SIN(s) PROPOSED	SERVICE PROPOSED (e.g. Job Title/Task)	DESCRIPTION	MINIMUM YEARS OF EXPERIENCE/ EDUCATION/ CERTIFICATION LEVEL	UNIT OF ISSUE (e.g. Hour, Task, Sq ft)	PRICE OFFERED TO GSA (including IFF)
874-1	Compliance & Safety Auditing	Currie Associates' professional staff offers you an independent evaluation of your hazardous materials/dangerous goods safety and security compliance program. We assess the risk, either corporate or individual, which could result from the improper handling, storage, shipping, offering for transport, or transporting of dangerous goods. The evaluation includes a confidential and privileged written report of any and all program strengths and/or deficiencies noted with specific instances detailed for consideration or correction. In any case of regulatory non-compliance, the applicable code, referenced by section is cited. The report also identifies deviations from standards of professional practice and recommends enhancements for management systems.	N/A	Per day	\$1663.00/day
874-1	Expert Witness Testimony	Through Currie Associates' litigation support and trial preparation consulting and testimony, we provide your attorneys with a qualified and experienced expert on hazardous materials/dangerous goods transportation issues. Our occupational practitioners will provide compelling testimony backed by the credibility acquired through years of hazmat career experience.	N/A	Per day	\$1663.00/day
874-1	Compliance Consulting	Our experienced staff provides hands-on guidance for the most effective and efficient management of compliance activities. Our services tap into years of knowledge and expertise from professional staff who have "been there and done that" in circumstances similar to yours. We know how to get to the heart of the issues to offer rapid resolution to your most troubling issues without interrupting your business routines or expending hours on tedious regulatory research	N/A	Per day	\$1663.00/day
874-1	Penalty Mitigation	Our experienced staff will work with you to mitigate the penalty, and teach you how to avoid persistent violator status. Savings to our clients over the years have averaged well over 30% -- in some cases as high as 75%. Let us show you how to implement programs to avoid penalty actions through due diligence, systematic record-keeping, and program verification.	N/A	Per day	\$1663.00/day
874-1	Competent Authority Approval Applications	When bringing a new product to market you face a variety of challenges, not the least of which is determining if the product is included in the current regulatory codes. We can assist you in making the proper determination regarding applicability and hazard classification, as well as the procedures for obtaining Competent Authority Approval. Our experience provides you with guidance on the who, what, when and how to successfully apply for exemptions and approvals based on verification of an equivalent level of safety.	N/A	Per day	\$1663.00/day

SIN(s) PROPOSED	Course Title	COURSE DESCRIPTION	Course Length	Minimum Participants	Support Materials – Price (\$) per person	PRICE OFFERED TO GSA (including IFF)
874-4	<i>49 CFR Safety & Security Hazardous Materials Transport Compliance – On-site or Web-based Training</i>	This course is intended for training hazmat/dangerous goods employees responsible for preparing, offering for transportation, or transporting hazardous materials, in the use of 49 CFR and includes all recent amendments and interpretations. The course is designed to satisfy the training requirements for hazmat employees and other individuals within the scope of the federal transportation regulations, who are engaged in employee functions affecting safety and security in the offering of dangerous goods for domestic ground transport.	1 Day	1	<i>Copies of handouts, DOT Chart 13, student work projects and evaluations. Certificates upon completion. Estimated at \$10/student. Copies of Title 49 CFR books are available for \$15 each.</i>	\$1763.00/day
874-4	<i>Blocking & Bracing / Cargo Securement</i>	This course is intended for those employees already Hazcomm Trained and Hazmat Certified who are responsible for supervising and or packing cargo transport units with packages containing dangerous goods and other cargos. The course is developed to aid Shippers, Freight Forwarders, and Consolidators to properly secure dangerous goods/hazardous materials in accordance with Title 49 Code of Federal Regulations (49 CFR) and the International Maritime Dangerous Goods Code (IMDG). This course will focus on the applicable laws and regulations, training requirements, blocking and bracing techniques and freight container structural serviceability as it relates to Title 49 and the IMDG. This course includes one half day classroom and one half day hands-on, as applicable.	1 Day	1	<i>Student workbooks which includes copies of applicable sections of the Supplement to the IMDG Code book and Title 49 CFR Parts 100-185, handouts, work projects, and evaluations. Certificates upon completion. Estimated at \$45/student.</i>	\$1763.00/day
874-4	<i>Dangerous Goods Transportation by Air (IATA/ICAO/Air Shipper) - On-site or Web-based Training</i>	This course is intended for training hazmat/dangerous goods employees responsible for preparing, offering for transportation, or transporting hazardous materials by air transportation. The program will focus on use of the International Civil Aviation Organization (ICAO) and International Air Transport Association (IATA) Regulations, including all recent amendments. The course is designed to satisfy the training requirements for hazmat employees and other individuals within the scope of the federal transportation regulations, who are engaged in employee functions affecting safety in the offering of dangerous goods for air transport.			<i>Copies of applicable sections of the IATA Code and Title 49 CFR, handouts, student work projects and evaluations. Certificates upon completion. Estimated at \$45/student. Students have the option to</i>	\$1763.00/day

			1 Day	1	<i>purchase the books for an additional fee.</i>	
874-4	<i>International Maritime Dangerous Goods (IMDG) Transportation Compliance - On-site or Web-based Training</i>	This course is intended for training hazmat/dangerous goods employees responsible for preparing, offering for transportation, or transporting hazardous materials, in the use of the IMDG Code Regulations and includes all recent amendments and interpretations. This course is designed to satisfy the training requirements for hazmat employees and other individuals within the scope of the federal transportation regulations, who are engaged in employee functions affecting safety and security in the offering of dangerous goods and transport by vessel.	1 Day	1	<i>Copies of applicable sections of the IMDG Code and Title 49 CFR, handouts, student work projects and evaluations. 874-4	<i>Multimodal – DOT 49 CFR Safety & Security Compliance, Dangerous Goods Transportation Compliance by Air (IATA/ICAO), and International Maritime Dangerous Goods (IMDG Code) Safety & Security</i>	This course is intended for training hazmat/dangerous goods employees responsible for preparing, offering for transportation, or transporting hazardous materials, by all modes of transportation, in the use of 49 CFR, IMDG Code and ICAO/IATA Regulations and includes all recent amendments and interpretations. This course is designed to satisfy the training requirements for hazmat employees and other individuals within the scope of the federal transportation regulations, who are engaged in employee functions affecting safety and security in the offering of dangerous goods for air transport, ocean transport and connecting ground transportation.	3 Days	1	<i>Title 49 CFR, copies of applicable sections of IATA Dangerous Goods Regulations, and the IMDG Code, handouts, student work projects and evaluations. Certificates upon completion. Estimated at \$65/student</i>	\$1763.00/day
874-4	<i>Transportation of Batteries – Web-based Training</i>	There are many types of battery technologies with more and stronger batteries being developed and utilized almost daily. Discussions at international regulatory meetings such as the International Civil Aviation Organization, International Air Transport Association, the UN Sub Committee on the Transport of Dangerous Goods as well as national regulatory agencies abound. This course provides students with definitions of the various types of battery technology in use today, the corresponding regulations and specifics on how to safely transport batteries and equipment containing batteries.	2-4 Hours	1	<i>N/A – Student materials are emailed to participants</i>	\$882.00

874-4	IMDG Code General Awareness Training Program – Online Training – www.dgcomplianceonline.com	Effective with Amendment 34-08 of the IMDG Code, and consistent with the training requirements of the US Department of Transportation and other Regulatory bodies, all shore-side personnel require dangerous goods/hazardous materials training. This training program focuses on the safe and compliant transportation of dangerous goods transported by ocean common carrier. High quality visual aids in the form of professional designed slides on CD-ROM keep your students attention while covering all of the significant compliance issues. Examples, work projects and test questions are proven to help document Hazmat employee qualifications by the IMDG and US DOT regulations.	179 minutes	1	Students are required to have the latest edition of the IMDG Code	\$35.00/user
874-4	IMDG Recognition Training Program for Non-DG Personnel – Online Training – www.dgcomplianceonline.com	Effective January 1, 2010 the IMDG Code, consistent with the training requirements of the US Department of Transportation and other international regulatory bodies, mandates that shore-side personnel involved in handling or the transportation of dangerous goods require training. To ensure a safe operating environment for your employees, Currie Associates has developed a hazardous materials/dangerous goods recognition course to ensure that employees are adequately trained and are aware of materials that need to be handled and processed with special attention. The IMDG Code Recognition Training Program for Non-DG Personnel features high quality visual aids with professional narration to keep your students attention while covering all of the significant issues that can lead to non-compliance. Examples, work projects, and test questions are provided. Certificates are presented at the successful conclusion of the course.	30 minutes	1	Students are required to have the latest edition of the IMDG Code	\$14.95/user

		issues. Examples, work projects and test questions are proven to help document Hazmat employee qualifications by the IMDG and US DOT regulations.		
874-9	49 CFR Training Program	This training program comes complete with over 250 computer color slides along with an instructor's manual to guide you through each slide. Experienced instructors using this systematic approach to employee training are quick to praise its proven simplified step-by-step approach. Currently, the 49 CFR Hazmat Training Program is being used to train government enforcement authorities and some of the world's largest chemical manufacturers and shippers. Designed to provide user flexibility, this program is divided into 9 modules which may be used individually for function specific training, or presented as a complete 49 CFR training course. Examples and work projects at the completion of each step and recommended test questions are included to verify employee qualifications as required by the US DOT. Modules include "how to information" on – (1) Use of the Hazardous Materials Table, (2) Preparation of Shipping Papers, (3) Proper Package Marking, (4) When & How to Label, (5) Placarding Bulk Containers & Vehicles, (6) Emergency Response & Reporting, (7) Training, (8) Hazmat Transportation Security, (9) Packaging.	1-5 days - Domestic 3-14 days – International	\$352.50
874-9	49 CFR General Awareness and Familiarization Training Program	The 49 CFR General Awareness and Familiarization Training Program focuses on the safe and compliant transportation of hazardous materials, and is designed for you to be able to easily incorporate your company procedures. High quality visual aids in the form of 150 professionally designed slides keep trainees' attention while covering all of the significant compliance issues. Examples, work projects, and test questions are provided to help you document Hazmat employee qualification as required by the US DOT. The 49 CFR program is divided into seven modules(1)Recognizing Hazardous Materials (2) Hazardous Materials Documents (3) Hazard Communication – marking, labels, placards (4) Containerization (5) Handling/Accident Prevention (6) Emergency Response (7) Hazmat Transportation Security. The step-by-step Instructor's Guide is easy to use and enables you to highlight each individual training topic. The Instructor's Guide also efficiently incorporates the use of the suggested work projects and testing materials to correspond with your operation. This 49 CFR program is now used by some of the world's largest chemical manufacturers and carriers. This program offers shippers, carriers, forwarders and other Hazmat employers an up-to-the-minute technically accurate training program.	1-5 days - Domestic 3-14 days – International	\$166.25
874-9	Air Shipper Training Program	Utilize this professional, training program developed by hazardous materials experts at Currie Associates, Inc. The program contains over 140 computer color slides and a complete instructor's manual to guide the user through each slide. Experienced instructors using this systematic approach to employee training are quick to praise its proven simplified step-by-step approach. Designed to provide user flexibility, this program is divided into ten modules which may be used individually for function specific training, or presented as a complete air training course. Slides may be added or deleted to customize the program. Examples, work projects and recommended test questions are included at the end of the book to verify employee qualifications. Modules include - (1) Applicability of ICAO Technical Instructions, (2) Classification, (3) UN Numbers and Proper Shipping Name, (4) Packaging Type, (5) Consignment Procedures, (6) Construction, Testing and Marking of Packagings, (7) Transport Operations – Airline, Responsibilities, (8) Exceptions and Special Situations, (9) Appendix – Student Work Projects.	1-5 days - Domestic 3-14 days – International	\$252.00

874-9	<i>Complete Comply IMDG Code</i>	The original "How To" Guide for IMDG Code Compliance! Eight easy steps to compliance. An easy to understand compliance guide to the new IMDG code regulations. A full 390 pages of step-by-step guidance to compliance with checklists to ensure reader comprehension. Designed in a modular format, each of the eight steps can also be used independently for function specific information or in their entirety for overall knowledge. Features hundreds of examples and sample shipping papers to reinforce the text. Hands-on work projects and suggested exam questions and answers provide tools for testing the skills and qualifications of Hazmat employees. Construction of the IMDG Code / Classification of Dangerous Goods / Use of the Dangerous Goods List and Ltd. Qty Exceptions / Packaging and Tank Provisions / Hazard Communication / Documentation / Provisions Concerning Transport Operations / IMDG Use Within 49 CFR	<i>1-5 days - Domestic 3-14 days – International</i>	\$80.50
874-9	<i>Complete Comply 49 CFR</i>	This straightforward, no nonsense manual is your step by step guide to understanding and complying with the US DOT Hazardous Materials Transportation Regulations, 49 CFR. Thousands of Hazmat shippers and carriers around the world use the Complete Comply manual as it includes the latest requirements for classifying, describing, packaging, marking, labeling, placarding, handling, emergency response and Hazmat transportation security. Examples and illustrations, as well as checklists within the manual help to guide you to 49 CFR compliance. The addition of hands-on work projects and exam questions round out the manual to make this an ideal training tool to meet the DOT systematic training requirements for Hazmat employees.	<i>1-5 days - Domestic 3-14 days – International</i>	\$50.25
