1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.

1c. If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item.

2. Maximum Order: $1,000,000.00

3. Minimum Order: $100.00

4. Geographic Coverage (delivery Area): Domestic and Overseas

5. Point(s) of production (city, county, and state or foreign country): Same as company address

7. Quantity discounts: None Offered

8. Prompt payment terms: Net 30 days. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9a. Notification that Government purchase cards are accepted up to the micro-purchase threshold: Yes

9b. Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold: will accept

10. Foreign items (list items by country of origin): None

11a. Time of Delivery (Contractor insert number of days): Specified on the Task Order
11b. Expedited Delivery. The Contractor will insert the sentence “Items available for expedited delivery are noted in this price list.” under this heading. The Contractor may use a symbol of its choosing to highlight items in its price list that have expedited delivery: Contact Contractor

11c. Overnight and 2-day delivery. The Contractor will indicate whether overnight and 2-day delivery are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery: Contact Contractor

11d. Urgent Requirements. The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor’s representative to affect a faster delivery: Contact Contractor

12. F.O.B Points(s): Destination

13a. Ordering Address(es): Same as Contractor

13b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPAs) are found in Federal Acquisition Regulation (FAR) 8.405-3.

14. Payment address(es): Same as company address

15. Warranty provision.: Contractor’s standard commercial warranty.

16. Export Packing Charges (if applicable): N/A

17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level): Contact Contractor

18. Terms and conditions of rental, maintenance, and repair (if applicable): N/A

19. Terms and conditions of installation (if applicable): N/A

20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable): N/A

20a. Terms and conditions for any other services (if applicable): N/A

21. List of service and distribution points (if applicable): N/A

22. List of participating dealers (if applicable): N/A

23. Preventive maintenance (if applicable): N/A

24a. Environmental attributes, e.g., recycled content, energy efficiency, and/or reduced pollutants: N/A

24b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g., contract’s website or other location.) The EIT standards can be found at: www.Section508.gov/

25. Data Universal Numbering System (DUNS) number: 961530545

26. Notification regarding registration in System for Award Management (SAM) database: Registered
**27. Final Pricing:**
The rates shown below include the Industrial Funding Fee (IFF) of 0.75%.

* The chosen WD 15-5637 (Revision 14) locations in San Francisco, CA.

The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract and it includes SCLS applicable labor categories. The prices for the cited SCLS labor categories are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS matrix. The prices awarded are in line with the geographic scope of the contract (i.e. nationwide).

Amentum Services, Inc. certifies the GSA awarded rate meets or exceeds the minimum wage rate as identified in Wage Determination 2015-5637 Revision 14 dated December 23, 2019, San Francisco County, California, currently incorporated into the Multiple Award Schedule (MAS) Solicitation for the SCLS non-exempt labor categories identified in the matrix above.

**AMENTUM SERVICES, INC. LABOR CATEGORIES AND GUARANTEES**

Amentum Services, Inc. (Amentum) offers only the personnel who meet or exceed the minimum qualification requirements stated in the Commercial Labor Category Descriptions provided herein. Amentum allows experience to substitute for minimum education requirements and education to substitute for minimum years of experience for all labor categories provided below. Amentum’s criteria for substitution are as follows.

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Equivalency</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ph.D.</td>
<td>8 years’ experience</td>
</tr>
<tr>
<td>Master’s Degree</td>
<td>6 years’ experience</td>
</tr>
<tr>
<td>Bachelor’s Degree</td>
<td>4 years’ experience</td>
</tr>
<tr>
<td>Associate’s Degree</td>
<td>2 years’ experience</td>
</tr>
</tbody>
</table>

**Undergraduate:** An associate degree will equal 2 years of experience. A bachelor’s degree will equal 4 years of experience. A Master’s Degree will equal 6 years of experience. A Doctorate will equal 8 years of experience.
**Experience:** For every year of full time specific field experience, the person shall be credited with one year of “degree” qualifications toward the values stated in the labor category descriptions.

GSA and/or the ordering activities may have access to any Amentum employee resume (by request) before, during, or after assignment of any GSA order. If for some extenuating reason a person assigned to an order must be replaced or substituted, the ordering activity will be notified in advance, in writing, and the substituted personnel will meet or exceed the required qualifications for the departing employee’s labor category.

Because it contracts directly with Federal agencies, Amentum is required to maintain strict security measures in all its operations. Amentum’s facilities have been inspected and approved by the Department of Defense Industrial Security Clearance Office (DISCO) for the handling and storage of classified material. Amentum employees are screened, investigated, and cleared for access to sensitive and classified Government documents, files, and property. Clearances are granted by the cognizant Government agency, depending on the specific contract.

**AMENTUM LABOR CATEGORY DESCRIPTIONS**

**BUSINESS ADMINISTRATIVE AND FINANCIAL SERVICES**

programs. Position may require travel and the ability to pass and maintain a Security Clearance. No degree substitution permitted.

**Functional Responsibilities:**
1. Performs design development, analysis, and review tasks under some supervision.
Generates sections of design specifications of more complex projects or complete specifications of less complex projects.
Prepares, delivers and submits technical presentations for in-process design and review meetings.
Establishes and maintains filing systems for tracking project status.
Develops technical documentation and system specifications.
Interfaces with customers at all levels: design reviews, technical working groups, and final design and test activities.
Conducts site visits and investigates engineering problems, proposes solutions and alternatives, and provides recommendations.
Verifies and complies with engineering documentation standards and test procedures.

---

**Engineer, Mgr.**

**Minimum Education and Experience:**
Bachelor’s degree in Engineering or related scientific field and at least 10 years of job-related experience. Excellent communications and analytical skills; working knowledge of computer systems and integrated software application programs. Some positions may require the ability to investigate, troubleshoot, and design solutions to problems in operational hardware and software. Position may require travel and the ability to pass and maintain a Security Clearance. No degree substitution permitted.

**Functional Responsibilities:**
1. Performs a range of design development, analysis, or review tasks independently, providing supervision of contributing engineers.
Responsible for complete designs, analyses, or design reviews independently or as the team leader.
Acts as and is recognized as a Company/industry expert resource on the most complex engineering problems.
May lead engineering teams and act as a mentor to engineering team members.
May provide technical management and leadership to a group of employees for a given project, contract or job, with overall responsibility for cost, schedule, technical and employee performance.
Selects, trains, advises, evaluates, schedules, supervises, and directs department personnel, either directly or through a subordinate supervisor.
Develops, interprets, and implements technical and administrative operating policies and procedures.
Maintains technical project responsibility for assigned tasks and advises management of progress in support of the technical and administrative direction of project operations.

---

**Engineer, Mid.**

**Minimum Education and Experience:**
Bachelor’s degree in Engineering, or related scientific field and at least 5 years of job-related experience. Good communications and analytical skills; working knowledge of computer systems and integrated software application programs. Position may require travel and the ability to pass and maintain a Security Clearance. No degree substitution permitted.

**Functional Responsibilities:**
1. Performs a range of design development, analysis or review tasks under minimal supervision.
Acts as a lead on less complex tasks and is responsible for a portion of a design or section of an analysis or design review.
Generates complete design specifications of more complex projects.
Coordinates and works closely with other engineering, logistics, financial, and program management disciplines to define system specifications and requirements.
Develops, maintains and produces technical documentation and system/subsystem specifications.
Interfaces with customers at all levels: design reviews, technical working groups, and final design and test activities.
Conducts site visits and experimental investigations, analyzes engineering problems, proposes solutions and alternatives, and provides recommendations.

**Engineer, Sr.**

**Minimum Education and Experience:**
Bachelor’s degree in Engineering or related scientific field, and at least 7 years of job-related experience. Excellent communications and analytical skills; working knowledge of computer systems and integrated software application programs. The position may require the ability to investigate, troubleshoot, and design solutions to problems in operational hardware and software. Position may require travel and the ability to pass and maintain a Security Clearance. No degree substitution permitted.

**Functional Responsibilities:**
1. Performs a range of design development, analysis, or review tasks independently.
Responsible for complete designs, analyses, or design reviews.
Generates complete design specifications for the most complex projects.
May train other engineers on technical issues related to the research, design, development, testing and analysis of engineering assignments.
Interfaces with customers at all levels: design reviews, technical working groups, and final design and test activities.
Conducts site visits and experimental investigations, analyzes engineering problems, proposes solutions and alternatives, and provides recommendations.
Prepares, delivers and submits technical papers and performs engineering studies.
May organize and supervise a group of employees for a given project, contract or job, with overall responsibility for cost, schedule, technical and employee performance.

**Engineer, Systems**

**Minimum Education and Experience:**
Bachelor’s degree in Engineering or related scientific field and at least 10 years of job-related experience. Excellent communications and analytical skills; working knowledge of computer systems and integrated software application programs. Some positions may require the ability to investigate, troubleshoot, and design solutions to problems in operational hardware and software. Position may require travel and the ability to pass and maintain a Security Clearance. No degree substitution permitted.

**Functional Responsibilities:**
1. Performs a range of design development, analysis, or reviews tasks independently, providing supervision of contributing engineers.
Responsible for complete designs, analyses, or design reviews independently or as the team leader.
Generates complete design specifications for the most complex projects.
Acts as and is recognized as a Company/industry expert resource on the most complex engineering problems.
May lead engineering teams and act as a mentor to engineering team members. 
May train other engineers on technical issues related to the research, design, development, testing and 
analysis of engineering assignments.
Conducts site visits and experimental investigations, analyzes engineering problems, proposes solutions 
and alternatives, and provides recommendations.
Prepares, delivers and submits technical papers and performs engineering studies.
May provide technical management and leadership to a group of employees for a given project, contract or 
job, with overall responsibility for cost, schedule, technical and employee performance.

Executive 4

Minimum Education and Experience:
Bachelor’s degree and a minimum of 16 years experience. Excellent management, communication, 
interpersonal, organizational and analytical skills are required. Position may require travel. Position may 
require the ability to pass and maintain a Security Clearance.

Principal Duties and Responsibilities:
1. Provides management, organizational, business and technical leadership and services.
2. Is responsible for individual business elements are conducted in compliance with applicable Federal, 
   State, and local laws and regulations.
3. Represents the company as appropriate with its relations with customers, employees, suppliers, 
   Government industry groups, community organizations and professional associations.
4. Is responsible to implement a sound plan for organizational management and controls.
5. Supervises, coordinates, provides leadership to direct the development of internal and external 
   programs for communications, human resources and outreach.
6. Interfaces with customers on a regular basis. Monitors customer feedback and advises on a broad 
   range of issues related to products/services being delivered.

Logistics Engineer, Jr.

Minimum Education and Experience:
Bachelor’s degree in Business/Logistics or related field and no job-related experience. Good 
communications skills, working knowledge of word processing and integrated software applications, 
organizational skills and ability to perform detail-oriented work are required. Position may require travel and 
the ability to pass and maintain a Security Clearance. No degree substitution permitted.

Functional Responsibilities:
1. Researches and analyzes logistics element problems and determines solution alternatives.
2. Reviews reports, technical papers, drawings, specifications, procedures, etc.; consolidates comments from 
   various organizations; and drafts reports.
3. Assists in preparing routine correspondence (i.e., letters, memos and route sheets), spreadsheets, Gantt 
   charts, presentations, and meeting minutes.
4. Assists in maintaining logistics support data, planning schedules, and documents.
5. Analyzes and researches material to gain a thorough technical understanding of the logistics element 
   supporting a task assignment.
6. Assists in preparing oral presentations and written reports, indicating solution or range of possible 
   alternatives in rank of desirability and probability of success when there is no single solution.
Logistics Engineer, Mid.

Minimum Education and Experience:
Bachelor’s degree in Business/Logistics or related field and at least 3 years of job-related experience. Good written communications skills, working knowledge of word processing and integrated software applications, organizational skills and ability to perform detail-oriented work are required. Position may require travel and the ability to pass and maintain a Security Clearance. No degree substitution permitted.

Functional Responsibilities:
1. Researches, analyzes problems, and determines logistics element(s) requirements with minimum supervision.

May supervise and train entry-level personnel in the technical aspects of assigned work.
Collaborates with customer(s) to define, coordinate and track the status of multi-disciplinary task(s) and advises on technical and logistics element planning and implementation.
Reviews program reports, technical papers, drawings, specifications, procedures, etc., and performs tests/evaluations and validations/verifications; provides comments; consolidates and adjudicates comments from various organizations; and prepares reports.
Prepares program management correspondence (i.e., letters, memos and route sheets), design charts, spreadsheets, Gantt charts, presentations, analytical reports and meeting minutes.
Advises logistics customer as an SME on program development, planning and implementation of logistics element(s).

Logistics Engineer, Sr. Analyst

Minimum Education and Experience:
Bachelor’s degree in Business/Logistics or related field and at least 7 years of job-related experience. Good communications skills, working knowledge of word processing and integrated software applications, organizational skills and ability to perform detail-oriented work are required. Position may require travel and the ability to pass and maintain a Security Clearance. No degree substitution permitted.

Functional Responsibilities:
1. Collaborates daily with customer(s) to determine specific needs and requirements and to counsel within the expert area, including overseeing task execution.

Develops and/or reviews program reports, technical papers, drawings, specifications, procedures, etc.; provides comments; organizes, consolidates, and adjudicates comments from various organizations; and prepares reports.
Performs expert-level review, analysis, and validation of engineering and logistics products, and prepares executive-level reports and briefs.
Consults as industry expert with the logistics managers, program managers and customers, advising on logistics program policy development, planning and implementation.
Interfaces with various technical and logistics team leaders daily to exchange information and coordinate related task performance.
Supervises teams in accomplishing tasks and trains junior-level personnel in the technical aspects of assigned work.

Logistics Program Manager, Jr.

Minimum Education and Experience:
Master’s degree, preferably in a discipline such as Operations Research, Economics, Logistics, Statistics, Human Factors, Organizational Development, Civil or Industrial Engineering. A minimum of 10 years of job-related experience is required. Good oral and written communications skills, working knowledge of word
processing and integrated software applications, organizational skills and ability to perform detail-oriented work are required. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Analyzes and researches material to gain a thorough technical understanding of a complex subject area supporting a task assignment.

Performs a range of design development, analyses, or review tasks independently, providing supervision of contributing engineers.

Responsible for complete designs, analyses, or design reviews independently or as the group leader.

Generates complete design specifications for the most complex projects.

Develops, maintains and produces technical documentation and system/subsystem specifications.

Interfaces with customers at all levels: design reviews, technical working groups, and final design and test activities.

Conducts site visits and experimental investigations, analyzes engineering problems, proposes solutions and alternatives, and provides recommendations.

Prepares oral presentations and written reports, indicating solution or range of possible alternatives in rank of desirability and probability of success when there is no single solution.

---

**Logistics Program Manager, Sr.**

**Minimum Education and Experience:**
Master's degree, preferably in a discipline such as Operations Research, Economics, Logistics, Statistics, Human Factors, Organizational Development, Civil or Industrial Engineering. A minimum of 12 years of job-related experience is required. Good oral and written communications skills, working knowledge of word processing and integrated software applications, organizational skills and ability to perform detail-oriented work are required. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Analyzes and researches material to gain a thorough technical understanding of a complex subject area supporting a task assignment.

Performs a range of design development, analyses, or review tasks independently, providing supervision of contributing engineers.

Responsible for complete designs, analyses, or design reviews independently or as the group leader.

Generates complete design specifications for the most complex projects.

Develops, maintains and produces technical documentation and system/subsystem specifications.

Interfaces with customers at all levels: design reviews, technical working groups, and final design and test activities.

Conducts site visits and experimental investigations, analyzes engineering problems, proposes solutions and alternatives, and provides recommendations.

Prepares oral presentations and written reports, indicating solution or range of possible alternatives in rank of desirability and probability of success when there is no single solution.

---

**Logistics Technical Specialist, Jr.**

**Minimum Education and Experience:**
High school diploma and at least 1 year of job-related experience. Requires operating application software, including word processing and spreadsheet programs. Position may require travel and the ability to pass and maintain a Security Clearance.
Amentum Services, Inc.
MAS Professional Services Category
GS-00F-046CA

Functional Responsibilities:
1. Reviews drawings, documentation and training curricula. Researches databases to determine technical documentation requirements; Reliability, Maintainability, and Availability (RM&A); training; life-cycle impacts; source issues; and configuration impacts.
2. Performs inventory management, cataloging, warehouse management, material coordination, data entry, and property control in support of various supply activities and/or equipment installations. May assist technicians with equipment installations.
3. Develops, executes, and maintains logistics support plans, training schedules and milestones, training device engineering change proposals, and similar data. Recommends improvements to enhance the process.
4. May provide technical assessment of training devices and report results to customer.
5. Supports maintenance planning systems and performs maintenance planning tasks.
6. Demonstrates development and application of new systems, processes, or techniques that contribute to the achievement of business area goals.

Logistics Technical Specialist, Sr.

Minimum Education and Experience:
High school and at least 5 years of job-related experience. Requires good communications skills and the ability to operate application software, including word processing and spreadsheet programs. Position may require travel and the ability to pass and maintain a Security Clearance.

Functional Responsibilities:
1. Supports the customer by providing written plans, technical reports, presentations and issue papers. Reviews drawings. Researches databases to determine technical documentation requirements; RM&A; life-cycle impacts; source issues; and configuration impacts.
2. Performs inventory management, cataloging, warehouse management, material coordination, data entry, and property control in support of various supply activities and/or equipment installations. May assist technicians with equipment installations.
3. Develops, executes, and maintains logistics support plans, policies, procedures and similar data. Recommends improvements to enhance the process.
4. Supports maintenance planning systems and performs maintenance planning tasks.
5. Identifies specific procedures or processes that could be modified in order to increase efficiencies or quality. Applies knowledge of procedures and systems to a broad range of basic issues. May require knowledge of specialized processes or technical skills.

Operations Research Specialist

Minimum Education and Experience:
Bachelor’s degree in Engineering or Science and at least 10 years job-related experience. Significant specific training or work experience in a specific discipline or operational capability. Position may require travel and the ability to pass and maintain a Security Clearance.

Functional Responsibilities:
1. Conducts analytic studies and/or scientific studies in science or engineering. Performs conceptual, developmental, and planning functions for major programs. Generates specifications or plans for operational implementation. Writes investigative reports and memoranda. Performs liaison with senior-level customers.
Coordinates mission operations. Acts in a staff capacity as a recognized expert in a specific discipline or operational capability.

**Procurement Manager**

**Minimum Education and Experience:**
Bachelor's degree in Business or related field and 5 years job-related experience. A thorough working knowledge of the FAR is required. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Administers subcontracts and purchase orders, including monitoring performance, prices, and certifications; exercising options; conducting market analysis and negotiating prices; maintaining subcontract and purchase order files; issuing modifications as necessary; assisting management in resolving subcontractor and vendor problems; and resolving invoicing issues with Finance and Accounting.

Oversees/evaluates potential subcontractors and ongoing performance. Performs periodic reviews of procurement actions for compliance with policies and procedures, competition, and prime contract requirements.

Coordinates subcontractor and vendor invoicing issues with Finance and Accounting.

Monitors the Small Business (SB) and Small Disadvantaged Business (SDB) Program, and the Labor Surplus Area Program. Identifies potential sources for compliance with the SB and SDB Program.

Compiles and submits reports to customers and management.

Obtains, if necessary, CO approvals of subcontract actions.

May assist the Contract Administrator with prime contract functions.

Closes out contract and procurement files in accordance with records retention procedures.

**Program Analyst, Jr.**

**Minimum Education and Experience:**
Associate’s degree in Finance and no job-related experience. Requires operating application software, including word processing and spreadsheet programs. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Prepares contract expenditure versus estimated budget report for Contract Budget Manager on a regularly scheduled basis for use in monitoring contract costs.

Prepares and tracks contract budget spreadsheets.

Prepares actual costs incurred reports on a regularly scheduled basis.

Prepares reports for contract deliverable submissions.

Prepares procurement requests, processes subcontractor invoices and monitors subcontractor cost reports for accuracy and completeness.

Prepares and maintains files of Letters of Transmittals.

**Program Analyst, Mid.**

**Minimum Education and Experience:**
Bachelor’s degree in Business and at least 3 years of job-related experience. Good written communications skills; working knowledge of word processing and integrated software applications; organizational skills and
ability to perform detail-oriented work are required. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Conducts research and prepares financial analyses and forecasts.
2. Generates management tools to effectively control programs.
3. Generates reports documenting findings.
4. Conducts research into procurement practices and assesses/implements improvements to or compliance with acquisition procedures.
5. Prepares computerized programs utilizing commercial software to manage tasks.
6. Participates in cost proposal development.
7. Maintains database to produce monthly financial reports. Tracks, processes and distributes deliverables and monitors comment status.

**Program Management Specialist**

**Minimum Education and Experience:**
Associate’s degree in Business Administration or related field and at least one year of job-related experience. Requires operation of application software, including word processing and spreadsheet programs. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Interfaces with internal functional teams and external customers for planning, prioritization, and issue resolution of overall activities in support and achievement of customer goals.
2. Interacts and supports customers, through the application of specific program knowledge, in executing program management tasks.
3. Coordinates and maintains program documentation with internal and external teams, including plans, schedules, briefings, reports correspondence, contracts/contract modifications, technical instructions/procedures and/or related material.
4. Prepares routine and non-routine program correspondence, documentation and reports.
5. Creates and maintains master files/schedules related to program history, execution and status for the life of the program (inception to disposal).
6. Reviews, evaluates and provides assessments of technical and non-technical program reports; researches specific areas and prepares findings.
7. Interfaces with internal and external program participants to coordinate overall activities to support customer goals.

**Program Manager**

**Minimum Education and Experience:**
Associate’s degree and at least 5 years of job-related experience. Excellent communications, interpersonal, organizational and analytical skills are required. Working knowledge of word processing and integrated software applications is required. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Provides administrative and technical leadership in completing multiple contracts, including responsibility for cost, schedule, and overall performance.
2. Plans and procure necessary staffing to achieve work completion milestones and deliverables.
3. Monitors fulfillment of contract requirements to ensure quality and timeliness of services/deliverables to various customers.
Supervises, coordinates, provides leadership to, and reviews the work of assigned staff and/or contracts. Interfaces with customers on a regular basis in support of engineering and program management activities. Monitors customer feedback and advises on a broad range of issues related to products/services being delivered. Performs multidisciplinary analysis of system designs to determine compliance with specifications and standards. Directs the investigation and resolution of operational problems in conjunction with other engineering and technical personnel.

**Project Manager, Jr.**

**Minimum Education and Experience:**
Associate’s degree and at least 3 years of job-related experience. Good oral and written communications skills and familiarity with word processing, database, spreadsheet and integrated software applications are required. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Interfaces with internal functional teams and external customers for planning, prioritization, and issue resolution of overall activities in the support and achievement of customer goals.

Interacts with and advises customers by applying specific program knowledge and/or SME in executing program management and routine and nonroutine tasks.

Interfaces with other professionals to generate program documentation such as plans, schedules, briefings, reports, correspondence, contracts/contract modifications, technical instructions/procedures and/or related material.

Analyzes and tracks project budgets, schedules and deliverables, and conducts research into specific areas and prepares and reports findings to the customer.

Creates and maintains master files/schedules related to program history, execution and status for the life of the program (inception to disposal).

Reviews, analyzes, provides comments and assessments of technical and nontechnical program reports and researches specific areas of interest and prepares findings.

Interfaces with internal and external principal program participants for planning, prioritization and resolution of overall activities to support customer goals.

**Project Manager, Sr.**

**Minimum Education and Experience:**
Bachelor’s degree in Business Administration or a related field and 5 years of job-related experience. Good written communications skills, working knowledge of word processing and integrated software applications, organizational skills and ability to perform detail-oriented work are required. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Leads and mentors personnel assigned to program support functions.

Interfaces with internal functional teams and external customers for planning, prioritization, and issue resolution of overall activities in the support and achievement of customer goals.

Interacts and advises customers, through the application of specific program knowledge and SME, in executing program management tasks.

Analyzes requirements; reviews and coordinates with internal and external customers to generate program documentation such as plans, schedules, briefings, reports, correspondence, contact/contract modifications, technical instructions, technical procedures or related material.
Amentum Services, Inc.
MAS Professional Services Category
GS-00F-046CA

Analyzes and tracks project budgets, schedules and deliverables, and conducts research into specific areas and prepares and reports findings to the customer.

Creates and maintains master files/schedules related to program history, execution and status for the life of the program (inception to disposal).

Reviews, analyzes, provides technical comments and assessment of technical and nontechnical program reports and researches specific areas and prepares findings.

Interfaces with internal and external principal program participants for planning and prioritization of overall activities and resolution of issues to support customer goals.

**Scientist, Sr.**

**Minimum Education and Experience:**

Master’s degree in Engineering, Physics, Mathematics or related science field and 7 years of job-related experience. Excellent communications and analytical skills, working knowledge of computer systems and integrated software application programs are required. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**

1. Conducts analytic studies and/or scientific studies in physics, mathematics, or engineering.
2. Performs conceptual, developmental, and planning functions for major programs.
3. Develops mathematical formulations and equations.
4. Writes investigative reports and memoranda.
5. Coordinates and works closely with other scientific, engineering, logistics, financial, and program management disciplines in conducting analytic and/or scientific studies.
6. Prepares and presents briefings about research findings.
7. Interfaces with customer for coordination, modification, technical assistance and implementation of programs.
8. May provide technical management and leadership to a group of employees for a given project, contract or job, with overall responsibility for cost, schedule, technical and employee performance.
9. Acts in a staff or consulting/advisory capacity to the customer and is recognized as an expert in the scientific community.

**Software Developer, Jr.**

**Minimum Education and Experience:**

Bachelor’s degree in Computer Science or related field and no job-related experience. Excellent communications and analytical skills and demonstrated working knowledge of a programming language (i.e., C, C++, FORTRAN, COBOL, ADA, SYBASE, etc.), computer systems and integrated software applications programs are required. Position may require the ability to investigate, troubleshoot, and design solutions to problems in operational hardware and software. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**

1. Develops software system and interface requirements/design specifications.
2. Implements software design using a software language and assembles/compiles/links source code.
3. Tests and debugs source code.
4. Develops test scenarios, plans, and procedures for software builds, hardware/software integration, and system acceptance testing. Conducts testing and provides test results feedback to design team and customer.
Develops end user documentation (i.e., user’s guide and technical manual) and version description documentation.

Constructs and executes simulations, models and simulators test cases, and scenarios.

Establishes and maintains a filing system for tracking and inventory control of hardware and software vendors for system upgrades and maintenance.

Generates and submits technical reports for technical presentations and meetings.

**Software Developer, Sr.**

**Minimum Education and Experience:**
Bachelor’s degree in Computer Science, Engineering or related field and at least 7 years of job-related experience. Excellent communications and analytical skills and demonstrated working knowledge and extensive experience of several programming languages (i.e., C, C++, FORTRAN, COBOL, ADA, SYBASE, etc.), computer systems, hardware configurations and integrated software application programs are required. Position may require the ability to investigate, troubleshoot, and design solutions to problems in operational hardware and software. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Leads team in developing or analyzing large-scale software projects, usually involving scientific applications.

Develops plans for detailed analysis of computer program code, documentation, and output to ensure validity, consistency, and conformance to applicable standards.

Designs and executes computer program test cases, analyzes output for validity, and prepares written reports documenting results.

Supervises, trains and evaluates junior level personnel.

Directs on-site customer interface for software installation, testing, systems integration, programming, debugging and other computer system tasks as needed.

Generates and submits technical reports for technical presentations and meetings and customer briefings.

Performs evaluations in the development, design, implementation, and maintenance of complex programs or systems.

May provide technical management and leadership to a group of employees for a given project, contract or job, with overall responsibility for cost, schedule, technical and employee performance.

**Systems Analyst, Mid.**

**Minimum Education and Experience:**
Bachelor’s degree in Computer Science and at least 5 years of job-related experience. Excellent communications and analytical skills and demonstrated working knowledge of computer systems and integrated software application programs are required. Position may require the ability to investigate, troubleshoot, and design solutions to problems in operational hardware and software. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Performs customer requirements analyses for existing or proposed systems to determine feasibility and objectives of requests.

Designs or modifies system and prepares reports, schedules, data requirements, security access rules and system constraints.

Writes, debugs and tests programs and procedures.

Installs system and trains customer to use new or changed applications.
Studies existing information systems to evaluate effectiveness and develops new systems where appropriate.

Assists junior-level programmers/analysts in resolving work problems related to project and/or programming specifications.

Directs on-site customer interface for program guidance, testing, systems analysis, and other system-related tasks as needed.

Prepares detailed documented requirements for selected activities (i.e., data management, CM, and program management)

May provide informal training in implementing software programs based on user requirements.

**Systems Analyst, Sr.**

**Minimum Education and Experience:**
Bachelor’s degree in Computer Science and at least 9 years of job-related experience. May supervise support personnel as required. Good written communications skills, working knowledge of word processing and integrated software applications, organizational skills and ability to perform detail-oriented work are required. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Performs customer requirements analyses for existing or proposed systems to determine feasibility and objectives of requests.
2. Designs or modifies system and prepares reports, schedules, data requirements, security access rules and system constraints.
3. Writes, debugs and tests programs and procedures.
4. Installs system and trains customer to use new or changed applications.
5. Studies existing information systems to evaluate effectiveness and develops new systems where appropriate.
6. Assists junior-level programmers/analysts in resolving work problems related to project and/or programming specifications.
7. Directs on-site customer interface for program guidance, testing, systems analysis, and other system-related tasks as needed.
8. Prepares detailed documented requirements for selected activities (i.e., data management, CM, and program management).

**Technician, Jr.**

**Minimum Education and Experience:**
High school and at least 1 year of job-related experience. Good written communications skills, working knowledge of word processing and integrated software applications, and ability to perform detail-oriented work are required. Some positions may require knowledge and operation of machining equipment. Some positions may require the ability to investigate, troubleshoot, and design solutions to problems in operational hardware and software. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Supports production of technical documents and drawings using computers, scanners, cameras, printers, laminators, and plotters in concert with multiple software products.
2. Uses CAD/CAE equipment and software to produce schematics and engineering drawings.
3. Creates drawings, illustrations and cartoons for reports, publications, presentations, and displays.
4. Researches technical issues for input to reports and studies.
Supports fabrication and testing of hardware and software systems.
Assists in design, coding, and documentation of software products.
Installs, monitors, and services equipment and systems at Company and client sites.
Performs T&E, checkout, calibration, and certification tasks. Performs validations/verifications of various electronic systems.
Reviews Engineering Change Proposals (ECPs) for equipment impacts and assists in accomplishing Engineering Change Instructions (ECIs).
Provides technical data and evaluation for components, equipment and systems consistent with engineering plans, layout and contract requirements.

**Technician, Mid.**

**Minimum Education and Experience:**
Associate’s degree and at least 2 years of job-related experience. Good communications and analytical skills and working knowledge of computer systems and integrated software application programs are required. Some positions may require knowledge and operation of machining/welding equipment or the ability to investigate, troubleshoot, and design solutions to problems in operational hardware and software. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Creates drawings, illustrations and cartoons for publications and presentations.
Designs and constructs experimental/prototype models to engineering requirements.
Performs a wide variety of duties of complex nature in the installation, testing, modification, and operation of electronic equipment.
Provides technical data and evaluation for components, equipment and systems consistent with engineering plans, layout and contract requirements.
Investigates systems problems and provides white papers on the results of the investigation.
Installs, monitors, and services equipment and systems at Company and client sites.
Plans approaches and conducts various experiments to develop equipment or systems characterized by difficult performance requirements and unusual combinations of techniques or components.
Serves as senior/lead technician and assists in training other technicians.

**Technician, Sr.**

**Minimum Education and Experience:**
Associate’s degree and at least 4 years of job-related experience. Excellent communications and analytical skills and working knowledge of computer systems and integrated software application programs are required. Some positions may require the ability to investigate, troubleshoot, and design solutions to problems in operational hardware and software. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Performs a range of design, development, analysis, or review tasks independently.
Generates complete design specifications and/or procedures for complex assignments.
Acts as a lead on complex tasks and is responsible for design, analyses, or design reviews.
Leads and coordinates the installation, modification, monitoring, operation, testing, and servicing of equipment and systems at Company and client sites.
Provides technical data and evaluation for components, equipment and systems consistent with engineering plans, layout and contract requirements.
Builds, installs, monitors, tests and services equipment and systems at Company and client sites.
Coordinates and works closely with other engineering, logistics, financial, and program management disciplines to define system specifications and requirements.

Directs on-site customer interface for equipment/system installation, testing, survey, fabrication, and other engineering tasks as needed.

**Writer**

**Minimum Education and Experience:**
Bachelor’s degree in English/Journalism or a related field and at least 7 years of job-related experience. Excellent written communications skills, working knowledge of word processing and integrated software applications, organizational skills and ability to perform detail-oriented work are required. Position may require travel and the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Interfaces with technical professionals in writing, editing, and publishing various types of documents such as specifications, manuals, reports, plans, training materials and presentations.
2. Researches a wide variety of assigned topics and develops writing plans and outlines.
3. Assists in developing supporting materials (illustrations, tables, etc.).
4. Oversees in-house production flow of technical publications. Tracks and monitors flow of all documents from inception to distribution of final copies. Identifies and corrects problem areas as they arise.
5. Provides quality assurance check for all document deliverables.
6. Utilizes appropriate computer software for document test production. Investigates and implements best ways to produce documentation.
7. Establishes and maintains electronic and/or hardcopy data library of documents and work order files for documents received for processing.
8. Advises, manages and mentors personnel assigned to technical documentation function.
MANAGEMENT AND TRAINING SERVICES
SINs 541611, 611430

Administrative Specialist 1

Minimum Education and Experience:
Associate’s degree and 1 year of job-related experience. Requires advanced capability to operate application software, including word processing and spreadsheet programs. Position may require the ability to pass and maintain a Security Clearance.

Functional Responsibilities:
1. Prepares and maintains word processing, spreadsheets, databases and/or other software files and information.
2. Prepares technical reports, including the gathering, analyzing, organizing, and presenting information and data in a logical, persuasive manner.
3. Reads, understands, and brings to management’s attention items requiring attention from the variety of data and reports sent to the office for action.
4. Gathers data from various sources and synthesizes the options for action from that data, for the decision-making process.
5. In concert with the Director(s) or Manager(s), designs and implements the necessary business processes to cause the effective functioning of the office.
6. Screens, directs, and handles incoming telephone calls and requests. Responds to inquiries exercising significant initiative and judgment based on knowledge of policies and procedures, including answering customer inquiries and acting as a liaison.
7. Organizes and maintains departmental files in accordance with applicable procedures.
8. Schedules appointments, arranges meetings, and prepares required materials. May attend meetings to record and/or report on proceedings.

Administrative Specialist 2

Minimum Education and Experience:
Bachelor’s degree and at least 2 years of job-related experience or equivalent. Good written communication skills; working knowledge of word processing and integrated software applications; organizational skills and ability to perform detail-oriented work are required. Technical Analyst 4

Minimum Education and Experience:
Bachelor’s degree and at least 6 years of job-related experience or equivalent. May supervise support personnel as required. Good written communication skills; working knowledge of word processing and integrated software applications; organizational skills and ability to perform detail-oriented work are required. Position may require travel. Position may require the ability to pass and maintain a Security Clearance.

Functional Responsibilities:
1. Assists subject matter experts in solving complex technical problems.
2. Conducts analytic and/or scientific studies in a specific technical area to support management, organizational or business decisions.
3. Performs conceptual, developmental and planning functions for major programs.
4. Generates specifications or plans for operational implementation.
5. Prepares detailed technical documentation to support technical findings, opinions or recommendations.
6. Performs customer liaison, makes presentations and attends customer meetings.
7. Tests technical applications to ensure correct management decisions.
9. May mentor junior-level personnel.

**Technical Analyst Lead**

**Minimum Education and Experience:**
Bachelor’s degree and at least 8 years of job-related experience or equivalent. May supervise support personnel as required. Good written communication skills; working knowledge of word processing and integrated software applications; good management and organizational skills and ability to perform detail-oriented work are required. Position may require travel. Position may require the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Performs customer requirements analyses.
2. As a team member or lead, solves complex technical problems.
3. Conducts analytic and/or scientific studies in a specific technical area to support management, organizational or business decisions.
4. Performs conceptual, developmental and planning functions for major programs.
5. Generates specifications or plan for operational implementation.
6. Prepares and reviews detailed technical documentation that supports technical findings, opinions or recommendations.
7. Performs customer liaison, makes presentations and attends customer meetings.
8. Evaluates technical applications used to make management/programmatic decisions.
10. Trains/mentors junior-level personnel.

**Technical Analyst Trainee**

**Minimum Education and Experience:**
Associates’ degree and no job-related experience. Excellent communications and analytical skills; demonstrated working knowledge of computer systems and integrated software application programs. Position may require travel. Position may require the ability to pass and maintain a Security Clearance.

**Functional Responsibilities:**
1. Assists subject matter experts in solving complex technical problems.
2. Gathers and compiles data for reports and revises, edits and maintains databases.
3. Supports analytic and/or scientific studies in a specific technical area to support management, organizational or business decisions.
4. Supports conceptual, developmental and planning functions for major programs.
5. Reviews specifications or plans for operational implementation.
6. Drafts investigative reports, papers and memoranda.
Instructor Pilot

Minimum Education and Experience:
Bachelor’s Degree and at least 5 years of job-related experience or equivalent. Must have an FAA commercial pilot certificate and FAA flight instructor certificate with rotorcraft category and helicopter class ratings on both certificates, or be a graduate of a DoD rotary wing instructor pilot course. Must have a valid Army or FAA Second Class Medical Certificate. Must have at least 500 hours of experience in the appropriate category of aircraft and an FAA instrument rating or a military instrument pilot rating in the rotorcraft category of aircraft. Good communication skills. Position may require travel. Position may require the ability to pass and maintain a security clearance.

Functional Responsibilities:
1. Instructs and plans the instructional efforts for all assigned flight related subjects for the applicable aircraft in accordance with the Commander’s Aircrew Training Program.
2. Training, evaluating and progressing pilots and air crews in Readiness Level progressions, Pilot in Command training, crew training, gunnery training, and instrument flight training during day, night, night vision systems (NVS), night vision goggle (NVG) and instrument flight rules (IFR) conditions in classroom, simulator and flight environments.
3. Provides information and data for reports as requested by the supervisor or Commander.
4. Prepares, updates, and presents all instructional materials, to include computer presentations, used in assigned subject areas in accordance with Government requirements.
5. Assures that all flight planning materials, training aids, and equipment are maintained, backed-up as appropriate, current and in sufficient quantities for the most efficient use.
6. Provides information and data for reports as requested by the Commander.

Maintenance Test Pilot

Minimum Education and Experience:
Bachelor’s Degree and at least 5 years of job-related experience or equivalent. Graduate of Army Aircraft Maintenance Officers Phase II course (AMOC Phase II) required. 1000 hours first pilot time with 300 hours in specific aircraft required. FAA Commercial Pilot or Airline Transport Pilot rating is required. Must possess and instrument rating on their FAA Commercial certificate. Must have a valid Army or FAA Second Class Medical Certificate. Must be able to pass hands-on flight evaluation for currency. Position may require travel. Position may require the ability to pass and maintain a security clearance.

Functional Responsibilities:
1. Plan mission and obtains briefing information on purpose of flight test, weather, operation procedures, intelligence and special instructions. Prepare flight plans considering such factors as altitude, terrain, weather, aircraft, crew capabilities, threats, operational and training requirements and flight procedures.
2. Prepare and file flight clearance. Ensure the aircraft is preflight inspected, loaded, equipped and manned for mission. Inspect engines, fuselage and control surfaces for mechanical and structural soundness. Inspect and test mission equipment for proper operations. Ensures that weight and balance are correct, fuel supply is adequate and survival and rescue equipment is properly stowed.
3. Brief crewmembers and non-crewmembers on safety and emergency procedures and scope of mission. Pilot aircraft and command crew to accomplish assigned mission. Pilot operates controls and equipment to take off and land under varying flying conditions. Perform prescribed test maneuvers, instrument readings and records results and test specifications as prescribed by the contract or customer requirements.
4. Test both normal and emergency functions of systems. Coordinate and direct flight phases of test or support with other aircraft. Maintain flight records and reports observations made during mission.
Conduct and supervise training of crewmembers. Instruct Co-pilots in operation and techniques of maintenance test flying. Orient and brief crewmembers and non-crewmembers on duties and responsibilities, flight operation and mission profile.

5. Maintain proficiency and currency requirements and perform check rides and support flight for proficiency effectiveness. Provide detailed and effective communications with ground maintenance personnel on results of test or acceptance flights. Determine need to re-fly or fix-and-sell on deficiencies noted in-flights. During non-flight periods is capable of and performs duties of Technical Inspector, inspecting maintenance and modification actions on assigned aircraft, as well as simulator training instruction.

Standardization Instructor Pilot

Minimum Education and Experience:
Bachelor’s Degree and at least 10 years of job-related experience or equivalent. Must have an FAA commercial pilot certificate and FAA flight instructor certificate with rotorcraft category and helicopter class ratings on both certificates, or be a graduate of a DoD rotary wing instructor pilot course. Must have a valid Army or FAA Second Class Medical Certificate. Must have at least 1500 hours of experience in helicopters with 500 hours experience as a flight instructor in the appropriate aircraft. Must have experience in conducting a comprehensive flight training quality control program. Excellent communication skills. Position may require travel. Position may require the ability to pass and maintain a security clearance.

Functional Responsibilities:
1. Instructs and plans the instructional efforts for all assigned flight related subjects for the applicable aircraft in accordance with the Commander’s Aircrew Training Program.
2. Ensures the Commander’s Standardization Program aligns with the established branch standards and that unit IP’s comply with and enforce these standards.
3. Advises the Commander on the standardization and aviation safety programs.
4. Training, evaluating and progressing pilots and air crews in Readiness Level progressions, Pilot in Command training, crew training, gunnery training, and instrument flight training during day, night, night vision systems (NVS), night vision goggle (NVG) and instrument flight rules (IFR) conditions in classroom, simulator and flight environments.
5. Prepares, updates, and presents all instructional materials, to include computer presentations, used in assigned subject areas in accordance with Government requirements.
6. Assures that all flight planning materials, training aids, and equipment are maintained, backed-up as appropriate, current and in sufficient quantities for the most efficient use.
7. Provides information and data for reports as requested by the Commander.

Training Instructor

Minimum Education and Experience:
Bachelor’s Degree and at least 10 years of job-related experience or equivalent. Must have graduated from a Government Instructor School, have 2 years supervisory experience, 3 years of instructor duty, and 8 years in a technical specialty related to the subject being taught. Must have experience in instructional presentation techniques. Good communication skills. Position may require travel. Position may require the ability to pass and maintain a security clearance.

Functional Responsibilities:
1. Thoroughly competent in the specific subject for which instructional materials are being developed as defined in a SOW or SOO.
2. Suggest content topics, recommend the sequence for presenting topics, and recommend activities based on course objectives.

3. Verify and ensure the technical accuracy of the subject content and the treatment of content in instructional materials chosen or produced for the project.

4. Consider the relationship of the subject undergoing development to other subjects in the curriculum or instructional program, making recommendations to enhance the training situation.

5. Point out elements in the content that may be difficult, confusing or that may be a likely area of trouble for students.

6. Advise how long it takes to learn particular segments, what the better information sources are, and which instructional techniques in resource books are good.

7. Maintain a fresh, broad, and imaginative view of the subject and its applications.
LOGISTICAL AND TRAINING SUPPORT SERVICES
SINs 541614, 541614SVC, 611430

Documentation Specialist 1

Minimum Education and Experience:
High school and 1 year of job-related experience or equivalent. Requires operating application software, including word processing and spreadsheet programs. Position may require the ability to pass and maintain a security clearance.

Functional Responsibilities:
1. Edits reports, publications, and correspondence to ensure clarity of content, consistency of format and accuracy of grammar.
2. Participates in developing and maintaining technical manuals.
3. Assists with validation/verification, discrepancies/deficiencies resolution, and accuracy/adequacy assessment of technical manual requirements.

Documentation Specialist 2

Minimum Education and Experience:
Associate’s degree and 5 years of job-related experience or equivalent. Good written communication skills; working knowledge of word processing and integrated software applications; organizational skills and ability to perform detail-oriented work are required. Position may require the ability to pass and maintain a security clearance.

Functional Responsibilities:
1. Applies working knowledge of technical literature and various style guides, including customer specifications, to documentation and publication standards.
2. Participates in developing and maintaining technical manuals.
3. Assists with validation/verification, discrepancies/deficiencies resolution, and accuracy/adequacy assessment of technical manual requirements.

Documentation Specialist 3

Minimum Education and Experience:
Bachelor’s degree in English or Journalism and 5 years of job-related experience or equivalent. Excellent written communications skills; working knowledge of word processing and integrated software applications; organizational skills and ability to perform detail-oriented work are required. Position may require travel and the ability to pass and maintain a security clearance.

Functional Responsibilities:
1. Advises, manages, and mentors personnel assigned to technical documentation function.
2. Interfaces with engineers and technical professionals in writing, editing and publishing various types of documents (e.g., test plans, test reports, and survey reports).
3. Oversees in-house production flow of technical publications. Tracks and monitors all documents from inception to distribution of final copies. Identifies and corrects problem areas as they arise.
Logistics Specialist 1

**Minimum Education and Experience:**

Bachelor’s degree and no job related experience. Good communication skills; working knowledge of word processing and integrated software applications; management and organizational skills and ability to perform detail-oriented work are required. Position may require travel and the ability to pass and maintain a security clearance.

**Functional Responsibilities:**

1. Researches and analyzes business element problems to determine solution alternatives.
2. Reviews reports, papers, drawings, specifications, procedures, etc.; consolidates comments from various organizations; and drafts reports.
3. Assists in preparing routine correspondence (i.e., letters, memos and route sheets), spreadsheets, Gantt charts, presentations and meeting minutes.

Logistics Specialist 2

**Minimum Education and Experience:**

Bachelor’s degree and 1 year of job-related experience or equivalent. Good written communications skills; working knowledge of word processing and integrated software applications; good management and organizational skills and ability to perform detail-oriented work are required. Position may require travel and the ability to pass and maintain a security clearance.

**Functional Responsibilities:**

1. Researches and analyzes business element problems to determine element(s) requirements, with minimum supervision.
2. May supervise and train entry-level personnel in the management, business and organizational aspects of assigned work.
3. Collaborates with customer(s) to define, coordinate and track the status of multidisciplinary task(s) and advises on management and business element planning and execution.

Logistics Specialist 3

**Minimum Education and Experience:**

Bachelor’s degree and at least 3 years of job-related experience or equivalent. Excellent communications skills; management and interpersonal; organizational and analytical skills; working knowledge of word processing and integrated software applications are required. Position may require travel and the ability to pass and maintain a security clearance.

**Functional Responsibilities:**

1. Reviews program reports, papers, drawings, specifications, procedures, etc.; provides comments; consolidates and adjudicates comments from various organizations and prepares reports.
2. Prepares program management correspondence (i.e., letters, memos and route sheets), designs charts, spreadsheets, Gantt charts and presentations and prepares analytical reports and meeting minutes.

Logistics Specialist 4

**Minimum Education and Experience:**

Bachelor’s degree and at least 5 years of job-related experience or equivalent. Good communications skills; working knowledge of word processing and integrated software applications; strong management and
organizational skills and ability to perform detail-oriented work are required. Position may require travel and the ability to pass and maintain a security clearance.

**Functional Responsibilities:**

1. Collaborates daily with customer(s) to determine specific needs and requirements and to counsel within the expert area, including overseeing task execution.

2. Develops and/or reviews program reports, papers, drawings, specifications, procedures, etc.; provides comments; organizes, consolidates and adjudicates comments from various organizations and prepares reports.

3. Performs expert-level review, analysis and validation of management and business products; prepares executive-level reports and briefs.

---

**Logistics Specialist Lead**

**Minimum Education and Experience:**

Bachelor’s degree and at least 7 years of job-related experience or equivalent. Good communications skills; working knowledge of word processing and integrated software applications; strong management and organizational skills and ability to perform detail-oriented work are required. Position may require travel and the ability to pass and maintain a security clearance.

**Functional Responsibilities:**

1. Collaborates daily with customer(s) to determine specific needs and requirements and to counsel within the expert area, including overseeing task execution.

2. Develops and/or reviews program reports, papers, drawings, specifications, procedures, etc.; provides comments; organizes, consolidates and adjudicates comments from various organizations and prepares reports.

3. Performs expert-level review, analysis and validation of management and business products; prepares executive-level reports and briefs.

4. Consults as industry expert with managers, program managers and customers, advising on program policy development, planning and implementation.

---

**Manager 1**

**Minimum Education and Experience:**

Bachelor’s degree and 1 year of job-related experience or equivalent.

**Functional Responsibilities:**

1. Interfaces with internal functional teams and external customers for planning, prioritization and issue resolution of overall activities in the support and achievement of customer goals.

2. Interacts with and advises customers by applying specific program knowledge and/or subject matter expertise in the execution of routine and non-routine tasks.

---

**Manager 2**

**Minimum Education and Experience:**

Bachelor’s degree and 3 years of job-related experience or equivalent.

**Functional Responsibilities:**

1. Leads and mentors personnel assigned to program support functions.

2. Interfaces with internal functional teams and external customers for planning, prioritization and issue resolution of overall activities in the support and achievement of customer goals.
Manager 3

**Minimum Education and Experience:**
Bachelor’s degree and 4 years of job-related experience or equivalent.

**Functional Responsibilities:**
1. Leads and mentors personnel assigned to program support functions.
2. Interfaces with internal functional teams and external customers for planning, prioritization and issue resolution of overall activities in support and achievement of customer goals.

Manager 4

**Minimum Education and Experience:**
Bachelor’s degree and 5 years of job-related experience or equivalent.

**Functional Responsibilities:**
1. Leads and mentors personnel assigned to program support functions.
2. Interfaces with internal functional teams and external customers for planning, prioritization and issue resolution of overall activities in support and achievement of customer goals.

Technical Specialist 1

**Minimum Education and Experience:**
Bachelor’s degree and no job-related experience. Good communications and analytical skills; working knowledge of computer systems and integrated software application programs. Position may require travel and the ability to pass and maintain a security clearance.

**Functional Responsibilities:**
1. Performs design development, analysis and review tasks under some supervision.
2. Generates sections of design specifications of more complex projects or completes specifications of less complex projects.
3. Prepares technical presentations.
4. Establishes and maintains filing systems and databases for tracking project status.

Technical Specialist 2

**Minimum Education and Experience:**
Bachelor’s degree and 2 years of job-related experience or equivalent. Good communications and analytical skills; working knowledge of computer systems and integrated software application programs. Position may require travel and the ability to pass and maintain a security clearance.

**Functional Responsibilities:**
1. Performs a range of design development, analysis or review tasks under minimal supervision.
2. Acts as a lead on less complex tasks and supports portions of a design or sections of an analysis or design review.
3. Generates and reviews complete design specifications of more complex projects.
Technical Specialist 3

Minimum Education and Experience:
Bachelor’s degree and 4 years of job-related experience or equivalent. Good communications and analytical skills; working knowledge of computer systems and integrated software application programs. Position may require travel and the ability to pass and maintain a security clearance.

Functional Responsibilities:
1. Performs a wide range of design development, analysis or review tasks under minimal supervision.
2. Acts as a lead on less complex tasks and is responsible for a portion of a design or section of an analysis or design review.
3. Generates and reviews complete design specifications of more complex projects.
4. Coordinates and works closely with other engineering, logistics, financial and program management disciplines to define project specifications and requirements.

Technical Specialist 4

Minimum Education and Experience:
Bachelor’s degree and 5 years of job-related experience or equivalent. Excellent communications and analytical skills; working knowledge of computer systems and integrated software application programs. Position may require travel and the ability to pass and maintain a security clearance.

Functional Responsibilities:
1. Independently performs a wide range of design development, analysis or review tasks.
2. Responsible for complete designs, analyses or reviews.
3. Generates and reviews complete design specifications for the most complex projects.
4. May train other technical personnel on technical issues related to the research, design, development, testing and analysis of technical assignments.

Technical Specialist Lead

Minimum Education and Experience:
Bachelor’s degree and 7 years of job-related experience or equivalent. Excellent communications and analytical skills; working knowledge of computer systems and integrated software application programs. Position may require travel and the ability to pass and maintain a security clearance.

Functional Responsibilities:
1. Responsible for a wide range of design, development, analysis or review tasks, while providing supervision of contributing technical personnel.
2. As the team leader, responsible for complete designs, analyses or design reviews.
3. Acts as and is recognized as a Company/industry expert resource on complex technical problems.
4. May lead technical teams and act as a mentor to technical team members.

Technical Specialist Trainee

Minimum Education and Experience:
Associate’s degree and no job-related experience. Good communications and analytical skills; working knowledge of computer systems and integrated software application programs. Position may require travel and the ability to pass and maintain a security clearance.
Functional Responsibilities:
1. Performs design development and analysis and reviews tasks under supervision.
2. Generates sections of design specifications of more complex projects or completes specifications of less complex projects.
3. Drafts technical presentations.
