<td>Created specifically for commercial gym usage, each and every component of the Assault Rower is built for longevity. Its powerful, dual stage chain and belt drive, commercial seat, steel foot plates and aluminum beam set the Rower apart from the rest of the competition. Perfect for HIIT, cardio, and endurance training, the Assault Rower provides a total body workout that is second-to-none. The multi-grip handle system, sweat-proof seat, and adjustable footplates allow for a comfortable ride for rowers of all fitness levels. Optimal for any kind of training space, the Assault Rower’s transport wheel and no electric plug-in makes moving it around a crowded floor easy and painless. Our rower runs on human power and carries virtually no carbon footprint or energy consumption. The 4-way leveling/stabilizer system keeps the Assault Rower grounded and ready to take on the abuse of day-after-day use. Training on the Assault Rower is completely scalable: From the average gym-goer to an elite athlete, it will challenge and tone any physique.</td>

<td>The great thing about the Assault Bike is that it can work for a beginner or pro — no matter their sport, body type, or ambition. While fan-bikes have existed for nearly half a century, modern advances in their design and function have made them increasingly in-demand among military personnel, pro and college sports teams, competitive cyclists and sprinters, and high-performance athletes from the cross-training ranks. The key: you set your own pace. The resistance adapts to your own output, and the bike’s multiple, custom seat adjustments make for a more comfortable, customized ride.</td>

<td>We bring the pain - but only the good kind. The Assault Bike Pro offers high intensity, low impact, cardio training that’s completely scalable to athletes of all skill levels. The Assault Bike Pro’s heavy-duty steel frame provides the support and balance needed to handle any kind of workout. With reinforced steel pedals, sealed-cartridge bearings in every pivot, and a sealed bottom bracket that protects against sweat, dust, dirt and debris, the Assault Bike Pro is engineered for the smoothest ride possible.</td>
