PRODUCT OFFERING Gulfcoast Ultrasound Institute (GCUS) is the most comprehensive, accredited resource for live and online diagnostic ultrasound training and CME. The Gulfcoast Ultrasound Institute is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Since 1985, Gulfcoast Ultrasound has been dedicated to providing the highest quality continuing medical education (CME) and skills training in the diagnostic ultrasound profession. All activities are approved for AMA PRA Category 1 Credits™.

Located in downtown St. Petersburg, Florida, Gulfcoast Ultrasound Institute has hosted over 150,000 physicians, sonographers, and other medical professionals with a broad range of ultrasound continuing medical education options, and has awarded over 500,000 CME credits to participants worldwide.
Gulfcoast Ultrasound Institute offers over 40 live seminars/courses and dozens of webinars a year, along with over 400 self-paced ultrasound training products in abdominal, adult echocardiography, anesthesiology, emergency medicine, critical care, musculoskeletal, OB/GYN, breast, rpvi, midwife, pediatric, physics, vascular and registry review in multiple learning formats. Past participants from our registry review courses, programs and products have a >98% exam success rate, the highest in the industry. Gulfcoast Ultrasound Institute is also the first education provider in the industry to offer our latest learning format, Blended Ultrasound Training. This format combines our comprehensive online classroom programs with live 3:1 participant to instructor scan ratio hands-on scanning workshops.

Only the latest technology and innovative teaching methods are used at Gulfcoast Ultrasound Institute to ensure learners receive the maximum educational benefit from each course and product offered. As a result, seminars/courses, webinars, and educational products have received a 99.8% satisfaction rating for meeting or exceeding overall educational objectives. Gulfcoast Ultrasound Institute also receives consistent high ratings for the quality and amount of hands-on instruction (industry leading 3:1 scan ratio) that are offered to all participants...a key component to effective medical education.

**RETURN POLICY:** A full registration refund will be given if cancellation is received more than 30 days prior to a scheduled program. Registrations received 14-30 days prior to a program start date are non-refundable, and are limited to a one-time transfer restricted to the same person for the next identical program on the Gulfcoast Ultrasound Institute schedule. A $300.00 transfer fee plus any change in program tuition will apply. No refunds or transfers will be allowed less than 14 days to a program start date.

In the event a program or live webinar is re-scheduled or cancelled, pre-paid attendees will be given the choice of transferring to another program or having the tuition refunded in full. Gulfcoast Ultrasound is not responsible for any travel and/or lodging reimbursements. Prices, schedules, and CME credits subject to change without notice.

A 5% discount on course registration applies to individuals from the same facility that register for the same course and date at the same time and pay with the same form of payment (one combined payment) when attending courses in St. Petersburg, FL. Not available when attending Combined courses. Cannot be combined with other course discounts/offers. Call us for details.

Live or On Demand Webinars are non-refundable after participants logs in to watch the webinar. On – Demand webinars are intended for single participant per webinar use, and as such security settings only permit access to one computer per webinar purchase. For multiple participant registration please call Gulfcoast Ultrasound Institute.

Credit card refunds, when in accordance to the terms above, will only be credited to the same credit card used to place the order (*no exceptions*), LESS any credit card processing/transaction fees inc
Live Training Courses: www.gcus.com/courses

Gulfcoast Ultrasound Institute offers regularly scheduled live training courses. These programs are offered throughout the year and are taught by leading industry experts. During hands-on programs, the ratio of participants to instructors does not exceed 3:1 to ensure the best training experience possible. Due to this, class size is limited based on subject matter. Please call 727.363.4500 to confirm space availability for groups prior to submitting a purchase order. If a program is sold out it will be listed on our website www.gcus.com.

**Discount:** There is an early registration discount for orders received 21 days or more prior to a course start date. (Listed in the price list below as “Advanced Registration”)

**Cancellations:**

A full registration refund will be given if cancellation is received more than 30 days prior to a scheduled program/webinar. Registrations received 14-30 days prior to a program start date are non-refundable, and are limited to a one-time transfer restricted to the same person for the next identical program on the Gulfcoast Ultrasound Institute schedule. A $150.00 transfer fee plus any change in program tuition will apply. No refunds or transfers will be allowed less than 14 days to a program start date. In the event a program is re-scheduled or cancelled, pre-paid attendees will be given the choice of transferring to another program or having the tuition refunded in full (if program is cancelled due to Acts of God, only transfers to another program will be offered). Gulfcoast Ultrasound will not be responsible for any travel and/or lodging reimbursements. Prices, schedules, and CME credits subject to change without notice.

**Registering for a course through GSA:**

The Courses listed in the GSA catalog are for that general course topic, please visit www.gcus.com or the web address listed in the GSA Catalog to see the specific dates that course is offered.

Step 1: Place purchase order with Gulfcoast Ultrasound Institute (include: point of contact to obtain participant information, course code of the specific date course)

Step 2: Gulfcoast Ultrasound Institute will process the registration and request additional personal information from all course attendees

Step 3: A confirmation packet will be sent to the attendees including all information about the course, travel information, and information about things to do in the surrounding area.

Step 4: Attend the program and receive your CME Certificate upon completion.

### Advanced Emergency Medicine & Critical Care Ultrasound

**Course Description:**
Live Course held in Saint Petersburg, FL. Advanced Emergency Medicine and Critical Care Ultrasound Training Course is designed to build on the knowledge base of experienced emergency medicine and critical care ultrasound professionals using advanced ACEP/WINFOCUS ultrasound topics. These courses are taught by leading critical care ultrasound experts that incorporates comprehensive lectures and interactive case presentations featuring a 3:1 faculty to participant hands-on scan ratio with live models and phantoms. This course is specifically designed for physicians, sonographers and other medical professionals who need advanced emergency medicine & critical care ultrasound training. GCUS offers two (2) day advanced emergency medicine & critical care ultrasound courses at our facility in St. Petersburg, FL.

**Topics:**
- FREE Pre-Course Online Video: Focused Cardiac Ultrasound
- Sonography in Shock & Source of Sepsis (Gallbladder, Biliary Tree, Appendix, Bowel Obstruction, Peritonitis & Abscess, Pyleonephritis)
- Fluid Responsiveness in the Critically Ill
- Advanced Non-Cardiac Chest (Sinuses, Larynx, Trachea, Lung & Pleura)
- Ultrasound Guided Peripheral Vascular Access
- Interactive Case Studies
- CRITICAL CARE TRACK:
  1. Cardiac Doppler & Focused Calculations
  2. Echo Assessment of Cardiomyopathies & Heart Failure
  3. Mitral Insufficiency & Complications
- 4. Guidelines for Appropriate Use of Ultrasonography by the Intensivist
- EMERGENCY MEDICINE TRACK:
  1. Sonography of the Acute Scrotum
  3. Nerve Blocks in the ED (Forearm, Femoral, and Ankle Blocks)

### Introduction to Musculoskeletal Ultrasound

**Course Description:**
Live Course held in Saint Petersburg, FL. Introduction to Musculoskeletal Ultrasound Training Course provides participants a comprehensive introduction to musculoskeletal ultrasound. These courses are taught by leading musculoskeletal ultrasound experts that incorporates comprehensive lectures and interactive case presentations featuring a 3:1 faculty to participant hands-on scan ratio with live models and phantoms. These courses are specifically designed for physicians, sonographers and other medical professionals who need musculoskeletal ultrasound training. GCUS offers three (3) day introduction to musculoskeletal ultrasound courses at our facility in St. Petersburg, FL.

**Topics:**
- Shoulder Anatomy & Scanning Techniques
- Evaluation of Shoulder Pathology
- Elbow Anatomy & Scanning Techniques
- Evaluation of Elbow Pathology
- Ultrasound Guided Injection Techniques
- Wrist/Hand Anatomy & Scan Techniques
- Evaluation of Wrist/Hand Pathology
- Normal Evaluation of the Ankle/Foot & Pathology

### Advanced & Interventional Musculoskeletal Ultrasound

**Course Description:**
Live Course held in Saint Petersburg, FL. Advanced & Interventional Musculoskeletal Ultrasound Courses are taught by leading experts in the field of MSK ultrasound that incorporates comprehensive lectures and interactive case presentations featuring a 3:1 faculty to participant hands-on scanning with live models and human cadaveric specimens for advanced applications and ultrasound-guided procedures including (but not limited to) regenerative therapy. Learn the advanced and interventional musculoskeletal essentials at our facility in St. Petersburg, FL and build confidence in your advanced level MSK scanning and interpretation abilities.

**Topics:**
- MSK Ultrasound Guided Injection Techniques
- Adv. MSK Ultrasound-Guided Procedures in Rehabilitative Medicine
- Post-Operative Ultrasound: Shoulder, Knee & Beyond
- Indications for Ultrasound-Guided Nerve Blocks
- Challenging MSK Dilemmas: A Case Based Approach
- Advanced Peripheral Nerve Applications: Diagnosis & Treatment Options
- Advanced Foot, Ankle & Hip
- Ultrasound Evaluation of the Spine
- Interesting Case Presentations

### MARM: Regenerative Medicine Musculoskeletal Ultrasound
(Live Course held in Saint Petersburg, FL) Advanced/Interventional MSK Ultrasound with Regenerative Medicine Track is designed to expand and update the participants’ skills to integrate advanced MSK applications and ultrasound guided regenerative medicine techniques into clinical practice. These courses are taught by leading musculoskeletal ultrasound experts that incorporates comprehensive evidence-based lectures and interactive case presentations featuring a 3:1 faculty to participant hands-on scan ratio with live models and human cadaveric specimens. Participants will also have the opportunity to observe live demonstrations of multiple regenerative medicine procedures (diagnosis and techniques) on various live patients with pathologies. These courses are specifically designed for physicians, sonographers and other medical professionals who need advanced/interventional musculoskeletal ultrasound training with a focus on regenerative medicine. GCUS offers two (2) day advanced/interventional MSK ultrasound with regenerative medicine track courses at our facility in St. Petersburg, FL.
