E-mail: jim.montague@logzoneinc.com
Contract Administration: James O. Montague

CUSTOMER INFORMATION:

- 1a. **Table of Awarded Special Item Number(s) with appropriate cross-reference to item descriptions and awarded price(s):**

SIN	SIN Description
541614SVC	Supply and Value Chain Management
561210FS	Facilities Support Services
OLM	Order-Level Materials

- 1b. **Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.**

- 1c. **If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item.**

2. **Maximum Order:** \$1,000,000.00

3. **Minimum Order:** \$100.00

4. **Geographic Coverage (delivery Area):** Domestic and Overseas

5. **Point(s) of production (city, county, and state or foreign country):** Same as company address

6. **Discount from list prices or statement of net price:** Government net prices (discounts already deducted). See Attachment.

7. **Quantity discounts:** None Offered

8. **Prompt payment terms:** Net 30 days

Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9a. **Notification that Government purchase cards are accepted up to the micro-purchase threshold:** Yes

9b. **Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold:** Will accept.

10. **Foreign items (list items by country of origin):** None

11a. **Time of Delivery (Contractor insert number of days):** Specified on the Task Order

11b. **Expedited Delivery. The Contractor will insert the sentence “Items available for expedited delivery are noted in this price list.” under this heading. The Contractor may use a symbol of its choosing to highlight items in its price list that have expedited delivery:** Contact Contractor

- 11c. **Overnight and 2-day delivery.** The Contractor will indicate whether overnight and 2-day delivery are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery: Contact Contractor
- 11d. **Urgent Requirements.** The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor’s representative to effect a faster delivery: Contact Contractor
12. **F.O.B Points(s):** Destination
- 13a. **Ordering Address(es):** Same as Contractor
- 13b. **Ordering procedures:** For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.
14. **Payment address(es):** Same as company address
15. **Warranty provision.:** Contractor’s standard commercial warranty.
16. **Export Packing Charges (if applicable):** N/A
17. **Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level):** Contact Contractor
18. **Terms and conditions of rental, maintenance, and repair (if applicable):** N/A
19. **Terms and conditions of installation (if applicable):** N/A
20. **Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable):** N/A
- 20a. **Terms and conditions for any other services (if applicable):** N/A
21. **List of service and distribution points (if applicable):** N/A
22. **List of participating dealers (if applicable):** N/A
23. **Preventive maintenance (if applicable):** N/A
- 24a. **Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants):** N/A
- 24b. **If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contactor’s website or other location.) The EIT standards can be found at:** www.Section508.gov/.
25. **Data Universal Numbering System (DUNS) number:** 794296272
26. **Notification regarding registration in System for Award Management (SAM) database:** Registered

27. Final Pricing:

The rates shown below include the Industrial Funding Fee (IFF) of 0.75%.

**SCA Applicable labor categories

Labor Category	Minimum Education	Minimum Experience	Description of Duties
Prog/Sys Analyst I	Bachelors	2 years	Applies engineering techniques and practices, technical principles, theories, and concepts. Contributes to the development of new principles and concepts. Works on technical problems and provides solutions which are highly innovative. Develops technological ideas and guides their development into a final product.
Prog/Sys Analyst II	Bachelors	5 years	Applies engineering techniques and practices, technical principles, theories, and concepts. Contributes to the development of new principles and concepts. Works on technical problems and provides solutions which are highly innovative. Develops technological ideas and guides their development into a final product. Supervise database development for logistics efforts.

Prog/Sys Analyst III	Bachelors	10 years	Applies engineering techniques and practices, technical principles, theories, and concepts. Contributes to the development of new principles and concepts. Works on technical problems and provides solutions which are highly innovative. Develops technological ideas and guides their development into a final product. Acts as advisor to management and customers on advanced technical research studies and applications. Supervise database development for logistics efforts.
Prog/Sys Analyst IV	Bachelors	15 years	Applies engineering techniques and practices, technical principles, theories, and concepts. Contributes to the development of new principles and concepts. Works on technical problems and provides solutions which are highly innovative. Develops technological ideas and guides their development into a final product. Acts as advisor to management and customers on advanced technical research studies and applications. Supervise database development for logistics efforts.
Project Manager I	Bachelors	8 years	Responsible for the management and execution of a task order. Experienced with increasing responsibilities in both managerial and technical responsibilities. Must demonstrate the ability to work independently or under only general direction. May be responsible for individual task orders under the supervision of the Program Manager.
Project Manager II	Bachelors	15 years	Responsible for the management and execution of a task order. Experienced with increasing responsibilities in both managerial and technical responsibilities. Must demonstrate the ability to work independently or under only general direction. May be responsible for individual task orders under the supervision of the Program Manager.
Program Manager I	Bachelors	15 years	Responsible for overall management of the Program. Organizes, directs, and coordinates planning and production of all contract support activities. Must have excellent oral and written communication skills with a demonstrated capability for dealing with all levels of management personnel, contractor managers, and customer representatives.
Program Manager II	Bachelors	20 years	Responsible for overall management of the Program. Organizes, directs, and coordinates planning and production of all contract support activities. Must have excellent oral and written communication skills with a demonstrated capability for dealing with all levels of management personnel, contractor managers, and customer representatives.
Program Manager III	Bachelors	25 years	Responsible for overall management of the Program. Organizes, directs, and coordinates planning and production of all contract support activities. Must have excellent oral and written communication skills with a demonstrated capability for dealing with all levels of management personnel, contractor managers, and customer representatives.
Sr Mgt Tech Staff I	Bachelors	7 years	Recognized expert in one or more given fields to include the program material acquisition life cycle process. Develops and applies complex methods, theories and research techniques in the investigation and solution of complex problems requiring application of superior knowledge.
Sr Mgt Tech Staff II	Bachelors	15 years	Recognized expert in one or more given fields to include the program material acquisition life cycle process. Develops and applies complex methods, theories and research techniques in the investigation and solution of complex problems requiring application of superior knowledge.
Logistician I	Bachelors	10 years	Applies engineering techniques and practices, technical principles, theories, and concepts. Contributes to the development of new principles and concepts. Works on technical problems and provides solutions which are highly innovative. Develops technological ideas and guides their development into a final product. Develops databases and software to support logistic efforts.
Logistician II	Bachelors	14 years	Applies engineering techniques and practices, technical principles, theories, and concepts. Contributes to the development of new principles and concepts. Works on technical problems and provides solutions which are highly innovative. Develops technological ideas and guides their development into a final product. Develops databases and software to support logistic efforts.
Log Analyst I	Bachelors	2 years	Performs engineering planning, performance management, capacity planning, testing and validation, benchmarking. Works under general supervision and follows established procedures.
Log Analyst II	Bachelors	5 years	Performs engineering planning, performance management, capacity planning, testing and validation, benchmarking. Works under general supervision and follows established procedures.
Log Analyst III	Bachelors	10 years	Performs engineering planning, performance management, capacity planning, testing and validation, benchmarking. Works independently with some general supervision and follows established procedures.
Log Analyst IV	Bachelors	15 years	Performs engineering planning, performance management, capacity planning, testing and

			validation, benchmarking. Works mostly independent and with minimum supervision and follows established procedures.
Admin I **	High School	2 years	Provide administrative type support to technical and management-level personnel. Documentation planning and support, project administration, general office support, executive secretarial support, event planning and administration, data input, etc.
Admin II **	High School	4 years	Provide administrative type support to technical and management-level personnel. Documentation planning and support, project administration, general office support, executive secretarial support, event planning and administration, data input, etc.
Admin III **	High School	6 years	Provide administrative type support to technical and management-level personnel. Documentation planning and support, project administration, general office support, executive secretarial support, event planning and administration, data input, etc.
Technician I **	High School	7 years	Provides direct support in their key areas of expertise such as research, design, development, testing, manufacturing process improvements or other fields.
Analyst I	Bachelors	2 years	Provides assistance in logistics, training, financial management, human resource management, configuration management, analysis, acquisition, operations control, quality control, ADP and/or telecommunication systems to support contract efforts. Programs and tests various ADP, telecommunication and hardware systems.
Analyst II	Bachelors	5 years	Provides assistance in logistics, training, financial management, human resource management, configuration management, analysis, acquisition, operations control, quality control, ADP and/or telecommunication systems to support contract efforts. Programs and tests various ADP, telecommunication and hardware systems.
Analyst III	Bachelors	6 years	Provides assistance in logistics, training, financial management, human resource management, configuration management, analysis, acquisition, operations control, quality control, ADP and/or telecommunication systems to support contract efforts. Designs, formulates, implements, operates and maintains various systems, equipment and procedures to meet contract requirements. Programs and tests various ADP, telecommunication and hardware systems.
Analyst IV	Bachelors	7 years	Provides assistance in logistics, training, financial management, human resource management, configuration management, analysis, acquisition, operations control, quality control, ADP and/or telecommunication systems to support contract efforts. Designs, formulates, implements, operates and maintains various systems, equipment and procedures to meet contract requirements. Programs and tests various ADP, telecommunication and hardware systems.
Analyst V	Bachelors	10 years	Provides assistance in logistics, training, financial management, human resource management, configuration management, analysis, acquisition, operations control, quality control, ADP and/or telecommunication systems to support contract efforts. Designs, formulates, implements, operates and maintains various systems, equipment and procedures to meet contract requirements. Programs and tests various ADP, telecommunication and hardware systems.
Engineer I	Bachelors	5 years	Provides technical expertise in logistics, training, program management, human resource management, configuration management, analysis, acquisition, operations control, quality control, ADP and/or telecommunication systems to support task order efforts. Provides planning, direction, and coordination of work activity for technical staff involved in structured systems analysis, design, programming, and testing of various systems as set forth in the task order and program requirements.
Engineer II	Bachelors	10 years	Provides technical expertise in logistics, training, program management, human resource management, configuration management, analysis, acquisition, operations control, quality control, ADP and/or telecommunication systems to support task order efforts. Provides and coordinates the design, formulation, implementation, operation and maintenance of various systems, equipment and procedures to meet contract requirements. Provides planning, direction, and coordination of work activity for technical staff involved in structured systems analysis, design, programming, and testing of various systems as set forth in the task order and program requirements.
Documentation Specialist **	High School	2 years	Monitor, manages and correlates all documentation associated with a specific project. Properly prepares formats and prints all required correspondence. Operates computer equipment, telecommunications equipment, printing equipment and facsimile machines. Incorporates all required project documentation into specific project format including preparation and finalization of binders. Disseminates all required documentation for contract compliance and customer acceptance.

Experience may be substituted for degree requirements:

4 years experience for bachelors;

3 years experience for masters;

3 years experience for Doctorate

(i.e. // someone with High School Diploma would require additional 10 years related experience to that already shown for a particular labor category desiring a Doctorate).
