ABOUT G2 GLOBAL SOLUTIONS

G2 Global Solutions, LLC is an 8(a) Certified Service-Disabled Veteran-Owned, And Economically Disadvantaged Woman-Owned, Small Business located in Gainesville, Virginia. Founded in 2012, G2 has become a preferred multi-certified small business service provider offering comprehensive solutions and subject matter expert support to the Federal Government and the Intelligence Community (IC) nationwide.

Clients and partners love working with us because we are a highly reliable and collaborative organization with the following characteristics:

- **Multi-Certified** – G2 Global Solutions is a certified economically-disadvantaged- woman-owned, service-disabled-veteran-owned small business. This greatly simplifies the bidding process for government agencies and opens up new opportunities for the larger firms that contract with us.

- **Offers a Wide Range of Services** – So you can make G2 Global Solutions your “one stop shop” for all of your business, administrative personnel support, military family assistance, IT, cyber exploitation and counterintelligence service needs.

- **Reduces Your Costs** – Our low overhead as a small business gives us the ability to cost-effectively provide very high-quality services for you.

- **Understands Government Agencies** – G2 Global Solutions’ experience-based knowledge about government agencies’ unique needs, cultures, processes and procedures helps your projects run smoothly and achieve the desired results.

- **Brings the Right People** – Whether you want to get involved with the hiring process or leave it all to us, our extensive portfolio of already-vetted experts is a huge advantage for you. You get people whose qualifications go above and beyond your job specs – who will show up as scheduled, fit in with your culture and do an excellent job for you.

- **Supports its Employees** – G2 Global Solutions is known for treating its employees like family. Once these people are out in the field, G2 Global Solutions provides the support they need to ensure they can successfully complete the mission. It’s a team approach that works well for everyone involved.

- **Is Extremely Accessible** – Effective communication makes a world of difference. You can relax knowing that questions and issues will be addressed immediately, and you’ll be contacted weekly just to ensure that things are going well.

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), applies to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number identified in the SCLS matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).
LABOR CATEGORY DESCRIPTIONS

Analyst I
Minimum Education: Bachelor’s Degree in related field
Minimum Experience: 1 Year of Related Experience
Functional Responsibilities: Possess knowledge of applying analytic methodologies and principles to address client’s needs. Supports analyst functions including data collection, interviewing, data modeling, project testing, and creation of performance measurements to support project objectives. Conducts activities in support of project team’s objectives. Generally works under the supervision of more senior personnel.

Analyst II
Minimum Education: Bachelor’s Degree in related field
Minimum Experience: 3 Years of Related Experience
Functional Responsibilities: Possess knowledge of applying analytic methodologies and principles to address client’s needs. Supports analyst functions including data collection, interviewing, data modeling, project testing, and creation of performance measurements to support project objectives. Conducts activities in support of project team’s objectives. Can perform more complex tasks under minimal supervision.

Analyst III
Minimum Education: Bachelor’s Degree in related field
Minimum Experience: 5 Years of Related Experience
Functional Responsibilities: Possess knowledge of applying analytic methodologies and principles to address client’s needs. Supports analyst functions including data collection, interviewing, data modeling, project testing, and creation of performance measurements to support project objectives. Conducts activities in support of project team’s objectives. Can perform all tasks without supervision. Supervises junior personnel.

Management/Organizational Consultant I
Minimum Education: Bachelor’s Degree in related field
Minimum Experience: 1 Year of related experience
Functional Responsibilities: Responsible for defining and developing business processes, policies, roles and responsibilities, and performance metrics. Conducts analysis of business processes: current state analysis, gap analysis, benchmarking, best practices identification, organizational assessment, and other related tasks. Takes project from original concept through final implementation. May coordinate with business and technology teams, ascertaining system requirements, such as program functions, output requirements, input data acquisition, and system techniques and controls. Plans and implements process improvements, including: future state design, change management, and transition planning. Conduct client interviews. May deliver presentations and training courses including measurement, analysis, improvement, and control. May perform cost and benefit analysis. Interfaces with all areas of project including customer, computer services, and client services. Works on moderately complex tasks where analysis of client’s data requires an evaluation of various factors. Exercises independent judgment within broadly defined practices and policies in selecting methods, techniques and evaluation criteria for obtaining results. Generally works under the supervision of more senior consultants.
Management/Organizational Consultant II
Minimum Education: Bachelor’s Degree in related field
Minimum Experience: 3 Years of related experience
Functional Responsibilities: Responsible for defining and developing business processes, policies, roles and responsibilities, and performance metrics. Conducts analysis of business processes: current state analysis, gap analysis, benchmarking, best practices identification, organizational assessment, and other related tasks. Takes project from original concept through final implementation. May coordinate with business and technology teams, ascertaining system requirements, such as program functions, output requirements, input data acquisition, and system techniques and controls. Plans and implements process improvements, including: future state design, change management, and transition planning. Conduct client interviews. May deliver presentations and training courses including measurement, analysis, improvement, and control. May perform cost and benefit analysis. Interfaces with all areas of project including customer, computer services, and client services. Works on moderately complex tasks where analysis of client’s data requires an evaluation of various factors. Exercises independent judgment within broadly defined practices and policies in selecting methods, techniques and evaluation criteria for obtaining results. Can perform most tasks with minimal supervision.

Management/Organizational Consultant III
Minimum Education: Bachelor’s Degree in related field
Minimum Experience: 5 Years of related experience
Functional Responsibilities: Responsible for defining and developing business processes, policies, roles and responsibilities, and performance metrics. Conducts analysis of business processes: current state analysis, gap analysis, benchmarking, best practices identification, organizational assessment, and other related tasks. Senior Research Operations Policy Analyst  
Minimum Education: Bachelor’s degree in a Relevant Field  
Minimum Experience: 5 Years of related experience  
Functional Responsibilities: Gather and analyze information to assist in the planning, development, interpretation, and review of government policies. Examine the efficacy of existing policies and make recommendations to meet objectives and goals. Exerts in Microsoft office products and internet tools. Experts in writing clearly and concisely, including proper use of grammar and logically correct content. Understands knowledge management techniques and best practices. Uses strong analytic skills to incorporate survey data into findings. Successfully prepares reports, briefings, memoranda, white papers, meeting notes, and presentations.

Senior Technical Writer  
Minimum Education: Bachelor’s Degree in Related Field  
Minimum Experience: 9 Years of related experience  
Functional Responsibilities: Prepares various types of publications by integrating original writing with inputs from technical and non-technical professionals. Analyzes industry standards and interprets client requirements for documentation. Researches and translates complex technical information and rewrites it for clarity and readability. Proofreads and performs editorial reviews on all forms of technical documentation. Maintains version control over documents and supporting graphics. Designs and updates communications programs/plans in support of clients.

Instructor  
Minimum Education: Bachelor’s Degree  
Minimum Experience: 5 Years of related experience  
Functional Responsibilities: Develop, deliver, and document training by identifying, planning, and implementing operational and training programs. Identify and define course material, develop curriculum, and organize content. Create and update training material through analysis of educational, instructions, and real-world issues. Develop and use new approaches, methods, or techniques for instructing learners. Develops courseware lesson plans, schedules training, provides academic instruction and refresher training, and evaluates student and instructor performance. Responsible for training program safety and protection of corporate/government resources. Assists in evaluating course training and progress. Develops and administers basic and advanced courses of instruction.

SME Instructor  
Minimum Education: Bachelor’s Degree  
Minimum Experience: 15 Years of related experience  
Functional Responsibilities: Develop, deliver, and document training by identifying, planning, and implementing operational and training programs. Identify and define course material, develop curriculum, and organize content. Create and update training material through analysis of educational, instructions, and real-world issues. Develop and use new approaches, methods, or techniques for instructing learners. Develops courseware lesson plans, schedules training, provides academic instruction and refresher training, and evaluates student and instructor performance. Responsible for training program safety and protection of corporate/government resources. Assists in evaluating course training and progress. Develops and administers basic and advanced courses of instruction.
Health Education Specialist
Minimum Education: Bachelor’s Degree
Minimum Experience: 5 Years of related experience
Functional Responsibilities: Evaluate and provide recommendations to improve curriculum planning, individual lessons and teaching methods particularly as it relates to protecting public health and essential human services. Develop outreach programs and associated documents, aids, and other educational tools for sharing with customers and stakeholders. Exceptional written and verbal communication skills.

Entry Level Contracts Support Specialist
Minimum Education: Bachelor’s Degree
Minimum Experience: 0 Years of related experience
Functional Responsibilities: Develops, negotiates, awards and administers all contract types; Perform "cradle-to-grave" acquisition functions (i.e., from pre-award, to post-award, to the final contract termination/close-out). Reviews procurement requests to ensure compliance with procedures and regulations and sufficiency of technical specifications or purchase description and supporting information. Develops solicitation documents and other contractual documentation (i.e., D&F’s; justifications, solicitation amendments, supporting memoranda). Review bids or proposals for compliance to solicitation and determine contractor responsibility. Responsibility includes making competitive range determinations. Provides expertise in the area of the contract records and files, documentation of contract performance and compliance and contract closeout activities. Maintain systems, databases, fosters productive relationships with industry partners, contractor and subcontractors.

Senior Level Contracts Support Specialist
