## **Overview**

Circle 6 Consulting is renowned for developing strategy, policies, objectives, plans, and procedures to integrate Lean Six Sigma (LSS) into agency operations. We develop and implement deployment strategies, i.e., training objectives, master black belt, black belt, and green belt selection and training, executive steering committees, and methodologies for a diverse group of firms. We also train senior leaders in Lean Six Sigma concepts, methods, tools, roles and responsibilities, including the conduct of Project Sponsor Workshops and Executive Leadership sessions for our clients. We specialize in custom curriculum development and develop and deliver Lean Six Sigma training material and courses for public and private firms as well as government entities.

Our proven Lean Six Sigma roadmap delivers sustainable results. We integrate the LSS methodology with other continuous process improvement (CPI) activities and the strategic planning process to develop a mission-specific, robust solution.

## **Mission Experience**

We feel very fortunate to have worked with an impressive cross-section of government agencies including the U.S. Department of Defense, the U.S. Navy – NAVAIR, NAVSUP, the U.S. Army – DUSA-BT, USARCEN, TRADOC, USAAC, ARNG, the U.S. Veterans Administration and more.

## Approach

We believe a successful LSS or CPI effort must be connected to an overall plan that is designed to deliver impactful and sustainable results. Our 7-step approach ensures that the CPI mission is accomplished and the agency is truly changing the culture and promoting a continuous improvement mindset. We realize that organizations may have progressed through any number of steps prior to our involvement. To best serve our clients we offer assistance in three areas: Full LSS deployments, support for existing LSS deployments, and project support at the operational level. Our extensive LSS implementation experience allows us to seamlessly support the client’s mission at any or all levels of the deployment.

**Step 1 – Leadership** The objective of this first step is to ensure authentic leadership and active participation in the creation and support of a continuous improvement environment. Leadership is dedicated to sustaining values, fosters visibility, and has enthusiasm that promotes process excellence.

**Benefits:** (1) a clear understanding and alignment to a common vision and consistency in purpose; (2) enhanced team productivity through common understanding of the value of leadership and team effectiveness.

**Tasks**

- | Establish burning platform
- | Establish team roles and responsibilities
- | Review current strategic plans - metrics
- | Establish assessment elements
- | Understand Voice of the Customer (VOC) analysis

**Deliverables, including but not limited to:**

- | Lean Six Sigma Overview
- | Force Field Analysis
- | Assessment elements defined – Baseline

**Step 2 – Strategy** This step is performed with the objective of ensuring strategic alignment and active participation in the creation of a continuous improvement plan. Circle 6 works to build a strong foundation to support a more rigorous and disciplined mindset around continuous improvement efforts.

**Benefits:** (1) clarity and commitment of metrics and behaviors in a shared strategic plan; (2) a specific continuous improvement roadmap for both culture and dedicated leadership team.

**Tasks:**

- | Review, discuss and create vision matrix
- | Define, create change matrix – functional departments
- | Establish team LSS roles and responsibilities

**Deliverables, including but not limited to:**

- | Vision Matrix
- | Change Matrix
- | Complete LSS Roles & Responsibilities Matrix

**Step 3 – Effort** The objective of this step is to provide clarification and amplification on key fundamentals of communication, project alignment and prioritization, and creation of financial operational definitions. The results provide guidance for effective participation in the continuous improvement effort.

**Benefits:** (1) communication clarity and support of a common language; (2) critical alignment and agreement of project support; (3) consistent and effective alignment of financial savings.

**Tasks:**

- | Review, discuss and establish communication plan for Leadership.
- | Create project selection template – define Key Performance Indicators.
- | Develop detailed financial definition & tracking process.

**Deliverables, including but not limited to:**

- | Communication Plan
- | Project Selection Methodology
- | Financial structure defined

**Step 4 – Practice** This step is employed in order to deliver a persistence and working knowledge of continuous improvement and leadership skills that are exercised repeatedly in order to acquire or perfect a learning organization.

**Benefits:** (1) a shared continuous improvement vision; (2) project pipeline opportunities; (3) improved LSS knowledge and expectation of roles and responsibilities; (4) Clear directions on projects.

**Tasks:**

- † Identify and schedule awareness training.
- † Establish project identification sessions.
- † Conduct Leader / Sponsor workshops
- † Prioritize projects.
- † Write project charters.

**Deliverables, including but not limited to:**

- † Awareness Training
- † Project Pipe-line
- † Leaders / Sponsor Workshops

**Step 5 – Skills** This step is implemented to develop a personal mastery and level of proficiency both in terms of process efficiency and in a disciplined workforce that understands the rigor and mindset needed to meet and exceed customer requirements.

**Benefits:** (1) build confidence in LSS methodology; (2) financial savings; (3) foster genuine commitment; (4) build commitment and confidence; (5) teamwork.

**Tasks:**

- † Identify, plan and execute Kaizen events.
- † Conduct GB/BB Workshops
- † Create project & financial tracking worksheets.
- † Provide status on projects and knowledge of applying LSS methodology.

**Deliverables, including but not limited to:**

- † Build – Execute a Lean/Kaizen Event.
- † Green Belt/Black Belt Workshops.
- † Financial Tracking
- † Coaching / Mentoring templates
- † Project Tracking Tools

**Step 6 – Embedded** The objective of this step is to have strong leaders at every level of the organization and to ensure that continuous improvement is becoming part of the organization's daily norms, values and behaviors.

**Benefits:** (1) having a shared purpose and vision; (2) empowerment; (3) high performance teams; (4) sustainable results; (5) process ownership / accountability

**Tasks:**

- † Establish assessment team
- † Develop detailed assessment work plan
- † Conduct internal assessment.
- † Establish interview of assessment.

**Deliverables, including but not limited to:**

- † Assessment results (leadership, metrics, culture, learning)
- † Action Plans

**Step 7 – DNA** To ensure the momentum is sustained and strong. Continuous improvement is a mindset within the organization. Those in leadership positions at all levels are designers, stewards, and teachers.

**Benefits:** (1) a learning organization; (2) participative openness; (3) reflective openness; (4) “forgive and forget” transformation

**Tasks:**

- † VOC network
- † Benchmarking industries
- † Sharing best practices
- † Monitor and improve

**Deliverables, including but not limited to:**

- † Lessons Learned
- † Next Steps

## Labor Category Descriptions

### **Executive Consultant**

Position Duties/Responsibilities: The Executive Consultant is responsible for overall client relationship management and oversees all client activities. The Executive Consultant is responsible for overseeing the project plan and leading the client through all activities. The Executive Consultant designs and researches the specific project tasks as well as provides feedback and insight to the client. The Executive Consultant will be overseeing the leadership/management development program for clients as well as program change management activities. The Executive Consultant may lead the development of custom training materials, case studies, and/or business cases. Client presentations are required.

Minimum Education: Bachelor's Degree required. Many Executive Consultants hold advanced degrees, and an MBA is preferred.

Minimum Experience: At least 15 years of increasing responsibility for large, complex learning, development, and consulting projects or a combination of consulting experience and leadership positions within the commercial business sector, academia, or government. Has significant experience in project management, client relationship management, resource recruiting and retention, thought leadership, and practice management. Has demonstrated mastery of oral and written communication skills, problem-solving skills, and facilitation skills.

Required Certifications/Clearances: Although not required, most Executive Consultants are certified Lean Six Sigma Master Black Belts.

### **Senior Consultant/Master Black Belt**

Position Duties/ Responsibilities: The Senior Consultant/Master Black Belt will develop and maintain strong relationships. S/he will manage project details, have effective problem solving skills, coach internal and client personnel, and negotiate. The Senior Consultant/Master Black Belt will be responsible for leading, facilitating, and consulting a full array of Lean, Six Sigma, or Lean Six Sigma events and deployments. This includes, but is not limited to, formal training of Green Belts, Black Belts, Master Black Belts, Project Champions and/or Executives, facilitating Kaizen or Rapid Improvement Events; and advising, consulting, coaching and mentoring as it relates to Lean Six Sigma tools, methodologies, philosophies, and deployments. The Senior Consultant/Master Black Belt may develop curriculum and training modules related to Lean Six Sigma tools and methodologies.

The Senior Consultant/Master Black Belt will lead project teams and foster collaboration, manage multiple streams of work, coordinate scheduling, and manage resources to support the overall client engagement. The Senior Consultant/Master Black Belt may prepare and provide reports for the client and/or internal applications.

Minimum Education: Bachelor's Degree required. Many Senior Consultants/Master Black Belts hold advanced degrees.

Minimum Experience: At least 10 years of combined general industry and consulting experience. Proven experience consulting, facilitating, or teaching specifically with Lean Six Sigma tools and methodologies. In-depth knowledge of basic, advanced, and expert-level Lean Six Sigma tools. Experience supervising and organizing staff, project schedules and project deliverables on multiple streams of work.

Required Certifications/Clearances: Minimum certified Lean Six Sigma Master Black Belt

### **Consultant/Black Belt**

Position Duties/ Responsibilities: The Consultant/Black Belt will develop and maintain strong relationships. S/he will manage project details, have effective problem solving skills, coach internal and client personnel, and negotiate. The Consultant/Black Belt will be responsible for leading, facilitating, and consulting a full array of Lean, Six Sigma, or Lean Six Sigma events, projects, and deployments. This includes, but is not limited to, formal training of Green Belts, Black Belts, Project Champions and/or Executives, facilitating Kaizen or Rapid Improvement Events, and advising, consulting, coaching and mentoring as it relates to Lean Six Sigma tools, methodologies, philosophies, and deployments. The Consultant/Black Belt will lead project teams and foster collaboration, manage multiple streams of work, coordinate scheduling, and manage resources to support the overall client engagement. The Consultant/Black Belt may prepare and provide reports for the client and/or internal applications.

Minimum Education: Bachelor's Degree required. Many Consultants/Black Belts hold advanced degrees.

Minimum Experience: At least 7 years of combined general industry and consulting experience. Proven experience consulting, facilitating, or executing projects specifically with Lean Six Sigma tools and methodologies. In-depth knowledge of basic and advanced level Lean Six Sigma tools.

Required Certifications/ Clearances: Minimum certified Lean Six Sigma Black Belt.

### **Program Manager/Training Development Director**

Position Duties/ Responsibilities: The Program Manager/ Training Development Director (PM) provides multiple services to project completion including overseeing the provisions of the contract, ensuring compliance with the contract documents as well as providing course development and conducting instructor led training. Plans, develops, and organizes programs to train and develop personnel. This position analyzes the training needs to support the contract goals, and prepares special courses and related documentation. The PM normally conducts training and development classes and assists in developing criteria to measure the effectiveness of courses.

Minimum Experience: At least 5 years of combined general industry and consulting experience. Proven experience consulting, facilitating, or executing projects specifically with Lean Six Sigma tools and methodologies. In-depth knowledge of basic and advanced level Lean Six Sigma tools.

Required Certifications/ Clearances: None

## SIN 874-4: Training Services

Circle 6 Consulting, Inc. provides support of planning, creating, and/or executing test administration, learning management, customized subject matter specific training and/or educational courses that are delivered via an instructor-led (i.e. traditional classroom setting or conference/seminar) and/or web-based (i.e. Internet/Intranet, software packages and computer applications) system.

We offer course development in following subject areas: Lean Six Sigma: Executive Leadership Training, Project Sponsor Training, Lean Master, White/Yellow Belt, Green Belt, Black Belt, and Master Black Belt.

Our custom curriculum development packages are comprehensive. All datasets for exercises, templates, tools, instructor files, test banks, presentation slide decks, and student workbook files are included.

Development Methodology: We follow the structure of the adult learning model to develop the most effective, unique LSS programs of instruction on the market. Our material is developed by certified Master Black Belts and PhDs in relevant fields who all have more than 15 years of experience teaching the LSS methodology and real-world application. Our curriculum includes all of the following methods to maximize the student's ability to retain and apply the course subjects:
