The Vander Weele Group LLC employs a powerful blend of expertise to promote integrity, efficiency, and sound programming in government programs. Our integrated approach to creating systemic change begins with unparalleled fact-finding. Through skilled interviewing, data analytics, monitoring, open source intelligence, and detailed document reviews, we gain insights into organizational challenges. Informed by the deep expertise of the front lines of an organization, we identify management system inefficiencies, waste, fraud or abuse.

Next, we step out of the traditional role of armchair critic and bridge the gap between watchdog and quarterback. Like a systems-building SWAT team, we design solutions, drawing on the best practices of management and technology to ensure smooth-running operations.

Our solutions are creative, effective and practical - designed to enable programs to withstand internal and external scrutiny. Our approach is multi-disciplinary, complementing compliance, investigative and management know-how with subject-matter expertise in areas ranging from law enforcement and construction to human services and education.

The Vander Weele Group’s objective and meticulous reporting is grounded in broad experience working on confidential, complicated matters, both domestically and abroad. Our clients include Fortune 500 companies, federal agencies, law firms, and other organizations.

The Vander Weele Group was founded by Maribeth Vander Weele, former President of the Illinois Association of Inspectors General, former Inspector General of Chicago Public Schools, and a key member of the acclaimed 1995 turnaround team for the nation’s third-largest school system. A former award-winning journalist for the Chicago Sun-Times and author of Reclaiming Our Schools, the Struggle for Chicago School Reform, she is a results-oriented professional known for her ability to drive strategic and tactical change in large organizations. A noted public speaker, she has devoted her career to fostering integrity and efficiency in government.

SIN 874-1(RC): INTEGRATED CONSULTING SERVICES Vander Weele Group provides expert advice, assistance, guidance or counseling in support of agencies’ management, organizational and business improvement efforts. This may include studies, analyses and reports documenting any proposed developmental, consultative or implementation efforts. Examples of consultation include but are not limited to: strategic, business and action planning; systems alignment; cycle time; high performance work; leadership systems; performance measures and indicators; process and productivity improvement; organizational assessments; survey services, using a variety of methodologies, including survey planning, design, and development; survey administration; data validation and analysis; reporting, and stakeholder briefings; program audits, and evaluations.

SIN 520-13 (RC): COMPLEMENTARY FINANCIAL MANAGEMENT SERVICES Vander Weele Group assesses and improves financial management systems, financial reporting and analysis, strategic financial planning, financial policy formulation and development. Devises and implements performance measures, conducts special cost studies, performs actuarial services, performs economic and regulatory analysis, assist with financial quality assurance efforts and performs benchmarking.

25. Data Universal Number System (DUNS) number 130389724

26. Notification regarding registration in Central Contractor Registration (CCR) database: Registered
Labor Category Descriptions

The labor categories listed in this Section apply to services offered under SINs 874-1 and 874-1 (RC), 520-13 and 520-13 (RC)

CEO/Partner
Functional Responsibility: The CEO/Partner interfaces with senior-level clients on strategic issues, provides industry-specific expert advice, draws on specialized knowledge and a high degree of sound judgment, and offers creative solutions to complex issues, typically drawing on solutions from multiple disciplines. Four additional years of relevant industry or military experience may be substituted for an advanced degree.

Partner
Functional Responsibility: A Partner provides executive level management and/or consultation on client engagements. He or she draws on specialized knowledge and a high degree of sound judgment, and offers creative strategies to address complex issues. The Partner assists the project team in ensuring client expectations are met and that recommended solutions are achievable and meaningful. He or she manages multiple projects. Four additional years of relevant industry or military experience may be substituted for an advanced degree.

Project Manager
Functional Responsibility: A Project Manager coordinates the day-to-day details of a client engagement, supervising project staff and executing the project plan. The Project Manager is responsible for ensuring project deliverables are delivered on time and in a high quality fashion. Four additional years of relevant industry or military experience may be substituted for an advanced degree.

Manager
Functional Responsibility: A Manager provides oversight to at least two project personnel. He or she assists in ensuring project deliverables are delivered on time and in a high quality fashion. Four additional years of industry or military experience may be substituted for a Bachelor’s degree.

Subject Matter/Technical Expert I
Functional Responsibility: A Subject Matter Expert 1 applies a high degree of expertise in specific disciplines such as risk management, investigations, education, law, security, or other fields related to the client project, contributing to highly complex client deliverables, business process improvements, and strategies. Four additional years of industry or military experience may be substituted for an advanced degree.

Subject Matter/Technical Expert II
Functional Responsibility: A Subject Matter Expert 2 offers expertise in specific disciplines such as risk management, investigations, education, law, security, or other fields related to the client project, contributing to complex client deliverables, business process improvements, and strategies. Four additional years of industry or military experience may be substituted for an advanced degree.

Technical Analyst I
Functional Responsibility: A Technical Analyst 1 leads the collection and analysis of data to identify patterns, trends, risks and other factors relevant to the client project. He or she is familiar with information technology systems as it relates to data and analysis. He or she may carry out other discreet programmatic duties related to the agency’s mission-oriented business functions. Four years of industry or military experience may be substituted for a Bachelor’s Degree.

Technical Analyst II
Functional Responsibility: A Technical Analyst 2 collects and analyzes data to identify patterns, trends, risks and other factors relevant to the client project. He or she is familiar with information technology systems as it relates to data and analysis. He or she may carry out other discreet programmatic duties related to the agency’s mission-oriented business functions. Four years of industry or military experience may be substituted for a Bachelor’s Degree.

Research Analyst I
Functional Responsibility: A Research Analyst 1 leads the collection and analysis of documents, data and online information to identify patterns, trends, risks, subject profiles and other information relevant to the client project. He or she may assist in processing information and/or carrying out other discreet programmatic duties related to the agency’s mission-oriented business functions. Four years of industry or military experience may be substituted for a Bachelor’s Degree.

Research Analyst II
Functional Responsibility: A Research Analyst 2 collects and analyzes data, document and online information to identify patterns, trends, risks, subject profiles, and other factors relevant to the client project. He or she may assist in processing information and/or carrying out other discreet programmatic duties related to the agency’s mission-oriented business functions. Four years of industry or military experience may be substituted for a Bachelor’s Degree.

Research Analyst III
Functional Responsibility: A Research Analyst 3 collects and analyzes data, document and online information to develop subject and company profiles and/or other information relevant to the client project. Four years of industry or military experience may be substituted for a Bachelor’s Degree.

Service Contract Act:
The Service Contract Act (SCA) is applicable to this contract as it applies to the entire Professional Services Schedule and all services provided. While no specific labor categories have been identified as being subject to SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCA eligible labor categories. If and / or when the contractor adds SCA labor categories / employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCA matrix identifying the GSA labor category titles, the occupational code, SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
