis of situation or data requires review of identifiable factors. Exercises judgment within defined procedure and policies to determine appropriate action. Acts as advisor to unit or sub-unit, becomes actively involved as required to meet schedules or resolve problems. | Bachelors degree + 5 years relevant experience. | High School + 9 yrs relevant experience. Associates + 7 yrs relevant experience. Masters + 3 yrs relevant experience. PhD + 0 yrs relevant experience. |
| Policy Analyst II | Analyzes actual and predictable interacting operational activities of a military, governmental, or business system to obtain a qualitative or quantitative, rational basis for decision-making, policies (e.g., Doctrine, Organization, Training, Leader Development, Material, Personnel, Facilities) or resource allocation in support of US Government policy goals and objectives. Utilizes judgment, experience and subject matter expertise, decision support tools, and basic to extremely complex modeling and measurement techniques, mathematics, statistical methods and other principles in the professional body of knowledge in determining solutions. Provides integral policy support in the capability development and integration of solutions and the conceptualization, design, development, testing, verification and validation, documentation, and implementation of modeling and simulation based decision support system applications. Works on complex problems where analysis of situation or data requires evaluation of identifiable factors. Exercises judgment within generally defined practices and policies in selecting methods and techniques for obtaining solutions. Acts as advisor to subordinate(s) to meet schedules and/or resolve technical problems. Develops and administers budgets, schedules, and performance requirements. | Bachelors degree + 8 years relevant experience. | High School + 12 yrs relevant experience Associates + 10 yrs relevant experience Masters + 6 yrs relevant experience PhD + 3 yrs relevant experience |
| **Policy Analyst III** | Analyzes actual and predictable interacting operational activities of a military, governmental, or business system to obtain a qualitative or quantitative, rational basis for decision-making, policies (e.g., Doctrine, Organization, Training, Leader Development, Material, Personnel, Facilities) or resource allocation in support of US Government policy goals and objectives. Utilizes judgment, experience and subject matter expertise, decision support tools, and basic to extremely complex modeling and measurement techniques, mathematics, statistical methods and other principles in the professional body of knowledge in determining solutions. Provides integral policy support in the capability development and integration of solutions and the conceptualization, design, development, testing, verification and validation, documentation, and implementation of modeling and simulation based decision support system applications. Works on extremely complex problems where analysis of situations or data requires an evaluation of intangible factors. Exercises judgment in developing methods, techniques and evaluation criteria for obtaining results. Ensures budgets and schedules meet corporate requirements. | Bachelors degree + 12 years relevant experience. | High School + 16 yrs relevant experience Associates + 14 yrs relevant experience Masters + 10 yrs relevant experience PhD + 7 yrs relevant experience |
## PRICE LIST for SINs: 541380, 541420, 541330ENG, 541715

| Manager I            | Directs the performance of a variety of related projects that may be organized by technology, program, or client. Oversees the technology development and/or application, marketing, and resource allocation within program client base. | Bachelors Degree + 8 yrs of relevant experience. | High School + 12 yrs relevant experience  
Associates + 10 yrs relevant experience  
Masters + 6 yrs relevant experience  
PhD + 3 yrs relevant experience |

PRINCIPAL DUTIES AND RESPONSIBILITIES
1. Responsible for the effective management of funds and personnel, and is accountable for the quality and timely delivery of all contractual items.
2. Operates within client guidance, contractual limitations, and company business and policy directives. Serves as focal point of contact with client regarding program activities.
3. Ensures that all required resources including workforce, production standards, computer time, and facilities are available for program implementation.
4. Manages program consisting of multiple projects including project identification, design, development, and delivery.
5. Maintains the development and execution of business opportunities based on broad, general guidance. Responsible for marketing new technology and follow-on business acquisitions.
6. Confers with project manager to provide technical advice and to assist with problem resolution.
7. May perform other duties as assigned.

**NOTE:** Relevant Experience means the type of experience similar to the labor category requirements for the specific labor category contemplated.
The Service Contract Labor Standards (SCLS) are applicable to this contract and this contract includes SCLS applicable labor categories. The prices for the indicated (**) SCLS labor categories are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).

The mapping to SCLS labor categories in the matrix is representative only and does not limit the use of the SAIC labor category to those SCLS titles identified in the matrix nor does it limit the use of the SAIC labor category only to services covered by the SCLS. The services provided under each labor category will be determined at the task order level.
