SECTION IV - LABOR CATEGORIES

AllianceCorp recognizes that successful performance depends on having the right skills and experience. These skills and experience, in turn, are acquired through the proper mix of education and professional hand-on experience. Increasingly, we find that the skills needed to meet Task Order requirements in order to address today's Human Capital Strategy, Policy and Operation Planning, EEO Services and Pre-Employment Background Investigations issues, and tomorrow's challenges require individuals with varying levels of education, specialized knowledge, training and experience. The correct combination of these three elements is often unique and dependent on the particular requirements associated with the work being performed. Therefore, AllianceCorp’s GSA Schedule utilizes equivalencies between experience and education that allow us to take the full measure of an individual's capabilities. The GSA labor category price is based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price.
