1c. Labor Services Description:

1. **Senior Systems Design Engineer** $135.00 PER HOUR

   **General Experience**
   Minimum of ten (10) years audiovisual systems design experience.

   **Functional Job Responsibilities**
   Supervises engineering and CAD designers in audiovisual system design. Provides recommendations and specifications for all aspects of an audiovisual design and equipment components utilizing computer technology, software and experience to meet and exceed the expectations of the client. Possesses thorough knowledge of industry standards and best practices as well as all related engineering and CAD processes.

   **Minimum Education**
   Bachelor's Degree or equivalent work experience and a CTS-D InfoComm International certification.

2. **Systems Integration Design Engineer** $112.50 PER HOUR

   **General Experience**
   Minimum of five (5) years audiovisual systems design experience.

   **Functional Job Responsibilities**
   Provides recommendations and specifications of all aspects of an audiovisual system and the equipment components under general supervision. Possesses knowledge of all related engineering, computer and software processes to efficiently study and analyze all systems and determine the best solution for the client.

   **Minimum education**
   Engineering Degree or equivalent related work experience and at least a CTS certification from InfoComm International.

3. **Control System Programmer** $112.50 PER HOUR

   **General Experience**
   Minimum five (5) years experience in audiovisual programming, including C++ programming.

   **Functional Job Responsibilities**
   Creates graphic user interface design for touch panels, writes all source code for audiovisual components of system, prepare and test system, assist in developing client user guides and documentation including customer training.

   **Minimum Education**
   Audiovisual Industry Certified Programmer.

4. **Systems Project Manager** $103.50 PER HOUR

   **General Experience**
   Minimum of five (5) years in Project Management.
**Functional Job Responsibilities**
Responsible for managing and coordinating all project deliverables, including schedules and budget costs with client, staff members and all other trades involved in project. Possesses thorough knowledge of all processes and practices, including engineering, involved in all audiovisual systems. Responsible for all reports, labor budgets and staff requirements for each project. Single source client contact.

**Minimum Education**
High School Diploma or equivalent, with an Industry Project Management Certification.

---

### 5. Systems Installation Engineer

| $85.50/HOUR STANDARD | $112.50/HOUR NON-STANDARD |

**General Experience**
Minimum one (1) year experience installing audiovisual systems.

**Functional Job Responsibilities**
Responsibilities include pulling and terminating all necessary cables, installing all equipment as required by specifications and reading and following system CAD drawings. Assist in testing of installed system, ability to perform basic services and repairs and the mark up of final as-built system drawings.

**Minimum Education**
High School Diploma or equivalent, including equivalent related experience, manufacturer training and/or CTS or CTS-I InfoComm International Certification.

### 6. Systems Rack Assembly Engineer

| $85.50 PER HOUR |

**General Experience**
Minimum one (1) year experience installing audiovisual systems.

**Functional Job Responsibilities**
Responsibilities include in house equipment rack assembly, cable/wire management and labeling, and pre-testing of the audiovisual system prior to deliver to project site.

**Minimum Education**
High School Diploma or equivalent, including equivalent related experience, manufacturer training and/or CTS or CTS-I InfoComm International Certification.

### 7. Field Service Engineer

| $85.50/HOUR – 2HR MIN STANDARD | $121.50/HOUR – 4HR MIN NON-STANDARD |

**General Experience**
Minimum one (1) year experience in fabrication and/or repair of audiovisual and other related equipment.

**Functional Job Responsibilities**
Responsible for diagnosing, repairing and servicing audiovisual equipment/components, as well as performing standard maintenance checks on systems utilizing standard test equipment. Will also install any equipment necessary as well documenting any and all findings, recommendations and actions.

**Minimum Education**
High School Diploma or equivalent, including equivalent related experience, manufacturer training and/or CTS InfoComm International Certification.

### 8. Administrative Support

| $45.00 PER HOUR |

**General Experience**
One (1) or more years experience with documentation and clerical support.

**Functional Job Responsibilities**
Responsibilities include creating and preparing documentation for the client, filing, maintaining physical and soft copy library databases, preparing documentation for transmittal as well as tracking said documentation for all projects, services, maintenance and repairs. Assembles standard manuals for systems including warranty information, operations manuals, component specification sheets and systems user guides.

**Minimum Education**
High School Diploma or equivalent.

### 9. Operational Trainer

**General Experience**
Minimum (1) or more years of experience related to audiovisual systems functionality.

**Functional Job Responsibilities**
Responsible for all aspects of providing clients with training for their audiovisual systems, including specifying learning objectives, developing training materials, the training course and providing technical and operational instruction for the audiovisual system. May also assemble or assist in assembling any necessary manuals and user guides for the training sessions.

**Minimum Education**
High School Diploma or equivalent and/or specialized training or related work experience.
