Verity Integrated Systems, Inc.
5030 Bradford Drive, NW
Building 1, Suite 230
Huntsville, AL 35805

CUSTOMER INFORMATION:

1a. Table of Awarded Special Item Number(s):

SIN	Recovery	SIN Description
871-1	871-1RC	Strategic Planning for Technology Programs/Activities
871-2	871-2RC	Concept Development and Requirements Analysis
871-3	871-3RC	System Design, Engineering and Integration
871-4	871-4RC	Test and Evaluation

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract.

1c. If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. See pages 7-13.

2. Maximum Order: \$1,000,000.00

3. Minimum Order: \$100.00

4. Geographic Coverage (delivery Area): Domestic Only

5. Point(s) of production (city, county, and state or foreign country): Same as company address

6. Discount from list prices or statement of net price: Government net prices (discounts already deducted).

7. Quantity discounts: None Offered

8. Prompt payment terms: Net 30 days

9a. Notification that Government purchase cards are accepted up to the micro-purchase threshold: Yes

9b. Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold: will accept over \$3,000

10. Foreign items (list items by country of origin): None

11a. Time of Delivery (Contractor insert number of days): Specified on the Task Order

11b. Expedited Delivery: Contact Contractor

11c. Overnight and 2-day delivery: Contact Contractor

11d. Urgent Requirements: Contact Contractor

12. F.O.B Points(s): Destination

13a. Ordering Address(es): Same as Contractor

13b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's), and a sample BPA can be found at the GSA/FSS Schedule homepage (fss.gsa.gov/schedules).

14. **Payment address(es):** Same as company address
15. **Warranty provision:** Contractor's standard commercial warranty
16. **Export Packing Charges (if applicable):** N/A
17. **Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level):** Contact Contractor
18. **Terms and conditions of rental, maintenance, and repair (if applicable):** N/A
19. **Terms and conditions of installation (if applicable):** N/A
20. **Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable):** N/A
- 20a. **Terms and conditions for any other services (if applicable):** N/A
21. **List of service and distribution points (if applicable):** N/A
22. **List of participating dealers (if applicable):** N/A
23. **Preventive maintenance (if applicable):** N/A
- 24a. **Environmental attributes, e.g., recycled content, energy efficiency, and/or reduced pollutants:** N/A
- 24b. **If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contactor's website or other location.) The EIT standards can be found at: www.Section508.gov**
25. **Data Universal Numbering System (DUNS) number:** 078845751
26. **Registration in Central Contractor Registration (CCR) database:** Current
27. **Final Pricing:** The rates shown below include the Industrial Funding Fee (IFF) of 0.75%

Service Contract Act (SCA) Matrix

SCA Eligible Labor Category	SCA Equivalent Code Title	Wage Determination No.
Technical Specialist**	01113 General Clerk III	2015-4603

The Service Contract Act (SCA) is applicable to this contract and it includes SCA applicable labor categories. The prices for the indicated (**) SCA labor categories are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e. nationwide).

Professional Services Schedule (PSS)

Awarded Labor Categories

Program Manager IV

Minimum/General Experience: This position requires a minimum of fifteen (15) years of general experience.

Functional Responsibilities: Provides senior level leadership, direction, and management for engineering, analysis, and/or technology programs. Responsible for the effective management of funds and personnel. Accountable for the quality and timely delivery of all contractual items.

Operates within client guidance, contractual limitations, and company business and policy directives. Serves as focal point of contact with client regarding program activities. Utilizes extensive managerial and business knowledge in accordance with customer requirements. Proficient in standards, principles, practices, and processes related to managed programs. Leads and provides direct input in solving complex issues involving staff and resources of sizable magnitude.

Minimum Education*: Bachelor's degree. Such degrees might be, but should not be limited to, the disciplines of computer science, information systems, physical science, engineering, mathematics- intensive discipline, or business.

Program Manager I

Minimum/General Experience: This position requires a minimum of four (4) years of general experience.

Functional Responsibilities: Provides task direction, and management for engineering, analysis, and/or technology programs. Responsible for the effective management of funds and personnel. Accountable for the quality and timely delivery of all contractual items. Operates within client guidance, contractual limitations, and company business and policy directives. Serves as focal point of contact with client regarding task activities. Utilizes managerial and business knowledge in accordance with task requirements. Uses knowledge of standards, principles, practices, and processes to manage tasks. Leads and provide direct input in solving issues involving staff and resources of sizable magnitude.

Minimum Education*: Bachelor's degree. Such degrees might be, but should not be limited to, the disciplines of computer science, information systems, physical sciences, engineering, a mathematics- intensive discipline, or business.

Subject Matter Expert (SME)

Minimum/General Experience: This position requires a minimum of fifteen (15) years general experience with at least five (5) years of experience in the area of expertise.

Functional Responsibilities: Guides the development and application of acquisition, logistics, and/or technological expertise to the project. Independently performs a variety of system design, integration, acquisition, and/or logistical planning tasks where subject matter expertise is required. May supervise and guide a broad team of staff/engineers/analysts.

Minimum Education*: Bachelor's degree. Such degrees might be, but should not be limited to, the disciplines of computer science, information systems, physical science, engineering, mathematics- intensive discipline, or business.

Advanced Engineer

Minimum/General Experience: This position requires a minimum of twenty (20) years general experience.

Functional Responsibilities: Responsible for formulation of the opinions, decisions, and ultimate performance of the task specified in the SOW contained in the task order. Plans and performs engineering research, design development, and other assignments in conformance with design, engineering, and customer specifications. Provides technical leadership on engineering related projects; manages multi-task efforts; briefs or leads strategic level client meetings; and leads design or implementation efforts of programs, projects or tasks. Coordinates the activities of engineers and technicians assigned to specific engineering projects. May supervise team of engineers through project completion.

Minimum Education*: Bachelor's of Science degree in computer science, mathematics, engineering, physical sciences, or a mathematics-intensive discipline. Experience shall not be substituted in lieu of Bachelor's degree.

Intermediate Engineer

Minimum/General Experience: This position requires a minimum of fifteen (15) years general experience.

Functional Responsibilities: Plans and performs engineering research, design development, and other assignments in conformance with design, engineering, and customer specifications. Provides technical leadership on engineering related projects; manages multi-task efforts; briefs or leads strategic level client meetings; and leads design or implementation efforts of programs, projects or tasks. Coordinates the activities of technicians assigned to specific engineering projects.

Minimum Education*: Bachelor's of Science degree in computer science, mathematics,

engineering, physical sciences, or a mathematics-intensive discipline. Experience shall not be substituted in lieu of Bachelor's degree.

Journeyman Engineer

Minimum/General Experience: This position requires a minimum of ten (10) years general experience.

Functional Responsibilities: Analyzes and develops technical documentation detailing the integration and system performance. Supports the design and implementation of technical solutions for complex discipline-specific problems; leads or supports technical programs, projects, or tasks whose technical complexity requires engineering oversight; ensures completion of programs, projects or tasks within estimated time frames and budget constraints; ensures that the quality of the program, project or task deliverable meets the established standards or metrics. Supports project engineers, as required.

Minimum Education*: Bachelor's of Science degree in computer science, mathematics, engineering, physical sciences, or a mathematics-intensive discipline. Experience shall not be substituted in lieu of Bachelor's degree.

Basic Engineer

Minimum/General Experience: This position requires a minimum of four (4) years general experience.

Functional Responsibilities: With general supervision, assists in the execution of engineering or scientific support tasks. Follows established procedures, and solves routine problems.

Minimum Education*: Bachelor's of Science degree in computer science, mathematics, engineering, physical sciences, or a mathematics-intensive discipline. Experience shall not be substituted in lieu of Bachelor's degree.

Junior Engineer

Minimum/General Experience: With general supervision, is capable of supporting the definition and execution of engineering activities within a project. This position does not require direct experience.

Functional Responsibilities: With supervision, assists in the execution of engineering or scientific support task. Follows established procedures, and solves routine problems.

Minimum Education*: Bachelor's of Science degree in computer science, mathematics, engineering, physical sciences, or a mathematics-intensive discipline. Experience shall not be substituted in lieu of Bachelor's degree.

Advanced Analyst

Minimum/General Experience: This position requires a minimum of fifteen years (15) general experience.

Functional Responsibilities: Provides technical analysis or support to programs/projects and performs a variety of tasks, either independently or under supervision, which is broad in nature. These efforts may include design and implementation, including personnel, hardware, software and support facilities and/or equipment. Additional areas may include oversight of project or task deliverables. Supports Engineers/Scientists as required. Responsible for formulation of opinions, decisions, and the ultimate performance of the task specified in the statement of work contained in the task order.

Minimum Education*: Bachelor's degree. Such degrees might be, but should not be limited to, the disciplines of computer science, information systems, physical sciences, engineering, a mathematics- intensive discipline, or business.

Intermediate Analyst

Minimum/General Experience: This position requires a minimum of eight years (8) general experience.

Functional Responsibilities: Provides technical analysis or support to programs/projects and performs a variety of tasks, either independently or under supervision, which is broad in nature. These efforts may include design and implementation, including personnel, hardware, software and support facilities and/or equipment. Additional areas may include oversight of project or task deliverables. Supports Engineers/Scientists as required. Responsible for formulation of opinions and decisions of tasks as specified in the statement of work contained in the task order.

Minimum Education*: Bachelor's degree. Such degrees might be, but should not be limited to, the disciplines of computer science, information systems, physical sciences, engineering, a mathematics- intensive discipline, or business.

Junior Analyst

Minimum/General Experience: With general supervision is capable of utilizing tools, techniques, and processes for analysis activities. This position does not require direct experience.

Functional Responsibilities: Follows established procedures, and solves routine problems.

Minimum Education*: Bachelor's degree. Such degrees might be, but should not be limited to, the disciplines of computer science, information systems, physical sciences, engineering, a mathematics- intensive discipline, or business.

Senior Software Engineer

Minimum/General Experience: This position requires twelve (12) years of software development experience. Possesses a knowledge of one or more platforms and operating systems, and of programming languages.

Functional Responsibilities: Performs work involved in one or more of the phases of developing software used in products or services provided to external customers. Software engineering expertise includes software requirements definition, top-level architecture design, detailed software component design, interface design, database design, software coding in a modern programming language, integration, test, documentation, and delivery. Supports the generation software documentation including software design and interface specifications, test plans and reports, version descriptions, and user's manuals.

Minimum Education*: Bachelor's degree in Computer Science, Information Systems, Engineering, Business, Mathematics, or other related scientific or technical discipline. Experience shall not be substituted in lieu of Bachelor's degree.

Software Engineer

Minimum/General Experience: This position requires six (6) years of software development experience. Possesses a knowledge of one or more platforms and operating systems, and of programming languages.

Functional Responsibilities: Performs work involved in one or more of the phases of developing software used in products or services provided to external customers. Software engineering expertise includes software requirements definition, top-level architecture design, detailed software component design, interface design, database design, software coding in a modern programming language, integration, test, documentation, and delivery. Supports the generation software documentation including software design and interface specifications, test plans and reports, version descriptions, and user's manuals.

Minimum Education*: Bachelor's degree in Computer Science, Information Systems, Engineering, Business, Mathematics, or other related scientific or technical discipline. Experience shall not be substituted in lieu of Bachelor's degree.

Configuration Management (CM) / Quality Assurance (QA) Specialist

Minimum/General Experience: This position requires a minimum of eight (8) years general experience. Demonstrated knowledge of CM and QA practices, procedures, and support software.

Functional Responsibilities: Performs work in one or more of the following duties, including:

requirements management, establishing project standards, documentation/deliverable status tracking and quality control, compliance audits in accordance with project standards, configuration identification, configuration control, configuration accounting, configuration verification, customer property management, and corrective action status tracking.

Minimum Education*: Bachelor's degree. Such degrees might be, but should not be limited to, the disciplines of computer science, information systems, physical sciences, engineering, a mathematics- intensive discipline, or business.

Program Analyst

Minimum/General Experience: This position requires a minimum of six (6) years general experience. Demonstrated knowledge of program activities such as general accounting, contracting, acquisition, program planning, and financial management.

Functional Responsibilities: Performs the development and application of technical and/or management practices to ensure successful program execution in accordance with the Integrated Master Schedule (IMS) and reporting of associated project management metrics. May include support with resource scheduling and control, pricing, cost analysis, cost reporting, variance analysis, corrective action option assessment, and other tasks related to project management.

Minimum Education*: Bachelor's degree.

Senior Technical Specialist

Minimum/General Experience: This position requires a minimum of ten (10) years general experience.

Functional Responsibilities: Collects and organizes scientific or technical data. Assist in the preparation of documentation such as manuals, training materials, installation guides, and other project reports and deliverables. May assist with the establishment, installation, and maintenance of computer systems and/or applications. May supervise lower level technical specialist or administrative staff.

Minimum Education*: High School Diploma or GED.

Technical Specialist**

Minimum/General Experience: This position requires a minimum of five (5) years general experience.

Functional Responsibilities: Collects and organizes scientific or technical data. Assist in the preparation of documentation such as manuals, training materials, installation guides, and other project reports and deliverables. May assist with the establishment, installation, and

maintenance of computer systems and/or applications. May include co-ops (students pursuing a bachelor's degree) of a technical, business, or scientific nature.

Minimum Education*: High School Diploma or GED.

Administrative III

Minimum/General Experience: This position requires a minimum of seven (7) years general experience.

Functional Responsibilities: Provides senior level administrative-type support to technical and management-level personnel. This includes, but is not limited to, documentation planning and support, project administration, general office support, executive secretarial support, human resource planning, event planning and administration, office relocation planning, records, data input, etc. May supervise lower level administrative staff.

Minimum Education*: High School Diploma or GED.

***Substitution/Equivalency**

GED or vocational degree	= high school diploma
Associates of Science (AS)/Associates of Arts (AA) Degree	= Two (2) years relevant experience
Bachelors of Science (BS)/Bachelors of Arts (BA)	= Six (6) years of relevant experience
Master of Science (MS)/Master of Arts (MA) Degree	= Ten (10) years of relevant experience
Doctor of Philosophy (PhD) Degree	= Thirteen (13) years of relevant experience

NOTE: Relevant Experience means the type of experience similar to the PSS labor category requirements for the specific labor category contemplated.

**SCA Applicable
